HALF PAGE GOLDBERG COMICS IN SUNDAY'S HERALD

COMMERCE AND FINANCE

STOCKS BOOM AS CRISIS GOES OVER

Prices Show Advances from Two to Ten Points, Studebaker Leading.

RAILROAD SHARES ACTIVE

Tennessee Copper, in Selling at 54 7-8, Reaches the Maximum of Its History.

New York, Aug. 25.—The statement by Ambassador von Bernstorff that it was not the intention of the German government to have Americans killed, and a request to delay action on the Arabic situation until the official report was received from Germany resulted in another sharp upturn in the stock market today.

Prices recorded early in the day showed advances of from two to ten points, the maximum gain being made in Studebaker. Steel common had a very active opening, 70,000 shares changing hands at from 75 to 76, the latter quotation representing a gain of two points.

After the first half hour stocks were supplied, the remainder of the session resulting in substantial recessions from the best of the day, but closing with gains of from one to two points in the standard issues and advances of from two to eight points in the specialties.

Good News Used.

The improved diplomatic relations between the United States and Germany were used by the commission houses in their market letters mailed this evening to encourage purchases of stocks, particularly the railroad shares. The recession in prices from the best was considered natural by the brokers. Any further recession is expected to draw out renewed purchases for long account.

Railroad shares showed a little more enthusiasm than for more than a week. This was attributed to the increased earnings and the decision of the Interstate Commerce Commission in permitting the railroads to raise the rates on crude petroleum from 17 to 20 cents. Increased evidence coming to hand daily that the commission realizes the injustice of many rates notwithstanding that its decision in instances like the Western rate and anthracite cases have not been to the liking of the railroad people.

Reorganizers of the St. Louis and San Francisco and their counsel held a meeting today but failed to whip the reorganization plan into shape for announcement. The plan is expected some say, to contain a novelty in the way of reorganizations.

Tennessee Is High.

Tennessee Copper, in selling at 54 7-8 today, sold at the highest price in its history. Buying of the shares continues owing to reasons freely discussed in this column.

Much mystery surrounds the buying of the stocks of bankrupt companies such as the Missouri Pacific, Rock Island and Rumely. Interests connected with the properties profess ignorance of any developments that would warrant purchases of the shares, and on the other hand claim the outlook is very blue. Brokers claim that the purchases are largely by people who are ignorant of the financial position of these companies, but have come to Wall street to speculate and are buying the bankrupt companies' shares because they sell for a small amount of money.

CAPITAL $1,000,000
SURPLUS $2,000,000
RESOURCES $14,000,000

Age, Strength, Conservatism

This bank is not only strong financially, but unquestionably sound in its policy.

¶ Since 1836 it has been patronized by individuals, firms and corporations, demanding absolute protection and efficient service.

NEW YORK MONEY.

New York, Aug. 25.—Call money opened 1¾, high, 2; low, ¾; renewals, 1¾; last 2 ruling, 1¾. Time money rates are unchanged from Tuesday's quotations. Very few loans are being made at the present time. Although money was offered from many quarters only small loans were negotiated.

The announcement of the completion of arrangements for $20,000,000 French acceptances in New York probably will have the tendency to strengthen time money rates.

Rates are 2½ per cent for sixty days; 2¾@3 for ninety; 3 per cent for four months; 3¼ for five and six months, and 4 per cent for twelve months.

Commercial paper market was a little more active owing to the better feeling on the international situation. Banks again showed a disposition to purchase prime material at very low rates.

Rates were unchanged at 3 per cent to 3¾ per cent for choice sixty to ninety-day maturities; 3¾ per cent to 3½ per cent for four and six month issues.

The Safest Investments

Are those that do not fluctuate during disturbed conditions of the money or stock markets. First deed of trust notes (first mortgages), well secured on real estate in the District of Columbia, constitute "gilt-edge" investments. They do not depend upon the financial responsibility of individuals or corporations for their stability, and are exempt from taxation as personal property. We can supply such investments in amounts from $500 upward. Send for booklet, "Concerning Loans and Investments."

Swartzell, Rheem & Hensey Co.,
727 Fifteenth Street Northwest.

"The Twenty Payment Plan"
permits the purchase and sale of Securities at opportune times; the purchase without making full payment in one lump sum; or their sale at any time at the discretion of the customer.

Write for booklet.

COTTON MARKETS.

New York, Aug. 25.—Although the cotton market opened with fine today showed advance of about eleven points, trading was quiet and at the close prices were two to four points net lower with the new local crop. There was reasons from many sources from the start but the strength in the stock market helped. Well informed people felt that the amount shipped there was little enough to hold the market up. A Texas Credit report on crop prospects in parts of Texas and Oklahoma was the cause of the downward movement, and after the weekly government weather report was published at noon the offering increased. There were reports around the room that Italy was buying cotton in the Memphis district, and traders pointed out that interests which were credited with selling southern before here two or three days ago had now been buying under.

The improved political situation was the feature during the afternoon, this was mentioned by practically all the members present. The prospect and hope for government for the cotton situation also came in for considerable talk, but was not a factor in swaying sentiment.

Exports of cotton for the day were 29,[illegible] bales, compared with none last year. The shipments were all to the Continent. The total for the season to date is 1,[illegible] bales, contrasted with 2,225 bales for the corresponding period last season.

Spot cotton in New York was quiet and unchanged at 9.75. There were no sales. In the south the markets were unchanged to 18 points higher.

CHICAGO GRAIN MARKET.

Chicago, Aug. 25.—As predicted some time since, when the Canadian wheat crop was estimated as one of the largest and best ever grown, that country has shot out of the United States wheat growers for the time being. The buyer exporters at Chicago said today that they were unable to draw bids from the seaboard markets or from abroad because of the fact that Manitoba wheat of about the same quality as our number 2 hard was offered freely 8 to 9c per bushel below a basis for the latter. This fact has shut out demand for American wheat, and unless we meet the asking price of the Canadian grain we will be obliged to hold our wheat until such time as the foreigners care to take it.

In addition to the Canadian wheat as a stumbling block for the producers in the United States, it is a fact that the allies are passing in the Dardanelles Straits. In case the wheat now at Black Sea ports or that which is held back in Russia is allowed to pass down the Dardanelles and into importing countries, there will be a heavy business, and that wheat will be given a preference to the United States wheat.
