AROUND THE TOWN

Bilked by Forger.—Detectives were busy last night searching for a forger who swindled several saloon men and restaurant keepers by passing worthless checks on which were the names of companies which do not exist. They were drawn on the German-American bank and were written for small amounts. The men who cashed the checks have a good description of the forger.

Accused of Theft.—Charles Carlson, 30 years old, was arrested last night by Detectives Morrissey and Stavlo and locked up at Central station, charged with grand larceny. He is accused of entering Carl Johnson's room at 627 Washington avenue S, and stealing a gold watch valued at $40 and a suit of clothes. The watch was recovered in a pawn shop, but the clothes have not been found.

BETWEEN LIFE AND DEATH

Andrew L. Scott Undergoes Dangerous Operation in Hospital.

Andrew L. Scott, 3808 Thomas avenue S, a well-known resident of Minneapolis, is in the Northwestern hospital in a serious condition as the result of an operation for pithelioma, performed Monday morning. Mr. and Mrs. Charles MacMillen of Duluth and William Scott of New York, arrived in the city shortly before the operation and are at the residence of their parents. Mr. Scott's chances of recovery can not be determined for several days.

Some rubbers last a day—some a season. "Others" and "Foot-Schulze."

PHONE FOLK FEAST AT A BIG BANQUET

NORTHWESTERN'S OFFICIALS AND MANAGERS AT TABLES.

Two Hundred and Fifty Persons at Tables Form the Chief Social Feature of the Second Annual Convention of Men Who Manage Miles of Wires at Many Exchanges.

The Northwestern Telephone Exchange company's officials, managers and guests filled the large banquet room of the Hotel Nicollet last night for the dinner which closed the second annual convention of managers. Two hundred and fifty plates were laid for the occasion. Men of note in telephone circles of the east were present, as well as owners of connecting lines in the northwest, also superintendents of telegraphs and railroads.

President H. J. Pettengill presided as toastmaster, until it was necessary to leave, when he was succeeded by A. C. Cobb, of general counsel for the company.

C. P. Wainman, general manager, the first speaker, was followed by other prominent telephone men. C. B. Doolittle of Boston, inventor of hard-drawn copper wire, which made long distance telephoning possible, and an officer of the Bell Telephone company, told of the early days of telephony. Harry C. Hope of St. Paul, superintendent of telegraph and signals of the Omaha road, illuminated the subject of telephones in railroad service. Other speakers with serious talk and story telling made the occasion a protracted one, over the cigars.

C., M. & ST. P. DEAL AT HASTINGS.

Special to The Journal.

Hastings, Minn., Nov. 24.—The long-pending negotiation between the Milwaukee road and Mrs. Barbara Keluhofer, for the transfer of the old brewery on Lake Isabel and eight and one-half lots adjoining, was closed today for $5,550 in cash. The buildings and bridge will be taken down and the hill graded, eliminating a bad curve and giving ample room for double tracks and a rearrangement of the yards, which will be necessary if the proposed plan of sending thru freight from the coast to Hastings, instead of St. Paul, is carried out.

ELKS WILL EULOGIZE THE DEPARTED MEMBERS

Charles Hamilton of Milwaukee Will Deliver Address on Occasion of Annual Lodge of Sorrow.

Elks all over the United States will hold memorial services for their departed brothers next Sunday at 3 p.m. The Minneapolis lodge has seven members whose names have been inscribed on its memorial tablets within the last year and it will hold services for them in the Metropolitan operahouse. The dead of the year for the Minneapolis lodge are Frank L. Conkley, Abbott Blunt, E. T. LeClaire, Fred Fisk, Charles Sahley, Thomas Garrity and Adolph H. Filer.

The exercises will be of an unusually interesting character. Charles Hamilton of Milwaukee, one of the foremost orators of that city, will deliver the principal address. George Bleeker of Minneapolis will pronounce the eulogies for the deceased brothers, and the Rev. J. S. Montgomery of Fowler church will pronounce the benediction.

The musical part of the program will be unusually fine. It will consist of several numbers by the Symphony quartet, composed of Heinrich Hoevel, Raymond Shyrock, Ola Hals and Carlo Fischer; a contralto solo by Mrs. W. N. Porteous, and a tenor solo by David Black. The Elks' male quartet, George W. Buckingham, Dayton W. Elliott, Fred G. Smith and Alexander McLean, will sing the responses in the ritualistic exercises and will probably sing one number besides.

VETERANS DECIDE TO FOREGO THEIR PIPES

Morgan Post Hall Will Not Permit Smoking in New Quarters in City Hall.

