OFFICE OF THE DAILY APPEAL, THURSDAY, October 3, 1872.

FINANCIAL.

There was not a thing moving on Madison street to-day that is worthy of special mention any further than to say that to-day partook fully of the influences of the time. Everywhere quiet, stringency of money affecting everything and congealing everything to its own harsh outlines, as frost congeals flowing waters and reduces its free curves to hard outlines. Exchange was less liberal in supply than for the last day or two. The rate remains yet unchanged on the East, discount buying, 1 premium selling. Cotton bills were coming in, and banks that had exchange passed it to those who wanted at par. The tightness in money continues unabated. The proof of it is to be seen in the wholesale stores, where purchases are as few and slender as if it was the end instead of the beginning of the month. Sellers do not care to add to the amounts standing over in their books, and buyers do not wish to increase obligations they cannot meet. Brokers took gold at 113, but only a trifling amount was taken. Some protests are recording, but not in great proportion; checking is active; deposits are small. Nothing of interest doing in local securities. Some Southern Life Insurance stock—$2,500—was offering, but money was wanted for other purposes, and there was no bid; $2,000 city currency bonds were seeking a buyer, but had not been taken when we left the market.

The Chicago *Inter-Ocean* reports: "The week closed on the aggregate wealth of the local money market, though the market was more comfortable for borrowers than during the early portion of the week. The outflow of currency is not so heavy as also taken up considerably, and the movement is gradually working in favor of the city. Bankers are still drawing heavily on their Eastern deposits, in order to meet the demands made upon them by their customers, excepting, however, the two-cent stamp on "bank checks, drafts and orders." By a strained rolling of the acting commissioner, the said clause is made to read, "all components of all checks, drafts or orders, inland or foreign bills drawn singly or in sets of two, payable at sight or on demand, when drawn upon any banker or trust company for any amount, and when drawn upon any other person or persons, companies or corporations for any amount exceeding ten dollars." Time drafts are free. The wording of the law was evidently intended to exempt from taxation all sight or demand drafts except upon public and private banks, but it is so construed that the word 'bank' is limited in its qualifying effect to the first word which follows, leaving 'drafts and orders' to stand in a universal sense. No one who understands the rules of composition could have framed a law in this language to effectuate such an intention as the construction of the acting Commissioner places upon it."

COTTON.

The telegraph was the bearer of good tidings to-day; New York again advanced, quoting 18c, firm, with an active demand. Liverpool was also higher, quoting flat 9d, with a steady, quiet market; New Orleans was also on the upward move, quoting 18c, with sales of 2,400 bales, and receipts of 3,618. In our market there was a good inquiry for middling and strict middling; low middling could also have taken freely, but for superior cotton there was a demand beyond what the stock on the tables could supply. Holders showed firmness, and rates stiffened insensibly, some parties claiming that they sold middling cotton as high as 18½c, but this was denied by others; that was the way the tendency pointed, however. A few bales of inferior, old stock, changed hands at from 12 to 15c. The total sales were 650 bales, at the following quotations and prices: Low middling, 17@17½c; middling, 18c; strict middling, 18½@18¾c. The sales embrace the following quotations: Middling, 18c; good ordinary, 17@17½c; strict middling, 18½@18¾c; low middling, 18@18½c; low middling, 17@17½c.

The prices in the different grades, it will be noted, run very close to each other. The fine dry weather that has aided the picking has left the staple dirty, and the bulk of the grades, and lots are sometimes made up by the aid of adjoining grades. The receipts are again light, 528 bales against 1,196 bales same day last week, and the market closed with an upward tendency; we have plenty of buyers in the city, and if cotton came in rapidly we have demand for every bale of it.

The following are the receipts, exports and stocks in Memphis:

GENERAL MARKET.

