UNIQUE WEDDING TAKES PLACE IN ALABAMA

Newspaper Man Marries Couple After Airplane Is Wrecked With Minister.

[By Associated Press.]

BELLAMY, ALA., Sept. 8.—Alabama is talking today about a most unusual wedding. The minister who started to tie the knot was in an airplane which crashed into a tree; a blast from a siren at a lumber plant announced the arrival of the wedding party at the altar; a thousand wedding guests were seated at a table in a frame church built for the ceremony, and the table was so long that those at one end could not hear speakers at the other. Those who didn't dance were entertained by motion pictures.

Miss Evelyn Allyson, daughter of the president of the Allyson Lumber Company, was the bride, and Allen Grubbs, of Eutaw, was the bridegroom. The Rev. Henry M. Edmunds, of Birmingham, started out to fly to the ceremony, but after the accident found himself unable to reach Bellamy in time. Frank Willis Barnett, representing the Birmingham Age-Herald, is an ordained minister, so he stepped into the breach and performed the ceremony. It all happened last night, and the guests say a pleasant time was had by all.

Gowns to Be Fashioned After Lines of Figure

[By Associated Press.]

CHICAGO, Sept. 8.—Gray embroideries on dark frocks, lacy effects for evening and striking color combinations with skirts down to ten inches from the ground will be characteristic of winter styles for women, according to the Fashion Art League of America. Gowns will be fashioned after the lines of the figures, but not form fitting, the league announced. Sleeves will be tight from shoulder to elbow, with a decided flare below.

The new styles will be displayed at the annual convention of the league next week.

"The day following fashions like a flock of sheep is over," Alta Riply, president of the league, said. "Women of America are women of affairs, and our fashions must appeal to the conservative taste, contrary to the edicts of Paris, which demand that costumes be created for the actress."

GALLI-CURCI WILL BE HEARD NEXT MONTH

Grand Opera Star Will Appear With Artists' Course Next Month.

The musical season in Richmond will open earlier than usual this season as seats are already on sale for the series of concerts, known as the Artists' Course, the box office for which is located at the Corley Company, 213 East Broad Street. Orders are being received on every mail. Indications are that the patronage will be tremendous, as Mrs. Wilson-Greene, who is arranging the course, has assembled popular artists, the first to appear being Mme. Galli-Curci, the coloratura soprano, who always packs the City Auditorium, where the concerts will take place.

She will be here October 11, and the subsequent programs will include many well-known artists.

Holders of season tickets will have the advantage of selecting the best seats, and they will occupy the same locations for all five concerts. Seats for individual concerts will be placed on sale only a few days before each event and will be limited to what are left after the subscribers have made their choice.

ASKS V. R. & P. PROPERTY VALUATION BE RAISED

City Manager Ashburner, of Norfolk, Appears Before Corporation Commission.

City Manager Ashburner, of Norfolk, appeared before the State Corporation Commission yesterday, at the annual tax hearing of electric railways, electric light and power companies, gas companies and water works companies. He cited certain specifications on which the city of Norfolk desired an increase in valuation, the property being that of the Virginia Railway and Power Company, and the Norfolk Railway and Light Company, a subsidiary of the Virginia company.

Senator Aubrey E. Strode, representing Campbell County, urged an increase in the valuation of the property of the Lynchburg Traction and Light Company in Campbell County, bringing the valuation up to 100 per cent. The commission called his attention to the decision of the United States Supreme Court in a Kentucky case, which held that property of utility companies might be assessed 100 per cent all over, or 75 per cent, or 50 per cent of the valuation, but to do so it would be necessary to assess all other property in the county or State on the same basis.

E. A. Feldkeller, of Alexandria, representing a chain of utilities, asked for a decrease in the value of his company's properties in Alexandria, in Arlington County, Staunton and Waynesboro.

Today the commission will hear telegraph companies, telephone companies, steamship and express companies.

Hardware Men Plan Meetings.

Plans for future meetings were made by members of the Retail Hardware Merchants' Association last night at the first fall meeting of the association, which was held at Murphy's Hotel. September 13 was selected at the date on which the semiannual meeting of the State Association will be held.

DAILY FASHION HINTS FROM VOGUE

IMPORTANT SLEEVES.

distinctive, low-placed girdles and uneven hemlines—these will be the by-words of the autumn season, and, in proportion to the general simplicity of the mode, which relies chiefly upon the charm of line and beauty of fabric, the trimming that is used must be unique and effective. Possibly the most favored and adaptable trimming is the silk and mental fringes which appear on blouses, skirts, frocks, evening gowns, hats and even on wraps and coats. The semi-princesse model, shown at the left, features an unusual and charming neckline and yoke treatment, and the pointed, panel-girdle fringe is used very interestingly and achieves the preferred lengthened and uneven hemline. The cut of the redingote tunics, which complement the sleeve details, and the effective use of the galloon or cellophoe braid are the important points in the frock presented at the right.

CONNECT TELEPHONES AT RATE OF 200 A DAY

Company Had Nearly 1,600 Orders for Changes as Result of Home-Making September 1.

Telephone connections for those who moved on September 1 are being made at an average rate of better than 200 a day. This is the best record ever made on this kind of work by the Chesapeake and Potomac Telephone Company, District Manager A. S. Tanner stated yesterday afternoon.

Extra gangs have been added to the regular installation force to speed up the work and clear away the mass of orders for connections and disconnections coming as a result of moving day. There are now less than 100 telephones to be connected in the entire city. Total orders for changes of telephones amounted to nearly 1,600, the largest number the company has ever had to handle.

According to the present working schedule, the mass of orders will be cleared off not later than September 15, and possibly earlier.

Condition Not Improved.

Mrs. J. Bell Bigger, who has been critically ill for two weeks, showed no improvement yesterday. Relatives at her bedside have practically no hope for her recovery. Mrs. Bigger is 87 years of age.

WHY YOU NEED IRON—

Tomakeyoustrongand"brainy" and put the power into your blood to overcome disease germs

PRACTICAL ADVICE ON HOW TO DEVELOP GREAT ENERGY AND ENDURANCE

The food you eat contains carbon. When your food is digested it is absorbed from the intestines into the blood. When the carbon in your food comes in contact with the oxygen carried by the iron in your blood, the carbon and oxygen unite, and by so doing they give off tremendous energy, thereby giving you great force, strength and endurance. Without iron your blood carries no oxygen, and without oxygen there is nothing to unite with the carbon in your food, so that what you eat does you no good—you do not get any strength from it—it is like putting coal into a stove without a fire. You cannot get any heat unless the coal unites with the fire.

The strongest weapon with which to prevent and overcome colds, pneumonia, kidney trouble, rheumatism, nervous prostration—in fact, almost any disease or disease germs—is plenty of good, rich, pure blood, strength, energy and endurance, and the greatest energy carrier in the body is organic iron, not metallic iron which people usually take, but organic iron like the iron in spinach, lentils and apples, and like the iron contained in what is known as organic Nuxated Iron, which may be had from almost any druggist.

If you have been taking metallic iron without benefit such is no proof that organic Nuxated Iron will not help you. Nuxated Iron often increases the strength, energy and endurance of weak, nervous, run-down folks in two weeks' time. It is such an extremely valuable product that even the Pope at Rome wrote especially of its merits in a communication to the Pharmacie Normale. It has been used and highly recommended by former United States Senators, Members of Congress, Judges of U. S. Courts, many physicians and prominent men.

Over 4,000,000 people are now using it annually. Satisfactory results are guaranteed or the manufacturers will refund your money. Sold by all druggists in tablet form only.—Advertisement.
