Superior to any other in use. Constructed in accordance with the science and philosophy of optics, admirably adapted to the organs of sight, and perfectly natural to the eye, effording a pleasanter, but artificial help to the human vision ever invented.

1. They can be worn with perfect ease for any length of time, and one sitting gives the long-sighted clearness of vision, by candle or other artificial light, and distant objects in the spectacle wearer heretofore unknown.

2. Are for the short sightedness.—It requires professional guidance, even when a good article is offered. Dr. Bernhardt not only has the best glasses to be found in the world, but he carefully examines the eyes of the patient, and gives individual advice as to the proper selection of them.

DR. MORRIS BERNHARDT

comes recommended in the highest terms of praise by numerous testimonials. Are the most eminent Physician, Oculist, Divines, and the press among them are those of MEMPHIS, TENN., and from all the principal cities of the United States.

MEMPHIS, TENN., December 18, 1884.

Some several months years ago, in Chicago, our city was visited by an eminent Optician, Dr. Morris Bernhardt, of Berlin, Prussia, and I feel that time the indispensable pain in his profession—if I may so speak—was relieved. Dr. John Pitman, M.D., Geo. H. Grant, M.D., F. R. Ingalls, M.D., E. Milo Kaue, M.D., L. Dr. Wills, M.D., A. Crockton, M.D., W. A. Jelly, M. D., the Rev. C. A. Davis, the Rev. T. D. Witherspoon, the Rev. J. D. Hardman, the Rev. H. White, the Rev. E. H. Ford. Practicing his profession among the principal cities of the United States, and after a permanent location in Chicago, induced by the flattering offers of the city, Dr. Bernhardt, on account of ill health, has been obliged to temporarily suspend his Chicago business, and accepted the offer of our citizens. We have examined his credentials as well as a large and rare assortment of clinical instruments and lenses for correcting defects of vision, and believe from our intercourse with the Doctor that he is thoroughly qualified in his profession to relieve the many sufferers from defective vision, or entire amputation of sight, and as such induces him.

I have been long familiar with the reputation of the above gentleman, and feel assured that finding myself in his presence I was assured the doctor's professional skill.

Lane D. M. Sperry, aged, seventeen years ago, a certificate corresponding with the one signed, written by medical gentlemen.

GEO. WHITE,
Rector Emeritus Calvary Church.

MEMPHIS, TENN., December 15, 1884.

I have read a very flattering notice of the ability of Dr. Bernhardt as an optician and his wonderful skill as a scientific writer on instrumental professor, Dr. C. A. Davis. All who have Dr. Davis's word for testimony, I feel that any communication from him would be unofficial. C. A. DAVIS,
Pastor Cumberland Presbyterian Church.

MEMPHIS, TENN., December 16, 1884.

Dr. Bernhardt, of Chicago, brings the indorsement of all the physicians of Memphis, and I know of that city, the most of whom I know, and many of them personally and very well.

He certainly stands at the top of his profession as an oculist and optician. I have unqualified confidence in him to do almost the whole duty of the professions of his profession. He has the best indorsements on the point of any man I know.

GEO. W. SWEENEY,
Pastor Christian Church.

John Allen, M.D., the eminent surgeon of Lancaster, Ky., says: "Dr. Bernhardt's fitted glasses to my eyes, making the vision almost as perfect as in youth."

"Dr. Bernhardt's lenses are made of superior material, and with his aid, most materially assist infirmities of sight."

R. K. Fenton, ex-Governor New York.

"The glasses used in my family adapted by Dr. Bernhardt are of superior quality and workmanship. I have no hesitation in recommending his as an accomplished and skillful optician."

O. P. Morton, ex-Governor of Indiana.

"Dr. Bernhardt's glasses fitted to my eyes by him are the best I can use on account of my heavy sight. I cheerfully recommend his skill to the patronage of the public."

Jonathan Worth, ex-Gov. North Carolina.

"The glasses admirably answer the purpose for which they were designed. It gives me great pleasure to certify to my friends that I can cordially commend you to all who have imperfect vision, and to assure them that you will do them greatly assist them."

