Mississippi and Tennessee—Trains move follows: New Orleans fast mail and express leaves daily at 1:30 a.m.; freight leaves daily, ept Sunday, at 6:35 a.m. New Orleans fast ail and express arrives daily at 9:50 a.m.; freight rives daily except Sunday, at 2:30 p.m. Freight ains carry passengers.

PERSONAL AND GENERAL.

STEEL rails are being sold in some cases as w as $39 per ton, and negotiations are re- ported from Philadelphia at $38. Pig iron and the various forms of manufactured iron and steel are now extremely low, a fact hich is very favorable to railway building. he cost of the rails alone is now from $1500 to $2000 per mile less than it would have ost two years ago.

THE Chicago *Railway Age*, of last week, omes to us in an entirely new outfit, the unspicuous feature being the beautiful new ile page. The *Age* is the best journal de- oted to railway inter ts in all details pub- shed on this continent, and its success is ue to Messrs. Talbott & Hobart, the edi- ors, the first named, being president of the ailway Age Publishing Company, by whom ndefatigable industry, aided by thorough nowledge and experience in all matters ertaining to the railway service, the *Age* is uthority in the railway world.

THE 6 feet gauge will soon cease to exist n this country. The Erie, which a few years ago added a third rail to its broad gauge track so as to be able to run rolling stock of standard gauge, is now taking up the last rails of the 6 feet track, and is reducing its remaining engines and cars to the established gauge of the country. The Southern roads which still retain the 5 feet gauge, will re long have to narrow it by 3½ inches, and here will finally be only 2 gauges on the merican continent, 4 feet 8½ inches, and 3 feet—unless indeed the 2 feet gauge shall assume some importance.

Working Up a Strike.

SAN ANTONIO, June 4.—It is whispered hat the engineers, conductors, brakemen and ther employes of the Southern Pacific west f here are organizing a strike on account of he recent 10 per cent. reduction in salaries.

The First Through Train Between Louisville and Knoxville.

KNOXVILLE, TENN., June 4.—The first through train from Louisville over the new line of road arrived at Knoxville this morning, running the whole distance, 265 miles, in 13 hours. The train brought the officials of the Louisville and Nashville railroad, and was met at the depot by several thousand people. The excursion passed on through to Charleston, S. C. Trains will run regularly from this date between Louisville and Knoxville.

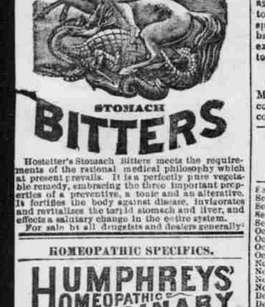
The Colorado and Santa Fe and the Southern Pacific Working Together.

GALVESTON, June 4.—It is rumored that the Gulf, Colorado and Santa Fe is in active and direct negotiation with the management of the Southern Pacific for a working arrangement by which the Gulf business of the latter line will be concentrated at Galveston. The Morgan Steamship Line, instead of having headquarters at Clinton, will localize at this point. A line of steamers will run from New York every other day, partly connected of some of the ships now plying to New Orleans, and the fleet now engaged in the trade here will continue its present work extending along the coast of Mexico, and during the trading season being so regulated that three trips a month will be made. The Vera Cruz and Santa Fe will be operated fully and completely for the Eastern and Western business with the Huntington lines, just as if it was used to that interest, and trains will run from San Francisco and east from New Orleans will run through direct to Galveston. It is also said that all business between the Santa Fe and the Texas Mexican are off, the Santa Fe having declined the propositions made them by the Palmer-Sullivan parties. This is said to be in accordance with the spirit of arrangements with the Southern Pacific.

CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, etc., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, New York City.*

HOSTETTER'S BITTERS.



Hostetter's Stomach Bitters meets the requirements of the rational philosophy which at present prevails. It is a perfectly pure vegetable remedy, embracing the three important properties of a preventive, a tonic and an alterative. It fortifies the body against disease, invigorates the feeble and invalid, and imparts a healthy and sanitary change in the entire system.

For sale by all druggists and dealers generally.

By Telegraph.

NEW YORK, June 4.—Money, 2@3 per cent.; closed offered 2½ per cent. Prime mercantile paper, 5@6 per cent. Sterling exchange—bankers' bills steady, 485½; demand, 488½.

Bonds—Governments strong generally ⅛@¼ per cent higher. Railroads irregular. State securities very dull and featureless.

Stocks—To-day's market has shown a reactionary tendency from the advance of last week, which was due to the covering of "short" interest more than any other cause. The market is still almost entirely in the hands of professional speculators and room traders, and the "short" interest is being eliminated; prices declined. There is as yet very little support from the outside public, or from the class who buy for investment. The general prospect for the future of railway stocks has been undoubtedly improved by the probable settlement of labor troubles at the West, and by improved crop prospects. The result of the day's business was a decline of ⅛ to 1½ per cent. Union Pacific, Omaha, and Lackawanna 1½ each, Louisville and Nashville, St. Paul and Central Pacific ½ per cent. each and the remainder market ½ to ¾. New Jersey Central closed 1½ and Reading 1 per cent. higher. The following announcement was made from the rostrum of the Stock Exchange:

"To the President of the New York Stock Exchange:

"Notice is hereby given that the Chicago, St. Paul, Minneapolis and Omaha railroad will issue, at its convenience, after thirty days from date, an additional amount of capital stock, at the rate of $1000 per mile of preferred stock, and $15,000 per mile of common stock, as authorized by its articles of consolidation, for the construction of 50 43-1000 miles of new railroad, namely, 40 45-100 miles from the Superior branch line in Wisconsin, and 10 miles of the Bayfield line in Wisconsin, upon which three consolidated bonds of the company were recently issued and listed. The amount of preferred stock will be 5043 shares, amounting to $504,300, and the common, 7564 shares, amounting to $756,400.

"M. L. SYKES, Vice-Pres't and Treas."

Closing quotations were as follows:
