COPPER LEADS MARKET THROUGHOUT SESSION

Day in Wall Street Closes With Improvement in Nearly Every Department.

ACTIVITY & BRINGS REJOICING

Anaconda Takes First Place, but Even Trouble in Mexico Does Not Prevent Smelters From Joining in Movement.

BY BROADAN WALL.

NEW YORK, February 9.—Copper stocks led the market throughout to-day's session in Wall Street, and the day closed with improvement in nearly every department. Coppers showed material net gains. The Street has been waiting so long for these stocks to move that to-day's activity was hailed with rejoicing. Many traders had become discouraged and had dropped their stocks, but they promptly began replacing them. Anaconda was the leader, and even the trouble in Mexico was not able to hold Smelters from joining in the movement.

Next to the advance in coppers, the important feature of the day was steady accumulation of munition stocks. Some extremely large war orders are to be announced in the near future. One in particular is expected to electrify the Street. It is so large that it will probably have to be distributed among all of the munition makers, and undoubtedly will revive public speculation in these shares. Westinghouse was one of the best-purchased stocks in the Street throughout the day.

In spite of publicity warnings on the part of the railroads, the railroad shares are being well purchased by investors. Remarkable earnings justify the statements made two and three years ago by careful students to the effect that what the roads needed was not higher rates, but more tonnage, and more efficient management. Of all the railroads in the United States that are in the hands of receivers, there is not a mile, so experts say, that was put there as the result of labor troubles or of improper rates. The report on the Rock Island just made public by an efficiency expert, shows that even the failed railroads are not bankrupt. The wave of prosperity that is overwhelming the roads threatens to sweep away opposition to the eight-hour day that the men are demanding.

Wall Street interprets the peaceful settlement of the Lusitania matter as evidence that large war orders will make their appearance in the near future. Bankers argue that if Germany had any idea of working for peace, a quarrel with the United States would be useless. Since Germany sees fit to remain friendly with this country, her intentions must be to prosecute the war for an extended period. It is generally believed that J. P. Morgan went to Europe for the specific purpose of getting details of important orders for munitions.

Of the companies likely to receive war orders, the most prominent are the Westinghouse, Crucible and the New Midvale Company. In view of the large number of recruits to be put into the field the kind of arms most likely to be needed is rifles. Since Crucible is the chief manufacture of gun bar steel, and Westinghouse of rifles, the logic is clear that these two companies will receive the bulk of the new business to be placed.

Westinghouse is believed to be cheap, even without war contracts. The advantage it has gained by having its German competitors put out of business for a few years will never be all be lost.

Passage by the Senate in the afternoon of bills allowing three naval cadets to each Congressman and Senator instead of two, as heretofore, and the appropriation of $900,000 for navy-yard improvements, was a distinctly bullish argument, according to Wall Street's way of thinking. Much of the cheerfulness at the close was due to this action.

The Maxwell Motor Company announced that holders of warrants who don't exchange them for first preferred stock trust certificates before March 10 will not be entitled to the dividend of 1¾ per cent payable April 1. The warrants are being rapidly exchanged for preferred stock. The Maxwell Company has standardized its cars so that purchasers will not be made to look like back numbers as each year's new model appears. This apparently unimportant fact is reported to have great influence on the sales, and has encouraged much buying of the stock.

Erie has been made a partner of Steel as a barometer of business. Its gain of $6,941,262 in net for the last half of 1914, and of $1,977,398 for December, is therefore of more than ordinary significance. Erie is used as the yardstick of prosperity because it specializes in freight. President Underwood makes no pretence of speed for his passenger trains. His only desire is to get them to their destination in safety. He leaves speed and ambitious time to other roads. But he does go out for the freight, and even the Pennsylvania is not so truly representative of the business of the country as is the new Erie. Erie's earnings, therefore, disclose a remarkable condition of growing prosperity.

NEW YORK, February 9.—Lack of buying power implying little public interest was once more the dominant feature of to-day's market, which was dull and circumscribed to the last hour, when a wide and general demand in leading shares resulted in numerous substantial gains.

On the whole, coppers were foremost in the day's operations. Rutte and Superior leading that group with an extreme gain of 5⅝ to 8½. Lackawanna Steel and Crucible Steel, as well as American Car, General Electric, Westinghouse and other equipments featured the war issues at gains of over 2 points, while various unclassified shares, as well as utilities like Western Union and Mackay companies gained as much.

