# MARKET ATTITUDE ONE OF WAITING

## Speculators Want to See What Will Be Outcome in United States Steel.

## STOCK STILL REMAINS BOTH STEADY AND QUIET

## Currency Movement Indicates More Than Anticipated Inflow From Interior.

NEW YORK, July 23.—The sluggish state of the stock market today was significant of a waiting mood on the part of the speculators. The event awaited with most interest at present is the meeting of the United States Steel directors next Tuesday to declare the quarterly dividend. Speculative opinion has about reconciled itself to the view that there will be no change in the dividend rate at that time. There was less fear today that this will be attended by active selling of the stock and a decline in price.

United States Steel was steady and quiet today and conveyed the assurance by its action that the peg has been inserted again at above 70, which had been withdrawn successfully at 72 and 71 on the downward course from the maximum price at 73, which was touched last Saturday.

A hopeful feeling was imparted to speculative holders of the United States Steel stock by the action of Amalgamated Copper. The rise in this stock, which is paying a dividend at the rate of 8 per cent to above 84 caused it to be cited as evidence of what can be done with the price of an industrial security paying 2 per cent and with prospects. The recent ½ per cent quarterly dividend on Amalgamated Copper had been preceded by rumors of an intended increase in the dividend. The influential rise in the price of Amalgamated Copper today was the active market at advancing prices for copper metal warrants in London. The strength of occasional stocks in the list, and, even more, the renewed support accorded United States Steel was effective in holding the general market in spite of the semi-stagnation of the trading.

Estimates of the week's currency movement indicated a larger flow from the interior than had been anticipated, in view of the week's decline in interior exchanges on New York. Subtreasury operations also have yielded a small amount to the banks. The loss of nearly $8,000,000 by the week's gold exports to South America promises to be made up sufficiently to leave an indicated net loss in bank cash of but little over a million dollars. The London discount rate hardened again today. The late statement of the condition of Canadian banks shows a reduction of their loans on call, outside of Canada, of $11,000,000, but with that item still standing at $115,250,000. This item represents for the most part New York indebtedness and a power to call on New York for remittances to that amount.

Bonds were irregular. Total sales, par value, $2,956,000.

United States 2s and 3s declined ¼ per cent on call.

### Planning Tariff Deal.

NEW YORK, July 23.—That the pending customs tariff bill and the effort to secure the listing of United States Steel common stock on the Paris bourse are linked in the minds of some prominent French financiers is the view of Paul Morton, president of the Equitable Life Assurance society, who arrived today from Europe.

Mr. Morton said: "A man high in French governmental official rank came to me with a tentative proposition that if the United States government would make some preferential tariff arrangements for French imports, he could suggest a plan whereby the listing of American securities on the Paris bourse would be almost assured. I told him I could not speak for the United States government, but that I was very sure that no such proposition would be entertained for one moment by our government."

### New York Flour and Grain.

NEW YORK, July 23.—Flour—Receipts, 8800; exports, 10,100. Quiet with prices barely steady.

Wheat—Receipts, 28,800. Spot weak. No. 2 red old, $1.40; new, $1.30 in elevators; No. 2 red new, $1.18½ f. o. b. afloat; No. 1 Northern Duluth, $1.38 nominal f. o. b. afloat; No. 2 hard winter, $1.34 nominal f. o. b. afloat. A violent break occurred in wheat today, following heavy receipts, liberal selling, bearish crop news and stop-loss selling. Prices dropped 1½c and closed weak at ⅛c less on July and 1⅜c to 1⅜c decline on later months. July closed at $1.29¾, September at $1.14¾, December at $1.12¾, May at $1.13¾.

### Need More Small Bills.

WASHINGTON, July 23.—In furtherance of the efforts of the treasury officials to meet the demand for small bills, for use in the movement of the crops, a conference was held at the treasury department today, at which it was decided to largely increase the supply of one and five-dollar bills. The issuance of the two-dollar certificates, which have been unpopular, will be discontinued for the present.

# BULLS ARE UNABLE TO CONQUER BEARS

## Pronounced Weakness in the Wheat Pit Manifest Most of Day; Shorts Only Support.

CHICAGO, July 23.—Pronounced weakness was manifest in the wheat pit nearly all day. The bearish influences were to overpowering for the bulls to attempt to conquer and the supporting of the market was left almost entirely to those who had sold "short" of previous seasons. The first real rush of new wheat to market is now on in earnest and the prospects are for a heavy movement for some time to come. Foreign news also was unmistakably bearish. July sold between $1.11 and $1.13, while September ranged between $1.06 and $1.08⅛. Final quotations on July were at $1.11¾ and on September at $1.07.

Reports of damage to the new crop by hot weather in Oklahoma and Kansas had a strengthening effect on the corn market, the sentiment being bullish all day. Prices at one time were about 1c above the low joint of the session, but with the exception of July delivery all of the gain was not regained. The market closed strong at ⅜c to ⅝c above yesterday.

Oats held up remarkably well considering the extremely favorable reports which came in regarding the new crop. The market closed steady, with prices a shade higher to ⅛c lower.

Provisions were rather heavy all day and closed unchanged to 10c lower.

### Dun's Trade Review.

NEW YORK, July 23.—R. G. Dun & Co's Weekly Review of Trade tomorrow will say:

With the disturbing tariff question soon to be out of the way and with crops that give promise of satisfactory dimensions and an aggregate value hundreds of millions of dollars in excess of the best previous record, business confidence is developing rapidly, although it is noticeable that enterprise is not yet outrunning conservatism in buying for the distant future.

Prices continue to advance in several branches of the iron and steel trade.

Exports of cotton goods thus far this year are more than double those of last year.

Tanners are more encouraged over the prospect for free hides in the tariff bill, and are consequently more disposed to hold off from buying. Domestic hides, though quiet, are unchanged in price, and a further advance has been scored in foreign dry hides. Leather is quiet, owing to buyers holding off until they have secured more orders for shoes. Prices, however, are very strong and decreased receipts offset the diminished demand. Trade in shoes continues quiet, and some of the factories are partly idle in their cutting rooms, having insufficient new business to keep them fully employed.

### Bradstreet's Review.

NEW YORK, July 23.—Bradstreet's tomorrow will say:

Improvement in the crops, easing in prices of breadstuffs, consequent thereon or because of larger wheat crop movement, a good distribution at retail under the stimulus of clearance sales, and a slight enlargement of fall trade with jobbers and wholesalers are the leading features this week.

All pig iron markets report firm prices, but business shows no especial activity except in the east. Copper is firmer, largely on operations in London. Production is still of record proportions.

Business failures in the United States for the week ending July 22 were 239, against 206 last week, 263 in the like week of 1908, 155 in 1907, 171 in 1906, and 197 in 1905.

Wheat, including flour, exports from the United States and Canada for the week ending July 22 aggregate 963,358 bushels, against 1,466,108 bushels last week and 2,259,922 this week last year. For the three weeks ending July 22 exports are 3,814,009 bushels, against 6,883,053 in the corresponding period last year.

Corn exports for the week are 32,092 bushels, against 100,113 bushels last week and 73,890 in 1908.

For the three weeks ending July 22 corn exports are 179,673 bushels, against 191,695 last year.

# EATABLES ABUNDANT ON PRODUCE MARKET

## Demand Is Good, With Prices Within the Reach of All.

The local market is holding steady with fair prices, and the Salt Lake housewife, restaurant and hotel keeper have an abundance of excellent fruits, vegetables, green stuff, poultry and fish to pick out for choice menus today.

Utah potatoes are coming in freely from Davis county and the north, but do not materially affect prices of the California product. The New Utahs are selling at $2.50 retail, while the Californias demand $2.50 per 100 pounds, retail.

A carload of fine California fruits came in Friday, including Bartlett pears, plums and yellow clingstone peaches, all of good quality. The peaches go at $1.75 a box, retail.

Watermelons of splendid quality are coming in plentifully from California, selling at comparatively low prices at this season, for from 2½ to 3 cents per pound.

Old potatoes are nearly exhausted, and the few remaining sell slowly at $2 per 100 pounds.

Lemons are inclined to be easier, and are arriving plentifully.

Oranges are steady, under a light demand for the disappearing fruit.

Tomatoes are much cheaper, and a fresh stock arrives every day by express.

Utah tomatoes sell at 12½ cents the pound, and are just beginning to appear on the market from Bountiful and other Davis county points. Raspberries are on the advance stiffly, becoming very scare. This berry will disappear altogether this week.

Following are the wholesale prices on poultry and fish on the local market: Hens, 19 cents; turkeys, 25 cents; fine broilers, 30 cents; squabs, 50 cents a pair; salmon, 15 cents a pound; halibut, 12 cents; black bass, 25 cents; striped bass, 20 cents; shad, 20 cents; roe shad, 15 cents; Barracuda, from the California coast, 12 cents; salmon trout, from the Columbia river, 20 cents; sturgeon, from Bay Center, Wash., 15 cents a pound. All this stock is dressed for the buyer.

Following are the wholesale prices on vegetables and green stuff: Good sized lettuce, 50 cents a dozen heads; beets, 20 cents to 25 cents a dozen bunches; green onions, 25 cents a dozen bunches; new potatoes, 2 cents a pound; cantaloupes, $1 per crate, direct new shipment from Moapa and Produce, Nevada.
