Glass Spectacles

Superior to any other in use. Combining in accordance with the laws and philosophy of nature, admirably adapted to the organs of sight, and perfectly natural to the eye, affording altogether the best artificial help to human vision ever invented.

1. They can be worn with perfect ease for any length of time at one sitting, giving a soothing pleasant sensation of vision, by means of artificial light, and comfort to the spectacle wearer heretofore unknown.

2. How to Select Glasses.—It requires professional guidance, even when a good article of efficient pattern, Dr. Bernhardt's self-adjusting glasses to be found in the market, but carefully examine the outer frames, and reject all those of disposable advice as to the proper selection of them.

DR. MORRIS BERNHARDT

comes recommended in the highest terms of praise by numerous certificates from the most eminent Oculists, Opticians, Doctors, and the most prominent men of our country. Among them are those of Hon. Wm. M. Evarts, and from all the principal cities of the United States.

MEMPHIS, TENN., December 13, 1884.

Some seventeen years ago, in the spring of 1867, our city was visited by a man from New Orleans, Dr. Morris Bernhardt, of Berlin, Prussia, coloring so that time he demonstrated his skill in the profession—A. K. Taylor, M.D., J. R. Fowlkes, M.D., John Pitman, M.D., Jno. Shackelford, Esq., Stigoon, M.D., E. Miles Willett, M.D., W. F. Bowdon, M.D., J. Phelan, M.D., J. M. Keller, D.D., the Rev. C. A. Davis, the Rev. T. D. Witherspoon, the Rev. J. H. Coleman, the Rev. G. White, the Rev. S. H. Forbes. Practice his profession since then in the principal cities of the United States, and after a successful business in Chicago, endorsed by the Medical School in that city, the Doctor, on account of his health, has been obliged to temporarily suspend his Chicago business, and consequently visit our city again. We have examined his credentials as well as a large and excellent assortment of artificial lenses and lenses for correcting defects of vision, and believe from our interview with the Doctor that he is thoroughly qualified in his profession to remove various infirmities of sight by the scientific application of the lenses he has to recommend him.

Pastor of Strangers Church.

MEMPHIS, TENN., December 16, 1884.

I have been long familiar with the name and reputation above announced, and have no doubt assured that their indorsement is a guarantee for the doctor's skill and ability.

I gave Dr. M. Bernhardt, seventeen years ago, a certificate corresponding with the one issued, written by medical gentlemen.

GEO. WHITE,
Rector Grace Church.

MEMPHIS, TENN., December 15, 1884.

I have read a very flattering notice of the introduction of Dr. Bernhardt, a physician and his wonderful skill as an oculist written, based on manifest judgment, by Dr. G. A. Davis. All who knew Dr. Davis will be pleased to learn that any communication from him would be merited and endorsed by the public. He is the Pastor Cumberland Presbyterian Church.

MEMPHIS, TENN., December 16, 1884.

Dr. Bernhardt has been known to me in the performance of all the principal physicians and clergymen of this city, the most of whom I know, and many of them personally and very well, and he certainly stands at the top of his profession as an oculist. I feel that I can speak with entire confidence in him to do almost to the limits of the possibilities of his profession. He has my best indorsements on both sides of the Atlantic.

REV. W. W. KNIGHT,
Pastor Christian Church.

MEMPHIS, TENN., December 16, 1884.

Dr. Bernhardt, the eminent surgeon of Lancaster, Pa., says: "Dr. Bernhardt has fitted glasses to my eyes, making the vision almost as perfect as in youth."

"Dr. Bernhardt's lenses are made of superior material, and with his experience, certainly make infirmities of sight."

Ex-Governor Jno. Lee, ex-Governor New York.

"The glasses used in my family adapted by Dr. Bernhardt are of superior quality and workmanship. Dr. I have no hesitation in recommending him as an accomplished and skillful optician."

O. P. Morton, ex-Governor of Indiana.

"Dr. Bernhardt's glasses fitted to my eyes by him, are the best I ever used. I can see as perfectly as I could in my youth. I heartily recommend him to the public as a skillful optician."

Jonathan Worth, ex-Gov. North Carolina.

"The glasses admirably answer the purpose for which they were designed. It is my pleasure to certify to your ability, and to cordially commend you to all who have imperfect vision with full confidence in your success, greatly assist them."

William Rowell,
Ex-Governor Wisconsin.

"The perfect adaptability of the glasses fitted to my eyes is unmistakable evidence of your high scientific skill as an optician."

R. M. Patton,
Ex-Governor of Alabama.

A. G. Curtin, ex-Governor Pennsylvania.

"Inclosed I send you a certain number of glasses, duplicate of those adapted to my eyes. They are beyond comparison the best adapted to my eyes of any I have ever used. I could not do without them. I speak from experience, and advise another pair to keep in readiness to take their place in case of any accident to the pair I am using. Your skill in your profession makes you a public benefactor."

Joseph E. Brown, ex-Gov. Georgia.

"Dr. Bernhardt's skill must be of great benefit to those availing themselves of it."

J. F. Hartranft, ex-Governor Pennsylvania.

FINANCE AND TRADE.

The money market is extremely dull, in sympathy with the prevailing dullness in all branches of trade. Yesterday's Clearinghouse reports show a lower aggregate of clearances than has been reported in years. There is nothing doing in securities.

