UPS AND DOWNS IN N. H. STOCKS

Rises to 57 3-8, Drops Abruptly to 54 1-4, and Rebounds to 56.

I. C. C. REPORT NO ISSUE

Expected Decision on U. P. Segregation Fails and Wall Street Goes Home Disappointed.

New York, July 14.—Today's stock market hung on the expectation of a decision of the Union Pacific segregation and Wall Street went home disappointed, the news on this important question not appearing until after the close. Union Pacific won.

New Haven bounced around like a rubber ball rising to 57⅜, dropping abruptly to 54¼, a new low figure, and rebounding to 56. From the professional point of view the Interstate Commerce Commission's report is merely a matter of history, already discounted in the stock market. Perhaps too many traders were short and their rebuying gave buoyancy to the stock. Nothing ever happens to railroad directors and there is little expectation that precedent will be altered in this case. Security holders pay all the losses and no mistake is rectified after leaving the window as they say at the box office.

Foreign Selling Heavy.

Foreign selling appeared in volume at the opening and lasted intermittently all day, transactions totaling some 30,000 shares with the bulk of the dealings in Canadian Pacific, Steel common and Amalgamated. At London there was selling pressure from the Continent and from New York.

Short covering provided most of the buying and support of this nature is not usually of a permanent character.

Union Pacific, at the low point, 153 3-4 at the opening, rose to 155 1-4 at the close. Readers of this column are familiar with the strong position this market occupies.

Baltimore and Ohio was affected adversely, dropping to 88 1-4, but recovering a point later. Canadian Pacific showed better resistance with a fairly good demand around 186.

The tail sometimes appears to wag the dog. Central Leather was the first stock to advance, rising 35 1-2 to 37 on aggressive buying by Shearson, Hammill & Co. This stock is a speculative favorite.

Why traders should go short of a stock selling around 10 always will be a mystery to many. Missouri Pacific recovered nearly 2 points with the floor traders bidding against each other. California petroleum rose nearly 2 points on the report that a new gusher had been opened. Amalgamated recovered, although foreign houses were sellers on every one-eighth advance.

Coal Stocks Rise Easily.

Coal stocks rose easily, Lehigh Valley gaining 2 points and Reading 1. Steel moved up a point, absorbing all foreign offers. The recovery in prices extended to the bond market. New York, Westchester and Boston 4 1-2s gained 2 points. Missouri Pacific issues from 1 to 2 points and Western Maryland as a point. Wabash refunding 4s were heavy.

Rains in the Ohio Valley benefiting growing corn was the favorable feature of the government weather report. Reports from the other sections were favorable with the exception of the cotton fields in Texas and Oklahoma. In preparation for the crop moving period, banks were asking higher rates for time funds. Local banks have lost some $40,000,000 to the government since Friday. Sterling exchange was heavy.

Without co-operation from bankers, and in the absence of market leaders, professional traders were taking their cue from the selling by investors, for until this movement ceases, nothing more than a traders' rally is expected.

The favorable decision from the New York State Court of Appeals on Union Pacific's extra distribution should have a steady influence. The undertone, however, of the market is more cheerful.

COTTON MARKETS.

The market was bought generally on the opening by local traders on the absence of rain in Texas and the census report on consumption, but no outside buying orders came in to carry the advance along, so they liquidated and found few buyers until December was 10 points off from the high. Liverpool was a seller of March, and leading spot houses were free sellers of December and January. Prices rallied on the weekly weather summary, but the little bulge not more long cotton. The market at times looked hollow and sold off on sheer lack of support. The forecast for partly cloudy weather in Texas and temperatures at noon today not as high as anticipated were two factors that caused liquidation and short selling, but the main reason advanced was the death of outside bullish speculation. Prices this week will be governed largely, however, by Texas weather conditions. The market closed steady, 4 to 8 points under previous close. Liverpool is due to come 3 points down on July-August, ½ down on October-November, and 1 to 2 up on the balance. New Orleans advanced three or four points after our close, and cotton was higher on the curb.—Herbert H. Brown, manager for N. L. Carpenter & Co.

NEW YORK MONEY.

New York, July 14.—Money on call at the stock exchange today opened at 2 3-4 per cent; highest 2 3-4 per cent; lowest 2 per cent; closing 2 3-4 per cent. Most of the loans were made at 2 3-4 per cent.

The time money market was unchanged at 2 3-4a3 per cent for ninety days; 3 1-4a3 1-2 per cent for four months; 3 1-2a4 per cent for five months and 4 per cent with transactions for six months.

Renewed strength characterized the time money market. This is not due to any improvement in the inquiry which remains poor, but to a more conservative lending policy on the part of the banks which are influenced by the low state of their reserves and the desire to be fully prepared for the approaching demands from the agricultural sections of the country. Rate 2 3-4 per cent for sixty days; 3 per cent for ninety days; 3 1-4 per cent for four months; 3 1-2 per cent for five months; 4 per cent for six months and 4a4 1-4 per cent for longer maturities.

The commercial paper market is firmer, being now virtually on a 4 1-2 per cent basis for the best names. Institutions show little inclination to participate because of their unsatisfactory reserve positions. Moreover the Claffin failure is still a factor in the market making for restricted trading.

OUTSIDE SECURITY NOTES.

New York, July 14.—Trading on the curb increased slightly today, but prices as a whole ruled irregular.

For the first time since the decline started Western Pacific fives made a net gain today, selling up to 83 1-2, an advance of 1-2. The better tone was evidently in sympathy with firmness in other Gould properties on the board.

Standard Oil issues were rather heavy, and business was little more active than in the past few days. Ohio Oil sold at 179 and Prairie Oil and Gas made a gain of two points. Small losses occurred in Standard of New York and Kansas and in South Pennsylvania Oil.

Small price changes occurred in Coggers and Cobalts.

WASHINGTON PRODUCE.

Quotations given below are for large lots of good marketable goods only. Jobbers' prices are higher. Lower grades may be sold for less. Fancy goods brought higher prices.

The feeling for choice veal calves and spring lambs was strong yesterday, as receipts of these goods were moderate. Poultry and eggs made no change.

The market for fruits and vegetables was somewhat quiet and well supplied yesterday. Melons were about the only real active goods on that market. Sales of apples, cantaloupes, cucumbers and tomatoes were somewhat low. The supply of these goods was heavy after three days' accumulation. Potatoes ruled easier. Quotations for the other goods were:
