CHICAGO MARKETS.

Special to the Appeal.]

CHICAGO, September 8.—The "bulls" have again been "on top" to-day, and all the market present a firm tone. Speculation has been active and buyers numerous, consequently corn has taken an upward turn, owing to the increase of country orders to sell and the cold weather reported from the Northwest. Bismarck, this morning, had a killing frost. The special report of the Cincinnati *Price-Current* quotes: "In many sections of Indiana, Illinois and Iowa the growth is backward, partly owing to the use of seed from the West, which is late in maturing. This, in conjunction with the anticipated cold snap and the fears of an early frost in these sections, no doubt gave strength to the market to-day, although the estimates show a reduction of 15 per cent. as compared with last year, and an increase in Indiana, Illinois, Iowa, Missouri, Kansas and Nebraska, with the largest, namely, 30 per cent, reported from Kansas, and a decrease in every Southern State except Texas, which is about 20 per cent, over last year."

The Board have now got down to their fall and winter work in earnest. Much of the hog stuff produced by the summer, and soon we will have bruiser markets then for a long time past.

The impression prevails to some extent that Armour has again been "bulling" pork and lard for the purpose of putting it down still lower—many say $10 for pork for October. This is no doubt true, when you take into consideration the heavy receipt of hogs and the small demand. The receipts to-day are: Wheat, 147,666 bu; corn, 516,856 bu; hogs (estimated), 14,500 hd. Shipments—Wheat, 96,631 bu; corn, 376,875 bu; hogs, 8879 hd. Price of hogs, $4 55@5 70.

The opening, fluctuation and closing were as follows:

Wheat (October deliveries) opened at 99⅞c and fluctuated to $1 00⅞, and closed weak at 99⅞c.

Corn opened at 5c and advanced to 50¼c, closing at 50c.

Pork opened at $14 47½, and 10c per bbl over last evening, went to $14 57½, and closed at $14 45.

Clear rib sides opened at 6.40c, and 7½ points over last evening, went to 6.42½c, closing at 6.35c.

Lard opened at 8½c, and 5c over last evening, went to 8.57½c, and closed weak at 8.35c.

The "curbs" this afternoon give no change over the regular closing of the Board. The Call Board, which has been abandoned during the summer, commence again Monday, the 10th instant.

DRY GOODS MARKET.

NEW YORK, September 8.—For the closing day of the week the demand of agents has been of more moderate proportions. As a result, the very satisfactory forwardings of the week, the jobbers of interior markets will want advices as to what is on the way before making up their fall memoranda. The requirements to keep stocks in order are expected for Monday, as the large business of the week must have compelled the need of very handsome reassortments. The volume of business here for the week has been very satisfactory, which is the expectation of the reports from the North, South, East and West. Everybody is cheerful, and if the fall and thrush no boom is anticipated at this writing, the feeling is better than for any corresponding period of the year.
