MINING, BUSINESS AND STOCKS.

AN ADVANCE IN GRAND CENTRAL

A Further Decrease in Price of Mammoth Today.

YANKEE CON. REMAINS FIRM

Four Aces Stronger—Eagle and Blue Bell Weaker—Southern Light Makes Small Advance.

TODAY'S METALS:

SILVER 59

LEAD, $4.45

CASTING COPPER 15¼

An improvement is noticeable today in a few stocks. Mammoth shows the most marked change. The intrinsic value of the size of the dividend and the rumor that no larger amount than 10,000 will be distributed have, perhaps, caused the stock to sell down to 2.70 today.

Grand Central almost recovered its losses of yesterday, selling today at 5.95.

Eagle and Blue Bell is if anything a little weaker at 1.45, while Northern Light has advanced to 16½.

Four Aces dropped bids at 7½. Daly West sold to 15½ and Bunker Hill sold down to 2½.

Joe Bowers was traded in at 14, while Bunkum dropped a few hundred at 25.

Yankee Con sold at 12½ and Midnight Dawn brought but 1½.

Quotations were posted as follows:

BLUNDELL VERDICT.

Sergeant Samuel Blundell, who, on the 5th of last September, assaulted Sergeant Kandson, with a rifle, and dealt him a severe blow over the head, which inflicted such serious injuries that the services of a doctor were required, has been reduced to the ranks and fined $15.

This is the decision of the court-martial of which Col. John P. Critchlow was president, and Col. D. H. Wells, Jr., Judge-advocate-general.

Adjutant-General Burton has issued an order approving the findings of the court and ordering them carried out.

THE PANIC ABOUT OVER.

Wall Street Has an Uneventful Day, Except There Was a Brief Flurry.

Money Holds Firm at a Good Rate—Live Stock Market Strong—Produce Lower.

New York, Dec. 20.—London quotations for American stocks not fully respond to the buoyancy here late yesterday, and the international stocks were dragged back in consequence. The opening prices were not, however, down to the London parity. Other stocks showed notable advances a number of prominent ones and specialties rising a point or over. American tobacco advanced 3. Stocks which showed good gains at the outset were forced down immediately, some of the speculative dropping one to two points. London offerings of international and an engagement of gold for export stimulated bear aggression. Heavy buying of the steel, copper and preferred lifted them four points and caused sympathetic rallies on the metal issues. Federal steel touched up 2¾. Support also appeared in other quarters, and prices worked sharply upward, the international great railroads to the fore. A number of the minor stocks made exceptional gains, including rubber preferred, which figured prominently. A rumor in transit dividends round amounts of that stock, which lessened it. Three points, Metropolitan street railway fell 3. Advances in the general market caused, and there was a movement to cover shorts. Sugars fell 2¾ and some other stock 1 to 2 points. Support checked the decline, and the market rallied. With the announcement of the increase in the New York Central dividend, this stock jumped 4½ points and the market stiffened, some stocks rising to the best.

There were numerous striking gains in the bond market, where business was somewhat larger.

OMAHA LIVE STOCK.

Omaha, Dec. 20.—Cattle—Receipts 2,400. Market steady. Native beef steers, 4.00@5.90; western steers, 4.00@4.75; Texas steers, 2.75@4.30; cows and heifers, 2.00@4.40; canners, 2.00@2.90; stockers and feeders, 2.00@4.75; calves, 3.00@6.00; bulls, stags, etc., 2.50@4.00.

Hogs—Receipts 11,000. Market shade higher. Heavy, 3.90@4.05; mixed, 3.92½@4.00; light, 3.90@4.00; pigs, 3.85@3.95; bulk of sales, 3.92½@3.97½.

Sheep—Receipts, 2,200. Market steady. Native muttons, 4.20@4.60; western muttons, 4.00@4.35; stock sheep, 2.75@4.25; lambs, 4.25@5.25.

DENVER LIVE STOCK.

Denver, Dec. 20.—Cattle—Receipts 200. Market steady to strong. Steers, 3.50@6.00; cows, 2.50@4.00; feeders, freight paid to river, 2.10@4.10; stockers, freight paid to river, 3.50@4.45; bulls, stags, etc., 2.00@4.00.

Hogs—Receipts 1,00. Market steady. Light packers 3.55@3.90; mixed and heavy 3.50@3.85.

Sheep—None.

SAN FRANCISCO MARKET.

San Francisco, Dec. 20.—Wheat—May, 1.08½; cash, 90½. No sales of barley; cash, 90½.

LONDON EXCHANGE RALLIES.

London, Dec. 20.—On the stock exchange today the general tone was decidedly firm. Business opened better and there was a more confident feeling. After a temporary relapse prices rallied and there was a distinct recovery in almost all departments.

NO DIVIDEND IS DECLARED.

Mammoth Posts No Dividend Today—No Quorum Present.

GRAND GULCH SHIPMENT.

Rich Streak in the Red Wing Mine—Highland Boy Copper—Four Aces Sets.

Contrary to general expectations no dividend was posted today by the Mammoth Mining company, owing to the fact that no quorum was present.

Mr. Sam McIntyre left for the mine this morning and nothing further regarding his movements could be learned at the office.

RED WING STREAK.

Rich Ore is Found Crossing the Jumbo Lode.

A rich streak of ore ranging in width from a few inches to a foot has been encountered in the Jumbo stope of the Red Wing mine at Bingham. Assays taken on samples from the 18 feet apart show 41 per cent lead 26.2 ounces silver and 44 ounces in gold from one sample, while the other, taken from the north end of the streak shows 34 per cent lead, 11 ounces silver and .04 ounces in gold per ton.

SMELTER STARTS UP.

St. George Copper Company Blows in Its Furnace.

Special Correspondence.

St. George, Dec. 16.—The St. George Copper Mining Company's smelter started up today and is turning out copper bullion with great rapidity, which is a source of great pleasure to the management and reflects much credit to the masterly workmanship of S. L. Adams, Sr., who has superintended the erection of this smelter on the north east stream of St. George City.

AT THE HIGHLAND BOY.

Another Copper Shipment—The New Smelter Auxiliary—Mine in Good Shape.

Another car of copper pigs were shipped yesterday afternoon from the Highland Boy smelter to the Perth Amboy refinery in New Jersey. The weight of the car of copper was 60,800 pounds, but as the pigs contain small quantities of other minerals the value of such a shipment cannot be stated with any accuracy.

Everything is said to be working smoothly and very satisfactorily at the smelter as well as at the mine. No word has yet been received by Agent H. F. Boland about the talked-of smelter addition, but further than that Mr. Newhouse said it was in consideration some months ago. Mr. Kingsbury's visit to the city from Great Falls, Mont., is said to have no connection with any Highland Boy affairs. There is a strong possibility that the addition will be made when the winter is over. The mine, it is stated, warrants it, as instead of producing about 200 tons a day it is in shape to send to the smelter between 500 and 600 tons per day and not show signs of straining its producing strength for some time to come.

CYANIDE SHIPMENTS.

The Mercur and the Star of Pine Canyon Report Today.

The Mercur reported at the rooms of the Consolidated Kansas City Smelter and Refinery today with 800 pounds of gold cyanide. As the mill addition is now being completed there is every probability that a very material increase in the cyanide product will be noted next month.

The Star of Pine canyon also sent in a small batch of 300 pounds of gold dust. The star has not reported as often as some would like to hear of it during the past few weeks. Some difficulty with the machinery is said to have retarded operations.

DIVIDEND DAY.

The Daly-West and Ontario Companies Disgorge.

The dividend declared by the Daly-West, which amounted to $60,000, was paid today.

The Ontario also released $15,000 in cash with which to afford its stockholders some holiday money.

The Silver King will pay its extra of $50,000 on Saturday.

GRAND GULCH SHIPMENT.

A Two Car Lot of High Grade Copper Ore Marketed Today.

A 2-car shipment of copper ore reached the market today from the Grand Gulch property in Arizona. This is the first ore in the red metal, if it were not so, it would not begin to pay for the long haul of 130 miles by team from the railroad track to Modena which seats 125 a ton. The assays figures on this lot could not be learned today, but it is said to be a shipment is much richer than the last lot sent in.

THE FOUR ACES SUIT.

The Attorneys of the Disputants Decide to Allow Surveys Made.

The matter of allowing underground surveys to be made by the Four Aces and South Swansea mining companies was to have come up before the court, today, in chambers, but owing to the arrangements made yesterday by the attorneys of the disputants, this was not needed. It was then arranged that every facility will be extended by both sides in the making of the surveys. Mr. O. P. Palmer will conduct the expert examinations for the Four Aces company, while J. W. Neff of the United States Mining company, will look after the South Swansea interests.

President Wheeler of the South Swansea Mining company expresses every confidence in the result of the fight. He says his company have the apex to the vein on their own ground, but that the Four Aces company have followed some stringers to a stringer of ore into the Swansea property. This stringer leaves the South Swansea vein about eighteen feet above the 650 level. This is exactly the place where the Four Aces workings broke into those of the South Swansea. "It has made no difference to the shipments from the mine," said Mr. Wheeler, "as we can send out a good ore shipment without disobeying the court's injunction."

In speaking of the Silver Park, Mr. Wheeler stated that the winze from the bottom of the 250 foot shaft is now down 12 feet. This winze was decided on owing to the great dip of the vein from the shaft. The winze closely follows the vein's dip. It is the intention soon to cut to the vein from the winze, when drifting on the vein will be continued as on the 250-foot level.

Some values have been obtained in the Picnic, where it appears that the Elmer Bay vein has been encountered, but nothing startling has yet been struck.

A strong vein is being followed at the Cleopatra. A trace of values was recently obtained but nothing approaching pay ore has yet been found.

WHAT A SMELTER MEANS.

Statistics Give Some Idea of the Work Required to Run a 300 Ton stack.

In the midst of several smelters crowded to their utmost capacity and so much talk of new ones to be constructed the following from the Engineering Magazine relative to the amount of freight required by one of 300 tons daily output, may have some interest:

For people who have not actually run a blast furnace realize what it means to fill the capacious maw of one of these monsters. A stack of 300 tons daily capacity, running on 10 per cent ore, must have delivered to it each day something more than 100 tons of ore, 250 to 300 tons of coke and over 100 tons of limestone, besides sand, coal and flux—amounting to 500 tons per 24 hours. Add the 200 tons of pig iron product chipped out, and we have a daily freight movement of 1,150 tons, taking no note of the disposition of the slag. The mining of the ore requires the labor of 150 to 200 men, the total mining, coke making, quarrying of limestone and transportation at least doubling the number of employes about 100 or more hands. Starting up a furnace of ordinary capacity, therefore, calls into activity at least 18 feet apart, 1,500 men; for the use of at least 1,000 railway cars and many locomotives; to gather several 300 tons, and vessels on the lakes; for capital, from the mines to the big iron of one million to twenty million dollars; and last, but not least, for a high order of managing ability.

Mineral Entries.

Final entries have been recorded in the principal land office as follows:

By J. C. C. Blanford and W. L. Pickard, for the Boston lode in West Mountain district.

By Edward McCurrick, for the Frida and Papoo lodes, in West Mountain district.

By Giovanni Lavagnino, for the Montreal No. 1 lode, in West Mountain district.

By David Keith, as agent for the Silver King Mining Company, for the Silver King Nos. 1, 2, 3 and 4, in Uintah district.

MINING NOTES.

W. J. Lawrence is visiting Tintic today.

The Mammoth resumed for six days of ore today.

The Star Consolidated marketed a car of ore today.

The Scannell of Tintic marketed seven cars of ore today.

The Katherine of Stockton marketed two cars of ore today.

The old Pocono of Stockton had a car of ore on the market today.

F. S. Wilson went to Bingham this morning to inspect some of his interests.

The Cocklin sampler receipts today were 34 cars from Tintic and two from Arizona.

Mr. David McLaughlin is down from the Park and says the Anchor is looking better than ever.

Operations at the Black Jack are at a standstill at present owing to delay of the nosting machinery.

The Taylor-Brunton sampler receipts today were: Four cars of ore from Stockton and nine from Tintic.

H. B. Kelsey, who has been here some time viewing the coal and iron deposits in the south, has left for his home in Minnesota.

Mr. Jacobson and A. L. Jacobs left for Bingham today to look over the Ben Butler, where some nice looking copper ore was recently uncovered.

A force of men is engaged in cleaning up and preparing for work on the Dixon group at Bingham lately secured by Messrs. Stallings, Olson & Brown.

A car of West Argent ore was reached for today. Preparations are being made to make this old Stockton property well in interesting story of prosperity ere long.

A car of ore was marketed today from the Rose Tower. A few men are working on the property but very little is really being done in the way of development.

The Nelse Brown Stone company would like to see the new Deseret News building constructed of its handsome stone, and to this end is letting some samples of its work free weekly. Some difficulty with the machinery is said to have retarded operations.

The tailings dump of the Ontario mill are frozen so solidly that the Marion mill, which has been working them for some time past, will likely shut down shortly. In the past six months 15,000 tons of tailings have been treated resulting in $17,000.

Austin Breville, Superintendent Tetrell, of the New Pass mines, was in town yesterday and reports the mines at that place in better condition than ever, with thousands of tons of ore in sight. New Pass is one of the gems promising mining camps in the State of Nevada.

The officers of the Rabbit's Foot Mining and Milling company have commenced work on the workings laid out by the way of Meeker and Rifle, Colorado. They will also bring their coke from Mitchell, Wyoming, to Rifle, the Hot Springs route as the road is too rough. It is expected that the Bromide will make regular shipments for some time to come.

A description of the Bromide mine in Washington is found in the latest issue of the Engineering and Mining Journal. This property will have some interest in Salt Lakers as being the mine in which D. C. Jackling will give his attention after January 1st.

President Stanley Moss, a miner who has been employed at the Daily Hill mine is authority for the statement that an ink-like drift made along the ore shoots on adjoins ores for the full distance and that ore is still seen in the breast of the drift. The last cross-cut was through thirty-nine feet of solid ore, according to the story related by this miner.

PRESERVATION OF THE QUAIL.

Illinois Sportsmen are Agitating the Project of "Planting."

GOVERNMENT PROTECTION

In Favor of the Bill Introduced in Last Congress—"Planting of Game Birds is Possible.

Sportsmen of Illinois are agitating the project of "planting" the game birds of India and other countries, as well as quail, says a Chicago dispatch today. They announce their sympathy with the bill introduced in the last Congress, providing for the preservation of game by the national government on the lines followed by the fish commission in stocking streams.

"The 'planting' of quail and other game birds is feasible," said W. O. Blanchard, of Macomb. "Some years ago, I imported a pair of Mongolian pheasants from Oregon, and a year later one was killed down in Hancock county. A number were planted in Pennsylvania and there, too, they proved to be great rovers. It brought in members, though, they will thrive. The first of these were sent to Oregon from China in 1872 by Judge Denny, of that State, then minister to China, and the descendants of these are now counted by the tens of thousands. India is the home of the game bird. A number of varieties could be imported to the United States."

WILL PLAY BASKET-BALL.

Much Interest is Centered in the Game—Organizing Teams.

Basket-ball will, to a large extent, take the place of football the balance of this winter. Among the many teams that are being organized are those of the Oregon Short Line and 6th Grande Wards, and of the office forces.

The High School has been organized, and Bert Margetts is arranging a select team.

SKATING RACES.

Gold Medal to be Given to Champion Fancy Skater.

Arrangements are now being made to inaugurate a series of skating races at the Tenth South skating rink. A course of nine laps to the mile has been measured, and the racing will be for the State championship. The distances will be from a quarter of a mile to twenty-five miles. In addition to the races there will be a fancy skating contest for a gold medal.

SPORTING NOTES.

It is now almost certain that the Y. M. C. A. will not play Yale on Christmas day. Every effort to arrange for a game has proved futile.

Skating races bid fair to become the most popular sport this winter.

