WORK OF TARIFF CONFEREES ENDED, SCHEDULES COMPLETE

Report Will Be Called Up in House Today—Vote Will Be Reached Tomorrow—Senate Action Will Be Delayed by Dye Clash.

[By Associated Press.]

WASHINGTON, Sept. 13.—The administration tariff bill as finally perfected in conference was presented today in the House and the conference report on it, bearing the signatures of the Republican managers, will be called up tomorrow, with the expectation that it would be disposed of not later than Thursday. The measure then will go to the Senate, but because of opposition to the dye embargo and other provisions, action there may be delayed a week or more.

The more important rates in the bill as finally agreed upon in conference, are:

Agricultural Products.

Cattle, from 1½c to 2c a pound; Payne-Aldrich, from $2 a head to 25% per cent ad valorem; Underwood free; sheep and goats, $2 a head; fresh lamb, 4c a pound; hogs, ½c a pound; fresh pork, ½c a pound; bacon, ham and shoulder, 2c a pound; lard, 1c a pound; lard compounds and substitutes, 4c a pound; milk, fresh, 2½c a gallon; buttermilk, 1c a gallon; cream, 20c a gallon; milk, condensed or evaporated, sweetened, 1½c a pound; butter and oleomargarine and other butter substitutes, 8c a pound; cheese and substitutes, 5c a pound; Payne-Aldrich, 6c; Underwood, 20 per cent.

Poultry, live, 4c a pound; poultry, dead, 6c a pound; eggs of poultry in the shell, 8c a dozen; honey, 5c a pound; horses and mules, valued up to $150 each, $30 each; valued over $150 each, 20 per cent; fresh or frozen salmon, mackerel and halibut, 2c a pound; herring and mackerel, pickled or salted, 1c a pound; barley, 20c a bushel; corn, 15c a bushel; macaroni and noodles, 2c a pound; oats, 15c a bushel; oatmeal, rolled oats etc., 80c per 100 pounds; milled rice, 2c a pound; rye, 15c a bushel.

Wheat, 30c a bushel; wheat flour, 78c per 100 pounds; apples, 25c a bushel; apricots, green, ripe, dried or in brine, ½c a pound; cider, 5c a gallon; figs, fresh, dried or in brine, 2c a pound; raisins, 2c a pound; lemons, 2c a pound; limes, oranges and grapefruit, 1c a pound; olives, in brine, green or ripe, 20c a gallon; peaches and pears, ½c a pound; pineapples, in bulk, three-quarters of 1c each; marmalade, jellies and fruit butters, 35 per cent; almonds, unshelled, 24½c a pound; shelled, 14c a pound; Brazil nuts, 1c a pound; coconut meat, shredded, 3½c a pound; peanuts, unshelled, 3c a pound; shelled, 12c a pound.

Peas, green or dried, 1c a pound; onions, 1c a pound; Irish potatoes, 56c per 100 pounds; tomatoes, 4 for 1c a pound; turnips, 12c per 100 pounds; chocolate and cocoa, 2c a pound; hays, $4 a ton; hops, 24c a pound.

Magnesite duties, as fixed by the tariff conferees, are: crude, five-sixteenths of a cent a pound; caustic calcined, five-eighths cent a pound; dead, burned and grain, twenty-three-fortieths cent a pound.

$14,400 Received for 48 Acres West of City

Forty-eight acres of land just west of the city of Richmond has been transferred this week to C. H. Phillips for a consideration said to be $300 an acre, according to an announcement made this morning. Further facts about the sale were not divulged. The property was formerly owned by Stuart Woodward.

FALLING BRICK CRACKS WORKINGMAN'S SKULL

Struck by a falling brick while engaged in his first day's work on a job at the South Twelfth Street power plant of the Virginia Railway and Power Company, William Martin, 702 Nicholson Street, was removed to Memorial Hospital, where physicians found he was suffering from a fractured skull. The brick fell from a twenty-foot scaffold, striking the newly employed workman on the head. Three other people were slightly injured in a series of accidents during the day. Mrs. B. L. Sydnor was struck by a trolley at Eighth and Broad Streets during the rush of traffic at noon hour, and her arm was fractured. She was taken to her home at 3609 Hull Street.

