The World of Finance and Complete Legal and Real Estate Record

ENTHUSIASM REIGNS AS MARKET CLOSES

New York List Strong, New Higher Records Appearing.

(By the International News Service.)

New York, Sept. 11.—Another session of new higher records with Steel leading attracted more and more of the public to the market today. Starting strong, the market grew more active and moved higher as the end of the day approached. Last prices were made in the midst of great enthusiasm.

Late in the afternoon Wall Street bankers claimed to have reliable information that the Republicans had carried Maine by a substantial majority.

Many of them began buying stocks immediately in the expectation that the McKinley year would be repeated, both in politics and in the market.

Earnings reported were of a splendid character. For instance, the Northern Pacific showed a gain of $1,000,000 for July. Earnings of sixty-seven roads for July were $16,000,000 greater in gross than for July of last year and the net $5,000,000 greater.

All the little Steel stocks became excited. Republic and Sloss-Sheffield moved up sharply to new records, and before the day closed had attracted a large public following. Midvale Steel was cumulatively strong and closed at the top price. Midvale was talked of as figuring in a new merger. So was Railway Spring.

Paper stocks of all descriptions went still higher, but in some of them profit-taking made its appearance, as it did also in the tire stocks. Kelly-Springfield Tire had attracted so much of a following that it was necessary to spread the report of inside selling to keep the public out of it.

Bethlehem Steel began to look familiar when it crossed 500 but General Motors sold at 590 and thereby established another high record. The high-priced stocks seemed in better demand than the cheap ones, which indicated that the very strongest in this were putting the market up. The Texas oil is being bought again by the right people.

The rise in Great Northern Ore was due entirely to the buoyancy of steel shares in general, for the company is selling ore to the steel corporation just the same as when it was under lease. A legal and technical change has taken place, but no actual one in relation to those two companies. The law cannot forbid a gentlemen's agreement to carry out a contract. That is why the government litigation against the steel corporation is going to fail even if it should succeed in the court.

International Nickel, which has broken under 40, some time ago as preliminary to a big movement to new high prices, has finally begun to show the influence of the good buying that has persisted in it all the way down. Industrial Alcohol and Distillers are rising again after the great accumulative campaign that shook the public out of its shares.

In the Marines, new high records were made by International preferred, in Atlantic Gulf and West Indies and a new top for the movement by Gaston, Williams and Wigmore. International Mercantile marine stockholders will have a meeting on September 29 to adjust the finances of that company. Some bankers say that the common stock will be getting a dividend within a few months as the result of a deal now being worked out.

Railroads were quiet and some of the railroad presidents were in the street but could find nobody willing to listen to their troubles. A sliding scale of wages for railroad employes is being discussed.

Fundamentals of the market are sound and the campaign leaders feel that they are just getting the big bull campaign well started.

Investments

¶ The question as to which securities among the country's foremost industrials, railroads, coppers and oils offer the maximum income yield, combined with stability of principal and marketability, is currently covered in our fortnightly publication, "Investment Opportunities."

¶ Anyone who is interested in increasing the earning power of his funds should receive this valuable publication regularly. It will be sent free of charge, beginning with the present issue. Ask for 27-W, which will be accompanied by booklet explaining

"The Twenty Payment Plan"

SLATTERY & CO.
Investment Securities
(Established 1908)
40 Exchange Place New York

The Safest Investments

Are those that do not fluctuate during disturbed conditions of the money or stock markets. First deed of trust notes (first mortgages), well secured on real estate in the District of Columbia, constitute "gilt edge" investments, and do not depend upon the financial responsibility of individuals or corporations for their stability. We can supply such investments in amounts from $500 upward. Send for booklet, "Concerning Loans and Investments."

Swartzell, Rheem & Hensey Co.,
727 Fifteenth Street Northwest.

CAPITAL, $1,000,000.

THE MARGIN

The young man who has landed a good position will be none the better for it unless he saves THE MARGIN above necessary living expenses.

It is not what is earned, but what is SAVED that makes wealth.

If your position is such that you can make financial progress, then by all means lay aside THE MARGIN in a growing Account with this Bank.

2% on Checking Accounts.
3% on Time Deposits.

JOHN JOY EDSON, President.

SURPLUS, $1,100,000.

EXTENSIVE DEMAND ON LOCAL EXCHANGE

Capital Traction and Railway Common Are Active.

A rather extensive demand, principally of the odd-lot type, marked yesterday's session of the Washington Stock Exchange. Capital Traction sold at 84 3-4 to 84 1-4 and closed with 84 bid. Railway common sold at 81 and closed with 80 7-8 bid and 85 asked. Railway preferred sold at 81 and 81 1-4. The latter price was better than the final bid of last week. Washington Gas was disposed of at 70 1-2 and 70 3-4. At close 70 3-8 was bid, with 71 1-8 asked.

Twenty shares of National Savings and Trust were transferred at 270 and five shares of American National Bank went at 155. Potomac Consolidated 5s sold at 100 1-2, a decline of a quarter of a point; Traction 5s sold at 105 1-2, and Riggs Realty 5s of the long maturity type brought 102.

New Bond Sale Plan.

A project for the purchase of bonds or stock on the installment plan has been inaugurated by the Federal National Bank, John Poole, president of the institution, being the author. It is possible under the plan, which now is in effect, for any one to purchase a hundred-dollar bond, or a share of stock, by the payment of $20 down and the arranging of a loan for the balance of the cost, the bank to hold the security as collateral for the loan, and the bank also making the purchase and advising the investment.

Opinions on Market.

The following stock opinions were received yesterday by W. B. Hibbs & Co. from financiers of prominence:

T. L. Watson & Co.—"The elevating power of the cumulative force of immense gold supplies is beginning to be felt in the industrial section of the market to a degree seldom witnessed in this country."

N. L. Carpenter & Co.—"Judging from every angle and weighing the good and bad points in the situation, as we can see them, we do not hesitate to say that the good far outweighs the bad and that a higher and very active market is likely to be seen from now on until election."

NEW YORK GRAIN.

New York, Sept. 11.—WHEAT—Lower; large trade. No. 2 red, 1.64½; No. 1 Northern, f. o. b., 1.81½; No. 2 hard winter, 1.69½, f. o. b.; No. 1 macaroni, to arrive, 1.75½; No. 1 Manitoba, 1.77½. Exporters took about 1,000,000 bushels, embracing hard winter, red winter, and macaroni.

CORN—Lower. No. 2 yellow, fresh-shelled, to arrive, 96⅝, c. i. f.; No. 3, fresh-shelled, to arrive, 96¼, c. i. f. Exporters took nothing.

OATS—Weaker; trade active. Standard, 53¼a53⅝; No. 3 white, 52⅝a53¼; No. 4 white, 52¼a52⅝; elevator basis, ungraded, 53¼a57¼. Exporters took 900,000 bushels, part late Saturday.

COTTON MARKETS.

New York, Sept. 11.—After showing heaviness there was a sharp rally in the cotton market today. In the initial trading, when prices were down 7 to 15 points, there was heavy selling by Liverpool of October and by New Orleans of other options.

In the final hour the market was active and firm on heavy short covering and support from several of the old bull leaders. Offerings from the Southern disappeared almost entirely on the rise, adding to the alarm of shorts. A sharp covering movement was also under way in the New Orleans market during the later afternoon. The local close was quiet.

Dispatches from New Orleans said that preliminary returns to the National Ginners' Association indicated that the condition of the crop had deteriorated about 3 per cent for the first half of the month.

Spot at Liverpool was in good demand at a decline of 13 points on the basis of 9.25d for middling upland. Futures in the English market closed quiet at a net decline of 7a8 points. Spot here was quiet at a decline of 20 points on the basis of 15.15 cents; there were no sales.

The spot article at New Orleans was steady and 19 points lower at 14.69 cents for middling; the sales were 1,110 bales.

Port receipts for the day were 31,749 bales, against 20,268 bales last week and 25,922 bales last year. New York warehouse stocks are 41,131 bales, compared with 197,790 bales a year ago. Exports for the day were 27,761 bales, including 7,784 bales to Great Britain, 16,925 bales to the Continent and 3,042 bales to Japan and China. Clearances for the season aggregate 544,414 bales, contrasted with 227,498 bales for the corresponding period last season.
