THE SPOIL DIVIDED.

Number of Appointments Under the Interior Department.

A COMPARATIVE STATEMENT.

Some States and Territories Evidently Here Favored Than Their Less Fortunate Sisters.

WASHINGTON, July 18.—The number of appointments under the jurisdiction of the interior department accredited to the various states and territories and their pro-rata share of appointments according to population are given in a comparative statement compiled at the department. The District of Columbia is accredited with the largest number, 358, although its share is only 29, and Georgia is shown to have 175 places out of 218, to which it is entitled. The subjoined tables give first, the number of appointments in and around the state's proper share:

Alabama 22, 127	Missouri 170, 165
Arkansas 8, 91	Montana 175, 146
California 1, 1	Nebraska 171, 107
Colorado 208, 105	Nevada 10, 10
Connecticut 11, 137	New Hampshire 16, 43
Dakota 11, 137	New Jersey 18, 17
Delaware 14, 47	New Mexico 24, 124
Florida 16, 40	New York 80, 80
Georgia 175, 218	North Carolina 175, 181
Illinois 47, 48	North Dakota 175, 12
Indiana 18, 19	Ohio 175, 175
Iowa 26, 18	Oklahoma 175, 47
Kansas 175, 152	Oregon 26, 17
Kentucky 28, 12	Pennsylvania 175, 203
Louisiana 175, 175	Rhode Island 16, 40
Maine 175, 175	South Carolina 175, 197
Maryland 175, 175	South Dakota 175, 42
Massachusetts 175, 175	Tennessee 175, 175
Michigan 175, 175	Texas 47, 192
Minnesota 175, 175	Utah 11, 10
Mississippi 175, 175	Vermont 16, 46
	Virginia 175, 187
	Washington 175, 61
	West Virginia 55, 16
	Wisconsin 175, 10
	Wyoming 10, 10

DISSENTING CATHOLICS.

They Intend to Solve the Armagedon Question.

CLEVELAND, Ohio, July 18.—The news from the St. Stanislaus Home Catholic church contemplate a revolution in Roman Catholicism which shall be national if not world-wide. They have appointed a Polish national church committee and will year a proclamation to disaffiliated Poles all over the United States, inviting them to flock to the standard of another church which will probably be that of the Armenian church. Mr. Kowrie, a priest of that church, is now in conference with the patriarch of Antioch seeking an appointment as arch bishop. If he succeeds he will probably appoint Rev. A. F. Rolowski, of this city, the head of the Polish seceders, a bishop.

Drowned Near the Shore.

PORT ANGELES, Wash., July 18.—In a drowning accident here, J. H. Johnson, August Nelson and John Dippold lost their lives. The three left yesterday afternoon in a fishing boat for Dungeness spit, four miles east of the city. Their boat capsized in view of people on the beach who heard their cries for help but having no boats could render aid. Dragging parties started out this morning. Eight miles east of this point Nelson was seen on the upturned bottom of a boat 300 feet from shore trying to paddle to the beach. On perceiving the rescuing party he strung into the water and was drowned before their eyes. His companions had perished in the night.

A Snake Story.

NARROWSBURG, N. Y., July 18.—While Hermon Drake, a farmer living near Narrowsburg, was picking huckleberries on the mountains, he discovered a den of rattle snakes and before he was fairly aware of his dangerous position the reptiles had surrounded him. Using a pole, Farmer Drake whaled it with all his might, while the snakes approached from every direction ready for battle. After killing twenty-five his weapon gave out, but he found another pole and this lasted until every snake was vanquished.

When the former had completed his work, he returned home and told his kindred of his affair and they with two others went to the den, where the count showed that Drake had killed forty-three rattlers, the smallest measuring four feet and four inches in length. The rattles were cut from all the snakes and preserved as mementoes.

Charged With Murder.

CHICAGO, July 17.—Mrs. Mallonie Hayes was arrested today on a warrant charging her with murder. The warrant was sworn out by Miss Jessie F. Minard of Oswego, Ill., charging Mrs. Hayes with administering poison to Attorney William Minard, a brother of the complainant, who died suddenly January 8th.

Mrs. Hayes was the mother-in-law of Minard and at present has possession of the entire estate of her dead son-in-law.

Arizona Sinners Indicted.

PRESCOTT, Ariz., July 17. — The United States grand jury today returned indictments against D. H. Ricky and James Walsh for conspiracy to commit murder in connection with the late strike. Riley was engineer and chairman of the A. R. U. lodge at Williams. Walsh was employed in the shops. Both were released on $5,000 bonds.

