FINANCIAL.

A fair amount of business was doing at the banks yesterday, and exchange was coming in more liberally. Money is in demand at short dates, but little is doing for sixty or ninety days; the rate is 8 per cent. Exchange quoted at ¼ discount on New York and other prominent eastern points, with three days' grace, is discounted selling at par. On New Orleans, ¼ discount selling at par, sixty-day sight drafts, ¼@¾ discount selling, and 50@75 selling. Mississippi first district levee sections are selling at 75@78. The last sale of Memphis gas stock was at 72½, now offering at 75. The "object of interest" on Madison street was the active demand for Elmwood and Charleston railroad stock. The principals in the matter, so far as we could learn with them, were very reticent as to what may be expected, and information had to be taken at second hand, except some negative confirmations. The facts appeared to be that an agent had authority to buy up such Memphis and Charleston railroad stock as could be had, and that 20 would be paid for it. The agent of course took at what he could, and it is understood that a large amount has been obtained at 17½ and 18, running 10,000 or 15,000 to singing to the Brinkley estate. There was a sale of 10,000 Union and Planters bank stock at 105; 1000 Peoples insurance was offering, 75 asked. County orders were and strong at quotations. The New York *Bulletin*, of Thursday, reports: "New York exchange was a good 50-day at bulldom at the places named: Savannah, buying, ½ off, selling, ¼ premium. Charleston, ½ off buying, ¼ selling. New Orleans—commercial, par; bank, par. St. Louis—11-16 premium. Chicago, 75 to 80 premium. Boston, 20 at cents. Our New York letter-man yesterday reported: "Bank statement has a loss increase, $3,000,000; specie decrease, $1,726,400; legal-tenders increase, $1,225,900; deposits increase, $3,751,800; circulation increase, $27,400; reserve increase, $2,500,000; loans increase, $4,604,175 in excess of the legal requirement."

COTTON.

The markets elsewhere were reported, yesterday, quiet and without change in quotations, excepting futures, which, in Liverpool, were 1-32@1-16d lower, and lost to the pounds lost in New York in our market the demand was light and principally from exporters. Buyers and sellers were somewhat at agree, owing to the high views of the former to which buyers would not accede. Sales, therefore, were slight, but strictly adjusted values, which continued unchanged. The New York *Bulletin*, of Thursday, reports: "The market for cotton futures during the week may have exercised on the present day market were greatly weakened—the last time being the lowest on the coast, and a liberal shadow on values taking place along the entire line. The accounts from Manchester were not of a kind to encourage speculation, said to have been based, continued much the same, but Liverpool was quite weak, and accepts lower offers but, and no demand to speak of to be found. To sustain the market, the Liverpool people made the most powerful manipulation, much beyond the strength and desire of the "bulls" at the moment, and cost enormous of to stop. This seemed to act in a degree long out of mind, and as the day progressed the tone became more and more, and no liberal offering is put on fresh short deals, but certain large blocks have to have come forward, and disgusted with the failure to work any strength into the market, and finally determined to unload and withdraw for new developments."

Ayer's *Hair Vigor*,

FOR RESTORING GRAY HAIR TO ITS NATURAL VITALITY AND COLOR.

It is a most agreeable dressing, which is at once harmless and effectual, for preserving the hair. It restores, with the gloss and freshness of youth, faded or gray, light, and red hair, to a rich brown, or deep black, as may be desired. By its use thin hair is thickened, and baldness often though not always cured. It checks falling of the hair immediately, and causes a new growth in all cases where the glands are not decayed; while to brushy, weak, or otherwise diseased hair, it imparts vitality and strength, and renders it pliable.

The VIGOR cleanses the scalp, cures and prevents the formation of dandruff; and, by its cooling, stimulating, and soothing properties, it heals most if not all of the humors and diseases peculiar to the scalp, keeping it cool, clean, and soft, under which conditions diseases of the scalp and hair are impossible.

As a Dressing for Ladies' Hair,

The VIGOR is incomparable. It is colorless, contains neither oil nor dye, and will not soil white cambric. It imparts an agreeable and lasting perfume, and as an article for the toilet it is economical and unsurpassed in its excellence.