This betterment was partly offset by intermittent heaviness in oils, motors, Harvester Corporation, Sugars, American Sugar, United States Industrial Alcohol and People's Gas. While making up much lost ground later, rails were subordinated to the more speculative stocks. The rally was at its fullest vigor in the final dealings. United States Steel and American Smelting sharing conspicuously in the upward movement.

Increased strength was shown by rates on Berlin and Vienna, with steadiness in sterling and francs.

Firmness ruled in the bond market, except for Anglo-French 5s, which made a further decline to 84¾ on relatively heavy offerings. Total sales, par value, aggregated $3,329,000. United States bonds were unchanged on call.

NEW YORK, February 9.—Mercantile paper, 3@3½. Sterling, sixty-day bills, $4.71; demand, $4.76; cables, $4.76. Bar silver, 56⅝. Mexican dollars, 43⅝. Government bonds, steady; railroad bonds, firm. Time loans, steady; sixty days, 2½; ninety days, 2¾; six months, 2¾@3. Call money, steady; ruling rate, 1¾.

COTTON MARKETS.

NEW YORK, February 9.—The cotton market lost part of yesterday's advance during to-day's trading, but after selling off to 12.12, May rallied to 12.21, and closed at 12.19, with the general list closing steady at a net loss of from 6 to 10 points.

The market opened steady at a decline of 2 to 6 points in response to disappointing cables. Houses with Liverpool connections were sellers of the later months, while near months in New Orleans were easier. Reports as to Marine war risks were conflicting, and prices here soon sagged under scattering liquidation, local and Southern selling. A better demand developed around 12.11 for May, 12.27 for July, and 12.30 for October, and the market turned steadier. Buying was by no means active on the advance, but the firmness of the stock market was accompanied by little demand from Wall Street. March contracts rallied from 11.92 to 12.01, while July sold up to 12.36, and October to 12.36 in the late trading. The close was within 2 or 3 points of the best. Reports that a small lot of cotton freight for room had been booked at $2.50 out of New York to Liverpool, were confirmed, but the market was quoted to-day at $2.50 bid and $2.75 asked.

Closed steady:

	Open.	High.	Low.	Close.
March	12.00	12.05	11.92	11.98
May	12.22	12.24	12.12	12.19
July	12.26	12.38	12.27	12.33
October	12.1[illegible]	12.42	12.30	12.35
December	12.33	12.53	12.43	12.48

Spot cotton, quiet; middling uplands, 12.10c; no sales.

NEW YORK, February 9.—Port movement—Middling, 12.10c; exports, 637 bales; stock, 320,990 bales.

Total to-day at all ports—Net receipts, 18,459 bales; exports, 3,375 bales; stock, 1,715,070 bales.

Total for week—Net receipts, 94,387 bales; exports, 81,665 bales.

Total for season—Net receipts, 5,098,454 bales; exports, 2,994,278 bales.

NEW YORK PRODUCE MARKET.

NEW YORK, February 9.—Raw sugar, steady; centrifugal, 1.96@1.96; molasses, 1.06@1.09; refined, steady. Spot coffee, firm; Rio 7s, 8¾; Santos 4s, 9¾. Butter, very firm; cheese, steady.

Cottonseed oil was higher on short covering in March, talk of export demand and record high prices for crude. Profit taking sales near the close caused a partial setback, but final prices were 1 to 6 points net higher. Sales, 15,400 barrels. Closed steady. Spot, 9.40 bid; February, 9.45@9.70; March, 9.50@9.51; April, 9.39@9.41; May, 9.26@9.27; June, 9.25@9.29; July and August, 9.25@9.26; September, 9.23@9.26. Total sales, 15,400.

It Pays a Man

to knock about and see what other people are doing and how they do it.

That's our policy!

Accordingly we sent one of our men last week to N. C. to look around in a section where we have loaned a good deal of money.

Rode 250 miles in a machine in 6 counties.

Splendid roads and more of them than we have seen anywhere.

Looked at a dozen or more farms on which we have heretofore made loans, and placed in 6% $1,000 coupon bonds and sold to investors here.

Pleased? Yes, sir!

And the holders of these investments have something as good as if secured by property in the heart of Richmond.

LANSING WANTS CHANGE IN LUSITANIA WORDING

Suggests "Recognizes Liability" as Substitution for "Assumes Liability" in Agreement.