Note for Governor.

PARIS, Ind., July 17.—The State Federation of Labor at its meeting here today endorsed the course of Debs in connection with the strike and addressed him as a candidate for governor.

After Morgan's New Sultan.

LONDON, July 18.—A dispatch to the Times from Stockholm, Morgan says: Hedmann, lately grand vizier, who resigned, who was formerly minister of war, and two others who formerly held high court positions, have been arrested and imprisoned on the charge of being engaged in a plot to hire assassins to murder the new sultan and his grand vizier.

A Fire Kicker Caught.

CHICAGO, July 17.—A sensational jury testing case developed in Judge Baker's court today in the condemnation suit of the Metropolitan elevated railway against Mildmanite Warren Springer over a strip of land owned by Springer at $200,000. One of the jurors, George Harmon, told the judge that a woman had carried on his family and offered a bribe to Springer's counsel, intimating that the juror was Springer's wife. Judge Baker suggested that Mrs. Springer appear in the court and make an explanation. Her husband indignantly denied that she is connected with the affair, claiming that she is in Wisconsin.

U. P. Branch Lines.

ST. PAUL, July 17.—On Thursday the receivers of the Union Pacific railroad will be asked to appear before the court, pursuant to an order to show cause why a large number of branch lines of the Union Pacific road should be longer considered as not forming a part of the Union Pacific system, and not to hereafter represent an independent line. The reason for this action is that these branch lines are not earning sufficient money to pay operating expenses and taxes.

THE ARIZONA SITUATION.

Petty Annoyances Instead of Formidable Strikes.

WASHINGTON, July 17.—Early reports received at the war department from troops engaged in preventing disturbances on the railroads in the West show that the resistance of the strikers has generally diminished from formidable rioting to petty annoyance and obstruction. General Merriam, at St. Paul, reports that obstructions have been encountered on the Great Northern road running north from St. Paul, Minnesota, at Livingston, Montana. There is trouble on all the Pacific lines.

From San Francisco General Ruger reports that it will be necessary to send troops under guard for some time.

General Miles reported to headquarters the frightful accident at Chicago yesterday. General Miles will take steps to ascertain how it occurred, and he may appoint a board for this purpose.

As soon as in General Miles's judgment it will be advisable to do so, the regular troops now in Chicago will be withdrawn, but until General Miles so recommends, no suggestion or intimation request will have any effect with the committee here. The history of the Chicago riots has confirmed in official circles here the belief in the soundness of General Schofield's favorite policy of consolidating the troops at great central points near the large cities.

It is the intention now to carry out this idea as far as practicable. The final manifestation of this decision will be Chicago, for although the troops will be withdrawn from the city, they will go to Fort Sheridan, fifteen miles distant, and some of the companies, batteries and troops that have been brought to Chicago from remote and western points will be sent back to their posts. They will constitute the permanent garrison of Fort Sheridan, which with the powerful force to be located as to be easily and quickly marched to Chicago or to any point of disturbance, will become one of the first units of the new system of army posts.

Unless Congress shall provide for a substantial increase of the regular army, this may involve the practical abandonment of many of the smaller posts in the West.

IN CALIFORNIA.

SAN FRANCISCO, July 17. — The Southern Pacific company continues to run passenger trains more or less regularly during the hours of daylight, but all night trains are still being abandoned.

At Sacramento the only startling incident of today was the dispatching of a train bearing sixty United States regulars to Dunsmuir, on the Oregon branch. The company's agent at Dunsmuir reported that the strikers were becoming ugly. The strikers at Sacramento continue active, however. Yesterday several hundred men who had obeyed the order to strike returned to work in the machine shops. Late morning most of them remained away. The men have been intimidated by the strikers and found evidence at the hands of A. R. U. men if they went back to work this morning.

A. A. Towne, vice president and general manager of the Southern Pacific, posted a notice today that the Sacramento shops would be reopened tomorrow and that protection would be afforded all men who desired to return to work. Mr. Towne also publicly denies the published statements that men returning to work will be compelled to sign an agreement to stand aloof from all labor unions. He declares that the company simply desires that its employees shall have nothing to do with the A. R. U.

Again Oakland as well as in Sacramento, the railroad officials are meeting with difficulty in getting enough men to run their shops and man their trains.

The strikers today instituted habeas corpus proceedings to recover Edward Jost, one of their leaders, who is locked up in a box car on the mole and guarded by soldiers. Jost, disgusted at a result, was arrested last night. The soldiers found him smoking under a Pullman car in the railroad yards.

