PERSONAL AND GENERAL.

The Directors of the Memphis and Charleston road held a special meeting in this city yesterday, a report of which will be found elsewhere.

Work on the line of the New Orleans, Baton Rouge, Vicksburg and Memphis railroad has been suspended from the Yazoo river to Rolling Fork, a distance of 35 miles. It is thought that will be resumed in a few days, as the river has only covered the track a few inches in most places.

The following is the increase in the percentage of railroad earnings the third week of March: Chicago and Alton, 18; St. Paul, 27; Northwest, 13; Omaha, 14 (decrease); Denver, 6.3 (decrease); Indiana, Bloomington and Western, 12; Louisville and Nashville, 10; Kansas and Texas, 25; Missouri Pacific, 27; Northern Pacific, 2; Texas Pacific, 35; Wabash, 26.

There are 14 saw-mills now located at Thorn's Ferry supplying lumber for the New Orleans, Baton Rouge, Vicksburg and Memphis railroad, but owing to the present high stage of the river only 1½ miles of road from present terminus the other 3 will be able to start up on Monday next. The railroad company have over 600,000 feet of lumber now at Anthony's Ferry.

The Knoxville branch of the Louisville and Nashville railroad is at last completed, or will be within a day or two. The road is now finished from the West Kentucky junction to Knoxville, with the exception of the bridge over Elk creek, near the Kentucky-Tennessee State line. This will be finished to-day, and the tracks, which have been building south from Livingston, and north from Knoxville simultaneously, will be joined. The road will be open for business by the middle of this month, and will connect Louisville with a section of country hitherto unopened to her trade.

AYER'S SARSAPARILLA.

Nothing Short of Unmistakable Benefits

Conferred upon tens of thousands of sufferers could originate and maintain a reputation which AYER'S SARSAPARILLA enjoys. It is a compound of the best vegetable alteratives, with the iodides of Potassium and Iron,—all powerful, blood-making, blood-cleansing and life-sustaining—and is the most potent of all remedies for scrofulous disease and other blood disorders. Probably successful and certain, it produces rapid and complete cures of Scrofula, Sores, Boils, Humors, Pimples, Eruptions, Skin Diseases and all disorders arising from impurity of the blood. By its invigorating effects it always relieves and often cures Liver Complaints, Female Weaknesses and Irregularities, and is a potent renewer of waning vitality. For purifying the blood it has no equal. It tones up the system, restores and preserves health, and imparts vigor and energy. For forty years it has been in extensive use, and is to-day the most available medicine for the suffering sick. For sale by all druggists.

By Telegraph.

NEW YORK, April 5.—Money, 3 to 8 per cent., closed offered 3 per cent. Prime mercantile paper, 6@7½ per cent. Sterling exchange—bankers' bills strong, 482¼ demand, 484¾.

Bonds—Governments firm: Railroads moderately active and generally higher. State securities dull and featureless.

Stocks—The market was active, and prices advanced till 2 o'clock. In the first half of the last hour the stock market was less active, and there was a reaction of ⅛ to ½ per cent., but in the last half hour the market recovered and closed strong, with prices near the highest figures of the day. In the last hour the most active stocks were Lake Shore, St. Paul, Lackawanna, New York Central, Union Pacific, Northern Pacific, and Denver, all of which made the highest prices just before the close. Among the specialities, Richmond and Danville advanced from 53½ to 56, Richmond and West Point from 24½ to 25½, Houston and Texas Central from 79 to 82½ and reacted to 81, and Manitoba from 159½ to 160½. The net result of the day on the general list was an advance of ⅛ to 1½, per cent., the latter Central Pacific, with a large advance, in some usually inactive stocks. The *Post* says: "The greater confidence in stocks caused a pretty general covering of 'shorts' to-day in five or six stocks which had been prominent features. It was this covering which has been the main cause of the advance. It is thought the 'short' interest is pretty well covered, and that with the larger part of this element eliminated from the market, prices may experience at least a temporary reaction."