WASHINGTON, February 9.—One of the changes in the Lusitania agreement suggested by Secretary Lansing to Count von Bernstorff, the German ambassador, is the substitution of the words "recognizes liability" for the words "assumes liability," which are employed in the tentative draft.

GERMANY MUST NOT LIMIT EMPLOYMENT OF SUBMARINE

BERLIN, February 9 (via London)—Count von Reventlow, the naval expert of the Tages Zeitung in an article today deals with the report contained in American dispatches to the effect that the Washington government would not insist on the words "illegal" or "disavow" in adjusting the Lusitania controversy, and exhibits anxiety lest Germany's representatives may, despite the omission of these words, submit in principles to demands which might limit the employment of the submarine. This point, he says, and not a question of formulas, must be decisive.

FACE NINETEEN CHARGES

Fifteen Additional Charges Lodged Against C. E. Brown and J. H. Bradley.

Police yesterday afternoon entered fifteen additional warrants against C. E. Brown and J. H. Bradley, the men alleged to have secured contributions for a railway trainmen's dinner from numerous local firms, charging them with the thefts of amounts ranging from $5 to $25. There are now nineteen charges standing against Brown and Bradley, with four charges against S. H. Roane. He, however, was not named in either of the warrants entered against the men yesterday. All of them have been bailed for their appearance in Police Court on February 17.

Following is the list of charges against the men: Stealing $25 from the Export Leaf Tobacco Company; $10 from Stephen A. Ellison & Co.; $5 from the Overman-Williamson Co.; $5 from Bingham & Co.; $5 from C. P. Lathrop & Co.; $15 from Liggett & Myers; $5 from Union Storage Warehouse Co., Inc.; $25 from the Virginia-Carolina Chemical Company; $10 from Larus Brothers & Co.; $10 from the Virginia Bonded Warehouse Corporation; $20 from the Tredegar Company; $15 from W. F. Richardson, Inc.; $5 from Anheuser-Busch Brewing Co.; $15 from W. S. Forbes & Co.; $5 from Binswanger & Co.; $5 from M. W. Martin and Brother; $10 from Kentucky Tobacco Product Company; $10 from Stephen Putney Shoe Co., and $10 from the Thacker Shoe Co.

Free Millinery Classes.

Millinery classes will be started again in the Richmond public schools, commencing the week of February 14. The tuition is free to residents of Richmond. Materials are furnished by the students. The classes will meet as follows: Vocational Night School, 805 East Marshall Street, Monday and Thursday nights, and trade class, Tuesday night. Binford Night School, Thursday night; Bellevue Night School, Monday night; Highland Park Night School, Tuesday night; Madison Night School, Monday night; Nicholson Night School, Thursday night; William Fox School, Wednesday afternoon.

Woman Is Arrested.

Policemen Sweet and Bertucci last night arrested Mrs. Emma Vaughan on a warrant charging her with being disorderly and assaulting Mrs. Maud Griffin with a cup.

Held for Theft.

Policemen Moore and Kidd last night arrested Percy McCabe on a warrant charging him with stealing $21.58 from John Myers.

TO ELIMINATE HYPHEN

National Americanization Committee Sends Literature to Richmond. Greeks to Study English.

The National Americanization Committee, whose object is to eliminate the hyphen by teaching the aliens who come to America how to read and write the English language, has sent large colored folders to the Chamber of Commerce and W. H. Magee, director of industrial education in Richmond, for distribution.

The poster reads: "Learn English. Attend night school. It means a better opportunity and a better home in America. It means a better job. It means a better chance for your children. It means a better America. Ask the nearest public school about classes. If there is none in your town, write to the United States Bureau of Education, or to the Americanization Committee." The poster is printed in ten different languages.

Mr. Magee will meet sixty Richmond Greeks, who are anxious to attend night school, at the Railroad Young Men's Christian Association to-night in order to make arrangements that these men who applied on their own initiative may be taught how to read and write English. All the prominent Greeks in Richmond are interested.

Juniors Meet Saturday.

Chesterfield Juniors, United Daughters of the Confederacy, will hold the regular monthly meeting on Saturday afternoon at 3 o'clock in the home of Mrs. H. M. Lauder, 1205 Porter Street.

Safest for Savings

VICTORY is won by an early START, and the man or woman who begins to SAVE while the earnings are BIGGEST will be DOLLARS and YEARS AHEAD of the one who puts things off.