Peter Maher, the Irish heavyweight fighter, thinks it very strange that letting stands for in favor of McCoy for the coming fight.

Martin Julian and Bob Fitzsimmons still decline to speak to each other as they pass by.

* * *

George Dixon was inclined to be biting after his defeat by Tom O'Rourke, his manager, aware of the fact he going up against McGovern Dixon was about to tackle the hardest game of his life, has induced George to settle down to hard work. He will have to be fighting fast for ever was before in his life to tackle the South Brooklyn whirlwind.—Chicago Journal.

EVANGELIST OLIVER'S LOSS.

Thinks the Man Whom He Befriended Stole His Coat.

Evangelist Oliver is the last reported victim of an overcoat thief. Not only is he minus a coat, but his private secretary, J. L. Griffiths, is also mourning the loss of a similar article. The story, as related to the police last night by Evangelist Oliver, is such as to cause one to lose faith in human nature.

Last Monday afternoon Mr. Oliver was approached by a young man named Hill Smith, the son of a well known family of one of the friends of the Evangelist's. The young fellow told a story of hard luck and asked Mr. Oliver to assist him. The gentleman invited Smith to his room, No. 42 south First West street, and told the young man he could himself as comfortable as possible. Smith slept in Mr. Oliver's room Sunday and Monday nights, but last night he failed to show up at supper time. Nothing was thought of this, but when about an hour later the evangelist prepared to go to church and discovered that his valuable mackinaw was missing he became worried. Mr. Griffiths began to look for his coat, but it had also vanished. Mr. Oliver became convinced that young Smith had stolen the garments and at once reported the matter to the police.

JUAB STAKE CONFERENCE.

The Juab conference will be held on Saturday and Sunday, January 27th and 28th, 1900 instead of January 13th and 14th, as advertised.

JOSEPH F. SMITH, Committee.

BINGHAM STAKE CONFERENCE.

The next quarterly conference of Bingham Stake will be held on Saturday and Sunday, the 23rd and 24th inst., instead of the 24th and 25th, as advertised.

JOSEPH F. SMITH, Committee.

SALT LAKE TEMPLE

The Salt Lake Temple will close on Friday, the 22nd inst., and reopen on Tuesday, Jan. 2nd, 1900.

LORENZO SNOW, President.

MANTI TEMPLE.

The Manti temple will close on Friday the 22nd of December, 1899, and reopen 16th of January, 1900.

JOHN W. W. McALLISTER, President.

LOGAN TEMPLE.

The Logan Temple will close on Friday, the 22nd of December, 1899, and reopen on Tuesday, the 2nd of January, 1900.

The White House Cook Book

THE BEST COOK BOOK PRINTED

It more fully represents the progress and perfection of the culinary art than any previous work.

THE "WHITE HOUSE" was compiled by Hugo Ziemann, steward of the White House under President Harrison, and Mr. F. L. Gillette. It contains over 1,400 Cooking Recipes, besides recipes for toilet and household. Special articles on buying provisions, dinner giving, table etiquette, carving and care of silver.

A novel and most important department consists of carefully prepared menus for Breakfast, Luncheon and Dinner, complete for one week in every month of the year.

In point of authority, it stands unequaled. Hugo Ziemann was at one time cater to the Prince Regent of Wales. He was killed while fighting the Indians in Africa. He was also chef in charge of the famous Café Riche in Paris. Later he conducted the restaurant Delmonico, New York, and call later he gave to the kitchen in Chicago, which place he left to accept an offer from the governor of foreign kingdom, a position which he was holding when he died. Besides these foods, the experience of a lifetime and a strong taste of legacy the simplified method of explanation is perspicuous in the order of manipulation, thereby enabling the most inexperienced to clearly comprehend it. The subject of carving has been given a prominent place, not only because it is important in a work of this kind, but particularly because it contains entirely new and original designs, and is so far a departure from the usual mode of treating the subject.

Interesting information is given concerning the White House. How to hospitalize is succinct. The menus used on special occasions, views of the interior.

The binding being of enameled cloth it can at any time be readily cleaned and made to look bright and fresh by simply rubbing it off with a damp cloth.
