COMMERCE AND FINANCE

WALL STREET HAS ONE QUIET DAY

Nothing Worth While for Traders, Is Dope for Yesterday.

BEARS HOLD THEIR BITS

Ignore Indications of Higher Prices and Cling to Their Judgment. Tinned Things Higher.

New York, Nov. 30.—Except for a few specialties price fluctuations in the stock market today were unimportant. Trading was quiet and mostly for the account of professionals, who continue to bear the market in the hopes of bringing out stocks. Holders of securities, however, are unwilling to sell. The bear traders apparently forget that the speculative public that is in this market were forced to buy on large margins. Being strongly entrenched with big margins the professionals should not be surprised that their efforts which have resulted in bbt slight declines fail to bring out stock. Commission house managers believe that it will take a substantial reaction to cause the present rank and file of customers to sell their stocks.

Initial Prices Steady.

Initial prices displayed steadiness, but overnight changes were small and unimportant. A sagging tendency developed shortly after the opening. Alaska gold attracted attention with a new low for this movement. Union Pacific displayed a flash of strength, and subsequently dropped below 140. A better tone prevailed in the latter part of the forenoon, but standard issues failed to show any marked improvement. Whisky stocks, American Can shares and Oil issues were prominent in the afternoon. The close was firm.

Can shares were higher in expectation that the directors at their meeting today would take some action relative to paying up the back dividends on the preferred. The common at one time showed a gain of two points and the preferred three. Persons close to the Can interests, however, said that the meeting was held primarily to confirm the $10,000,000 war order recently received, and that action on the arrear preferred payments would not be taken until January. Establishment of the preferred at a new high record today semed to lend color to this statement.

Railroads Are Strong.

Although the rails did not advance they maintained a firm tone. October railroad earnings announced were favorable. Erie reported an increase in gross of $1,028,469 and a gain in net of $1,215,185; Canadian Pacific gross increased $4,160,285 and Western Maryland, $210,910.

Diamond Match Company stock was active and higher on the local stock exchange for the first time since October. This is the industrial stock which the writer said yesterday would be made active and whose principal market heretofore has been in Chicago. Buying of the shares today was largely for the account of Hartshorne and Picabia, who were also largely responsible recently for creating an active market in United Fruit, whose principal market has been in Boston. This firm has issued a special letter on the stock in which it is said that the company has called for redemption its six per cent convertible debentures, of which there were $1,825,700 outstanding a year ago. It also adds that the retirement of these bonds will increase the amount normally available for dividends by 2 1-4 per cent. The stock, the circular points out, is a seasoned dividend payer and now pays dividends of six per cent regularly with one per cent extra. Reference is also made to the fact that E. R. Stettinius, former president of the Diamond Match Company, is now in charge of Morgan and Company's war order department.

Demand for Locomotives.

American Locomotive was strong early in the day, but weakened in the late afternoon, closing with a net loss of about one point. Reports were current that officials estimated earnengs for the fiscal year ended June 30 at sixty per cent on the stock.

Investment bankers report less demand for high grade bonds and prices receded slightly again today. Public utility and municipal bonds, however, continue in favor.

BONDS FEATURE EXCHANGE.

Mergenthaler Linotype Stock's Gain Is Fractional.

Bonds featured a session of light trading on the Washington Stock Exchange yesterday. A total of $11,000 worth of Washington Railway and Electric 4 per cent bonds were disposed of on a scale down from 81 1-4 to 81. The only other bonds traded in were Riggs Realty long 5s, total of $5,000 worth selling at 100 3-4.

Quotation lots of Mergenthaler Linotype stock sold on an upward scale from 173 1-2 to 172 5-8. Two odd lots of two shares each later brought 173 5-8. The only other stock transactions were ten shares of Capital Traction at 87 3-4, and one share of Graphophone preferred at 136.

CHICAGO GRAIN MARKETS.

Chicago, Nov. 30.—There were further fair-sized takings of hard winter wheat at gulf ports today, the total amounting to 300,000 bushels. The seaboard reported some business there in Durums, but nothing was done in Manitobas, as there are no stocks of this grain available. In the clearances of 1,379,000 bushels of wheat at the seaboard there were 496,000 bushels of bonded wheat. The wheat that is being taken to go out over the gulf is to take the place of the Canadian wheat taken over by the government. There will be other purchases made as those who have contracts to ship Canadian wheat will be obliged to replace it with the winter variety. Wheat closed ¾ lower here today and there were losses of ⅝ to ¾ at Minneapolis; Duluth was ¾ higher to ¾ lower and Winnipeg was ⅛ to 2⅝ higher, the latter for the December future.

The wheat to come out today was from scattered interests with the larger concerns refusing to liquidate any part of their holdings, but on the other hand they bought freely, as was noticeable by the amount taken by Bartlett Frazier Co., whose purchases were possibly 1,250,000 bushels. Scattered holders doubtless feared that the deliveries tomorrow on December contracts would be liberal, which would have a weakening effect on values generally. The heads of cash houses in the trad advanced the opinion that the idea that all wheat tendered on December contracts tomorrow readily will be taken care of by concerns who want the wheat either for export or for milling purposes.

There is not a great deal of contract wheat available for delivery here on contracts, the total now is about 2,700,000 bushels of special bin, No. 1 northern and velvet chaff.

There was no trading in November wheat at Winnipeg today because of the seizure of the grain at Fort William and Port Arthur, the wheat that was deliverable on contracts. The Canadian mill looks unsettled although with the settlement between the holders of the grain seized and the government has been arrived at. According to a special Liverpool cable received here today from Broomhall, many reports are current there regarding the future disposition of the Canadian government relative to the commandeering of wheat. It looks now as if the wheat in the Western provinces in farmers' bins, as well as in country elevators, will be taken over.

There were losses in corn and oats each of ⅝ to ¾c. This weakness was mainly in sympathy with the decline in wheat, coupled with the improved weather for finishing of corn, as well as for the movement of that grain and oats. Cash transactions here were 140,000 bushels of corn and 170,000 bushels of oats. The seaboard reported 1,500,000 bushels of oats for export.

Provisions were weak and lower. The declines were the result of moderate sales of lard and ribs by packers. Scattered longs sold, and there was some bear pressure from local traders. There was no support in the market from the packing interests. The covering by shorts in December pork was a feature.

Liverpool, Nov. 30.—Spot wheat closed strong today. Spot corn firm. No. 1 northern spring, old, 12s 3d; No. 2 hard winter, 11s 4d; No. 2 soft winter, western, 11s 10d.

NEW YORK MONEY.

New York, Nov. 30.—Call money opened 2 per cent; high, 2 per cent; low, 1⅝ per cent; last, 2 per cent; ruling rate, 2 per cent; renewals, 1⅝ per cent.

Improved activity in the stock market has occasioned a broader demand for industrial money. Trading in mixed money is, however, dull. Rates are 2¼@2½ per cent for sixty and ninety days, 2¾@3% per cent for four, five and six months, 2¾@3% per cent for over the year.

Increased firmness features the commercial paper market. The general run of paper is quoted at 3¼@3½ per cent. Only unusual names which have not been offered in the market in any volume are still moving at 3 per cent.

HALF-PAGE GOLDBERG COMICS IN SUNDAY'S HERALD

COTTON MARKETS.

New York, Nov. 30.—Cotton generally was firm today, receiving an initial lose and selling above yesterday's close, but as was the case on the preceding day, Liverpool became a seller of the distant positions near the end of business, causing a moderate setback. Strong spot advices prevented general selling, however, and the list finally was steady at a net gain of 2 points to a decline of 6 points.

At the opening January was down 14 points and the other months were off 5 to 9 points. There was good general buying, and the loss was recovered quickly, prices selling 2 to 4 points above last night's close toward the middle of the morning. At this level trading became less active, and there was enough realizing to bring about reactions of 6 or 7 points from the high level. Prices became firmer again shortly after midday on bullish advices on the spot article from the South, covering, and a renewal of bull support.

Spot here was steady, but 10 points lower at 12.40, with sales of 500 bales. Spot at Liverpool was in good demand at a decline of 10 points, on the basis of 7.65d for middling upland. Futures there closed steady at a net decline of 1@3 points.

Port receipts for the day were estimated at 30,000 bales, against 50,229 bales a year ago. New York warehouse stocks now 236,954 bales, compared with 42,287 bales last year. Exports for the day were 14,793 bales, against 21,698 bales last year. Today's exports were all shipped to the continent. Clearances for big season aggregate 1,709,929 bales, contrasted with 1,361,351 bales for the corresponding period last season.
