# MINING, BUSINESS AND STOCKS.

## DAISY FALLS STILL LOWER.

A Total of 32,000 Shares is Sold Today During Call.

PETRO A LITTLE STRONGER.

**Eagle and Blue Bell Weak—Daly-West Sells at Better Figures—Hercules Weaker.**

TODAY'S METALS:
SILVER 59
LEAD, $4.40
CASTING COPPER 15¼

The feature of the call on the exchange today was the phenomenal drop in Daisy. Beginning at 9¾ this stock fell back to 7 before the call closed. Altogether 32,000 shares changed hands.

The report that Mammoth is in a position to market its ores caused quite a flutter on the curb yesterday afternoon, but the call ended today with $2.50 bid, $2.95 asked.

Daly-West was stronger, selling up to $12.00. Eagle and Blue Bell "took a tumble" to 1.45 and Geyser-Marion participated at 29¾.

Sacramento sold at 31¾, while Petro went up to 33. Northern Light responded at 18⅛ and Joe Bowers showed signs of recovery, selling for 14⅞. Sunbeam was stationary at 66½ but Hercules was heavily traded in down to 1⅛.

Quotations were posted as follows:

## BECAME HEAVY AND DULL.

The Stock Market Opened Well, but Soon Fell Off.

**Furious and Stubborn Contest on Leather—Live Stock Steady—Produce Market Weak.**

New York, Nov. 24.—Gains predominated at the opening of the stock market, a number of industrial specialties leading. Sugar, leather and General electric were up about a point. A few of the prominent stocks showed slight losses. Colorado Midland preferred, Southern Pacific, Union Pacific and Baltimore & Ohio issues were largely absorbed at improved prices. Western railroad stocks were generally firmer, but there was no conspicuous demand. Continuous offerings of Consolidated gas forced it ½ below the best. The general market became heavy and dull, in only a few instances did the losses reach a point. Metropolitan elevated was a notable exception to the weakness, rising 2½.

Prices of bonds were well sustained and the demand was more general.

Support seemed readily withdrawn from leather, and it collapsed from 28 to 18¾, under a deluge of offerings, after having gained 2 points earlier in the session. A furious and stubborn contest waged in the stock at that point, and support finally carried the day. The closing was unsettled and irregular at mixed net changes.

SUGAR.

Sugar, raw steady; refind stady.

MONEY AND BONDS.

Money on call steady at 6 per cent. Prime mercantile paper 5½@6 per cent.

Sterling exchange firm with actual business in bankers' bills at 4.85½@¾ for demand and at 4.81@¼ for sixty days; posted rates 4.82@½ and 4.86½@4.87; commercial bills 4.80¼.

Denver, Colo., Nov. 24.—Cattle—Receipts, 200. Market steady. Beef steers, 3.50 @ 4.50; cows, 2.00 @ 3.50; feeders, freight paid to river, 3.50 @ 4.50; stockers, freight paid to river, 3.75 @ 4.25; bulls, stags, etc., 2.00 @ 3.00.

Hogs—Receipts, 650. Market steady. Light packers, 3.75 @ 3.80; mixed and heavy, 3.80 @ 3.85.

Sheep—Receipts none.

SAN FRANCISCO MARKET.

San Francisco, Nov. 24.—Wheat weak; Dec. 99½; May 1.06¾; cash 1.00.

Barley—No sales; cash 82½.

ROSY COLOR.

**Produced by Postum Food Coffee.**

"When a person rises from each meal with a ringing in the ears and a general sense of nervousness, it is a common habit to charge it to a deranged stomach.

"I found it was caused from drinking coffee, which I never suspected for a long time, but found by leaving off coffee that the disagreeable feelings went away.

"I was brought to think of the subject by getting some Postum Food Coffee, and this brought me out of the trouble.

"It is a most appetizing and invigorating beverage and has been of such great benefit to me that I naturally speak of it from time to time as opportunity offers.

"A lady friend complained to me that she had tried Postum, but it did not taste good. In reply to my question she said she guessed she boiled it about ten minutes. I advised her to follow directions and know that she boiled it fifteen or twenty minutes, and she would have something worth talking about. A short time ago I heard one of her children say that they were drinking Postum now-a-days, so I judge she succeeded in making it good, which is by no means a difficult task.

"Tom O'Brien, the son of a friend who lives on Bridge St., was formerly a pale lad, but since he has been drinking Postum, has a fine color. There is plenty of evidence that Postum actually does "make red blood," as the famous trade mark says. Jno. Chambers, 9 Franklin St., Dayton, Ohio.

## WILL LIKELY PASS DIVIDEND,

Is the Information Given Regarding the Sacramento.

NEW MAMMOTH RECEIVER.

**Mammoth in Position to Get Its Ore to Market—Silver Shield Shipment—Tesora Strike.**

The Sacramento will most probably pass this month's dividend. Such was the statement made today by one of the officers of the company. Some additional claims have been recently bought by the company but it is thought that this fact of itself would not prevent the mine from handing out this month's dividend if the mine were in as good shape as ever. A statement was recently made by a man connected with the mine that the company has lots of ore to draw on, but that the cave-in which occurred some time ago had proved very disastrous in that it buried up a large body of excellent ore. This cave in, it is stated can not be worked during the winter and it is therefore thought by some that this gold producer will not again step into the list of dividend payers until spring.

THE TESORA STRIKE.

**Ore is Said to Contain Phenomenal Values in Copper.**

The reported Tesora strike is fully up to expectations. Such was the information received today from one who has just returned from the mine. It is stated that there is nothing better in the district than the body of ore that has been encountered in a drift off the 300 foot level. The assay values on the samples shown could not be learned but they are said to run high, much higher in copper than any samples before tested. The ore is clean and seems to indicate the truth of the above remark. Besides carrying phenomenal values in copper, the values in gold and silver are also a very encouraging feature.

It is the purpose of the management to continue developing and opening up the property and no attempt will be made to get out the ore until the mine is in first class shape.

NEW MAMMOTH TROUBLE.

**An Application for a Receiver Was to be Made This Afternoon.**

The conference between the New Mammoth miners and the management took place yesterday afternoon according to agreement but no conclusion was reached that was satisfactory to the men. They have, accordingly, filed liens against the property. Superintendent J. E. Beveridge has set up a claim for over $800 and Harry M. Shields, foreman of the mine, claims $118.55 due him as wages. Additional liens have been filed by the men amounting in all to about $3,000. It was stated today by former manager E. G. Rognon that application would be made by the big creditors to have a receiver appointed, an assessment, it was said, would likely be made with which to pay off the miners, and then the work of completing the tunnel would be finished under a receiver's management.

HERO WILL INCORPORATE.

**Has Three Claims Adjoining the Lilly, in Tintic.**

Articles of incorporation of the Hero Mining Company are to be filed in a day or two. The incorporators are H. B. Cole, W. C. Orem, W. H. Child, formerly of Boston, and Chas. H. Knox, of Chester, Miss.

The claims of the company consists of the Dewey Nos. 1, 2 and 3, located north of the Uncle Sam and Humbug claims in Tintic district. About 250 feet of work has been done on the claims, which includes a shaft 65 feet deep, from which a drift has been run to a 5 foot vein of talc, which it is believed, will lead to values similar to those found in the Lilly mine adjoining.

With the proceeds to be realized from the sale of 200,000 shares of treasury stock the company proposes to begin work on what is considered a very promising prospect.

**Silver Shield Shipments.**

The drift from the 65-foot winze off the tunnel level of the Silver Shield has opened up a body of ore which, it is believed, will afford eight month's stoping. The mine is said to be looking better today than ever before. Two cars of ore are reported to be loading and another two cars are promised on the 1st of the month.

THE "ALICE" READY FOR WORK.

**During the Time Repairs Were Being Made Much Ore Accumulated.**

Special Correspondence.

Mammoth, Nov. 23.—The little engine of the New East Tintic Railway, which was broken down some time ago is again in running order. During the period that the "Alice" has been laid up for repairs considerable ore has accumulated in the ore houses of the Mammoth Mining company and it was only through the use of wagons and a similar engine belonging to the Salt Lake and Mercur Railway company that a shut down of both the Mammoth mine and mill was awaited. A new engine has been ordered to take the place of the "Alice" but it will be some time before it will arrive. This railroad runs from the Mammoth mill to the Mammoth mine over a very steep grade and besides transferring all the ore taken from the mine to the mill and railroad below, furnishes the mine with timbers and coal.

WORK ON THE NEW TRAMWAY.

**Will be Constructed from Centennial-Eureka to Rio Grande Western Tracks.**

Special Correspondence.

Eureka, Nov. 23.—Work has been commenced on the new tramway, which will be constructed from the Centennial-Eureka mine to the tracks of the Rio Grande Western and Oregon Short Line railways, some distance down the mountain side. Ever since the Centennial-Eureka mine began shipping ore it has been hauled down from the property by teams at a considerable expense, and with the advent of this new tramway the cost of marketing ores will be materially reduced.

Four cars of ore were sent out from the mine this week and as soon as the improvements now in progress are completed the ore will be mined and shipped much more rapidly than ever before in the history of that bonanza. Many new ore bodies have been encountered since the property was purchased by the United States Mining company and the majority of the ore now being taken out is from new strikes, leaving the large ore bodies untouched.

EUREKA HILL TO THE FRONT.

**Steps Forward With a Ten Car Load Shipment of Ore as a Starter.**

Special Correspondence.

Eureka, Nov. 23.—After a several months' absence from the shipping list the Eureka Hill mine has again came forward with a ten carload shipment, part of which went out today.

There are at present forty-five men employed at the mine, most of them being engaged in doing prospecting work. Others shipments will probably follow irregularly, but enough ore will be put on the market each month to provide for the regular monthly pay roll.

ACTIVITY IN WASHINGTON.

**A Mine at the Cascades Sells for a Hundred Thousand Dollars.**

J. M. More of Portland, Ore., was in the city today on his way east to the factory of the Fish Bros.' Manufacturing company, of Clinton, Iowa, which he represents as general agent; in Oregon and Washington. Mr. Moore reports considerable mining activity in Washington. A great deal of exploratory work is being done in the Cascades. The recent sale of the Eureka mine for $100,000 to California capitalists has served to stimulate interest in the district, to which a number of prospectors have made their way during the past summer, and in the Palmer mountains north of the Cascades a great deal is being done. In one place work on a big 7,000 foot tunnel is being pushed to completion.

**Application for Patents.**

During the past week applications for patents for mineral lands have been filed at the land office as follows:

2295—Ridge and Valley Mining company, on the Patte lode in the Tintic district.

2296—Ridge and Valley Mining company, on the Bapta lode, Tintic district.

2297—Bunker Hill Mining company, on the Bunker Hill, Cash Box and Little Jessie lodes, in the Rush Valley district.

2298—The Indian Creek Gold Mining and Milling company, on the Eureka, Josephine, Alaska, and Golden Fleece lodes, situated in the Newton district, Beaver county.

2299—John T. Hodson applies for patent on the Cape Cod lode situated in West Mountain mining district, Salt Lake county.

**West Argent Incorporates.**

The West Argent Mining Company has filed articles of incorporation in the county clerk's office. Its capital stock is placed at $100,000 which is divided into 400,000 shares of the par value of 25 cents each. John F. Connor is president of the company, Jas. A. Brown, vice president; F. R. Ball, treasurer, and E. B. Critchlow secretary. These, with James W. Perrin, form the directorate.

The company's property consists of the West Argent, Wade Hampton, Wade Hampton No. 2, Little Frank and Safe Side mining claims in the Rush valley mining district.

This property which has been worked more or less for the last thirty years, has produced somewhere about $150,000. It is reported to have been already bonded to two of the incorporators.

**Articles Are Amended.**

Two amendments to the Biesinger and Beck Mining Company's articles of incorporation were filed yesterday with the county clerk. The capital stock has been changed from 100,000 shares at $1 each to 400,000 shares of the par value of 25 cents each. A pro rate reissue of the stock is also provided for and the stock is made assessable.

**De Lamar's Nevada Mines.**

Work at the great De Lamar group, says the De Lamar Lode, continues about the same from month to month, 9,000 tons being regularly mined and milled.

The prospecting on the lower levels shows no decrease in the large bodies and very little in values.

The work of Superintendent Swindler, with his able assistants, William Oxnam at the mine and H. J. Player at the mill is making a great record. The works never having been run so successfully and pleasantly for all concerned.

The work of sampling the immense tailings dump to see whether enough of the value metal has gathered to make it worth while to work any part of it, still goes on, under the careful eye of Mr. A. J. Plume. The samples gave continuous values of 62 cents for last week, which would not begin to pay for re-working and shows how close the ore is being worked. The old chlorination tailing may pay to rework, but the cyanide tailings never will.

MINING NOTES.

A car of ore is expected shortly from the Aetna mine.

The Zelnora of Bingham marketed a car of ore today.

A car of ore from the Horn Silver is at the sampler.

Five cars of ore from the Mammoth were marketed today.

The Conklin sampler reported 10 cars from Tintic and one car from Stockton today.

The Ajax of Tintic reported on the market today with five cars of ore.

The Overland mill's clean-up reached the refinery today in the shape of 250 pounds of cyanides.

Two cars of ore were on the market today from the Lion Consolidated of Stockton.

A visitor from Stockton says that the Bunker Hill looks more like making a mine now than ever before.

The Taylor-Brunton sampler reported one car from Bingham, two from Stockton and one from Frisco.

It is reported that the Horace Greely and Gem mines of Bingham have been bonded for a snug sum.

A reward of $500 is offered by the Sir Victor Mining Company for evidence that will lead to the conviction of the supposed incendiaries of the recent disaster at the mine.

The management of the West Mountain placer, Bingham canyon, has closed a contract with the Jordan Narrows power plant for power and has also ordered two electric hoisting machines from the Westinghouse Company, of Pittsburg, Penn.

The suit of the Fissure Mining Company vs Old Susan Mining Company began at Nephi today. The cause of dispute is the title to certain ground for which the Old Susan Company sought a patent.

Baker City Democrat: B. F. Grant, representative of a Utah syndicate owning quartz and placer mines in Granite district, arrived from Salt Lake City yesterday morning.

Reno Journal. One of the largest mining sales to take place in Nevada for a number of years was consumated in Reno yesterday. C. H. Norton of Winnemucca sold the Wandering Boy, a very rich copper property located near Winnemucca, to a party of San Francisco capitalists. The price paid was $75,000. Work will be commenced at once to further develop the property, which is claimed to be the most extensive copper mine yet unearthed in the State.

# OUR OWN STATE.

## OGDEN NEWS.

The branch office of the Deseret News in Ogden is at No. 466 Twenty-fourth street, where advertisements and subscriptions will be received. The News is delivered by carriers in Ogden every evening on the same terms as in Salt Lake City.

OGDEN, UTAH, - - NOV. 24, 1899.

## BUSY DAY WITH POLICE

Answer of Defendant in the Gorringe vs Read Case in District Court.

**Probate and Other Cases in District Court—Marriage Licenses—Local News Notes.**

For some time the police department has had very little to do, but yesterday was a busy day. At 10 a. m., Mr. Peterson, owner of the blacksmith shop just across Weber river bridge, came to the department and reported that his shop had been robbed of about $20 worth of tools sometime during the night previous. The police immediately started out on the hunt and at noon they had recovered all the stolen articles, which had been sold to a second-hand store.

