STEEL MAKES ANOTHER NEW HIGH-RECORD PRICE

All Little Steels Climb Mightily, Gains of 3.5 and 6 Points Being Common.

2,000,000 SHARE VOLUME

Day Satisfactory From Constructive Point of View—Railway Equipment Shares of All Description Prominent—Many New Accounts.

BY BROADAY WALL.

NEW YORK, September 29.—United States Steel made another new high record price to-day in Wall Street, and all the little steels climbed mightily. Gains of 3, 5 and 6 points were common. Trading approached the 2,000,000 share volume, and the day was very satisfactory from a constructive point of view. Many new public accounts were opened, and, although professionals took profits liberally, the stock held firm.

In the early trading, railway equipment shares of all descriptions were prominent. They opened in some cases as much as 3 points above the closing of the previous day. Among the most active were Railway Steel Springs, American Car Foundry, Pressed Steel Car and American Locomotive. The new high records for the movement thus established were improved from time to time during the day. Nobody asked reasons for the movement because it is now so well understood that the companies are making anywhere from 25 to 75 per cent on their common stocks.

American Can, which has been quiet, showed some signs of activity when it advanced to the high record price established last spring. Shortly after it did this, official announcement was made of a 12 per cent advance in the price of its output. The can company provided itself with raw material a year ago to last it through the boom days now being experienced. An officer of the company recently said that at the present price of tin the company could make more selling the raw material on hand than in making cans. The increase in the price of cans, therefore, is a natural result of trade conditions. The company is also making shells to the satisfaction of the allies and millions of profit are piling up on that account.

A feature of the day was the searching out and bringing forward of stocks but little traded in. Cast Iron Pipe was one of the dead ones dug up to-day at a material advance over the previous quotation. General Electric, which has been a favorite among traders who look for neglected bargains, continued to do well.

Rails were quiet, but the buying of them is of the best kind. President Ripley, of the Atchison, is the victim of much good-natured criticism because of his doleful talk about the plight of the railroads. The only trouble with the railroads just now is that they are unable to appreciate their own prosperity.

Mr. Ripley has an unbroken record as a false prophet. In every critical period he has been prominent with his doleful talk, and in every case he has been wrong. The Street is therefore very much encouraged by his present wailing.

Of course if the railroads are going to buy equipment heavily at present prices, their money will not go far, but the industrials are showing them the way by paying off all obligations and refusing to incur new ones except where urgent necessity demands.

Westinghouse, Car Foundry, General Electric, Baldwin and a long list of prosperous concerns will not distribute war profits until every debt that it is possible to pay off is paid. New York Air Brake, which has more money than debts, is going so far as to invest its surplus as reserve to protect its dividends for the future. Republican from which has been a star performer this week, has laid away so much money that, according to an officer who was quoted to-day, it could liquidate and pay $121 a share to the common stockholders.

So the railroads are learning wisdom and refusing to purchase equipment until the stock now in use is about to fall to pieces. It is getting close to that condition, and the car-equipment companies are to receive big orders in the next few weeks.

Coppers were quiet, but in copper headquarters it was noised about that they would have their turn again in the near future.

Anaconda has not reached the high price decided upon for it, and it will lead the whole group in a new upward surge before long.

NEW YORK, September 29—Dealings on the Stock Exchange to-day concluded the fourth successive week of five full sessions each and one week-end two-hour session in which transactions exceeded 1,000,000 shares. This is repeated without precedent since the years which marked the many huge industrial combinations and mergers, including that of the United States Steel Corporation.

To-day's turnover of 1,718,200 shares was noteworthy for the enormous proportion of industrials dealt in, this group completely eclipsing the rails, coppers and other issues recently most active.

United States Steel led throughout on sales of 200,000 shares. Other iron and steel shares, conspicuous for their strength and activity included Republic Iron and Steel at the new record of 48.

Gains of 1 to 3 points in industrials were scored by Colorado Fuel, American Car, Crucible, Lackawanna and Sloss-Sheffield Steels, Cast Iron Pipe, Ball Steel Springs, Pressed Steel Car, New York Air Brake and American and Baldwin Locomotives. Profit-taking reduced some extreme gains by 1 to 2 points at the close.

Rails were backward, but displayed a strong undertone, particularly Union Pacific and the Chesapeake and Ohio Valley recovering its quarterly dividend twice over an advance of 2½ points. Many war and semi-war issues benefited by the rise in industrials, together with petroleums and sugars.

Bonds were dull and strong. Total sales, par value, $4,000,000.

United States bonds unchanged on call.

NEW YORK, September 29.—Mercantile paper, 2½. Sterling, sixty-day bills, 4.75½; demand, 4.76½; cables, 4.76⅝. Bar silver, 69½. Mexican dollars, 50½. Government bonds, steady. Railroad bonds, strong. Time loans, steady; sixty days, 2½@3; ninety days, 2¾@3; six months, 3@3½. Call money, firmer; ruling rate, 2½.

COTTON MARKETS.

NEW YORK, September 29.—Reports of frost in the Southwest caused a rally in the cotton market today, January selling up from 16.1[illegible] to 16.2[illegible]. Demand did not become active, however, and prices later eased off, with January closing at 16.15c. The general list closed steady, net unchanged to 5 points higher.

The market opened steady at an advance of 7 points, but there seemed to be quite a good deal of cotton for sale, and prices sagged off shortly after the call, with December selling down to 16.05c and March to 16.30c, or about even with last night's closing figures. The eastern belt forecast for frost in northern sections to-night checked offerings, and the market later improved on weather reports showing temperatures below freezing at a couple of points in Oklahoma. This rally carried December up to 16.17c and March to 16.40 or some 8 to 12 points above last night's finals, but the buying was not aggressive, and after the press remained very quiet, the last prices showing reactions of 6 to 7 points from the best. Three private crop reports were issued. One made the condition 58.2, against 64.7 last month, another was 58.3, against 62.2, and the third was 57.7, against 64. last year. According to this latter report 46.2 per cent of the crop has been picked, against 25 per cent last year, and the condition points to a yield of about 11,496,000 bales.

	Open.	High.	Low.	Close.
October	15.17	15.88	15.80	15.82
December	16.19	16.17	16.05	16.10
January	16.29	16.23	16.13	16.15
March	16.36	16.40	16.30	16.34
May	16.57	16.58	16.49	16.50

Spot cotton, quiet; middling, uplands, 16.00. No sales.

NEW YORK, September 29.—Port movement—Middling, 16.00. Exports, 9,334 bales; stock, 91,953 bales.

Total to-day at all ports—Net receipts, 31,422 bales; exports, 9,268 bales; stock, 825,865 bales.

Total for week—Net receipts, 290,613 bales; exports, 123,711 bales.

Total for season—Net receipts, 1,263,129 bales; exports, 814,180 bales.

NEW ORLEANS, September 29.—Cotton held steady, but quiet, to-day, with a slight upward tendency, partly owing to the cold weather in the belt and predictions of frost to-night over a large area. Other influences were several bullish private condition reports, better cables than due and an unexpected advance of an eighth point in local spot prices. Liquidation of long cotton and hedging operations came close to filling the demand, and the highest levels showed a rise of half to 10 points. At one time the market stood within about 10 point of yesterday's close. The close was steady at a net gain of 1 to 3 points.

Fresh business was restricted by the nearness of the government report. The cold weather caused much bullish comment, but resulted in little buying. The market, as a whole, was a small affair, with the developments of the day falling flat.

Closing bids: October, 15.48; December, 15.69; January, 15.81; March, 15.96; May, 16.26.

Spot cotton, steady, 12 points up. Sales on the spot, 780 bales; to arrive, 2,275 bales. Middling, 15.56c.

NEW YORK PRODUCE MARKET.

NEW YORK, September 29.—Raw sugar, nominal; centrifugal, 5.89; molasses, 4.99; refined, steady. Butter, steady. Cheese, firm. Spot coffee, steadier; Rio 7s, 5¾c; Santos 4s, 8½c.

