MARKET IS INACTIVE

Volume of Trade Less Than Usual on Saturdays.

WESTERN UNION LEAPS UP

Gains Three Points Following Increase of Dividends Due to Improvement in Business—Wheat Advances on Bad Weather News from the Northwest.

New York, May 1.—Security prices today in the greater number of stocks did little more than mark time, and closed at small and miscellaneously scattered net declines and advances.

The volume of dealings was much less than it has been on Saturday half sessions recently. Exceptions, however, to the irregular and trivial movements of the market, taken as a whole, were furnished in more than one particular. There was a continuation of the decided strength shown yesterday in Western Union Telegraph stock and in all the Erie issues.

The Western Union shares rose three points, and as they have also risen considerable in the immediate past, the advance therefore led to-day very naturally to all sorts of stories of alliances and mergers in the telephone and telegraph field, but the probability is that the rise in Western Union portends more than anything else an increased dividend distribution upon the company's stock due to the improvement in business shown in the last year.

Erie Bond Issue.

Attention was more attracted to the strength of all the Erie bond issues than to the rise in the Erie stocks, and the current enlargement of the Erie's earnings, the winding up of matters in dispute between the company and the public service commission and the visible results of the betterment work that has been undertaken in the last year along the company's lines are presumably responsible for the advance.

The steel stocks, too, were stronger than they were yesterday, possibly because of the news of another and second advance in the price of Birmingham pig iron, while a further feature of strength was the Pennsylvania shares, owing to the imminence of the day when the shares will sell ex-dividend, but also presumably to the publication of yesterday's flattering statement of the earnings of the company during March.

Wheat Rises Again.

The wheat market again rose upon renewed reports of unfavorable weather conditions in the Northwest. The strike of the seamen on the Great Lakes was not looked upon as a market factor, principally because of the fact that the largest shipping interest on the Great Lakes, the United States Steel Corporation, is not concerned in the trouble.

To-day's bank statement afforded proof that whatever increase in loans has recently been brought about in Wall street and directly connected in the present week with the preparations for May 1 disbursements was largely shouldered by the trust companies. The average figures of the weekly clearing-house statement indicated an increase in the bank surplus of $1,160,000, owing to a decrease in the loans of $2,200,000 and an increase of a little less than $500,000 in cash.

The actual figures of the statement reported a decrease in reserve of $2,600,000, an increase in loans of less than $5,500,000, and a comparatively small decrease in cash. The loans of trust companies and other banks, however, increased $12,500,000.

LOCAL FINANCIAL GOSSIP.

The demand for bonds on the local stock exchange continues unabated. Whether for investment purposes or whether bought on speculation to be sold again, several issues of railroad and electric light bonds have been taken in large quantity during the past ten days. Yesterday $5,000 in Railway 4s were taken at 87⅞, $3,000 Electric consolidation bonds at 103½, and $1,000 of Potomac Electric 5s at 109¾.

Washington Gas continued its downward way, selling seventy-five shares at 70 and one share after call at 69½.

Bell Telephone sold at 107, the highest price paid on the local exchange for this stock since it was listed.

Lanston fell off a little, selling 150 shares at 13¾.

Union Trust sold at 134½, United States Trust at 104, and American Security and Trust at 243 to 242. While the trust company stocks were under call the bid on National Savings and Trust was run up about 10 points in an effort to obtain a few shares, but it was unsuccessful.

The Washington market for securities has been specially active during the week past, at slowly receding prices among the most active issues.

NEW YORK STOCK MARKET.

GRAIN AND PROVISIONS.

Quotations furnished by W. B. Hibbs & Co., members of the Chicago Board of Trade, Hibbs Building, 725 Fifteenth street northwest.

Chicago, May 1.—Wheat prices held firmly to-day on higher cables from Liverpool and on reports of snow and storm damage in the Canadian northwest. The May deliveries of wheat amounted to about 2,000,000 bushels, nearly all of which was taken by the agents of Patten. The market kept within rather a narrow range of fluctuations, but was high and firm throughout the session, closing nearly at the top.

Other grains followed the course of wheat and were steady and firm.

Provisions were 5 to 10 cents higher, held firmly through the session, and closed 10 cents lower to 3 cents higher than the opening.
