NARROW RANGE OF ONLY ½c IN WHEAT PRICES

The Market Fell Into Quiescence—Another Decline in Corn—Chicago Very Dull.

SOUTHWEST NEWS IS BEARISH

Good Cash Demand Here—Clearances 3,640,000 Bu, for the Week—General Grain News.

Minneapolis Chamber of Commerce, Jan. 24.—Up to noon to-day the wheat market showed the narrowest range seen for some time. May was a shade firmer at the opening at 75½@75⅝c, but dropped to 75¼c. Chicago was very dull. Little change was noted in the general situation. In the extreme northwest the weather turned colder, but the southwest was cloudy and more precipitation was reported in places. Kansas City was very sick on corn. One thousand cars are reported there in a blockade. There is scarcely any demand. The southwest which so long led the strength now helps in the general bearishness. Both corn and oats were weaker and unsettled in trend. Liverpool was firm at first, but closed ½d lower. Renewed reports came, via London, of injury to wheat in southern Russia, and Broomhall cabled less favorably about Argentine, saying it is again very dry in places. Argentine shipments for the week were 264,000 bushels, against 36,000 last week and 168,000 a year ago.

Primary receipts were 412,000 bushels, against 372,000 last year, and shipments 217,000 against 260,000. Clearances wheat and flour 450,000 bushels. Minneapolis received 221 cars against 173 last year, and Duluth 84 against 24.

The Modern Miller says the wheat crop has been greatly benefited by a liberal fall of snow or rain in a large part of the winter wheat belt. There has, however, been little precipitation in Texas, portions of Oklahoma and southwestern Missouri, where the drought is unabated and the crop suffering. The plant elsewhere is generally well protected by snow. The farmers of the southwest are still withholding wheat from sale and the movement in other sections is light. Bradstreet's figures for wheat and flour exports are this week, 3,640,000 bushels; last week, 4,469,000; last year, 4,439,000.

The market closed fractionally firmer, May at 75¾c, July 76⅞@77c, and January 75¼c. Chicago May closed at 79⅜@79½c.

The cash market was active and firm. No. 1 northern sold better and there was some improvement shown all through. On good No. 1 the basis was ⅜c under May. No. 2 northern sold at 1½c under for a good part. No. 3 was a little firmer, selling from 71½c to 73c, averaging 72½c. Some lots dragged a little but this was only in the low grades. Rejected sold from 63c to 71c, and no grade from 63c to 70c.

OTHER GRAIN MARKETS

CHICAGO GRAIN

Bracer in the Shape of Cold Weather From Northwest.

Chicago, Jan. 24.—Cold weather from the northwest braced the grain pits at the opening to-day. There was a little of yesterday's bearish sentiment carried over, but on the prediction of very severe weather and a cable list which was relatively firm May opened steady and a shade lower to a shade higher, at 79¼c to 79⅛c. There also was a fair export condition reported, but snows were reported in several of the winter wheat states, even in Texas and Oklahoma, which have suffered badly from the drought. There was still some weakness shown in the coarse grains, and at the fairly good opening prices a number of selling orders pressed May back to 78¾@78⅞c. A good speculative demand, however, sprang up and May recovered and soon sold again at 79¼c. Receipts were 22 cars; Minneapolis and Duluth reported 305 cars, a total for the three points of 327 cars, against 439 last week and 243 a year ago. Argentine shipments for the week were 264,000 bu, against 36,000 bu last week.

Trade continued rather dull, with narrow fluctuations after the cold weather had brought better prices. May sold to 79½c and closed firm, ¼c up at 79⅜@79½c.

Close: January, 75⅝@76c; May, 79⅜@79½c; July, 79¼@79⅜c. Cash: No. 2 red, 83½@84½c; No. 3 red, 79@84c; No. 2 hard winter, 77@79c; No. 3 hard winter, 76@78c; No. 1 northern spring, 77@78c; No. 2 northern spring, 75@76½c; No. 3 spring, 72@75½c.

May corn opened ¼@⅜c higher, at 63@63¼c. The poor cash situation and some selling brought a sag to 62⅝c early, but the relatively firm tone of cables, poor Argentine weather and no shipments from that country soon brought a rally. The cold weather also had a buoyant effect and good buying set in. At the end of the first hour May was selling at 62⅞c. Receipts, 50 cars.

Corn tried hard to keep up its early strength, but on the weakness in southwestern and coast markets it hesitated. May closed only steady, ⅛@¼c up, at 62⅞@63c.

Close: May, 62⅞@63c; July, 62¾c; September, 61¾c. Cash: No. 3, 58½@58¾c.

Oats were weak early. There was still an attempt to press this pit, but the strength in other grains was felt. May opened unchanged to ⅛c lower, at 45¼c to 45⅛c, and touched 45¼@45⅜c. Some sharp selling brought a slump to 44¼c, but on small western offerings and fair support rallied to 44⅝c. Receipts, 102 cars.

Close: January, 44c; May, 44⅞@45c; July, 39⅝c; September, 33¼c. Cash: No. 2, 44¼@44¾c; No. 3, 44@44¼c.

SUGAR TRADE UNEASY

Panic Policy Adopted by Dealers in Great Britain.

London, Jan. 24.—The uneasiness in the sugar trade caused by the expectation of an increased duty is growing, as the date of the budget speech approaches. Sir Michael Hicks-Beach has promised not to increase the duty on coal, and this is regarded as foreshadowing an additional tax on sugar and perhaps tea. During the last few weeks imports of sugar have enormously increased and the demand for storage room is greater than the supply. This panic policy is strongly condemned by the chancellor of the exchequer, on the ground that it is unfair to attempt to anticipate the budget and so cause a considerable loss to the revenue, but of course unless the sugar duty is increased, he can afford to smile at the desperate efforts now being made. It is stated that the tax on tea will be raised from 4 pence to 6 pence a pound.

INVESTMENT GOSSIP

Waldorf gossip to Watson: Both bulls and bears are disappointed at the outcome of the day's operations in the stock market owing to the continued indifference of the public and the limited character of the speculation. Easy money has, however, caused a number of traders to cover shorts and wait for a rally on which to sell again. At the same time, the large operators adhere to the conservative attitude they have maintained for weeks, which is also true of the leading commission houses. Most of the latter are, in point of fact, advising sales of the railroad stocks on any further improvement. They take the position that, in view of the present high range of prices, there can be no substantial rise in the market until the courts settle the question of the legality of the Northern Securities company, and that, in the meantime, uncertainty and irregularity are inevitable. Houses which are believed to reflect Standard Oil interests are especially emphatic in the foregoing opinions.

New York to Whallon-Case: Feeling this morning seems to be pretty confident, that the market is going to do better. Some of the large interests express themselves freely on the bull side, and say the market will go up no matter what the Northern Securities decision is.

New York to Smith: Even if the supreme court decides that it has jurisdiction in the Northern Securities case, it by no means indicates that, when tried upon its merits, the decision will be against the company. The recent period of quietness has been beneficial and, barring some unexpected disaster, there seems to be every reason to expect an ultimate higher range of market situations.

GAIN AND DECLINE

Both Mark the Opening Hour in Wall Street.

GENERAL FRACTIONAL ADVANCES

Practically All Gains Wiped Out and the Market Closes Dull, but Firm.

New York, Jan. 24.—Price changes in the opening dealings were of little significance and exceeded ½ in only a few cases. The gains predominated, but a number of important stocks showed declines. St. Lawrence and Adirondack advanced 1⅜. Bull manipulation of prominent specialties was again resorted to to infuse interest into the market, but there was little response in the railroads. Metropolitan Street Railway, Manhattan, Sugar, Amalgamated Copper and People's Gas advanced 1 to 1⅝. Rock Island, Northwestern, Iowa Central and Toledo, St. Louis & Western were about a point higher and Pullman, Buffalo & Pittsburg 3. Otherwise the advances were fractional but general.

Trading became almost stagnant on an attempt to realize. The small demand forced some liberal concessions and People's Gas and Metropolitan Street Railway reacted 1¼ each. Hocking Valley lost a point and some railroads sold below opening prices. Northwest preferred dropped 3. Large blocks of Amalgamated Copper was taken around 72 and a later rise in Sugar to 127⅛ caused a steadier tone elsewhere. St. Lawrence & Adirondack gained 3⅛ in all and Distilling preferred and Pacific Coast second preferred 1@1½.

The market was very dull, but prices drooped generally to below last night. The reaction ran to 1@1⅞ for Sugar, Metropolitan Street Railway, Missouri Pacific, Union Pacific and St. Paul, and carried Reading a point under last night, the second preferred 1⅜, and Lackawanna 2½. Offerings were on a very small scale after 1 o'clock, but prices continued to work downwards, and Sugar lost all of its rise. Delaware & Hudson, Texas & Pacific and St. Louis & San Francisco first preferred declined a point, and Peoria & Eastern 2. North-Western preferred rallied 1½.

Prices continued to drift downward until practically all gains were wiped out. Sugar fell a fraction under last night, Metropolitan Street Railway 1⅜ and Missouri Pacific and Union Pacific a point each. Later there was some improvement. American Smelting rose 1⅜ over last night and Great Northern and International Pump about a point. The closing was dull and firm.

Bonds were less active and irregular.
