## FINANCE AND TRADE.

FINANCIAL AFFAIRS flow on their even way with little change. As usual at the opening of the season, the outlay for cotton is great, and a large volume of exchange has to be met. As the money arising from the rapid sales making fills up the country and relieves the grower and the laborer, a fair share will find its way to the city, and our plentiful stocks will be converted into money. The loss of the feed trade, owing to planters growing for themselves, is discouraging to those engaged in the trade, but the money which that trade has ordinarily sent to the west will remain here and be spent where Memphis must get its full share of the benefit. Exchange is at ¼ discount on the north and east, selling at par; New Orleans ¼ discount, also selling at par. Gold quoted 116¼ in New York; brokers here were off ring 116@116¼. For tax-paying scrips rates were very strong, with an advancing tendency; State warrants especially were better. The Chicago *Times* October 15th, said: "The movement in all departments of the finance market was unusually limited, and the business enjoyed by a majority of the banks was far from being entirely satisfactory. Still, as it was generally believed that the present dullness is simply a temporary affair, the feeling exhibited was full of hope and encouragement. Having a smaller amount of idle funds on hand than for months past bankers seemed to speak in the same confident manner that has characterized their actions of late, and on all sides the outlook was regarded as promising."

The St. Louis *Globe* of Thursday says of provisions: "The offerings in this department during the week just ended have been fairly well sustained in price but transactions have been of a purely necessitous description, answering only the small demand following the regular jobbing and order trade, being devoid of the least glimmer of speculation. There is not the slightest doubt on to dable in futures, throughout the whole line of hog product, evinced by anyone." The Chicago *Tribune* has the following: "Provisions were quiet and generally easier, though without any great change in price. The receipts of hogs were larger, but the quality was poor, which sustained quotations on the better grades."

THE COTTON MARKET opened quiet yesterday and the tone of the New York dispatches continued to make the market easier up to the close. The easiness of prices—resulting in the reduction of middling to 13⅞@13¾—encouraged buyers, spinners especially taking on a more liberal scale. The following were the closing Memphis official quotations:

| Strict ordinary | 10¼@11 |
| Good ordinary | 12⅛@— |
| Low middling | 13¼@— |
| Middling | 13⅞@14 |

The market closed steady; sales were 2200 bales, of which exporters took 1200, spinners 900, speculators 100 bales.

The closing telegrams were as follows: New York quiet; middling, 14¼c; sales, 566 bales. New Orleans irregular and easier at 13¾c; sales, 4000 bales; receipts, 3537 bales. Liverpool steady at 7¾d; Orleans 7¾d; sales, 12,000 bales; received, 3000, of which 600 was American.

The Era No. 9, from St. Francis river, had 129 bales cotton, 15 bags seed-cotton, 974 sacks cotton-seed and 10 cords wood. She departed last evening with a good trip for St. Francis river.

The John B. Maude is advertised to leave here on Tuesday, the nineteenth instant, for New Orleans. Captain Washington yesterday received three hundred and thirty-five bales of cotton for her.

St. Louis *Globe-Democrat* fifteenth, instant: The Osceola left last night for Memphis, where she will enter in the trade between that city and Wittsburg, on the St. Francis river. She has been thoroughly repaired and is almost a new boat.

Cincinnati *Times*, fifteenth instant, says: "George Martin, mate of the Arch P. Green, died of malarial fever last Saturday, at Newport, Arkansas, on White river. His remains will be brought here for interment. He was unmarried."

The Ruth, Captain Ed Postal, from White river, came in port at dark last evening, having been detained by bad weather. She had for this place 465 bales cotton and reshipped at the mouth of White river 125 bales for New Orleans. She lays over till to-morrow afternoon at five o'clock and leaves for all points on White river.

Sunday's St. Louis *Republican* says: "In the M'Millin case for infringement of patent capstan, decided by Judge Treat the other day, the court has permitted the defendants to continue using their capstan upon giving bond for the royalty and taking an appeal to the supreme court of the United States. The appeal has already been taken, and the bond given, so no royalty can be collected in this circuit until the supreme court says M'Millin is entitled to his patent."

**Pilots' Duty.**

The proposed new steamboat law says in regard to pilots: "On all rivers and streams where there is a current flowing steadily in one direction, the descending boat, when meeting an ascending one shall have the right of way and shall give the first signal—one sound of the steam whistle if she wishes to go to the right, and two if to the left; and the ascending boat shall answer by repeating the signal as given by the descending boat, and shall not attempt to alter or change it, but shall steer accordingly. If from unavoidable cause she is unable to comply with the signal at once, she shall, in addition to repeating the signal, give four short sounds and back down until she can obey. On hearing this signal the descending pilot shall repeat it, so as to let the ascending pilot know that he has been understood, and he shall stop his engines and prepare to back, if necessary; but in no case shall either be allowed to change his course from that indicated by the signal until the signal is made by the descending boat and answered by the ascending one. The first signal shall in all cases be made by the descending boat. Violation of this rule shall subject the violator to a forfeiture of his license."