The railroad company's pay car, bearing over $150,000, passed down the Oakland mole today and through the city, disbursing wages for May and June. Strikers who came to the car were told to decide whether they would return to work or not. If they elected to return their May wages were paid.

BURNING OF BRIDGES.

Montana's Peaceable Citizens Give Outrages Countenance.

HELENA, Mont., July 17.—Reports from all portions of Montana are to the effect that trains are running on the Northern Pacific main line close to schedule time. All engineers and conductors with few exceptions have applied for work, and in twenty-four hours the company will be able to handle freight.

The only delay now comes from the destruction of bridges. In the last twenty more three-leg trestles have been burned. The people of the whole state are becoming aroused over the burning of bridges and the callings at Missoula has so increased that volunteers are coming forward with offers to guard bridges and extend any assistance to any set that will endanger life.

Gould's Children Remembered.

NEW YORK, July 17.—All of the children of the late Jay Gould in their individual capacity and as executors and trustees under the will of their father have taken up proceedings in the supreme court of New York for the purpose of being relieved of taxation in this country and city upon that portion of their estate, which they allege is based upon sentiment associations.

THE KOREAN CONTROVERSY.

An Alleged Dispatch from Secretary Gresham to Japan.

A Period Against the Belligerent Attitude Assumed by the Government of that Country.

NEW YORK, July 17.—A Washington dispatch to a morning paper of pronounced anti-administration proclivities, says:

The news has just come to light that the administration, through Secretary Gresham, has transmitted another diplomatic blunder, which is considered even more serious than the attempt to restore Queen Lilinokalani, which may have quite unexpected results. Members of the diplomatic corps, among whom the facts have circulated something of a sensation, tell this story of it.

The Chinese minister, who has been in frequent consultation of late with the secretary of state regarding the strained relations existing between Japan and Korea, has finally induced the secretary to send an official cable dispatch to the Japanese government expressing the disinclination of the United States with the policy which Japan has been following toward Korea and closing with these important words:

"The United States views with regret the keeping of an unjust war by Japan upon a weak and unfriendless nation like Korea."

This is considered a greater diplomatic blunder than the secretary's action in the Hawaiian controversy, but there has as yet been time to realize the full extent of the message.

The Japanese government has made no reply and has probably not yet recovered from its astonishment. At the Japanese legation here the officials profess to know nothing whatever about the belligerent message and express a firm doubt as to the accuracy of the story.

There is no doubt about the existence of the dispatch. Secretary Gresham has shown a copy of it to Sir Julian Pauncefote. The Chinese and Korean legations have copies of it and the fact of its existence is known to several members of the House and Senate committees on foreign relations.

Fighting Against Odds.

CHICAGO, July 17.—A telegram was received in town, sent by Debs on July 2nd, to North Butte, Montana. It read:

"General managers are weakening. If the strike is not settled in forty-eight hours complete paralysis will follow. Pullmans and lux are out of sight. Save your money and say a prayer."

Exodus to Europe.

CHICAGO, July 17.—The Evening Journal says: The European tour inaugurated by the leading steamship lines may result in a whole exodus from Chicago to sunny climes somewhere with the late strike. Never before in the history of steamship rates has it been possible to go from Chicago to a European port or city so cheaply.

Dozens of men who said they were now on strike have been making inquiries at local steamship offices within the last few days, expressing their intention of returning to the "old country" in case the strike was a failure.

There are half a dozen interesting phases of the present situation, and there is much food for thought in the depletion of the standing army of unemployed in this country by the return of thousands of workers to their homes abroad. It is estimated that before long labor will be at a premium instead of a discount and there are not a few who figure on a season of prosperity as a consequence of a return to Europe of thousands who have been by the past six months unsuccessful candidates for employment.

The English Alien Bill.

LONDON, July 17.—Lord Salisbury in the House of Lords moved the second reading of the alien bill. Lord Rosebery thereupon declared that the question was less urgent than at the time the noble marquis was in office when no legislation was thought necessary. Alien immigration had greatly decreased.

He had the authority of the police officials to say that no outrages against foreign governments had been hatched in Great Britain. The present laws provided a sufficient remedy against persons meditating crimes. He said the government could accept no part of the bill.

OTHER PEOPLE'S TROUBLES.

A Reign of Terror on the Mosquito Coast.—In Brazil.

