WAS A GRATIFYING WEEK.

The Usual Double Dividend of the Centennial-Eureka.

Sellers-Back Was Wanted, But No Sellers Could Be Found—Nonmark Strongest.

James A. Pallous said in his Weekly Share Market letter under date of to-day, January 31st:

The past week in local mining stock circles was almost a repitition of that of the previous same period, outside orders being almost entirely divided with the local. Taken all in all it was a very gratifying week.

Ajax did little business, although buyers were willing to pay a little higher for the stock, assessment paid. Alliance was inactive, and trading was slightly more spirited than during the previous week.

Bagan was not in very heavy demand. Work at the properties continues about the same as usual. Sellers-Back was wanted, but not at the bidding price. It is possible that the company will pay an increased dividend next month.

Centennial-Eureka continues to gain strength, and a number of heavy buyers were in the field last week. Considerable, at which some considerable increase was done. The usual extra dividend of $1 per share will doubtless come to the stockholders in the first. This will make $2 per share for the month, or $60,000. Some of the trustees of Comstock have adjusted their differences, and as a result the delinquent assessment list was shortened.

Dalton did not show any particular strength. The annual meeting will be held today and some changes will doubtless be made. Work at the properties is being pushed with considerable vigor and the showing of ore is as satisfactory as ever. Daly displayed great strength again, it being now freely circulated that the company will declare a dividend next month. Should such prove to be the case there is no doubt but that the stock will continue to advance. Daly-West is just getting its new mill into good working order. Dividends for this company should not be so very far away.

Mars Silver did not come out in any great amount. The buyers were ready for the reception of the stock, but sellers held too high for them. The properties are making a good month of production. Lucky Bill is advertising the last assessment of two cents per share.

Mammoth showed more strength than during the previous week, considerable business being done in the stock. Development work and ore extraction continues of heavy character. Morgan (Mesoy) came in for considerable attention, but buyers and sellers did not get together to any marked extent. The board of directors of the Student company has secured some time machinery and it is the time for the erection of a new 40 ton plant near the mines of the company. Recent developments in the mine and the rate of extraction make such action almost, if not quite, imperative. The stock showed more strength and sold at $7 per share. An increased product would mean a largely increased dividend.

Ontario came in for its share of attention again and bids of $9.75 per share failed to bring out any of the stock. The old reliable has a legion of strong friends who are firm in the faith that dividends will not only be regular in the future but will also be increased. The company pays a dividend today of 19 cents per share or $15,000. The properties are in splendid shape. For its well-ordered system Horn shows some weakness. It is evident that the impatient ones did not care to wait for a legitimate advance but desired to get their money into what they considered more active stocks. The properties are being extensively developed and the showing of ore is on the improve. Silver King was held very firmly, sellers refusing to meet even an offer of $15. Sunshine also displayed some weakness, the sale reason being the lack of information. The company seems in better policy to work along quietly for some time to come without grabbing the curiosity of the public in an offhand manner. The mill is doing good work and shipments of product are regular. It is thought that the stock in the Gold Dust is in the cropping of the great vein of the district. The showing is first class. Ulah was held very strongly around $1.25. Bids were frequent but sellers shy.

Made Man and Wife.

A marriage reception both dainty and enjoyable, was held at the residence of Mr. and Mrs. Daniel Smith at 257 south Third West street last evening. The affair was in honor of the marriage of their daughter, Florence, to Mr. Stephen Theobald, the

MINE AGENT Z. N. WITHERBEE, JR. COAL THAT DOES NOT SOOT
DIAMOND COAL
WITHERBEE, SHERMAN & CO. SALT LAKE CITY, UTAH.

The Weber Coal Co.

Sell coal by the cask, ton or carload, and the Wasatch and Clifton mines of Castle, belonging to the Ontario Silver Mining company, are both fine, clean, Castle Gate, Pleasant View and Anthracite coal; prompt delivery by mountains and obliging treatment; both coal and full weight guaranteed. Office No. 159 S. Main street. W. J. Montgomery, Agent. Tel. No. 144.

Sheep Money.

At 8 and 7 per cent interest. Inquire at City Realty, Wells, 75 Main.

ment during nine years in the Temple during the day. The evening was spent in dancing, interrupted only by a delightful musical program. The entertaining parties were the recipients of many handsome and useful presents, and congratulations and good wishes of hearty one hundred guests were showered upon them in their school room decorated for the occasion, by many couple who reside in Poplar Grove.

Pictures in the Horse.

The lecture announced for this (Friday) evening in the University course is to be delivered by Dr. James E. Talmage, and is on the interesting subject "Pictures in the Horse,"—a study of the origin and significance of bestiale and petrifactions. Numerous specimens will be shown together with a large variety of specimens and models will be used for illustration. It is requested that all who intend to be present should be in their places by the time set for the speaking which is 8 o'clock. The public is invited.

Football Tomorrow.

The first game of the All Hallows College team to be connected with the High School boys tomorrow afternoon at 2 o'clock on the University campus is a gentle game of wrestling for the gridiron. The following is the personal of the team:
