DEATH OF DR. EDWARD MAYNARD

His Services to the Dental Profession and His Inventions in Firearms.

When Dr. Edward Maynard died yesterday at his residence, 1227 19th street, there went out of the world a man whose life had been full of usefulness. Dr. Maynard was an inventor whose ideas were practical and businesslike—he wasted no time. He was born in Madison, N. Y., April 26, 1813, and his earlier years were filled with evidences of mechanical ingenuity. In 1835 he became a dentist, and one year later took up his residence in this city, where he continued to practice, with a few brief intervals, until a year ago. His discovery of the very great diversity of situation, form and capacity of the maxillary antra was made known to the faculty of the Baltimore College of Dental Surgery in 1846 and was officially acknowledged. It has from that time been regarded as of great importance in the treatment of disease of the superior maxillaries.

His announcement of the existence of dental fibrils, based upon his discovery that sensitive dentine could be cut with less pain in particular directions than in opposite ones, was discussed and the discussion was reported in the transactions of the American Society of Dental Surgeons before the announcement of the discovery of such fibrils by the aid of the microscope.

So far as now known he was the first to successfully practice (in 1838) the thorough filling, with gold foil, of the nerve cavity, including the nerve canals, in molar and bicuspid teeth, an operation he introduced in Europe in 1845. At St. Petersburg the emperor's physician, Dr. Arndt, having witnessed this operation Dr. Maynard was immediately employed in the imperial family as court dentist.

An offer from the Emperor Nicholas of the title of "Actual Dentist to his Imperial Majesty," with the rank of major and a munificent salary, was declined, but the emperor forced upon the doctor a magnificent diamond ring.

In 1857 he accepted the chair of theory and practice in the Baltimore College of Dental Surgery (the first dental college ever established), and since then he has held a like position in the faculty of the dental department of the National University in this city.

HIS INVENTIONS IN FIREARMS.

Dr. Maynard's name is, however, most widely known by reason of his inventions of firearms and ammunition. He was the author of the Maynard rifle, of the metallic cartridge shell, of the fulminate automatically moved priming, which for years displaced the percussion cap in the United States and other armies; of the process by which smooth-bore muskets could be converted into rifles, and of a number of other valuable inventions. For these the King of Prussia made the doctor a chevalier of the Military Order of the Red Eagle, and the King of Sweden gave him the great medal of merit—an honor but rarely bestowed on a foreigner.

At the recent patent centennial exhibit in the lecture room of the National Museum one of the most interesting collections was the one contributed by Dr. Maynard.

Dr. Maynard was twice married. His first wife, to whom he was wedded in 1838, was Miss Ellen Sophia Doty of Sherburne, N. Y., and six of the children of that marriage survive—Geo. W. Maynard of New York, Dr. John D. Maynard of New York, Mrs. James L. Hatch of Rochester, Mrs. Andrew J. Hatch of Pittsford, N. Y., and the Misses Marie and Virginia D. Maynard of this city. In 1869 the doctor married Miss Nellie Logg of Savannah, Ga., and one daughter—Mrs. Edwin Q. Laselle of Troy, N. Y., was the issue.

Three Years at Albany.

Yesterday in the Criminal Court, Judge Bradley, the motion for a new trial in the case of Robert Holland, colored, convicted last week of obtaining money by false pretenses from Thomas Bowie, was presented by his counsel, Mr. Cullinane, and argued. The court after reviewing the testimony, &c., overruled the motion, saying he was properly convicted after a fair trial.

Mr. Taylor appealed for a light sentence, and Holland asked the mercy of the court.

The judge said it was an aggravated case, and were it not for his affliction he would give him the extent of the law—five years. He imposed a sentence of three years in the Albany penitentiary.

The Humane Society.

The executive committee of the Washington Humane Society held its monthly meeting yesterday and the treasurer reported that the receipts from an entertainment got up for the benefit of the society by Miss Emma Bettis, a public school teacher of the District, amounted to nearly $200, which she desired should be used for the erection of a drinking fountain. The committee accepted the donation with gratitude and elected Miss Bettis a life member of the society and a member of the executive committee of the subcommittee on fountains. The committee also voted to erect at once three new fountains. A unanimous vote of thanks was passed to the Rev. Dr. Butler for the use of his church and chair for the meeting on the 3d instant, the proceeds from which amounted to $33.63.

A Bicycle a Carriage.

To the Editor of The Evening Star:

Your correspondent of Saturday evening recites two small adventures with wheelmen. To him, at least, it is annoying to drive around a dismounted cyclist, but he is in error on one fundamental point. By law a bicycle is a carriage (thanks to L. A. W.) and thus by law is entitled to its full share of the public road.

On city pavements, on the sandy country pike or the western prairie trail, I have always found the average wheelman a courteous fellow, ever sensitive to others' rights and seldom seeking redress when grudgingly given just room to pass or unceremoniously crowded into the gutter or a passing team. But it is not a question of favor; a wheelman has his rights, and let him defend them. E.C.R

Sentenced to the Penitentiary.

In the Criminal Court yesterday Edward E. Brent, colored, plead guilty to a charge of housebreaking. It was alleged that early in the morning of March 28 he and another (Wm. Poole) broke into the store of Joseph E. Dyer and carried off $50 worth of goods. In answer to Judge Bradley he said that Poole got him to watch while he got the things, and he understood that Poole had been sentenced to the Richmond penitentiary for eight years.

The court sentenced him to the Albany penitentiary for four years.

The Jurors for the May Term.

In the Criminal Court today, Judge Hagner, the jurors for May were called. Isaac Steinman failed to answer and the following were excused: Joseph Redfern, B. K. Plain, Joseph H. Hunter, Beverly Carter, August Schroeder, James Noland, Heinrich Danne (eighteen years old and unnaturalized), Felix May and Edward W. Anderson. This left two vacancies to fill the panel and twenty names were ordered to be drawn by the court, which was adjourned till tomorrow.

Land Deeded to a Railroad.

A deed of Florence McDevitt to the Eckington and Soldiers' Home Railroad Company conveying land on 2d street east and V street north extended as a right of way for the Glenwood branch of the road has been recorded. It is stipulated in it that the railroad company shall run cars over this portion once in thirty minutes between 7:30 o'clock a.m. and 6 p.m., once per hour till 9 p.m. and one car at 11 o'clock.

B. F. Hutchinson's Eastern Trip.

B. F. Hutchinson, the aged and eccentric Chicago board of trade speculators about whose sudden disappearance and return so much has recently been published, left Chicago yesterday for Boston. It is his intention to take a vacation in the east. In the meantime his affairs will be straightened out by his sons. The examination shows that he will have left about $500,000.

Factional Fight in a Chicago Church.

Fourteen men were arrested at the Polish Roman Catholic Church, Laurel and 32d streets, Chicago, Sunday night for fighting. The parish has been divided into two factions, one adhering to Father Zella, a former pastor, and the other supporting a new appointee. An argument on the question led to blows, and the police interfered.

Serious Floods in Chili.

As a result of the March floods in the Lunahuana district of Chili houses, people, cattle, vineyards, farms and irrigation works have been swept away. Hundreds of families are camping on the hillsides. It will be impossible to gather the remainder of the crop of grapes. It is thought certain that the necessities of life will reach famine prices.

Cincinnati is soon to have telephone connection with Cleveland, Detroit, Buffalo, New York and other cities.

WANTED—HELP.
