Markets

(Continued From Seventh Page.)

The market opened with a soft tone under lower cables than due, the more favorable weather in the interior and foreign messages telling of serious riots in Egypt, which it was claimed had necessitated the closing of the cotton exchange at Alexandria. The first decline carried prices off to the extent of 12 to 18 points. Following the first downward movement the market rallied on the rumor that a private bureau was coming out with a condition report of 15 per cent of normal. The ginning report showed 1,000,000 bales, amounting to 1,032 bales and bringing the total movement from all ports thus far this week to 1,047,000 bales, helped to steady the market, but without causing much buying. The declines were resumed and repeated on subsequent days. Saturday's close of 1 to 7 points, but when July touched 12.35, selling set in again and persisted to the close.

CHICAGO GRAIN MARKET.

CHICAGO, May 23.—Wheat to-day touched the highest prices which the July delivery has touched this season. Corn experienced some bullish, but a degree little short of sensational, and buying was on a huge scale. The market, however, closed unsettled, ranging from ¼ cent net lower to a shade higher, with July wheat 1c up, July corn ½c to 1¾c up, and July oats ¼c to ¼c up. Provisions closed barely off to a shade up, oats down ¾c to 1¼ cent, and provisions varying from 5 cents decline to 12 cents gain.

One of the chief factors which induced broad demand for wheat was an estimate from a leading crop expert that the Kansas yield this season would be 75,000,000 bushels less than the government May report had indicated. Besides the weather throughout the greater part of this grain belt was hot and dry, a condition likely to lead to great damage. Advices that farmers were freely letting go of old wheat failed to check the upturn in values, but on the last part of the day considerable of a reaction took place as a result of selling based more or less on the fact that prices had been on the upgrade for a week and that Belgium and Greece had withdrawn from the market. As expected, the visible supply statistic shrank today to less than 50,000,000 bushels.

Corn and oats reflected wheat strength at times, but for the most part were lower, influenced by big receipts of corn here. Provisions had little activity, but at the last appeared to be tending lower with corn and hogs.

Leading futures ranged as follows:

PRODUCE MARKETS.

COFFEE.

NEW YORK, May 23.—There was increased activity with an advance in price in the market for coffee futures here today. Both New Orleans and local traders appear to be covering shorts on reports of further rains in Brazil, and after early sales of July at the opening of the market, up to about 20,000 bags had been absorbed, that delivery sold up to 6.65. September advanced to 6.55 and only a few points were the best of the day, showing net advances of 22 to 36 points. There were rumors that the Brazilian loan of $25,000,000 would be completed, receipts would later be increased to $30,000,000, and that the Brazilian government was planning to help coffee to Europe to consignment with a view to selling Rio exchange rates. May, 5.29; July, 6.15; September, 6.51; October, 6.79; December, 7.05; January, 7.15; March, 7.35.

Spot coffee, steadier; Rio 7s, 6¾ to 8¼; Santos 4s, 8¾ to 9½. Cost and freight offers included Santos 4s at 9.30. American mills. The actual sales showed an advance of 150 to 200 reis in the Rio market with no change in Rio exchange rates. The early cables reported an advance of 50 to 75 reis in Santos futures and was followed by two specials, the first of which was 50 to 125 reis still higher, making an advance in all of about 250 to 300 reis. Brazilian port receipts, 23,000; Jundiahy receipts, 14,000.

SUGAR.

NEW YORK, May 23.—The raw sugar market was unchanged although the undertone seemed to be a little steadier with Cuban sugars offered. There were sales of 10,000 bags of Peru centrifugals at equal to 5.32 for centrifugal.

Raw sugar futures were irregular, and after opening unchanged to 2 points lower on covering prices earlier, fell under the pressure selling by commission houses, only to again rally near the close on trade buying with the bulls at points higher to 2 lower. May closed at 5.24, July 5.29, September, 5.41, December, 5.52, all bid.

No sugars occurred in refined sugars which remained at 6.60 to 6.80 and 6.50, while the demand was said to be only moderate. It was reported that a good business had been booked during the past week, but that the refiners, for some, were unable to make prompt shipment. Refined futures were nominal. There was no change in the basis price, which remained at 6.20 for July, August and September, and 6.25 for October.

COTTONSEED OIL.

NEW YORK, May 23.—Cottonseed oil was steady at the outset, owing to the firm position in crude and higher wheat. Later, however, with wheat coming up

AMERICAN GOLFERS CONTINUE TO SHOW BRITONS THE WAY

(Continued From First Page.)

But in the meantime we have quite a few good golfers left in the British fold.

Manford, whom Bobby Jones met, was the reputed dark horse from Edinburgh, where many good golfers come from. There wasn't a very demonstrative gallery, in spite of its size. Phil Tolley, however, was one of those who was keenly interested in the boy's work.

The match seesawed until the fourteenth hole. Jones consistently overdriving by thirty or forty yards, but putting hesitatingly and continually short. Manford's early putting was little short of sensational.

Bobby won the first hole in three, but Manford grabbed the second by sinking a six-yard putt. Manford approached the third green beautifully, after Jones had overdriven his ball, and the Britisher holed out in four. The fourth, where both became trapped, was divided four each.