Detective James Pender, obtained a description of the party who had sold the articles stolen, and started out to find the perpetrator. At about 12:30 p. m., he observed two young, well-dressed fellows on Washington avenue, who looked suspicious, and promptly placed them under arrest. When searched at the station they had two pairs of new pants and several new handkerchiefs in their possession, and some other little articles, among them two little locks and three shells, articles found on the person of "sure thing" men. They tried to lose the locks on the way over to the station, but the detective heard them drop on the pavement, and reminded them that they had lost their "cuff-buttons." Later in the day it was found the pants were stolen from Nye's clothing store, and the handkerchiefs from Burt Bros'. The young men who are about 24 years of age, when confronted with the facts, confessed to the crime, and gave their names as J. H. Lynch and Thos. Moore. They came to Ogden on Wednesday from Butte, Montana, where they were employed as waiters in a large restaurant.

At 5 p. m., Detective Pender arrested Thomas Burke on Twenty-fifth street, for burglarizing the blacksmith shop. Late in the evening the party confessed the crime. About 5:30 o'clock another young man by the name of Frederick Ittentergehen was placed under arrest for stealing a razor and some other small articles from Smith's lodging house on Grant Avenue. He also confessed his guilt. He comes from Antwerp, Belgium. He is a bright young fellow, can speak three different languages, but says he has had enough of "Nord Amerika," and will return home as soon as he gets out of jail.

There were also three plain drunks run in by the police yesterday.

DISTRICT COURT.

Following business came up in the Second district court yesterday:

Annie Gorringe vs William S. Read; the defendant in this action filed with the county clerk an answer to the allegations set forth in the plaintiff's complaint. He denies that the property deeded to him by plaintiff was of the value of $1,200, and is of no greater value than $700; also denies that it is a part of the plaintiff's homestead; denies having any knowledge of other real estate valued at $400. Read admits the execution of the deed to him by plaintiff and the recording of the same, and that Joseph Gorringe was in the employment of Read Bros. for many years; he denies all other allegations set forth by plaintiff, except those mentioned in his answer.

Alexander L. Brewer vs Interstate Savings & Loan association; plaintiff in this action asks that he be granted a decree for the cancellation of a certain mortgage, and also judgment for $100 and for $100 attorney's fees, and for such other relief as the court may seem fit to grant.

In the matter of the estate of Emma A. Smith; court appointed J. S. Lewis, F. Parker and O. M. Runyon appraisers of said estate.

In the matter of the estate of Ella C. Williams; the administrator filed the return of sale, and asks that it be accepted and signed by the court.

In the matter of the estate of Jane D. Hatch; the administrator filed final account and petition for distribution of estate.

The hearing in the case of Ida C. Fehringer vs Commercial National Bank, occupied the court yesterday. The attorneys for the respective parties argued the case before his honor, and it was taken under advisement.

MARRIAGE LICENSES.

Marriage license was granted to Walter F. Daniels, 25, of Salt Lake City, and Miss Jennie Folkey, 25, of Deposit, N. Y.; Chas. C. Sherman, 30, and Mrs. Louise Keck, 38, both of Ogden City.

## PROVO.

**Court Business—Objects to His Medicine—Irrigation Investigation.**

Special Correspondence.

Provo, Nov. 23.—Judge John E. Booth, District Attorney Samuel A. King and Stenographer D. H. Roberts arrived home last evening from Vernal where they have been holding a term of the Fourth district court for the past two weeks.

COURT BUSINESS.

The following business was transacted before Judge Booth today:

In the estate of N. J. Fairbanks, deceased; hearing of petition for letters of administration set for December 4th.

Estate of Julian A. Olson, deceased; petition to sell real estate, set for December 4th.

OBJECTS TO HIS MEDICINE.

The case of Lehi City vs J. T. Wadsworth, for illegal liquor selling, has been appealed from Justice Woodhouse's court, of Lehi, to the district court. The defendant was found guilty and was sentenced to pay a fine of $70 and twenty days in the city jail.

INVESTIGATING UTAH IRRIGATION.

Arthur P. Stover, of the irrigation bureau of the United States department of agriculture, with headquarters at Cheyenne, Wyo., is in Provo studying the Utah system of irrigation, and especially the tributary streams of Utah lake and Jordan river which is taken as a fair sample of Utah irrigation. At present he is now copying all the decrees of the court in irrigation matters. It is the purpose to report the method of diversion, capitalization and management of canal companies and the expense of maintaining. In the spring and summer the streams will all be measured and a map made showing the locations of the same. In fact everything pertaining to irrigation will be reported and in the near future issued in bulletin form by the department for distribution among those interested.

BOARD OF EQUALIZATION.

At a special session of the city council this evening Thomas Beesley, Thomas Martin, W. J. Lewis, H. J. W. Goddard and George S. Taylor were appointed as a board of equalization and review to hear complaints and grievances over the tax and assessment for a sewer district. They will sit on Friday, December 1, 1899, between 10 a. m. and 3 p. m.

NOTES AND PERSONALS.

Sons have been born to Frank Gardener and Warren Ferre. All concerned doing well.

The three cases of diphtheria in the Fourth ward are reported to be progressing nicely, and it is not thought that the dreaded disease will spread farther.

Clerk Havercamp has issued a license to wed to William P. Sturgis, 19, of Diamond, and Ann R. Rieck, 18, of Payson; to Philip Jones, 22, and Mary Hansen, 18, both of Lehi.

Hon. Thomas Levy, of Panguitch, Garfield Co., whose wife recently died, has brought his children to Provo to reside with the family of their grandfather, Prest. J. W. Crosby.

PURE MILK.

The Elgin Dairy company warrants and guarantees all milk sold by it to be absolutely unadulterated and pure, containing no preservatives of any kind. Samples for analysis may be taken free of charge from any of its wagons or milk depots.

## LOGAN.

**Operation for Appendicitis—Kidd Fined $10 for Fighting—Probate Business.**

Special Correspondence.

Logan, Cache Co., Nov. 23.—John M. Bingham, a young man of Trenton, was operated upon here today for appendicitis. Two hours were consumed in completing the operation, which was highly successful, the patient rallying nicely.

FINED $10 FOR FIGHTING.

William Kidd was today found guilty of fighting in Justice Smith's court. Kidd asked for suspension of sentence pending his probable request for a new trial. He afterward appeared and asked for sentence. The court imposed a fine of $10, which Kidd paid.

Six boys pleaded guilty of disturbing the peace of some private families in the Third ward, this city, in Justice Smith's court. They were sentenced to pay fines of $2.50 each, in default of which all the boys went to jail.

PROBATE COURT BUSINESS.

Isaac Jorgenson was today appointed administrator in the estate of Soren C. Andersen, deceased, by Judge Hart.

In the matter of the estate of Timothy F. Parkinson, deceased, an order was entered confirming sale of real estate and personal property.

## VERNAL.

**SESSION OF COURT ENDED.**

**M. C. Thomas Gets Six Months in the Pen—Joseph Nash Receives Four Years.**

Special Correspondence.

Vernal, Uintah Co., Nov. 22.—District court was concluded on Monday, much sooner than was expected, as the calendar was a long one. The passing of so many of the cases shortened the term very much.

The most important case was that of the State vs M. C. Thomas, charged with assault with intent to murder. This case occupied three days and was warmly contested on both sides, the result being a verdict by the jury of "assault with intent to do bodily harm," and the defendant was sentenced by Judge Booth to six months in the State prison.

This conclusion of the Thomas case decided the fate of the case against Nathan Hunting. The case grew out of the same state of facts, viz.: the shooting scrape at the Dyer mine in the latter part of September. The witnesses were the same in both cases, consequently the finding of Thomas guilty virtually justified Hunting, so the latter case was dismissed.

FOUR YEARS IN THE PEN.

The case of the State vs Joseph Nash, charged with incest occupied part of two days. The jury was out but ten minutes, and returned a verdict of guilty and the defendant was sentenced to four years in the State prison. Nash is about 23 years old and the girl with whom the offense was committed, his niece, about 16 years old. The case was heard behind closed doors.

The case of Ed Whipple vs Wm. Pruce was continued for the term and this ended the session of the court.

Judge Booth and party left for home Tuesday morning.

CREAMERY PROMOTER.

A Mr. Springer is in Vernal promoting the building of a creamery. A meeting of interested parties will be held this evening and the project of Mr. Springer presented.

STAKE TABERNACLE.

Work at the quarries is being vigorously prosecuted and the new Stake tabernacle will from now on be pushed with enthusiasm. The weather is very fine and most of the rock will be quarried this fall. This, with the building of the new court house and the fine business block for the Ashley Co-op, will make a building boom here next summer.

## NEPHI.

**Court Cases — Grace Nelson Non-Suited — Frank Azallia Wins His Case.**

Special Correspondence.

Nephi, Juab Co., Nov. 23.—The case of Grace Nelson vs Miners Supply Co., wherein plaintiff sues to recover $1,000 damages for unlawfully taking possession of certain merchandise, was concluded last night, the jury finding a verdict, no cause of action.

The next case called was that of Frank Azallia vs Blanch St. Clair. This action is brought to clear title to certain property situated in Mammoth, and also $1,400 damages. The case went to the jury at the adjournment of court last night, and after being out several hours they found a verdict for plaintiff, giving him title to the property, and fixing the damages at $500.

## SPANISH FORK.

**How the Prohibition Ticket Won—Another De La Mar Victim.**

Special Correspondence.

Spanish Fork, Utah Co., Nov. 23.—We have for some years past had at times as many as three saloons running full blast, the result of which has been that some of the basest element has gathered in here, and caused our city to be regarded as a den of vice and demoralization. Several ordinances had been passed for the regulation of the liquor traffic which if carried out might have helped some, but they were not. This occasioned much dissatisfaction among the people in general and city government was severely censured. The blame was put on the shoulders of the city marshal, and the people were made to believe that it was altogether his fault. On investigation, however, it was found that he was not to blame as will be seen by the following: He had made nine arrests for the violation of the law, all of which were clear cases. The ascribed penalty for each case is $99 fine or 90 days imprisonment, or both, yet all of the fines imposed in those nine cases amounted to but $84, with no imprisonments. This justified the law breaker in boasting that he could well afford to pay from $5 to $10 fine, as he on every occasion made no less than $30 clear. It is also rumored that the city marshal received a severer talking to for arresting the lawbreaker than the latter did for breaking the law. This sort of management convinced the people of this city that something radical must be done, and hence a Citizens' Prohibition ticket was put in the field at the late election. The opposite ticket stood as before in regard to the saloon. The result was the election of the whole citizens' ticket with about 30 per cent majority of the votes cast. Now we hope to have a reformation if the newly elected officers have the backbone to live up to the party platform and ignore the threats of the saloon element.

DIPHTHERIA CASES.

We have been afflicted almost the entire summer with that dreaded disease, diphtheria, with but one death, however. At the present it appears to be subsiding.

Miss Sylvia Rees, a daughter of Prof. Jos. A. Rees, returned from Tintic a few days ago on account of illness, which has developed into a severe attack of erysipelas.

On the 18th inst. a daughter was born to Mrs. W. B. Hughes. Mother and child doing well.

Our local physician, Dr. Slater, has recently performed a number of delicate surgical operations for the removal of diseased appendix, and of various tumors, all of which have been very successful.

ANOTHER VICTIM OF DE LA MAR DUST.

Mr. Peter Lindsay was buried here today. Over a year ago he was working in the mills at De La Mar, where he got sick, and has never been well since. He