My Lady Nicotine has been excluded at meetings of Morgan post, G. A. R., and civil war veterans who are affiliated with the post must forego the smoking pleasure when they are in the new memorial hall in the courthouse. Despite the fact that a majority of the members of the post are addicted to the tobacco habit, the action was taken unanimously at Friday night's meeting.

D. C. Handy presided in the absence of Post Commander Grant, who is receiving honor in his native Vermont for his services to his country during the war. The meeting was the first held in the new hall since the valuable new carpet has been laid and the veterans decided to set a good precedent for the other posts of the city by prohibiting smoking in the new quarters. A number of pictures were donated to the soldiers' home and George W. Cooper of the Nineteenth Wisconsin infantry was enrolled as a member of the post.

The annual election of Morgan post officers will be held Friday night, Dec. 7. On next Tuesday evening a concert under the auspices of the different posts of the city will be given in the county and city assembly hall in the courthouse. The proceeds will go to their memorial hall fund and veterans from every post in the city are taking part in the preparation of the program.

BABY FOUND MURDERED

Body of Infant Discovered Near University Campus.

Child murder will probably be shown by an autopsy to be held at the morgue today on the body of a baby found by children on the river bank near the university of Minnesota campus, early last evening. The body had been placed in a tin pail and hidden in a clump of bushes. The head was crushed in as tho it had been struck with some instrument, and this blow is thought to have caused the death.

The infant was probably only a few day old and there was nothing near it to show its identity. The police were notified and are investigating.

TRAGIC MYSTERY IN MAN'S FALL FROM CAR

THREE MEN STRUGGLED ON TRAIN AT EXCELSIOR.

One of the Trio Fell, Leaped or Was Hurled to His Death as the Train Neared the Drawbridge—Man Killed by Streetcar at Hopkins.

Mystery surrounds the death of an unidentified laborer who fell from a Minneapolis & St. Louis passenger train in Excelsior yesterday afternoon after a hard struggle with two men on the platform of the smoking car.

Whether the man, bent on suicide, hurled himself from the train, was thrown by the two men who struggled with him, or fell accidentally, is not known.

As the train passed over the St. Alban's bay bridge, several persons saw the three men struggling. One man had his coat off and the others seemed to be grappling with him. Back and forth they swayed on the narrow platform, when one suddenly reeled and lunged headlong to the ground. The train went on, the two anxiously watching the writhing man until they passed out of sight.

Fell to His Death.

Those who saw the tragedy ran to the prostrate man, finding him still alive but scarcely breathing. They tried to arouse him that he might explain the affair, but he was unconscious. Dr. R. S. Miles, Jr., was summoned, but the man was beyond help and died a few minutes later.

In his pockets was $40 in cash, but nothing that would aid in an identification. Any papers that might solve the mystery were probably in the coat, which was left on the train in possession of the two men. The victim of the tragedy was about 35 years old, of medium height, and weighed about 200 pounds. His face was smooth-shaven and his complexion was light.

Coroner J. M. Kistler was notified and the body was taken to the county morgue early today. The police have been asked to look for the two men who were on the train. They did not report at police headquarters, as expected, altho they may return to Excelsior today to inquire for the dead man.

Killed by Streetcar.

Another unidentified man was struck and instantly killed by a Minnetonka car last night while he was walking on the street railway bridge over the railroad tracks in Hopkins.

The motorman says that he was crossing the bridge at an ordinary rate of speed when a man suddenly appeared in front of the car. Before the car could be stopped he was struck and knocked to one side. The motorman and conductor jumped out, but the man was unconscious and died a few minutes later.

The bridge is made only for cars and is not planked. The sidewalk is on the ground level below. No one saw the old man start to walk up the incline, and what he was doing there is a mystery.

At first it was thought that the man was Charles Lindberg, an inmate of the poor farm, but Lindberg was found sleeping in his bed. The man was poorly dressed and had no money in his pockets. As the inmates of the farm were all asleep, a rollcall could not be taken, but tomorrow the names will be checked up.

The body was taken to the county morgue.

CHESS EXPERT RANKS CITY'S PLAYERS HIGH

Marshall, American Champion, Divides Honors with Sixteen Minneapolis Enthusiasts.

While the Indiana and Minnesota football teams were battling in the presence of cheering thousands, F. J. Marshall, champion chess player of America, was playing sixteen different contests at one time, involving something more than 1,000 distinct plays, while a company of fifty enthusiasts wondered at his wonderful exhibition of mental application.