NEW YORK, July 17.—The Herald's Panama dispatch says: Refugees arriving here from Port Limon report a reign of terror on the Mosquito coast since the Nicaraguans took charge of affairs there. The settlers, both Americans and British, are said to be encouraging the Indians to drive out the Nicaraguans, and the trouble is not yet over, it is believed.

A Valparaiso dispatch says: The correspondent in Rio Janeiro, Brazil, sends word that one of President Peixoto's commanders, General Lewis, was killed in the battle of Paces Fundo; that 2,000 Federals are now laying siege to Santa Catharina; that the Thirteenth infantry were cut to pieces by the rebel general, Saraiva, at Manahaya, and that Santa Anita is now occupied by federals.

The following important financial project has been approved by the Chilean council of ministers, and in all probability will be passed by Congress:

All import duties which are now paid in gold will, on and after December 1 next, be payable in national currency, on the ruling rate of exchange. No state duties, which, however, are now paid partly in currency, will be exclusively payable in gold or drafts on London.

A DANGEROUS CITIZEN.

Monkey in a Hurry to Obtain His First Papers.

NEW YORK, July 17.—Charles Milford Mowbray, who was arrested in London upwards of a dozen times for swelling breaches of the peace by making an anarchistic speechlet, has been here since Saturday without the knowledge of the police and the board of immigration, who were long ago warned to look out for his arrival. He arrived on the steamer Paris from Southampton.

On landing Mowbray went direct to Newark, N. J., where he has English friends. He went before the clerk of the court the next day and took out his first citizenship papers. He told his friends he intended to establish an anarchistic propaganda in New York.

Not Alone Catarrh!

But All Diseases Are Treated and Cured by Drs. Shores & Shores's New Treatment.

Read the Evidence Today From Patients Who Have Suffered Years With Bright's Disease, Dropsy and Heart Trouble.

A TREATMENT THAT IS CURING HUNDREDS OF PEOPLE DAILY!

Drs. Shores & Shores Have Their Own Manufacturing Laboratory, Where all Medicines are Prepared Under the Personal Care of a Registered Chemist.

INDIGESTION.

The fact is indisputable that a large proportion of the diseases of humanity arises from indigestion. When the stomach is weak and fails to perform its usual functions, then the liver is deranged, the circulation of the blood becomes sluggish, and the whole system poisoned. Under such conditions exposure to foul atmosphere generates typhoid, bilious or typhoid fever, etc. If you escape these, some special weakness will sooner or later develop itself, like kidney or liver complaint, chronic dyspepsia, rheumatism, or perhaps the sluggish blood will develop some virulent form of scrofula, pimples, blotches, boils disappear, and, if not arrested, sores and ulcers follow.

All this can be avoided by purifying, cleansing, healing and invigorating in perfect physical condition those important organs of the body, the liver, stomach and kidneys. Drs. Shores & Shores can preserve your health and you can be comparatively free from sickness and disease.

MR. W. W. JACKSON, COLORADO, WEST BOOKKEEPER.

HE WAS BEDFAST.

For Years Suffering From Heart Trouble and Bright's Disease —A Remarkable Case.

Mr. W. Jackson, who resides at West Bountiful, was troubled by many physicians for his trouble but no one seemed to understand his case. He came down to Salt Lake and explained his ailment to Drs. Shores & Shores and took with him medicine for his father's case. This was in March. During the past week Mr. Jackson walked into Drs. Shores & Shores office in the Herrick block, and gave your correspondent the following description of his case:

He says: "I have resided in the territory for forty-one years, and I am known by every old settler, who I hope will read my statement and profit by it. When I came to Utah Shores & Shores I was a great sufferer from Bright's disease, dropsy and heart trouble; spent no less little exertion I would get short of breath, and a very slight amount of work would make my heart fluttering and beat like a hammer. I was bedfast, and was given up by my physicians to die. I had tried many other medicines and doctors without avail. I had read much of your wonderful cures, and thought I would try your treatment. I was very low when I began your treatment, but I am now able to do my work, and I feel like a new man. I cannot say too much for your treatment, and you can use my name in any way you think best to induce others to take your treatment."

Mr. Jackson will answer all letters of inquiry regarding his case, addressed as West Bountiful, Utah.

IF YOU CANNOT COME TO SALT LAKE

Write for the mail treatment. One of the physicians in personal charge superintends the mail department, by a system of close correspondence controls those out of the city quite as well as those who come to the office. Send for symptom blank. Medicines shipped carefully. Try this treatment.

DRS. SHORES & SHORES,

SPECIALISTS,
