MINING STOCK MARKET.

Activity, Heavy Deals, Confidence and Plenty of Money.

Bullion-Beck Chiefness Gets Dividend of $25,000 Today Making a Total for the Year of $450,000.

James A. Pollock in his weekly Mining Share Market Letter under date of today, December 20, says:

Despite the near approach of the holidays the local mining stock market was active during the past week, the dealings being especially heavy in several of the old time favorites, which are now coming to the front with such rapid strides. Investors seem to have plenty of money with which to buy stocks even though they will be expected to make the annual purchase at Christmas presents. Then again, the first of the year draws on apace and with it the time for annual and semi-annual liquidation. Taking these distractions into consideration the market shows a very flattering strength.

One of the most important developments in a mining way of the week was the agreement between the Alliance and the Silver King for a friendly survey of each others properties. There has been much talk of late regarding probable trouble between the two companies but it now looks as though neither had anything to worry over. No developments occurred in the Alliance underground workings and the absence of a change for the better is awakening the stock somewhat, although there are few stockholders who care to sell. Ajax was also inactive. Good shipments of fair grade ore continue from the property. Gus is doing nothing. Another continues in the same old lines. A limited amount of the stock came out at prices below the $3 mark, but takers were not numerous. The stock should be a good buy at even advanced quotations.

In the dispute between the stockholders of the Hogan, the minority holders won a signal victory in the courts, gaining every point in contest. The court decreed that the administration of affairs by the Hogans had been dishonest and the stock should not have been assessed. As was predicted would be the case, the Bullion-Beck makes its stockholders a Christmas present in the shape of a $25,000 dividend, payable today. This swells the total for the company to $1,350,000, and for the year $450,000. The return from the properties of the company are of an encouraging nature.

With its usual regularity the Centennial Eureka made payment of a double dividend of $1 per share on the 15th and another special double of the same amount some days earlier for the first of the year. The payment on Monday swelled the company's total to $1,410,000. Conservative estimates of the ore reserves of the Centennial Eureka show that the present record can be maintained for years to come. Consolidated Cheesman knew no business for the week.

Dalton maintained its own, although there was not a great deal of business done in the stock. The developments at the property continue to show up sure in large quantities and of a very satisfactory character. There was some inquiry for both Daly and Daly West. These properties are operating without a hitch. Here Silver continues the shipment of ore and concentrates in large quantities and the stockholders are looking for their quarterly dividend of $20,000 on the 23d. As a result of the prospective payment the stock is held more strongly than was the case some months ago.

Mammoth made a splendid record, the stock advancing steadily during the week. It early became evident that something out of the ordinary was in the wind, for insiders showed considerable interest in the security and were seen to purchase at good figures, something they had not done for years. It is known that the company will be practically out of debt on the first of the year, and added to this is the fact that the ore bodies in the lower levels are showing up in splendid shape. The mill is doing good work and the stock at Barnes stays $1.50 is a good buy. On Thursday there were lively bids of $1.45, with no stock coming out. Holders demanded $1.50 and above. Morgan is shipping considerable ore and making the best improvements. With the treasury stock on the market little is being done in the security. Meteor was listless. Nothing came from the East regarding the deal and offers of the stock were made at $6.50, with no takers. It is anticipated that a something will be heard from the deal within the next week.

Some inquiry developed for Ontario and sales of the stock were made at $9. At such figure the stock seems to me to be a splendid buy. Never recorded some dealings. Development work of a very gladdening nature continues at the property. Silver King keeps its usual place, the shipments of high grade ore being heavy. The Sunshine mill is working away in a very satisfactory manner and the returns from the ore treatment are said to be flattering. Telfer management was very generally paid.

The incorporation of the Gold Dust group was followed by the placing of a limited number of shares from the treasury upon the market at 50 cents per share. Orders for the stock are being received in large numbers and it is evident that the stock will be oversubscribed. It is one of the best buys in the market, the people back of the company being among the strongest in the Territory. The properties are located right in the heart of the mineralized region of the Camp Floyd district.

A THREAT TO KILL.

Made Against F. A. Drouhl by Robert Montgomery—He Wanted $10,000.

Robert Montgomery, a United States army veteran, was arrested yesterday afternoon at the instigation of F. A. Drouhl, the druggist, who charges that the ex-soldier threatened to end his mortal career on next Saturday, in the event of his failing to pay him $10,000, which Montgomery claimed Drouhl owed him on a mining deal.

Last Wednesday, Montgomery, it appears, came in from Bingham, where he and Moses Drouhl and Fischer own the Silver Bone and Willow Springs claims. He had written to the businessman that Drouhl owed him $10,000, and in order to get it without unnecessary delay, he went to Mr. Drouhl's place of business and demanded immediate payment of the singer cash.

Drouhl explained to him that no such amount was owing, and advised him to appeal to the law to test the validity of his claim. To this Mr. Montgomery replied that he wanted nothing to do with the law, "but," said he, "if you don't pay me the money by next Saturday, I will kill you."

Very little attention was paid the threat by Mr. Drouhl, but yesterday Monday morning he received a letter from the ex-soldier in which he said he would be present on Saturday, when upon the draggist called in an officer who had the man placed in custody.

He was taken before Commissioner Pratt and arraigned on the charge of threatening to kill, to which charge he pleaded guilty, stating that he fully intended to carry the threat into execution. The commissioner bound him over in the sum of $2,500 to keep the peace for six months, and as he was unable to obtain sureties, he was lodged in the county jail.

The Mining Exchange.

A meeting of the Mining Exchange will occur tonight. The principal business to be considered is the report of the committee on constitution and by-laws. Nearly 100 names of solid business and mining men have been added to the membership roll. When the opening of the Exchange occurs, one day after Christmas, it is expected that the number will be expanded by at least a score.

Electric Bitters.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed at this season, when the languid exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A proper use of this medicine has often averted long and painful illness. No medicine will act more surely in counteracting and freeing the system from the malarial poison. Headache, Indigestion, Constipation, Dizziness yield to Electric Bitters. Only fifty cents a bottle. Z. C. M. I. drug department.

Marvelous Results.

From a letter written by Rev. J. Gunderman, of Dimondale, Mich., we are permitted to make the extract "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist Church in River Junction she was brought down with Pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little intermission and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery. It was quick in its work and highly satisfactory in results." Trial bottles free at Z. C. M. I. drug department. Regular size 50c and $1.00.

ANOTHER RAMBLER DAY.

The Rambler boys made a great showing in the Ogden races. The first event of the day was the ten mile road race, in which McCombber finished third, taking third prize and third time prize. Then came the track race, Joe Iness taking second in the series. Fowler first, Miller second, and Thatcher third in the mile scratch, class B, all "Rambler" you will note. In the half mile class Joe Iness took second, Curtis third. Half mile, class B, Thatcher second, Fowler third. Five mile, class B, Fowler second. Is this news a man in a yellow suit cut his head and fell, Coombber and Walter being immediately behind him, the result was a spill for those parties and the race fell to Evans. The five mile, class A, was another Rambler event, Map taking first, Joe Iness second and McCombber third. Fourteen miles, Joe Iness play is glory enough for any one.

And those who travel if they please,
