V. M. I. PARADE GROUND IS UNDERGOING REPAIR WORK

Extensive Improvements Being Completed for Banner Session During Year of 1921.

[Special to The Times-Dispatch.]

LEXINGTON, VA., July 17.—The work of completing the grading of the parade ground at the Virginia Military Institute is now well under way. When this is finished, which will be before the opening of the next session in September, the parade ground will be large enough to serve the needs of the institute for many years, even when the plans, now in the making, for the "Greater V. M. I." have been realized.

The improvements at present being made are under the supervision of the department of civil engineering of the institute. They include not only an enlarged parade ground, but a new roadway from the gate to the barracks parallel with the old one. A beautiful feature of this will be a row of trees separating the two driveways throughout their entire length.

The field at the cavalry stables is also undergoing a change. A culvert will soon be completed. Then the field will be leveled and filled in so as to meet present and future needs. Additions to the stables are also in course of construction.

Many Improvements Started.

It is planned to start work on the athletic field and stadium soon.

The barracks and other buildings are being renovated and improved in many particulars. The enlarged power house, with new boilers, will be ready for use in the fall. A number of improvements in building and equipment will be made at the hospital. Better housing facilities for the big guns are also being provided.

General E. W. Nichols, superintendent, said today that the eighty-first session of the Virginia Military Institute would begin on September 1 with a complete roster of cadets, a greatly enlarged faculty and many additions to academic, laboratory and military equipment. Six hundred cadets is the limit that can now be accommodated. The records show nearly that number already signed up for next session.

The institute now offers the most extensive and complete courses in all departments in its history. In academic and profesional studies, courses leading to the bachelor of science and bachelor of arts degrees are provided in civil engineering, electrical engineering, chemical engineering and liberal arts.

Four Military Units Established.

In the military department there are infantry, cavalry, field artillery and engineering, all four established as units of the Reserve Officers' Training Corps, United States Army, and each under the immediate instruction of a regular army officer, with adequate staff of assistants, detailed by the Secretary of War.

The Virginia Military Institute is the only college in the United States so equipped, offering standard academic and scientific training alone with military instruction and practice in four branches, designated by army experts as of the highest order. The recent government inspection put the institute at the top of the military colleges of the country, a distinction it has maintained ever since the War Department began the practice of making an annual inspection and rating of such colleges.

The V. M. I. summer school will begin its annual session on July 26, at the Rockbridge Alum Springs, Va.

FREDERICKSBURG NORMAL

FREDERICKSBURG, VA., July 17.—The work of the summer session has been characterized by unusually faithful work on the part of the students, and many special features have been arranged. Regular trips have been arranged by motor to historic battlefields and other places of interest in the environs of Fredericksburg. Excursions for geographic and nature study have been arranged, and students have unusually good material for study along these lines.

A number of specialists have visited the school, giving lectures on health and hygiene. Miss Morris of the Y. W. C. A. has also given a special series, and Miss Florence Röhr, of the United States Department of Justice, gave special lectures on the high cost of living. Dr. W. A. Brumfield will also give a course in social hygiene under the State Board of Heath. There will also be a representative of the Armenian relief on Monday to address the student body.

New Type Teacher Coming to School

Better Salaries and Mutual Organization Will Add to Efficiency.

BY DR. WM. A. McKEEVER.

When your boy and girl go back to the class room next autumn they are almost certain to be met at the door by a type of "school ma'am" new to this country. For the first time, within this generation at least, the teacher is in a position to act as an aggressive and independent personality rather than as a tame and submissive nonentity.

Teachers' salaries have been forced up to something like a respectable standard and there are more jobs than claimants. One can resign almost any day and secure another place as good as the old one or better.

I am rejoiced to know teachers are organizing for mutual protection and benefit. Hitherto, as a typical low salaried instructor has been stuck at limit, inclined to bow to the superintendent and to kow tow to school board members to hold his appointment.

Your child and mine are now certain to feel the result of a new forceful and independent personality. They are likely to be called upon to come up to the mark and swing into line. And along with this red blood in the face of the teacher is certain to come more of a showing of red blood in the tissues of the child.

The dear-sweet-thing type of high-school freshman and sophomore—let us hope and pray—will now tend to disappear. And for the school as a dainty hot bed of tender culture, we may expect to emerge as a welcome substitute an institution of intellectual belligerency, one that will fight its way into open affairs of every day society.

Yes, that raise from $50 to $150 per month, that membership in the federation—which means a safeguard against the autocracy of superintendents and boards of education—is certain to react favorably on the education of our children. Political influence and social standing will now count for loss in securing special favors and professional ranking for our boys and girls. They are likely to be required to do the work and come up to the requirements all in one common movement.

The positive type of teacher instead of the negative, the aggressive attitude instead of the cringing—this means that favoritism is off and democracy is on in our public schools. It is encouraging the idea that all the children are to be ranked in accordance with merit, and without fear or favor. Let us encourage this idea of no caste, no pamperism, no favoritism, with the hope that the school may really refine and promote the best purposes of democracy.

It seems to me that the new Declaration of Independence which this peculiar age has invited the common teacher to adopt, is to become an epoch-making affair in the training of the child. Let us hail with delight this new educational era.

On Friday the grammar-grade section of the observation school gave a play under the direction of the critic teacher, Miss Phillips. The play, "Every Child's Quest for Success," was in four acts, and showed to a marked degree what can be done in dramatization with children. The students have enjoyed superior facilities in observing the working-out projects and advanced methods in reading and other subjects during the present session. The work in the primary grades is under the supervision of Miss Nash.

On the social side the students have had abundant entertainment. During the past week they have attended the Chautauqua, and during the present week moving pictures in the school auditorium, hikes and trips to Washington and week-end parties have been the vogue.

President Chandler was in Farmville on Monday and Tuesday attending the annual meeting of the State Normal School board.

Miss Plummer, of the faculty, spent the week-end in Washington.

Miss Atkinson spent the week-end at a house party at the Moncures, in Stafford.

Mrs. A. B. Chandler, who has been spending some time with her sister, Mrs. Semple, at Colonial Beach, has returned.

DR. K. J. HOKE CALLED TO JOIN FACULTY OF W. & M.

Former Richmond Man Added to Force of Instructors in the Educational Department.

(Special to The Times-Dispatch.)

WILLIAMSBURG, VA., July 17.—On account of the increased enrollment in the Department of Education last year, and the even greater increase expected this fall, Dr. J. A. C. Chandler, president of the College of William and Mary, stated today that another professor had been secured for that department. Dr. K. J. Hoke, the new professor, will bring the faculty to four men, as it already consists of Professor H. K. Bennett, J. R. Geiger and W. T. Hodges.

Dr. Hoke is well known in this State, as he was for five years second assistant superintendent of the public schools of Richmond. From the capital he went to Duluth, Minn., as superintendent, where he made a splendid record as an organizer and executive. Dr. Hoke is a doctor of philosophy of the Teachers' College, Columbia University.

One-third of last year's enrollment are scheduled to teach, and it was necessary to enlarge the department of education. It is the desire of Dr. Chandler to make the pedagogical and psychological courses of such a grade that they cannot be excelled in this State.

Dr. Hoke is an authority on tests and measurement, and a book written by him on these subjects will be published shortly.

In addition to his courses in the department of education, Dr. Hoke will be assigned some of the administration work heretofore in the hands of the President, such as vocational guidance, and of general charge of the advisement of students. Through this office of vocational guidance it is hoped that all students entering William and Mary College will leave with some definite aims and preparation.

Robert Kent (Bobby) Gooch, well known throughout the Old Dominion and the South as one of the best gridiron and track men ever developed at the University of Virginia, will be an associate professor of political science and English here next year, Dr. Chandler has announced.

Mr. Gooch is an M. A. of Virginia, and an B. A. of Oxford University, England. He was sent from Virginia to Oxford as Rhodes scholar, one of the highest honors conferred by Virginia. He has taught at the University of Virginia as an assistant, and during the war served as a captain of artillery.

As William and Mary believes in physical training for all students, Mr. Gooch will encourage more mass athletics. It is expected that he will help in developing the track squad, and aid Professor Driver with the football material.

WOODSTOCK

(Special to The Times-Dispatch.)

WOODSTOCK, July 17.—Mrs. Robert Merrill delightfully entertained the Five Hundred Club, Thursday morning.

Mrs. Davis W. Grabbill and Misses Sue and Lucy Magruder are guests of their brother, P. S. Magruder, in Baltimore.

Mrs. E. E. Williams and little daughter of Mobile, have arrived to spend the summer with her parents, Mr. and Mrs. D. Bowman, of near Woodstock.

Miss Virginia Schmitt is spending ten days at Atlantic City.

Mr. and Mrs. Claude Albert and two children, of Baltimore, were guests this week of relatives in Woodstock while en route to Harrisonburg to visit Mrs. Albert's parents.

Miss Nan Grabill has returned to Charleston, W. Va., after a visit to her parents, Captain and Mrs. J. H. Grabill.

Mrs. George Santmiers, of Roanoke, was a guest this week of Mr. and Mrs. W. G. Murdock.

Actually Removes Hair Roots—Something New!

Harmless Method; Works "Like Magic"

To have the superfluous hairs come out, roots and all, before one's very eyes, sounds almost too good to be true. Yet many thousands of women have proved to their own satisfaction that this can be accomplished—easily, quickly, harmlessly—by means of the wonderful phelactine process.

This method is not to be compared at all with any liquid, powder or paste, nor with electrolysis or anything else. Nothing like it ever originated. It causes the hairs to come out entire, roots included, leaving the skin smooth and hairless as a babe's. Phelactine is non-odorous, non-irritating, non-poisonous—a child can safely eat it. Get a small stick of phelactine from your druggist today, follow the simple instructions, and you will have a most agreeable surprise.—Adv.

When the Washwoman Disappoints

There was a time when failure of the washwoman to come when expected was almost a tragedy—it meant inconvenience and heavy toll for the housewife.

But many housewives have learned that the non-appearance of the laundress was really a blessing in disguise—it taught them to try our modern laundry service.

Don't wait for your laundress to disappoint—try this newer, better way—this family laundry service way—it will bring you washday ease, and economy, too.