In a trolley-automobile crash on Main Street between Eleventh and Twelfth Streets, the driver and a passenger of the motor vehicle were slightly injured. They are: J. B. Hillman and W. D. Williams, 705 East Grace Street.

Will Encourage Sports.

Charter was granted yesterday by the State Corporation Commission to the Pickwick Athletic Association, Incorporated, Norfolk, Va., a non-stock corporation, to encourage athletic sports and games of all kinds and maintain a clubhouse for the benefit of its members. The officers and incorporators are Norman Hofheimer, president; David Richter, secretary, and Fred A. Herbert, all of Norfolk.

AWARD HUNT CONTRACT FOR ASHLAND STATION

Architect Announces Results of Bidding for R., F. & P. Construction Job.

Aubrey Hunt was low bidder on the construction of the Richmond, Fredericksburg and Potomac Railroad station at Ashland, Va., which will be erected within the next three or four months, according to figures which have been made public by Architect W. D. Lee. The figures themselves were not announced.

Bidding on the contract were J. R. Jones, Aubrey Hunt, Moore & Harry, Claiborne & Taylor, W. L. Ragland & Son, James Fox & Sons.

The work will start immediately, it is understood.

The Richmond, Fredericksburg and Potomac Railroad has, among other projects, the construction of the new $200,000 shops in Acca, and considerable other minor construction.

Ralph Dombrower to Talk.

Speaking on "Little Things That Count Big," Ralph Dombrower will address the members of the Richmond Advertising Club today at 12:55 o'clock in the auditorium of the Y. W. C. A. Mr. Dombrower will cite a number of local instances where little things have been made to count for something worth while. Members of the Women's Advertising Club will attend the luncheon. Plans are in formation for the amalgamation of the two clubs at a near date, at which time a special program will be prepared.

Merger Is Authorized.

The State Corporation Commission yesterday authorized the merger of the Acme Red Ash Coal Company, Incorporated, the Red Ash Fuel Sales Corporation and the Excelsior Red Ash Coal Company, Incorporated, under the name of Excelsior Red Ash Coal Company, Incorporated, Raven, Va. The maximum capital stock is $75,000, minimum $25,000. The officers are George R. McCall, president, Richlands, Va., and A. W. Hortop, secretary, Raven, Va.

Grace Street Brings $2,000 Foot Again

Henry Harwood has just sold to C. E. Phillips for a consideration of $2,000 a front foot, 26 feet of property at Third and Grace Street from the property recently purchased by the former. The new purchaser has not announced what he will do with the property, but has definitely decided not to improve it at once.

CHURCH HILL STRUCTURE TO BE BUILT FOR $42,800

E. H. Armentrout, Richmond contractor, was awarded the contract for the construction of the new Church Hill offices of the American National Bank, to be built at Twenty-fifth and Marshal Streets, according to an announcement made last night by officials of the American National Bank. The work will cost $42,800. It is understood that the contract for the construction of the American National Bank building on Grace Street will be let within thirty days. Work on the Church Hill building begins at once. Possession is expected by the banking officials within five months.

The structure will be located on a corner lot and will be of limestone construction, beautifully finished as a duplicate of the original American National Bank Building, located on Main Street at Tenth.

Other bidders on the construction job include A. M. Walkup, J. C. Beazley & Co., Hunt & Amrhein, Wise Granite and Construction Company, A. F. Perrin, E. H. Armentrout, J. T. Nuckols, Davis Brothers, Inc., James Fox & Sons.

Approves Bank Application.

The Comptroller of the Currency has approved the application of the Washington Banking and Trust Company, Fries, Va., into the First National Bank of Fries, Va., with a capital stock of $40,000.

CONSIDER NEW MEMBERS FOR REAL ESTATE BODY

Several New Real Estate Firms Seek Admittance to Exchange.

