MINING, BUSINESS AND STOCKS.

THE WEEK ON THE EXCHANGE.

Valeo and Mercur Show Big Gains This Week.

GRAND CENTRAL WEAKER.

Silver King is Active—Yankee Con. Weaker—Crown Point Sells—Sacramento is Firmer.

TODAY'S METALS:
SILVER 60
LEAD, $4.57½
CASTING COPPER 16

The week's business on the exchange closed with the very fair amount of $46,734.72 representing the sale of 47,956 shares. The effect of the terrible disaster at Schofield was seen during part of the week, when little else was thought of by the exchange members.

Some marked advances are recorded this week of several stocks, but though rumors are current no definite information is obtainable. This is especially true of Valeo, which opened the week around 72 and closes at 1.08½ bid. Manager Kearns is silent regarding the proposition and while every one feels some change has taken place no one seems to know just what has happened.

A decided stiffening is also seen in Mercur, which stood at a little better than $5 on Monday but closes today with $5.75 bid. Mammoth holds up well though it is a little weaker today. Grand Central put on a spurt during the week and went to $6.30, from which point it fell to $6.00 yesterday and stands at $5.91 bid today. Silver King was active during the week, 200 shares being brought out on a bid of $52.50. Four Aces also shows some improvement, 5¾ being offered today without any response. Yankee Con., for which 10½ was bid on Monday, closes a little weaker today, while Bullion-Beck, which was held at 3.50 on Monday was an offering today at $3.05. Northern Light hangs close to 7 with the probability that it will go higher when the mill is started. May Day closes the week a little lower than on Monday, while Sacramento shows itself stronger. Lower Mammoth entered the week with 53 bid, but closes with 50½ offered. Dexter shows some improvement, while Eagle and Blue Bell has remained under $1.00 all week. Daly-West sold up to $19.15 and closes the week in good form.

Petro sold today at 39¾, while Sunbeam sold down to 8¾, with the assessment paid. Valeo was very active at from 99 up to $1.09. Sacramento was loosened at 22¾, Yankee Con. at 10, and Crown Point at ¼.

Closing quotations were posted as follows:

MARKET SHOWS SLUGGISH.

Closing was Lifeless at Insignificant Net Changes.

Amount of Loans Increased—Live Stock Lower—Produce Holds Fairly Steady.

New York, May 5.—Wide fluctuations were continued to a few stocks, the list being sluggish and lower. Steel and wire fell away 1⅝, but sugar was taken sparingly up to 11 o'clock. Long Island got up to 89 and lost most of the rise. The bank statement proved ineffectual to awaken any animation in the market, and there was nothing to indicate whether a favorable or unfavorable interpretation was placed on the unexpectedly heavy loan expansion. The only tendency manifest was to get back to last night's level of the prices. The closing was lifeless at insignificant net changes.

MONEY AND BONDS.

Money on call steady at 2 per cent. Prime mercantile paper 3½@4½ per cent.

Sterling exchange steady with actual business in bankers' bills at 4.88¼ for demand and 4.84¾ for 60 days; posted rates 4.85½ and 4.89½; commercial bills 4.83¾@4.84¼.

Silver certificates—60¼@⅝.
Bar silver—60.
Mexican dollars—47½.
State bonds inactive, railroad bonds steady.

Government bonds stead. United States refunding 2s when issued 103¼; 2s regular 99¼; 3s regular and coupon 109½; new 4s regular and coupon 134; old 4s regular and coupon 115; 5s regular and coupon 112½.

CHICAGO MARKETS.

LIVE STOCK.

Chicago, May 5.—Cattle—Receipts, 100; nominally steady. Good to prime steers, 4.75@5.70; poor to medium, 4.10@4.65; stockers and feeders, 3.60@5.00; cows, 3.00@4.50; heifers, 3.25@4.95; canners, 2.25@2.90; bulls, 2.80@4.85; calves, 4.50@6.25; Texas fed steers, 4.00@5.25; Texas bulls, 3.25@3.75.

Hogs—Receipts today, 13,000; Monday, 32,000; left over, 3,306. Steady, top, 5.47½. Mixed, 5.15@5.40; good to choice heavy, 5.25@5.47½; rough heavy, 5.10@5.20; light, 5.05@5.32½; bulk of sales, 5.25@5.35.

Sheep—Receipts, 2,500. Firm; good to choice wethers, 5.25@5.65; fair to choice mixed, 4.50@5.25; western sheep, 5.25@5.65; yearlings, 5.50@6.00; native lambs, 5.50@7.10; western lambs, 5.00@7.10.

PRODUCE.

July wheat opened at 67½@⅝; July dropped to 67¼ and rallied to 67½@⅝. Close: Wheat—May, 65⅝@¾; July, 67⅝.

Corn—May, 39⅛; July, 40⅛.
Oats—May, 23⅛; July, 23⅜@½.
Pork—May, 11.80; July, 11.90@11.92½.
Lard—May, 6.80; July, 6.82½@6.85.
Ribs—May, 6.50; July, 6.65.

Cash: Wheat—No. 2, red, 70½@71½; No. 3, red, 67@70; No. 2, hard winter, 66; No. 3, do., 63@65½; No. 1, northern spring, 67@68; No. 2, northern spring, 66@67; No. 3, spring, 63@65.

Corn—No. 2, 39; No. 3, 38¾.
Oats—No. 2, 23; No. 3, 23.
Rye—53¼.
Barley—36½@44.
Timothy—2.50.
Flax—1.80

KANSAS CITY LIVE STOCK.

Kansas City, Mo., May 5.—Cattle—Receipts, 100. Market unchanged. Native steers, 4.40@5.15; stockers and feeders, 4.00@5.25; butchers' cows and heifers, 3.30@4.80; canners, 2.50@3.30; fed westerns, 4.40@4.80; Texans, 3.60@4.60.

Hogs—Receipts, 5,000. Market steady, bulk of sales, 5.10@5.75; heavy, 5.12½@5.35; packers, 5.10@5.25; mixed, 5.07½@5.22½; light, 4.00@5.15; yorkers, 5.05@5.15; pigs, 4.00@4.90.

Sheep—Receipts, 500. Market steady; lambs, 5.90@6.50; muttons, 4.00@5.20.

OMAHA LIVE STOCK.

Omaha, May 5.—Cattle—Receipts, 300. Market steady; native beef steers, 4.00@5.25; cows and heifers, 3.60@4.65; canners, 2.25@3.50; stockers and feeders, 3.75@5.10; calves, 3.00@7.40; bulls, stags, etc., 2.90@4.10.

Hogs—Receipts, 8,800. Market shade to 5c lower. Heavy, 5.25@5.35; mixed, 5.20@5.25; light, 5.15@5.25; pigs, 4.75@5.10; bulk of sales, 5.20@5.25.

Sheep — Receipts, 800. Market 10c higher. Yearlings, 5.40@5.65; western muttons, 5.00@5.40; stockers, 4.50@5.25; lambs, 5.75@7.00.

DENVER LIVE STOCK.

Denver, May 5.—Cattle—Receipts, 300. Market steady. Beef steers, 4.20@5.00; cows, 3.25@4.50; feeders, freight paid to river, 3.50@4.90; stockers, do., 3.75@4.85; bulls, stags, etc., 2.00@3.00.

Hogs—Receipts 50. Market steady. Light packers and mixed, 5.05@5.15; heavy, 5.00@5.05.

No sheep.

SAN FRANCISCO PRODUCE.

San Francisco, May 5.—Wheat steady; Dec., 102⅝; cash, 95. Barley, no sales; cash barley, 73¾.

ST. LOUIS WOOL MARKET.

St. Louis, Mo., May 5.—Wool unsettled pending arrival of new clip. Territory and western medium, 17@20; coarse, 14@17c.

WEEK IN WALL STREET.

New York, May 5.—The stock market has been dull and apathetic all week and almost wholly in the hands of small professional traders. The selling pressure has become very light at the low level of prices, but the buying demand is almost extinguished. The set back to general business has been discounted and Wall street awaits further light on the future course of business. Much attention continues to be given to the iron and steel trades and indications are keenly watched for the adjustment of prices to the consuming demand. The adjustment of money rates to the foreign demand for money and the possible check to the present supply from government disbursements on account of converted bond premiums and from increased band note issues, are factors of importance.

BUTTER AND EGGS.

Chicago, May 4.—On the produce exchange today the butter market was firm. Creamery, 14½@19½c; dairy, 13@16½.

Cheese—Dull, 9@11½c.
Eggs—Steady; fresh, 10¾c.

New York, May 4.—Butter—Receipts 4,111 packages. Market steady. Western creamery, 16@20c; factory, 13@15c.

Eggs—Receipts 9,470 packages. Storage western at mark, 13¼c; regular packing at mark, 12@13c; southern at mark, 11@12c.

WEEKLY BANK STATEMENT.

New York, May 5.—The weekly bank statement shows the following changes: Surplus reserve, decrease, $1,095,800; loans, increased, $13,221,400; specie, increased, $2,010,900; legal tenders, increased, $1,166,500; deposits, increased, $17,092,800; circulation, increased, $89,800.

The banks now hold $15,978,475 in excess of the requirements of the 25 per cent rule.

CONDITIONS AT GRAND CENTRAL

Winzes from the 700 Level Expose the Mine's Richest Ore.

EXCELLENT ON 900 LEVEL.

Daly-West Dividend of $37,500 Declared Today—Gold Samples from R. G. W. Group.

A visitor to the Tintic district returned a couple of days ago with samples of good looking ore from the 900 level of the Grand Central mine. Nothing sensational is reported of the grade of ore found on this level, but indications for the future are pronounced excellent. After running this drift east to get under the upper workings, a turn was made to the south and the recently recorded strike on that level is said to have been made earlier than it was expected, judging from the developments above. This fact has led to the supposition that the new strike on the 900 may prove the upper part of another gigantic ore chute. It also leads to the belief that further drifting south on the 900 level will, probably within the next 300 feet, expose the full width and richness of the ore chute developed on the 700 level. The prospects for the 900 level are pronounced very bright by the "News" informant.

A great deal of work is also being done on the 700 level, where the drift has been run several hundred feet in a southerly direction. Some very good ore is reported to have been opened up at the end of this long drift, and also in a couple of winzes running to the 800 level. Owing to the long distance of the ore bodies from the shaft connections are made with the shaft every 200 feet. But the 700 and 900 levels are conected near the ore bodies by a winze. From this winze a drift is being pushed south on the 800 level, and it is also stated that this will enable the management to stope some excellent ore to the south which is now developed by a winze about 100 feet deep from the 700 level.

On the whole the situation at the bonanza is said to be very promising. A great deal of drifting to the south is going on on the 700, 760, 800 and 900 levels. In addition to this the shaft is said to be put down considerably below the 900 level and it appears that every effort is being made to reach out after as big an ore reserve as possible, so that when dividends are resumed they will be continuous.

IN IRON COUNTY.

Considerable Work at Iron Springs and Pinto Creek.

Special Correspondence.

Cedar City, May 3.—Considerable work is being done in the vicinity of Iron Springs and Little Pinto creek, this county, where rich iron and copper mines are being located. Mr. McGarry of Beaver City has a force of fifteen men developing his claims, which it is alleged are bonded for a neat little sum.

Messrs. Milner, Dear and Lerch are also actively engaged in developing their claims in the vicinity of Little Pinto, they also have from fifteen to twenty men working for them, most of which are from this place the conditions connected with Mr. Taylor's sale are significant and certainly indicate that the time is near at hand when some of the unbounded resources of Iron county will be utilized.

Mascotte Forces Laid Off.

The Mascot company has laid off its forces at Dalton & Lark, except pump men, etc., pending matters which will culminate in a few days, says the Bingham Bulletin. We understand an important move is to be made looking to a more economical working of the property. The pumps are lifting several hundred gallons of water per minute from such depths as to entail ruinous expense. A remedy lies in tunneling, which is said to be feasible.

Bingham's Low Grade Ores.

Referring to the low grade copper-bearing porphyry from the immense dyke on which the Wall-De Lamar group and part of Boston Consolidated ground is located, the Bingham Bulletin says, there is no chance for doubt it is a first-class concentrating proposition. There is no doubt, either, that modern milling methods will admit of the material being mined (quarried is a more suitable word) and milled at a good profit. Practical instances to prove this are not wanting. At the Atlantic mine, Houghton, Michigan, $2 ore is mined, carried, put through a stamp mill, concentrated and smelted at a total cost of $1.10 per ton; at the Deadwood- Terra mine, South Dakota, a 160-stamp mill has crushed 15,000 tons per month of ore averaging $1.80 per ton, at a total cost for mining and milling of $1.40 per ton.

Tintic Ore Shipments.

Special Correspondence.

Eureka, May 4.—The ore shipments from the Tintic district for the week ending today were somewhat smaller than for several weeks heretofore, the total number of carloads of ore sent out amounted to seventy-five. There were quite a number of the heavy shippers of the district, including the Bullion-Beck, South Swansea and Grand Central mines, absent from the shipping list and this cut down the total output considerably. Some of these properties are, however, loading consignments which will go out in the course of a few days. The infant bononzas in the south end of the district with the exception of the Tesora failed to come to the front this week. The Centennial-Eureka sent out twenty-eight carloads of ore. The shipments were as follows:

	Carloads.
Centennial-Eureka	28
Gemini (Keystone)	10
Uncle Sam	6
Godiva	4
Swansea	16
May Day	4
Tesora	1
Mammoth	6

In addition to the above the Mammoth mill and Bullion-Beck will each sent out two carloads of concentrates, while the Mammoth mill also shipped one bar of bullion.

A Wonderful Medicine.

BEECHAM'S PILLS

For Bilious and Nervous Disorders, such as Wind and Pain in the Stomach, Sick Headache, Giddiness, Fulness and Swelling after meals, Dizziness and Drowsiness, Cold Chills, Flushings of Heat, Loss of Appetite, Shortness of Breath, Costiveness, Blotches on the Skin, Disturbed Sleep, Frightful Dreams, and all Nervous and Trembling Sensations, etc. These ailments all arise from a disordered or abused condition of the stomach and liver.

Beecham's Pills will quickly restore Females to complete health. They promptly remove any obstruction or irregularity of the system. For a

Weak Stomach, Impaired Digestion, Sick Headache, Disordered Liver, etc.,

they act like magic—a few doses will work wonders upon the Vital Organs; Strengthening the Muscular System, restoring the long-lost Complexion, bringing back the keen edge of Appetite, ***and arousing with the Rosebud of Health the whole physical energy of the human frame. For throwing off fevers they are specially renowned.*** These are "facts" admitted by thousands, in all classes of society, and one of the best guarantees to the Nervous and Debilitated is that Beecham's Pills have the Largest Sale of any Patent Medicine in the World. This has been achieved

Without the publication of testimonials.

Beecham's Pills have for many years been the popular family medicine wherever the English language is spoken, and they now stand without a rival.

FIRE AT SANDON.

Later News Shows the Destruction of the Town Was Complete.

Later reports from Kaslo, B. C., state that the destruction of Sandon, the second mining town of importance in the Slocan, has been completely destroyed by fire and nearly all of its 1,200 people are homeless and ruined. Kaslo is twenty-eight miles from Sandon, but about midnight large clouds of smoke came rolling over this town from Sandon. At once word went out that Sandon was destroyed, but no news could be had from the desolate town as all wires had been burned.

Two streams of water were used for a while, but when one of these gave out it was only a matter of the fire burning itself out.

The miners' hospital and a drug store were blown up in the effort to stop the flames. By this time all the lower part of town, including the tenderloin and many business places, were gone. Then the firemen blew up the Echo hotel, one of the finest buildings in the Kootenay country; the C. P. railroad station and other buildings, in order to save the valuable stores of H. Geigerich and H. Byers & Co. This was accomplished. Half a dozen other buildings in the extreme ends of the town were saved, including the electric power-house. The rest of the town was drawn into the maelstrom of flame.

Relief measures were taken quickly. The officials of Sandon donated $500 and mining men there contributed $3,000. Kaslo raised $1,800 and sent up a special train with large supplies of food, tents and clothing. More relief is needed.

THOMAS MEIN DEAD.

Was One of the Best Known Mining Men in California.

An Oakland, Cal., dispatch to the "News" today says that Captain Thomas Mein, one of the best known mining men in California, is dead of lung trouble. Captain Mein ammased a fortune in the Transvaal.

When Capt[illegible] Jameson made his famous raid, [illegible]in Mein was one of the American [illegible] prisoner. He was tried, with J[illegible]ys Hammond, for high treason, [illegible] was sentenced to death. A strong appeal was made to President Kruger, and after a year's imprisonment he was pardoned.

GOOSE CREEK DISTRICT.

A Utah Man Reports Very Rich Copper Ore in Oregon.

Charles M. McEntire, a mining man of Mercur, Utah, who has just returned from a trip to Goose creek and the surrounding district, brought some fine samples of copper ore obtained from the mines there. He visited the property of the North American Mining company and says that about thirty men are at the mine.

The mine presents a busy appearance and new machinery is being put in, consisting of a hoist with an immense boiler. Mr. McEntire said he did not know its capacity, but it must be very large, and he is of the opinion that the company intends to sink about 1,500 feet. There is a sawmill in operation, which is cutting between 3,000 and 4,000 feet of lumber a day.

The lumber is used in erecting the bunk-houses and other buildings around the mine. The mine is a very promising copper property and development work will be pushed this summer.