Cottonseed oil was quiet and somewhat erratic. An opening advance was followed by a moderate downturn under selling by local long and refiners, but the close was firmer on the late steadiness in lard and cotton. Final prices were 2 points lower to 2 points net lower. Sales, 14,000 barrels. The market closed firm. Spot and September, 10.40 bid; October, 10.41@10.44; November, 10.27@10.24; December, 10.23@10.27; January, 10.25@10.26; February, 10.32@10.46; March, 10.41@10.45; April, 10.50@10.52; May, 10.55@10.60.

CHICAGO GRAIN MARKET.

CHICAGO, September 29.—After wheat in some cases to-day had touched the highest prices for this season, heavy profit-taking by bulls led to a decided setback. The chief bullish influence continued to be the lack of rain in Argentina. Closing prices here, however, were weak, 2c to 1c net lower, with December at $1.54⅛, and May at $1.53⅞. Corn followed off the wheat, and the decline to 4c advance, and provisions unchanged to 25c down.

Dun's Review.

NEW YORK September 29.—Dun's Review to-morrow will say:

Restraining influences hamper but do not check progress, current reports adding to the accumulated evidence of prosperity in industry, trade and transportation. Holiday observances have had the usual effect of temporarily limiting business in some branches, and labor conditions still restrict manufacturing operations; yet bank clearings at most leading centers, as well as the smaller cities, mount upward steadily, and other statistical barometers also make remarkably gratifying exhibits. The high and rising prices constitute a source of complaint and cause some hesitancy in forward commitments, but the purchasing power is sustained by the full employment of workers at advanced wages, and signs of contraction in consumption are the exception. It is noteworthy that demands are broadening in practically every direction, following the partial let-up in midsummer and retail distribution, under the stimulus of recent cool weather, has developed in a way that foreshadows a record movement during the fall and winter.

Weekly bank clearings, $4,879,397,486.

New Vegetables Here

Spinach, Kale, Celery and Eggplant Among Offerings.

The new things on the retail market to make the hearts of the housewives glad this week are largely confined to the vegetable stands. Spinach, at 50 cents the peck; kale, at 30 cents; turnip salad, at 30 cents, and this year's turnips at 5 cents the bunch, are the new things the monarchs of the vegetable stands are bragging about. Bermuda onions, Virginia celery and home-grown eggplant are also on the new list. The fish men are talking loudly about the fine new chubs they have to offer their customers at 15 cents per pound, while the meat men are laying much stress on pork sausage, which they say is very fine and cheap enough at 25 cents the pound. Young guineas that go readily at 65 and 75 cents each, are the new things among fowls that are offered for the first time this week.

The quotations below will hold good for to-day:

Wood's Seeds.

Seed Wheat.

The Seed Wheats we offer are from the best and most productive crops grown in the finest wheat-growing sections of Virginia, and are carefully recleaned by us to remove all impurities and small and inferior grains, so as to supply our customers only with plump and well-developed seed wheat, which should yield considerably more per acre than ordinary wheats imperfectly cleaned. All of our Seed Wheats are selected from good yielding crops, which with our methods of cleaning, makes the Seed Wheat which we offer very much superior to ordinary seed wheat.

Write for Wood's Crop Special giving full information and prices of Seed Wheat, Seed Oats, Winter Barley, Rye and all seeds for Fall sowing. Prices and samples of any seeds desired, mailed on request.

T. W. WOOD & SONS, SEEDSMEN, - Richmond, Va.

"Take My Order

for one of the Henrico Iron Works Corporation bonds. Let me know amount and I will forward check."

This is a 6% investment secured by First Mortgage on property in Richmond at half its value, split up into bonds of $1,000 each.

The above order came yesterday from a Doctor in a country town.

Besides being a good physician he is a financier! A saver!

Security---

A carefully selected mortgage approaches more nearly absolute security for money than anything else known and available.

The loans on which our First Mortgage 6% Farm Bonds are issued are made only on improved income-earning farms. Worth at least twice the amount of the mortgage.

Call or write for booklet telling all about these bonds.
