COTTON.

Yesterday's telegraphic bulletins from New York indicated a quiet market in spots, with light transactions reported at former quotations.

New York futures opened with a downward tendency, which continued during the day, excepting an effort made just before noon to rally from the depression, the six months beginning with December being advanced 3 to 5 points, but lost on the great call. The result of the day's work showed losses scored for all months ranging from 3 to 9 points—October and November 9 each, January, 7; February and March, 6 each; the remaining months, 3 each.

The New Orleans spot market began business under the influence of a firm tone, but passed into a quiet and easy condition at the close, with prices unchanged.

New Orleans futures opened 5 to 7 points off, with the tone quoted barely steady. Afterward values gave way in points, on all months excepting December, which lost but 1 point at the opening, and recovered but 3 points when other deals were made in the month. Later gains were all lost on the next call, and prices continued to decline slowly to the close, when the tone had become barely steady on the price list reduced in amounts ranging from 3 to 9 points—the lowest and highest losses being respectively on December and January.

Liverpool spots were quiet and steady, the market closing with Friday's price list unchanged.

Liverpool futures were quoted steady at the opening, with prices about 1-16d below yesterday's closing figures. No additional news was received from Liverpool at the close of business yesterday.

The local market ruled steady (simulated by the good feeling prevailing at the close of business Friday evening), but the reaction caused by the reported declines in controlling markets resulting in a relaxation, and the remainder of the future cotton market was generally weak, and slightly lower, and the transactions of the day were far below those of any day for a month or more past. The tone was quiet as the close, with the price list unchanged.

GENERAL TRADE.

Business generally was dull yesterday, though some departments enjoyed a spurt in some particular lines, grocers and produce dealers being the lucky ones. In feedstuffs there was very little movement, the few transactions being fully up to the quotations of the previous day. Cornmeal was in fair demand at reduced prices from the mills and from jobbers. Apples were steady and prices advancing. Potatoes are more plentiful, and continue in moderate demand. Eggs are in better demand, with good supply in stock, and prices ruling as previously quoted. Fresh meats go off slow, beef unchanged, pork a cent or two lower. Some lines of hog products are reduced, hand par selling, ¼ lower, others firm. No material change to note in other articles.

Quotations below are for round lots at the landing and of the merchants, and do not include other charges, storage, nor other expenses outside of the bare freight and charges up to the time of arrival. Live Stock Market.

J. LeCroix, of the Memphis Stock Yard, Second street, Chelsea, reports as follows:

Receipts of cattle for the past week have been very light. Good butchers' cattle are in active demand, the supply of this kind being short. Choice handle fairly in upward tendency, and extra price for Christmas will command fancy prices. Receipts of common stock have been lighter than for some weeks past, but we can note no material change in prices. I regard the prospects for the future cattle market very favorable, and shipments of good cattle will find ready sale at satisfactory prices. The market has been bare of hogs for a couple of days. Prices are stronger than at last advices, and the prospects for the future are very flattering. There are no sheep on the market. Choice mutton has been in good demand.

CATTLE—Smooth, fat oxen, weighing from 1000 to 1500 pounds, per pound, 3½@3¾c; rough steers and cows, in good condition, per pound, 2½@3c; fat heifers and cows, per pound, 3@3½c; choice grass fat cattle, 2½@3c; fair to medium grass cattle, 2@2½c; scalawag and common, 1½@2c.