The first of the month has turned, yet subject to the scarcity of currency that buyings are limited strictly to current wants, and business is therefore comparatively quiet. *Corn* was stagnant, we heard of no sales worth mention. *Oats* are, like April weather, "mighty unsartin." There are plenty of them, mostly and most musty on the market, and each individual lot sells on its sampling at from 38 to 41c. *Hay* is steady as before, and most that is in the market sells "for what it will fetch." We heard of sales to-day of 50 and 50 bales fair mixed at $20. *Bran* was inactive, nominally $16@17 50. *Cornmeal* was in the usual "how happy could I be with either" condition, between $2 60 and $2 65, with a preponderance this morning rather in favor of the $2 60. *Butter* is reported higher, asking 25c@30c for choice. *Eggs* were very scarce, owing to the non-arrival of the morning boat, which disturbed the produce market all through, and sales were making at 27@28c, and even higher was talked of. *Chickens* were dull according to most holders; others considered them better, but it took a good coop to bring 24. *Ducks* were quoted at $2@2 50. *Geese* $3 50@5. *Apples* are still weak at $2@3 75. *Potatoes* weak and unchanged, $1 25 loose, $2 25 in shipping order. *Onions* are in very full supply, and quote $2 on landing, and $2 50 in store. *Cabbage* was scarce, but plenty was expected on the boat that is due; nominal price $6 50@7. *Oranges* are lower; Adonis, $8; sweet, $8. *Provisions* remain without change. *Lard* remains as last quoted.

Quotations for feed are for round lots on the landing unless otherwise expressed.

SPECIAL NOTICES.

Lost Health Regained.—Self-neglect lays the foundation of much bodily suffering. As a rule men are more solicitous to repair and preserve their houses, stock in trade and other perishable property than to repair and preserve themselves. They can see when a wall requires a prop, or a weak structure a girder, but appear to be unconscious of, or indifferent to, the cracks and flaws and evidences of decay in their own frail and sensitive organizations. The consequence of this want of common prudence is that thousands fall by the wayside in the prime of life every year who might have lived to enjoy a hale and hearty old age, if they had resorted to the proper means of recruiting their failing vigor at the proper time. Seeing what that famous vitalizing and invigorating tonic, Hostetter's Stomach Bitters, has done for countless multitudes of the enervated and broken down, and with the long, unbroken record of its cures before him, it seems amazing that any sufferer from premature decay, nervous weakness, dyspepsia, biliousness, chronic constipation, or disease of a remittent or intermittent character, should delay even for an hour to seek the aid which its tonic, regulating and invigorating properties have never failed to afford. It is no exaggeration to say that Hostetter's Stomach Bitters is the most faithful ally of nature, in her struggles with weakness and disease, that medical botany and honest chemistry have yet given to the world.

BEYOND A DOUBT.

More diseases are the result of the derangement of the Liver than from any other cause. When that organ is diseased, every part of the system sympathizes with it, and general prostration and decline is the result. The best, safest, and most speedy remedy for Liver Complaint, and all the diseases that follow, is TUTT'S VEGETABLE LIVER PILLS. They are peculiarly adapted to the climate of the South. They are sold by druggists everywhere.

AUGUSTA, GA., November 1, 1869.

Dr. Wm. H. Tutt:

Going for several years past I have been subject to bilious attacks, and always was a firm believer that there was no remedy for the complaint but mercury, until about a year and a half ago, an experiment, I tried your Vegetable Liver Pills, and was agreeably surprised to find that they accomplished all the results, and none needed, or time wasted in calomel, without any of that bad effects, it was always sure to leave in patient debilitated, but can say this for your pills: that since I commenced using them I have not taken a particle of mercury in any shape, and feel wonderfully the better for it. Many of my friends who use in the habit of taking mercury for bilious disease can properly appreciate, I cordially recommend them as the best Liver Medicine ever introduced. Yours, etc.,

PLANTATION BITTERS

S. T.—1860—X.

This wonderful vegetable restorative is the sheet-anchor of the feeble and debilitated. As a tonic and cordial for the aged and languid, it has no equal among stomachics. As a remedy for the nervous weakness to which women are especially subject, it is superseding every other stimulant. In all climates, tropical, temperate or frigid, it acts as a specific in every species of disorder which undermines the bodily strength, and breaks down the animal spirits.

CHEEK COTTON PRESS!

AT MY OLD STAND, 122 LINDEN ST., Memphis, Tenn., I will continue as heretofore to manufacture the celebrated plantation Cotton Press, which for the past three years has given such universal satisfaction, and is now so extensively known and used that I deem it unnecessary to say more than pledge myself that it shall be fully equal to those sold last year; and having greatly increased facilities for manufacturing, we will make it more complete than we did last year. We are prepared to furnish the necessary attachments to run this press by steam, which makes it as complete a steam-power press as it is a hand-power press. All orders for the Cheek Cotton Press must be addressed to Ford, Porter & Co., 43 Union street, Memphis, Tenn.
