Chicago Grain and Provision Markets.

CHICAGO, March 25.—Wheat advanced at the opening of business and continued its upward tendency by slow degrees until within an hour of the closing, when the provision list advanced in the same proportion. Corn and wheat are also higher, beginning the advance in the first sales of the day.

The opening and closing prices of the day were as follows:

Corn—Spot, 35c, 35½c; April, 38½c bid, 38½c asked; May, 42½c asked.

Wheat—Spot, 78½, 79½c; April, 75½c, 76½c; May, 80½c, 82c.

Oats—April, 28c bid, 28½ bid; May, 31½c, 31½c.

Pork—Spot, $11 75, $11 95; April, $11 90, $11 80; May, $11 85, $12 10.

Lard—Spot, $6 [illegible], $6 [illegible]; April, $6 80, $6 85. May, $6 87½, $6 93.

Clear rib sides—Spot, $6, $6 10; April, $6, $6; May, $6 02½, $6 12½.

Hogs—Steady at $4 10.

Continued cold weather and a material decline in English consols have enabled the bulls to raise wheat fractionally again, and the wheat crowd at Chicago seems to be the only one left. A reported weakness in Russian securities also tends to confirm the opinions of those who attribute the lower prices to increased apprehensions of war in Europe. The market is a very sensitive one and responds quickly to this kind of a stimulus. Yet no one expects any important or permanent advance unless these apprehensions are realized. Another reason for the stronger tone is the story, freely circulated, that George Eridge and Walker, who are buying large quantities, are acting for Weyerhauser, of Wall street, and have orders to take all the wheat in a week. Unfavorable reports of the condition of the growing crop continue to be received, but they are mainly a repetition of those current at the opening of the week, and so excite no special influence.

Everybody is watching consols and a decline or advance of 1-16 means the whole pit rush to "hop" from one side to the other. When it is considered that the action of operators is governed by such an apparently unimportant event as this, the difficulty of predicting with any certainty the immediate future of prices may be appreciated. Purchases, however, made with only the prospect of war as a basis, are certainly dangerous as reactions, on the slightest encouragement that a peaceful solution of the difficulties may be reached, are always sharp, and a decline considerably greater than the advance obtained usually results. Crop scares, on the other hand, although pooh-poohed by the bears and sometimes even doubted by the bulls, are so consistent that many are beginning to think there may be some foundation for the reports.

"History often repeats itself," said a prominent man to-night, "and this may be a repetition of 1879, when, owing to an increase the previous season of 40,000,000 bushels and large stocks in sight, the cash price of wheat was so unnaturally depressed that it touched 74½c in this same month of March, and yet inside of ninety days crop damage carried it to $1 44½, and the cash grain of the succeeding crop reached $1 61½."

Corn rules rather more firm, partly in sympathy with wheat and partly on heavy purchases made for shipment. There is a fair demand for corn in large lots, but they are slightly lower. Receivers say they anticipate light arrivals right along now, as roads in many sections of West are well-nigh impassable. It is estimated, too, that on account of the severe winter, eve stock have consumed some 20 to 30 per cent. more corn than usual.

Pork is about steady. Packers are free buyers, and the belief is becoming general that the market considerably oversold during the early part of the week of last week, but shipments of product are large. Lent, too, is considered the Sunday of the provision trade, and so it is nearly over, if it is expected business will soon be resumed with renewed vigor.