Counting a point to a game Marshall scored 21 to his Minneapolis' opponents' 6, with five drawn games.

As a result of Marshall's appearance the Minneapolis chess players must be given rank with the best exponents of the game in the country. The percentage of victories over the chess champion was greater than in any city visited by Marshall, and six citizens of Minneapolis are boasting of victories over the greatest chess player in America. The men who succeeded in defeating the champion are: W. D. Gislason, G. Harris, C. E. Thayer, C. C. Peterson, F. A. Huxman and F. N. Stacey. The victories came when Marshall was walking from board to board, playing sixteen men at the same time, but their record surpasses that established by players in Buffalo, Erie, Detroit, Cincinnati, Indianapolis and Chicago, and Mr. Marshall last night stated that he ranked the Minneapolis players with the best in the country.

Marshall started from New York two weeks ago and has been touring the country giving exhibitions. He is scheduled to play in different parts of the United States until Dec. 16, when he will take a rest in preparation for his challenge match with Lasker for the championship of the world.

FOR A HOME FOR THE AGED.

The ladies' branch No. 3 of "Lyngblomsten," held a private sale Wednesday evening at the home of Mrs. Alex Anderson, 1778 Emerson avenue S, which added $51 to their building fund. The articles sold were aprons and dolls made by the members. The aim of this society, whose members are Norwegian ladies organized in branches in different parts of the city, is the erecting and maintaining of a home in this city for the aged persons of their nationality.

What Sulphur Does

For the Human Body in Health and Disease.

COSTS NOTHING TO TRY.

The mention of sulphur will recall to many of us the early days when our mothers and grandmothers gave us our daily dose of sulphur and molasses every spring and fall.

It was the universal spring and fall "blood purifier," tonic and cure-all, and, mind you, this old-fashioned remedy was not without merit.

The idea was good, but the remedy was crude and unpalatable, and a large quantity had to be taken to get any effect.

Nowadays we get all the beneficial effects of sulphur in a palatable, concentrated form, so that a single grain is far more effective than a tablespoonful of the crude sulphur.

In recent years research and experiment have proven that the best sulphur for medicinal use is that obtained from Calcium (Calcium Sulphide) and sold in drug stores under the name of Stuart's Calcium Wafers. They are small chocolate coated pellets and contain the active medicinal principle of sulphur in a highly concentrated, effective form.

Few people are aware of the value of this form of sulphur in restoring and maintaining bodily vigor and health; sulphur acts directly on the liver and excretory organs and purifies and enriches the blood by the prompt elimination of waste material.

Our grandmothers knew this when they dosed us with sulphur and molasses every spring and fall, but the crudity and impurity of ordinary flowers of sulphur were often worse than the disease, and cannot compare with the modern concentrated preparations of sulphur, of which Stuart's Calcium Wafers is undoubtedly the best and most widely used.

They are the natural antidote for liver and kidney troubles and cure constipation and purify the blood in a way that often surprises patient and physician alike.

Dr. R. M. Wilkins, while experimenting with sulphur remedies, soon found that the sulphur from Calcium was superior to any other form. He says: "For liver, kidney and blood troubles, especially when resulting from constipation or malaria, I have been surprised at the results obtained from Stuart's Calcium Wafers. In patients suffering from boils and pimples and even deep-seated carbuncles, I have repeatedly seen them dry up and disappear in four or five days, leaving the skin clear and smooth. Although Stuart's Calcium Wafers is a proprietary article and sold by druggists and for that reason tabooed by many physicians, yet I know of nothing so safe and reliable for constipation, liver and kidney troubles and especially in all forms of skin diseases as this remedy."

At any rate people who are tired of pills, cathartics and so-called blood "purifiers" will find in Stuart's Calcium Wafers a far safer, more palatable and effective preparation.

Piano Prestige and How We Build It

"Prestige," according to the dictionary, means "influence derived from former achievements."

The building of piano prestige could be of no advantage to a house that did not expect to **permanently** retain the patronage of its customers.

There are many "fly-by-nights" in the piano trade. That is, dealers who think, "Well, I cannot sell this man more than one piano anyway—few people buy more than one or two pianos in a lifetime."

That dealer makes all he can on each individual sale. He doesn't care a rap about the **future** patronage of the buyer. Prestige is nothing to him.

We try to treat each and every buyer so well that if he ver does buy another piano he will buy it of us.

And when his children and children's children grow up and have homes of their own, they will come to us.

That's what we are working for—the **future** patronage of our customers.

And this great desire on our part is your absolute insurance of square dealing. Think it over.
