KING'S EVIL

Was the name formerly given to Scrofula because of a superstition that it could be cured by a King's touch. The world is wiser now, and knows that

SCROFULA

can only be cured by a thorough purification of the blood. If this is neglected, the disease may be entailed through generation after generation. Among its other symptomatic developments are Eczema, Cutaneous Eruptions, Tumors, Boils, Carbuncles, Erysipelas, Scaly Skin, Ulcers, Nervous and Physical Collapse, etc. If allowed to continue, Rheumatism, Scrofulous Catarrh, Kidney and Liver Diseases, Tubercular Consumption, and various other dangerous or fatal maladies, are produced by it.

Ayer's Sarsaparilla

Is the only powerful and always reliable blood-purifying medicine. It is so effectual an alterative that it eradicates from the system Hereditary Scrofula, and the kindred poisons of contagious diseases and inherited or acquired taints. At the same time it enriches and vitalizes the blood, restoring healthful action to the vital organs and rejuvenating the entire system. This great

Regenerative Medicine

is composed of the genuine *Honduras Sarsaparilla*, with *Yellow Dock, Stillingia, the Iodides of Potassium* and *Iron*, and other valuable elements of great potency, carefully and scientifically compounded. Its formula is generally known to the medical profession, and the best physicians constantly prescribe AYER'S SARSAPARILLA as an

Absolute Cure

For all diseases caused by the vitiation of the blood. It is concentrated to the highest practicable degree, far beyond any other preparation for which like effects are claimed, and is therefore the cheapest, as well as the best blood purifying medicine, in the world.

Brazilian Pebble and Australian Crystal

Glass Spectacles

Superior to any other in use. Constructed in accordance with the science and philosophy of nature, admirably adapted to the organs of sight, and perfectly natural to the eyes, affording altogether the best artificial help to the human vision ever invented.

1. They can be worn with perfect comfort at any time or any position, giving an astonishing clearness of vision, by candle or other artificial light, and comfort to the spectacle wearer heretofore unknown.

2. How to Select Glasses.—It requires professional guidance, even when a good article is offered. Dr. Bernhardt, of Berlin, will bring his glasses to be found in the market, but carefully examine the eyes of the patient, and give the dispensable advice as to the proper selection of them.

DR. MORRIS BERNHARDT

comes recommended in the highest terms of praise by numerous certificates from the most eminent Physicians, Oculists, Divines, and the most prominent men of the country, some of them are those of MEMPHIS, TENN., and from all the professional cities of the United States.

MEMPHIS, TENN., December 15, 1881.

Some seventeen years ago, in the spring of 1867, our city was visited by an eminent Optician, Dr. Morris Bernhardt, of Berlin, Prussia, and it so that time the indorsements now in his professional card, viz: Hon. T. J. Walker, M.C.; Hon. John Pitman, M.D., Hon. R. Grant, M.D., J. W. Hogan, M.D., R. Beard, M.D., J. C. Lewis, M.D., A. Creighton, M.D., W. D. Little, M.D., R. Dunlap, M.D., J. Phelps, M.D., D.D., the Rev. J. G. Stedman, the Rev. J. White, the Rev. S. H. Ford. Practicing his profession ever since in the principal cities of the United States, and after a permanent location in Chicago, indorsed by the Medical Society in that city, the Doctor, on account of ill health, has come back to temporarily suspend his Chicago business, and concluded to visit our city again. We have examined his credentials as well as his large and rare assortment of optical instruments and lenses for correcting defects of vision, and believe from our interview with the Doctor that he is thoroughly qualified in his profession to relieve the various infirmities of sight for which an artificial aid is required, and as such indorse him.

MEMPHIS, TENN., December 16, 1881.

I have been long familiar with the name and reputation of the above gentleman, and feel assured that their indorsement is a guarantee of the doctor's professional skill.

I gave Dr. M. Bernhardt, seventeen years ago, a certificate corresponding with the one signed, written by medical gentlemen.

GEO. WHITE,
Rector Emeritus Calvary Church.

MEMPHIS, TENN., December 16, 1881.

I have read a very flattering notice of the ingenuity of Dr. Bernhardt as an optician and his wonderful skill as an oculist, written by the gentlemen predecessor, Dr. C. A. Davis. All who knew Dr. Davis (and he was well known) will feel that any commendation from him would be merited and appreciated. REV. J. H. ZWERNER,
Pastor Cumberland Presbyterian Church.

MEMPHIS, TENN., December 16, 1881.

Dr. Bernhardt, of Chicago, brings the indorsement of all the principal physicians and clergymen of that city, the highest where I know, and many of them personally and very well.

He certainly stands at the top of his profession as an oculist and optician, and I have full confidence in him to do almost if the limits of the possibilities of his profession lie in his testimonials of both, in, late and the Aller. Lost indorsements on both. REV. W. PEARNE,
Pastor Christian Church.

John Allen, M.D., the eminent surgeon of Lancaster, Pa., says: "Dr. Bernhardt has fitted glasses to my eyes, making the vision almost as perfect as in youth."

FINANCE AND TRADE

Money continues easy at 8 per cent., with moderate demand.

Business was active at the Cotton Exchange under the influence of reported advances at Liverpool and New York. The market opened and closed steady, with middling quoted at 10½c, and sales of 1600 bales, of which exporters took 1000 bales. New York spots closed dull and nominal at 11 7-16c; futures steady, February quoted at 11.50@11.51. New Orleans spots closed firm at 10½c; futures steady, February quoted at 10.78@10.80. Liverpool spots closed steady, somewhat inactive, at 6 1-16@6¼d; futures firm, February 6 5-64d, buyers. Receipts at all United States ports yesterday, 7800 bales.

Business in general trade is painfully dull, and a revival not expected until a season of more favorable weather sets in and a general resumption of navigation results. The quotations below are revised in accordance with a careful and thorough canvass of the market made yesterday. Receipts and shipments yesterday were as follows:

IMPORTS.

Sixty-eight tes bacon and hams, 100 bris beans and peas, 19 kgs butter, 52 pkgs boots and shoes, 21,000 bu corn, 4 cars cottonseed, 2213
