STOCK MARKET OPENED TO TRADE IN ALL STOCKS

Exchange Starts Business With Wild Hurrah, and Prices Are Carried Upward.

LIBERAL SELLING FOLLOWS

Figures Slide Off Rapidly, but Reaction Is Beneficial to General Tone of Market—No Fear Felt for Dumping of Foreign Holdings.

BY BROADAN WALL.

NEW YORK, December 15.—Stocks started with a wild hurrah to-day. For the first time since July 30, all stocks were open for trading on the floor. The transfer of such leaders as Steel common, Union Pacific, Southern Pacific and Canadian Pacific from the clearing-house to increased public interest, and market orders brought sharp advances in the first few minutes. Shorts outbid each other, and the high prices that were scored in the first ten minutes brought in logical sequence liberal selling from local institutions that had been forced to take over loans, selling from traders who had picked up cheap stocks and selling in quite a large amount for English and German account.

Prices slid off rapidly, but the market was not overfed, and the reaction was more helpful than otherwise, as some of the gains scored within the previous twenty-four hours could hardly be considered as justified by the mere resumption of public trading.

Only July 30, Steel common closed at 57⅞. Heavy blocks changed hands privately during the summer as low as 56, and deep interest was felt in to-day's opening price. Four thousand shares were sold between 58 and 58¾ when the gong struck. This proved the high point of the day, the shares going down to 57¼ in the late trading. Around 58 Steel common has time and again proved a good speculative investment, and, with the minimum price forty-eight brokers are pointing out to their clients the probabilities of a fresh advance. It is estimated that the railroads will place large orders for steel rails within the next thirty days, and foreign orders are looked for the rebuilding of bridges.

Canadian Pacific fell from the opening price of 162½ to 158. Both Union and Southern Pacific were strong at the opening, with later declines, the former reacting from 89½ to 88⅝, and Union from 122 to 117¾. Profit-taking carried Amalgamated Copper down 2½ points from the opening, and Anaconda was under pressure for foreign account. Baltimore and Ohio dropped from 71 to 69½, and Northern Pacific sold from 104½ to 103¾. Both the stocks are relatively high when compared with Pennsylvania, Great Northern, pfd. or Union Pacific.

Floor traders were not disposed to dabble in fluctuations, and their absence from the trading resulted in wide movement in sales. There was little disposition to go short of stocks. Foreign selling is expected to continue, but it was not believed the market would be forced to take stock in sudden or large amounts. On the other hand, the bankers are not willing to encourage great speculative activity until after the turn of the year, as there are too many lame ducks to be nursed back to health before the speculative situation can be considered thoroughly strong.

Low-priced stocks that can be had for outright prices are the safest for the present.

NEW YORK, December 15.—The outcome of to-day's stock trading, viewed with especial interest because it signaled a resumption of dealings in the entire list was said by brokers to have been a source of disappointment to the long account. Initial quotations in all prominent issues, including the international list gave promise of a continuance of the strong tone shown in the two preceding sessions.

With the first signs of a demand, however, heavy selling orders appeared, and advances soon gave place to declines which grew with the passing hours. In the final hour these ranged from 2 to over 5 points in more active issues with little recovery towards the close. United States Steel and Baltimore and Ohio were especially susceptible to decline.

European interests were reported active disposing of fully 25,000 shares.

More than half the day's business was transacted in the first hour, the balance of the session being dull and without noteworthy feature.

On the whole the course of the market reflected conservatism by investors no less than caution by the bears.

It was hoped to-day of the reported attitude of the Interstate Commerce Commission respecting the Eastern freight rate increase, and the fact that the large steel interests were soon to arrange their wage schedules for the coming year with prospects of a general reduction, made for further pause in that quarter.

Reichmarks were weaker. Bills on London were steady, and markets there reflected a strong tone.

Long time loans in the local market hardened a trifle with short dates unchanged. Bonds weakened in sympathy with stock.

NEW YORK, December 15.—Closing: Mercantile paper, 4¼@4½. Sterling exchange, firm. Sixty-day bills, $4.850; for cables, $4.88; for demand, $4.8755; bar silver, 58¾. Mexican dollars, 45¼. Government bonds, steady; railroad bonds, easy. Time loans, firmer; sixty and ninety days, 3¾@4; six months, 4¼.

COTTON MARKETS.

NEW YORK, December 15.—Cotton was very active to-day, and prices showed a tendency to sag under scattered offerings from Southern sources. The close was steady at a net decline of 3 to 5 points. The opening was steady at an advance of 1@4 points in sympathy with steady cables and reports of steady spot markets in the interior. There seemed to be very little demand however, and the market soon turned a shade easier under a little New Orleans and Wall Street selling. There was no hedge selling of importance, and the market showed a fairly steady tone at the decline. Closing prices were about the lowest of the day.

The government crop report indicated that the price of cotton on the farm at the beginning of the month averaged only 6.8 cents per pound. In spite of the low values of cotton, however, the country's total crops on the basis of prevailing farm prices on December 1 were estimated to be worth only $21,000,000 less than last year's, encouraging expectations of an improving general trade.

Spot cotton, quiet; middling, uplands, 7.35; gulf, 7.60. No sales.

Cotton futures closed steady.

	Open.	High.	Low.	Close.
January	[illegible]	7.34	7.25	7.27
March	[illegible]	7.34	7.24	7.27
May	[illegible]	7.37	7.28	7.30
July	[illegible]	7.42	7.34	7.36
October	[illegible]	7.56	7.49	7.48

NEW YORK, December 15.—Middling, 7.25. Exports, 150 bales; stock, 9,216 bales.

Total to-day at all ports: Net receipts, 100,[illegible] bales; exports, 6,[illegible] bales; stock, 1,[illegible] bales.

Total for week: Net receipts, 290,234 bales; exports, 37,226 bales.

Total for season: Net receipts, 3,718,504 bales; exports, 1,803,241 bales.

NEW ORLEANS, December 15.—Cotton developed soft spots to-day under lack of supporting orders and moderate selling. The lack of the buying which recently has been in evidence was keenly felt. Many traders believe the buying wave is ended. Much of the recent buying was said by brokers to have been for Liverpool account and was in the way of undoing straddle trades. The close was about at the lowest a loss of 4 to 5 points.

Total exports for the day were only 5,009 bales, while receipts were 59,858 bales. The advance of 5-16 in Savannah spots was a sustaining influence, and probably held the market from closing lower than it did.

Spot cotton, steady. Sales on the spot, 250 bales; to arrive, 2,370 bales.

Cotton futures closing: January, 6.95; March, 7.10; May, 7.28; July, 7.47; October, [illegible].

NEW YORK PRODUCE MARKET.

NEW YORK, December 15.—Raw sugar, steady; molasses, 2.24; centrifugal, 3.89; refined, quiet. Butter, firmer. Cheese, steady and unchanged. Spot coffee, steady; Rio 7s, 7⅝@7¾; Santos 4s, 10½c.

Cottonseed oil started steady, but later weakened in face of the lard strength, owing to scattered liquidation and lack of fresh absorbing power. Final prices were 7 to 12 points net lower. Sales, 9,200 barrels. The market closed weak. Spot, 5.85@5.85; December, 5.68@5.70; January, 5.77@5.79; February, 5.88@5.87; March, 5.97@5.99; April, 6.05@6.09; May, 6.21@6.23; June, 6.30@6.35; July, 6.41@6.46.

REAL ESTATE RECORD AND COURT CALENDAR

Yesterday's Transfers Show Marked Increase in Volume of Trading in City and County.

BUILDING BETTERS LAST YEAR

For First Half of December Aggregate of Plans Filed Exceeds Total for Whole Month of December, 1913—Some Sales in County.

Building operations for the month of December will show a marked improvement over the same month last year. For the first half of the month the operations, as compared with the whole of last December, show an increase of $669. Building Inspector Butler has issued permits, and has applications in his office pending, for work that will aggregate $171,593. This is for the first fifteen days of this month, and for the whole of last December the operations were $170,994.

The Inspector said yesterday that he believed that work in Richmond would be better in the next few months, and that the building operations would show a marked increase. He pointed out that the month of December, in one sense, the first of the year, prospective builders having their plans prepared and all business transacted in readiness for the starting of work just as soon as the weather opens up. Just at this time of the year the owners desire that the buildings be completed and ready for occupancy by the first of June, which is the beginning of a renting period.

Realty transactions yesterday show a continued demand for small property. The business yesterday was much better than has been the case for the past several days. The sales were mostly for suburban property. Several large sales went to record yesterday in the county.

C. E. Sprenkle filed plans with Building Inspector John E. Butler yesterday for the erection of several dwellings in the West End. The buildings will cost $46,000.

Sarah Cranor and others transferred yesterday to John Cranor, 149.7 acres on the south side of the Nine-Mile Road, about three miles from the city. The consideration named was $14,000. W. F. Glau sold to E. F. Beeker, 196.229 acres on the Varina Road, about eight miles from the city for $10,500.

CHANCERY TRANSFERS.