Mr. McEntire has some samples of copper ore which were taken from three different claims about two miles from Copper Butte. A sample from the latter property is sulphide ore and exceedingly rich. Some thirty years ago, Mr. McEntire says, a smelter was on the property and produced from four to five tons of copper bullion. This was hauled to The Dalles, which was the nearest transportation point, and shipped to Swansea, Wales, for refinement. The freight charges were so high that the shipment did not pay and further shipments were abandoned. At the Copper Butte, Mr. McEntire, says, there are now about 100 tons of old slag on the dump that carries about 7 per cent copper. The mine is not operated and there is no effort made to utilize it. There is also about 1,500 tons of oxidized ore that goes from 30 to 40 per cent copper. Mr. McEntire believes that the copper deposits of this country are certain to attract much attention in the near future.—Baker City Democrat.

DALY-WEST DIVIDEND.

Directors Declare One of $37,500 Payable on the 15th inst.

The directors of the Daly-West Mining Company met today and declared the regular monthly dividend of 25 cents a share or $37,500, payable on the 15th inst., the books to close on the 10th.

Manager Jacob E. Bamberger expects to visit the mine tomorrow and return tomorrow evening.

The payment of this dividend makes $42,500 already declared by two of Utah's mines during the present month.

FROM R. G. W. GROUP.

Samples Received Last Night Liberally Specked With Gold.

Last night's express brought a number of choice samples from the R. G. W. group in Tintic. Some of them show free gold imbedded in the quartz in addition to a free sprinkling of yellow pellets in the iron formation of the vein. The samples show more free gold than any before exhibited, and seem to indicate the near approach of an ore body. The present vertical depth is 540 feet in the tunnel.

Cyanide Receipts.

The week's receipts of gold dust at the sampling rooms of the Consolidated Kansas City Smelter and Refinery Company amount to more than half a ton. The Denver and Montana Reduction Company reported with sixty pounds and was followed by the Lucky Boy with 150 pounds, while the Mercur closes the week with 800 pounds of the precious gold cyanides.

MINING NOTES.

The Tesora, of Tintic, marketed a car of ore today.

The Mammoth, of Tintic, marketed three cars of ore today.

The Conklin sampler reported five cars of ore from Tintic today.

The Horn Silver of Frisco had six cars of ore on the market today.

Broker Ben D. Luce, has removed to 302 and 303 D. F. Walker building.

The Uncle Sam, of Tintic, reached the market today with five cars of ore.

The Red Wing of Bingham had two cars of concentrates on the market today.

The Bullion-Beck, of Eureka, had two cars of concentrates on the market today.

E. M. Collier, formerly deputy mineral surveyor, expects to leave shortly for Deep Creek country.

It is stated that a shipment of about 200 tons of ore will shortly be made from the Utah Queen mine in Dry Fork canyon.

A car of copper matte was on the market today from the Glasgow and Western Exploration company's Nevada properties.

The Taylor-Brunton sampler reported six cars of ore from Tintic, six from Frisco, two from Bingham and one from Nevada today.

M. Guggenheim Sons, of New York, today authorized Bamberger & McMillan to draw on them for $500 for the sufferers from the Scofield disaster.

A total of 123,000 shares of Sunbeam stock on which the late assessment of 10 cents a share was delinquent, were allowed to go into the treasury at the sale yesterday afternoon.

The April number of the Mine and Stock Journal is out. A semi-monthly publication is promised after June 1st.

The grading at the Bingham Copper and Gold company's smelter site has been completed two weeks ahead of time.

Bingham Bulletin: The Jersey Blue long tunnel, following Little Cottonwood cross vein, is now in 800 feet and is expected to reach Jersey Blue vein in something over 100 feet, tapping it upwards of 1,000 feet below apex. Breast is all in ore of fair milling quality—six to eight inches being first class. The Jersey Blue tunnel, in 600 feet, is following two to three feet of milling. The ores of both veins carry a good per cent of copper.

Butte Intermountain: According to a deed filed in the clerk and recorder's office, Donald Gillis of Robinson, Utah, who was formerly a resident of this city, has bought the Nine Mile house property from James B. Boyce, paying for it about $12,000. The deal includes the entrance to Blechtall canyon, the Gold Dust, Iron and Fine Gold [illegible] claims and the group of [illegible] houses comprising Lyndale.

IN ANY EMERGENCY

THAT YOU CAN RELY UPON.

is the only kind to purchase. It is poor economy to buy from an unreliable manufacturer or dealer, because the loss of life may make you pay dearly. Only the very best vehicles can be purchased from us, where we can guarantee strength, durability and good workmanship with beauty.

We show 100 styles in our Carriage Repository, 2nd floor. Take elevator.

Quality considered, our prices are the lowest in the city.
