GARDENING AND FARMING TO BE TAUGHT AT SCHOOL

Extensive Courses in Those Subjects Will Be Provided for Pupils at Langdon-Woodridge.

The school representatives pointed out that the site for the new school contains five acres, which will make possible the undertaking of school gardening and agriculture on a big scale.

Commissioner Kutz and Mr. Ashford spoke of the plans for the building, which they said would be a model suburban school. The Engineer Commissioner also said that the forthcoming District estimates provide liberally for improvements in that section. Supt. Nesbit represented Commissioner Brownlow, who was prevented from attending on account of illness.

The other speakers were Dr. Clarence J. Owens, and N. P. Alifas of the International Association of Machinists.

Candidates

My whole attention I am giving to meet the rising cost of living. It keeps me hustling like the dickens to buy the liver, spuds and chickens to feed the wife and children twenty, and see that they have shoes aplenty. The transient hours are swiftly moving, and all of them I'd be improving; I'd keep on humping, ever harder, that hams and pies may stock the larder. So I'm not cordial to that smarty, that office-hunting windy party, who interrupts me when I'm toiling, to tell how politics is boiling, explaining how this jaded nation can never find its true salvation until to something he's elected, and his antagonist rejected. I'd never vote for any fellow who comes and shows his streak of yellow by boring me when I am earning the stuff to keep the furnace burning. When at the polls in bleak November, you bet I always will remember the candidates who did the spieling, and I will help them hit the ceiling. WALT MASON.

EXPECTS TO ORGANIZE MOTHERS' CLUB BRANCH

Notwithstanding slender attendance at two meetings, Tuesday and yesterday afternoons, held in the Ebbitt House, Mrs. Emma Ferguson Ellis of Indianapolis feels encouraged in her efforts to establish in Washington a branch of the "Mothers' Correspondence Club" which she founded in Indianapolis and has already extended to other communities. Many women have communicated with her, she said, intimating their interest and desire to participate in the movement, even though they do not attend her lectures.

To an audience of eight women yesterday afternoon Mrs. Ellis told of the lonely life beset with temptations of the enlisted man in army and navy. Her plan she describes as a home mission; members of the club are supposed to take under their care some one such enlisted man, keep in correspondence with him, encourage him in spiritual matters and surround him with the gentler influences of femininity, so lacking in their environment.

Mrs. Ellis, who has just founded a branch at Philadelphia, hopes to establish a strong chapter here, as Fort Myer, the navy yard and the marine barracks hold hundreds of young men, many of them without mothers.

COURTS TO MOVE NEXT WEEK.

D. C. Tribunals to Leave City Hall Thursday.

The District Supreme Court will not move from the city hall to the old census bureau this week, as scheduled, but will hold sessions through next Thursday, November 2, in the present quarters. The work of painting and remodeling of the Emery building has not progressed sufficiently to permit the installation of the court furniture.

The office of the recorder of deeds will be located in the Emery building, but Recorder Costello has leased a separate portion of the structure, for which he will pay an additional rental of $1,500 annually. The space assigned to him with the other offices was not suitable for his office force, nor convenient to the public, Mr. Costello thought. The location selected by him fronts on 1st street, and has two entrances from the street.