Several applications for membership in the Richmond Real Estate Exchange will be acted upon at a meeting of the membership committee of the organization today at 4:30 o'clock, according to an announcement from Aubrey A. Aaron, new secretary of the organization. There are several firms in business now which have just begun operations and who wish to affiliate with the exchange. Their applications have been considered and posted and the membership committee will make its recommendations today. The board of managers will meet in monthly session at 4 o'clock and the report of the committee may be ready for its hands.

You'll Get Rid of Blackheads Sure

There is one simple, safe and sure way that never fails to get rid of blackheads, that is to dissolve them.

To do this get two ounces of calonite powder from any drug store—sprinkle a little on a hot, wet cloth—rub over the blackheads briskly—wash the parts and you will be surprised how the blackheads have disappeared. Big blackheads, little blackheads, no matter where they are, simply dissolve and disappear. Blackheads are a mixture of dust and dirt and secretions that form in the pores of the skin. The calonite powder and the water dissolve the blackheads so they wash right out, leaving the pores free and clean and in their natural condition.—Adv.

The proposed presentation of an oil portrait of General J. Thompson Brown, deceased head of the firm of J. Thompson Brown & Co., will come before the board at this time. The portrait is beautifully done in oil and the proposed presentation will come before the board for approval or rejection today.

The Joy

Of watching film-coats disappear from teeth

If you don't know these facts as yet, send now for this free test.

All the world over careful people are brushing teeth in a new way. Millions of them in America alone. You see the results in prettier teeth wherever you look today. Now let your own teeth show them.

Combat the film

Your teeth are coated with a viscous film. You can feel it now. It clings to teeth, enters crevices and stays. No ordinary tooth paste can effectively combat it.

Film absorbs stains, making the teeth look dingy. It then forms cloudy coats. Tartar is based on film. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Germs breed by millions in it. They, with tartar, are the chief cause of pyorrhea. All of these troubles were constantly increasing under old brushing methods.

Then this came

Dental science then began a search for film combatants. Eventually two were found. One acts to curdle film, one to remove it, and without any harmful scouring.

Able authorities proved these methods effective. Then dentists everywhere began to advise their use.

A new-type tooth paste was created, based on modern research. The name is Pepsodent. In that modern tooth paste are embodied those two great film combatants.

Two other effects

Pepsodent brings two other effects which research proves essential. It multiplies the alkalinity of the saliva. That is there to constantly neutralize the acids which cause decay.

It multiplies the starch digestant in the saliva. That is there to digest starch deposits on teeth which may otherwise ferment and form acids. Thus Pepsodent, twice daily, gives manifold power to Nature's great tooth-protecting agents in the mouth.

What it means to a child

Pepsodent brings a new era in teeth cleaning. It means that children need not suffer what you may have suffered from your teeth. It means that boys and girls, as they grow up, need not have dingy teeth.

Do this

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear.

One week will bring to you and yours a new idea of what clean teeth mean. Cut out coupon now.

Pepsodent PAT. OFF. REG. U. S.

The New-Day Dentifrice

Now advised by dentists the world over. All druggists supply the large tubes.

No Cost

Eighty-six Cement Manufacturers Unite to Serve You

The Portland Cement Association means this: that valuable scientific, advisory and educational work which no one cement manufacturer could reasonably undertake alone is at your disposal. This means that you can be absolutely sure of yourself in using Concrete.

You can be sure in the first place of the cement you buy. Any manufacturer of Portland cement may join the Association, and no manufacturer has to belong to it. But Association By-Laws require that members' products shall measure up to the high standard of specifications of the United States Government and the American Society for Testing Materials. Cement bought from a member of the Association is therefore dependable.

You can be equally sure of the way to use it. If you want information about its usefulness under certain conditions, or about how to mix it or place it to get the best results most economically, you can get it from any one of our 24 offices, one of which is near you.

Supplying dependable information without charge, by booklet, or by personal correspondence or by conference when necessary, is the work of the Association. To supply it authoritatively, the Association maintains a large research laboratory and a staff of more than two hundred engineers.

The Association is, in effect, the joint research and educational foundation of 86 manufacturers of cement in the United States, Canada, Mexico, Cuba and South America. You are invited to use it freely.

Suggestions as to how our work may be made more useful to you are invited.