The cotton market was barren of interest yesterday, the only transactions reported being for spinners' use. The reports from Liverpool and New York indicated a better tone, and a some advance, but not sufficient to inspire a change of tone or price here. The market opened and closed dull, with middling quoted at 10⅝c, and sales of 300 bales—all to spinners. Receipts were 120 bales, of which 0 were by river; shipments, 491 bales, of which none were by river. Stock, 34,651 bales. New York spots closed steadier, middling quoted at 10⅞c; futures closed steady, April quoted at 10.80@10.81, and other months advanced 1 to 3 points. New Orleans spots closed steady, at 10⅞c; futures closed quiet and steady, April quoted 10.75 nominal, other months 7 to 8 points higher. Liverpool spots closed quiet, fair inquiry, quoted at 5(@5 15-16; futures closed firm; April, 5 57-64; buyers. Stock at Liverpool, April 7th, 1,024,000 bales, against 1,054,000 bales same date last year. Receipts at all United States ports yesterday, 1585 bales.

In general trade there is absolutely nothing doing outside of a small retail business, and leading articles of trade are very unsettled, but quietly waiting to realize the first Western change the first of the approaching month will bring about. No material changes in prices were reported yesterday. Receipts and shipments yesterday were as follows:

IMPORTS.

Two hundred and twenty-six rlls bagging, 47 rls bacon and hams, 52 brls beans and peas, 300 brls beef, 10 bu corn, 1 car cottonseed, 595 sks cotton-seed, 3 pkgs cheese, 390 hd cattle, 2 pkgs dry goods, 47 pkgs eggs, 230 brls flour, 135 pkgs lard, 18 cart timber, 6 pkgs liquors, 3 brls chloral, 80 hd sheep and 542 pkgs tobacco.

EXPORTS.

NEW YORK, April 23.—Money on call continues easy at 1@2½ per cent., closing at 1 per cent. Prime mercantile paper, 4@5 per cent. Sterling exchange is steady, with actual business in bankers' bills at $4.86 for sixty days and $4.88½ for demand. Government bonds are firm without quotable change. State bonds are steady with no reported sales. There was a sale of the 4s of Missouri to-day at 120. State stocks are dull and nominal. The stock market has been very dull all day. Prices at the opening were generally a fraction higher than last evening, but soon checked by a distributing of support to rally, and thoroughly unsettled within extremely narrow limits during the day. The effort, when there was a slight rally—the most of it, in fact—was to finally closing near the lowest and dropping at quotations, which is a positive and significant change—of only ½ to ¾ per cent. as compared with last evening, in favor of the bears. Opening and closing prices of the very inactive stocks, however, made greater advances, Texas Pacific closing nearly one full share, a decrease from yesterday of 2 common shares, and a gain of ⅞ on Union Pacific, St. Paul and Pacific Mail contributing to the day's gain. On the change, however, Western Union was the most active, and all the leading dividend stocks except Pacific Mail ran up above the closing prices of yesterday, the most notable advance being as shown a gain of 2¾ and the others ½ to ¾ per cent., except Union Pacific, which is omitted. Missouri Pacific, on a very small business, is down ⅛ and Lake Shore ⅛ from yesterday's closing, although at the close Northern Pacific sold off a fraction, and Pacific Mail was made at a shading of ¼ per cent. from yesterday. Northern Pacific preferred, and Pacific Mail have held a long session to-day, at which the lease of the Oregon Railway and Navigation Company's property was considered and the matter finally referred to a committee, consisting of J. H. Cheney, J. B. Ballin, and Henry Hilton, with power to act. Ballin, to investigate and report to the board at a special meeting to-morrow. The lease of the Oregon Short Line is up at 25 per cent. on small stocks, which are extremely dull. The market closes very dull and weak, strong undertone. The railway bond market has been active, especially for some of the Missouri, Kansas and Texas and Pacific bonds. The total sales were $1,275,000, including those given yesterday of $250,000. Prices are generally higher. Sales of stocks aggregate 135,000 shares, including the following: Delaware, Lackawanna and Western, 2,000; Lake Shore, 2,000; Northwestern 900, New York Central 11,700, Pacific Mail 17,000, St. Paul 7,000, Texas Pacific 24,000, Western Union 5,000 and Oregon Transcontinental 7800. CHICAGO, April 23.—The speculative fever did not run as high to-day. Trading in all the commodities was quieter than has been the rule previously, for several weeks. This was due largely to the news from London and St. Petersburg being in no sense satisfactory, as indicating whether the great powers were determinedly bent upon war or not. Opinions were flashed over the cable, but these were easily obtainable on this side of the water, so that operators paid very little attention to them. They are now awaiting actual results, and until the absolute turn of affairs is very clearly outlined it is claimed that speculation will hang fire, as the course of the market is expected to hinge to a great extent upon the outcome of the present Anglo-Russian negotiations. In the meantime, trading is pursued in a very conservative way. Foreign advices quoted a stiffening feeling in the London, Liverpool and Paris grain markets, and generally higher prices. British cables, also, ruled lower, but there appeared to be considerable desire to realize, and a good deal of "long" wheat was offered. There was a gradual decline of 1½c from the opening prices, which was aided somewhat by an advance in consols. Later there was a better inquiry, on the rumors of large freight engagements, but the market sold off again, fluctuated, and closed ⅛c under yesterday's figures. Corn and oats were a little larger, but speculation lagged, and prices show little change, May developing a little weakness, with June and July somewhat higher. The shipping inquiry was moderate, but outside trading was smaller than usual. Trading was very quiet in oats, with no substantial change in prices. Pork ruled quiet. Foreign advices quoted a firm feeling, and consuls ruled lower early, but considerable long wheat was sold, and prices gradually receded 1½c from the opening, reacted somewhat on rumors of heavy shipments, and closed ⅛ under yesterday. Sales ranged: April, 87@88⅛c, closed 87@87½c; May, 88½@89½c, closed 88½c; June, 90⅛@91½c, closed 90½c; July, 92@93½c, closed 92½c. No. 3 spring, 78@78½c. Corn—speculative trading was light, and prices show very little change, May displaying some weakness, with the outlook favorable for higher prices