William E. Smith,
Ex-Governor Virginia.

"The perfect adaptability of the glasses fitted to my eyes is unmistakable evidence of your high scientific skill as an optician.

R. M. Patton,
Ex-Governor of Alabama.

A. G. Curtin, ex-Governor Pennsylvania.

"Inclosed I send you price of another pair of glasses, duplicate of those adapted to my eyes. They are beyond comparison the best and easiest to my eyes of any I have ever tried. I would not be without them for any consideration, and desire another pair to keep in readiness to take their place in case of any accident to the pair I now use. Your skill in your profession added you a public benefactor."

Joseph E. Brown, ex-Gov. Georgia.

"Dr. Bernhardt's skill must be of great benefit to those availing themselves of it."

J. F. Hartranft, ex-Governor Pennsylvania.

FINANCE AND TRADE.

The money market continues easy and unchanged. Local securities are dull with no revision of quotations.

There was the same increased interest in the cotton market yesterday on account of the better feeling in spots and sharp advances in futures at Liverpool, coupled with the prompt response of both the spot and speculative markets at New York and New Orleans. There was, however, an absence of demand from exporters, and the day's transactions all went to spinners' account. The market opened and closed quiet, with middling quoted at 10⅝c, and sales of 500 bales—all to spinners. Receipts were 843 bales, of which 151 were by river; shipments, 718 bales, of which none were by river. Stock, 36,911 bales. New York spots closed steady, middling quoted at 11c; futures closed firm, April quoted at 10.95@10.97, and other months advanced 13 to 14 points. New Orleans spots firm at 10⅞c; futures closed quiet, April quoted nominal, other months 13 to 14 points higher. Liverpool spots closed with better feeling, quoted at 5⅝@5 15-16d; futures closed firm; April, 5 29-64d, buyers; and May, 5 31-64d, sellers; all 1 pt. 1,025,000 bales against 1,049,000 bales same date last year. Receipts at all United States ports yesterday, 9,017 bales.

In general trade there was a general complaint of dullness, growing out of depression at grain and provision centers. The local provision market was quoted easy at previous quotations, except fractional declines in pork. The grain market is also easy, and dealers who were holding off a day or two ago were approachable yesterday. The produce market is quiet and unchanged, excepting a more moderate tone in eggs, on account of a better supply. Receipts and shipments yesterday were as follows:

Afternoon Board.—At the afternoon board wheat advanced 1⅛c, and corn closed 1⅛@ 1⅜c higher.

CHICAGO, April 16.—The extremes of speculation were maintained in the trading on Change to-day. The regular session was marked by great weakness, a frantic unloading of "long" wheat, and some evidences of heavy short selling. This was due to the peaceful tenor of the cables and the belief that the Czar had himself personally sought an amicable understanding with England. The market for June wheat dropped to 81⅞c, or nearly 8c under the high price of Tuesday. The result was great in the afternoon when the official denial of Gladstone in the House of Commons became known, and the market rallied nearly 2c from the bottom, with a strong feeling on the curb. The receipts were smaller, with larger clearings from the seaboard. The cash figures did not improve in tone, but all else save war appears to be cleared by the traders. The corn market was dull and heavy on the regular board, but the greater portion of the decline was recovered in the afternoon. Large receipts and the severe decline in the other markets affected oats, and the market fell off 1⅝@2c, but the greater portion of the decline was recovered. Flour—market ruled somewhat easier, but no appreciable change in prices occurred. Wheat—speculative trading was on a large scale with sharply lower prices prevailing on the regular board. The market opened 1⅝@1c lower, receded 2c more, rallied 1⅝c but under heavy pressure broke off again, declining in all 5c from the highest point of the morning and closed 1½c lower than yesterday. Sales ranged: April, 81½@81⅞c, closed 81½c; May, 85⅞@83c, closed 85½c; June, 87½@84⅞c, closed 86c; July, 90⅞@91c, closed 90½c; August, 91⅞@92c, closing at 92c.
