MARKET IS UNSETTLED IN LATE DEALINGS

Breaks in General Asphalt and Allied Chemicals Affect Market.

LOSSES TAKE PLACE LATE

Irregular Closing Follows Early Rise, Copper Shares Show Relative Firmness—Cotton Touches New High.

By Broadan Wall.

NEW YORK, Nov. 9. — Sharp breaks in the prices of General Asphalt and Allied Chemical unsettled the stock market in the late dealings today, causing an irregular closing. Final quotations showed net losses and gains about evenly distributed throughout the list.

Steel common again assumed leadership of the general list early in the session and rose to a new top figure for this movement. Its strength spread to other active industrials.

Declines of more than four points in Allied Chemical and of more than five points in General Asphalt had an unsettling influence followed by substantial offerings of shares in other parts of the list. Many shares which showed early gains lost them in the late dealings. Steel common at one time showed a gain of more than a point, but all this advance and one point additional was lost in the late hour. With the exception of General Asphalt and Allied Chemical there were no signs of acute weakness anywhere.

Rumors Bring Selling.

Rumors that General Asphalt was endeavoring to borrow $1,000,000 and the circulation of unfavorable stories relative to developments on its South American properties were accompanied by heavy selling of the stock. Professional bear traders' offerings, together with genuine liquidation accounted for the sharp break. There was a rally of nearly two points on short covering which followed demands from Philadelphia that the company was seeking the loan of $1,000,000. It was said that the visit of two officers of the company abroad had to do with the clinching of an important deal. Street rumor said this deal involved the Royal Dutch and that it was the latter concern which would supply the General Asphalt with new working capital.

Liquidation continues in Allied Chemical.

Relative firmness was shown in the coppers during the day. For the first time in weeks Anaconda broke through $34 a share, the new high price being 34¼. Kennecott and Utah Copper also made new high records for the year. Activity in the coppers was stimulated by the strike situation.

Steel Extends Speculation.

The steel issues dominated speculation on the prospective earnings of the U. S. Steel Corporation for the current quarter. Estimates ran all the way from $20,000,000 to $25,000,000.

National Enameling and Stamping sold ex-dividend 1 1-2 per cent today. It sold at the equivalent of a new high record of 69 1-2.

Cotton touched a new high record. A number of the biggest operators in stocks and commodities are taking a vital interest in the wheat, cotton and corn markets.

French government bonds were again under pressure.

Columbia Gas and Electric showed Cincinnati Directors are scheduled to meet on November 16 when it is expected they will give four shares of this stock and preshare share of a new 7 per cent preferred for one old share.

DECEMBER COTTON IS ON WAY TO 27-CENT PRICE

(By Associated Press.)

NEW YORK, Nov. 9.—Fulfillment of the long-term movement inaugurated the day of yesterday's opening figures, theoretical heavy realizing only serving to impede the upward movement, December cotton touched new high ground for the season.

December contracts sold up from 26.97 to 27.20 and closed shortly with the general market closing weak with the exception of the 17 points and showed considerable irregularity during the early trading as a result of heavy realizing by altered southern selling. The strength in December was prompted by rather disappointing cables and nervousness over the Turkish situation. January sold as low as 26.40 and March 26.60, or 37 points off the top, or about 20 points net lower. There had a good deal of buying was reported for the price of the radio and there was interest shown after December 26.50 had worked below the 26.60 level for December.

This checked the decline and after a few stop orders had been executed on the break prices the market turned firmer with buyers evidently finding comparatively low levels attractive. This encouraged a broadening of the demand, which was also prompted by reports of firmness on the spot market and reassuring New Orleans advices. For a time the market was active and firm on the rebuying by early sellers, covering shorts and taking profits, but active months sold down 20 points and higher during the middle of the afternoon with January touching 26.40 and March 26.60. The detail of the speech after closing there were reactions from the later trading but Liverpool was a considerable buyer toward the close. Last prices showed sections of about 15 points above the best. There were two or three reports of a less active demand in the South, but prices held firm on the spot and markets showed continued firmness and another reported rallies from an early decline there due to trade buying.

	Open	High.	Low.	Close.
December	26.50	26.97	26.37	26.95
January	26.37	26.73	26.27	26.70
March	26.52	26.90	26.41	26.81
May	26.62	26.95	26.46	26.93
July	26.60	26.93	26.45	26.92

Total sales, 1,008,000, against 868,390 yesterday, 1,056,585 a week ago, 772,800 a year ago, and 861,600 two years ago. This year's official values, both in Canada and the United States.

With Liverpool quotations showing a material drop as a result of bearish policy recently inaugurated by the wheat market, it was only a question of how much would be the decline in getting more than a small fraction above 1.00 cents a bushel. The unexpected bearish news set the price of wheat relatively the lowest of corn proved a decided financial handicap to the wheat market. Wheat and corn were clinched with long pressure by reason of the unusual selling of May as an session back in a corner. Aggressive selling of corn took place, but the offerings were well absorbed, largely by houses with Eastern connections, notwithstanding world of heavy export from Argentina. Oats trading was light.

Provisions were governed chiefly by the action of corn.

RICHMOND LIVE STOCK MARKET

Richmond Union Stock Yards

November 9, 1922.
