MINING, BUSINESS AND STOCKS.

PRICES RULED STRONGER TODAY

Star Con. Makes a New Record for Itself—Sold at 50.

LOWER MAMMOTH ADVANCES

Bullion-Beck Firmer—May Day Unchanged—Mammoth Inactive—Dexter Weak.

TODAY'S METALS:
SILVER 60
LEAD, $3.87½
CASTING COPPER 15½

Business was not very heavy on the exchange today, but a strong upward tendency is noticeable in several stocks.

Bullion Beck was not active, being held at $4, but the fact that $3.66 was bid shows that the stock is growing in favor, owing probably to the recent strike.

Daly West was active today at from $17 to $17.-0, while Eagle and Blue Bell was traded in at 80 and 78.

Lower Mammoth climbed to new heights. From 65, the price of the first sale, the stock rose to 71, with the sale of something like 1,300 shares.

Star Consolidated was the sensation of the day and made a new record for itself. It bids fair to resume its old station in the new future. After selling around 36 on Tuesday the stock started out today at 45 and advanced to 50 before the close of call.

May Day was little changed, being traded in at $1.06 and $1.07. Northern Light was stationary at 6¾ and Boston and De Lamar was handed out at ⅛.

A Sprained Ankle Quickly Cured.

"At one time I suffered from a severe sprain of the ankle," says Geo. E. Cary, editor of the Guide, Washington, Va. "After using several well recommended medicines without success, I tried Chamberlain's Pain Balm, and am pleased to say that relief came as soon as I began its use and a complete cure speedily followed. This remedy has also been used in my family for frost bitten feet with the best results. I cheerfully recommend its use to all who may need a first class liniment."

SWANSEA POSTS A DOUBLE HEADER

Directors Declare a Dividend of $10,000 Today.

MINE IN GOOD CONDITION.

J. W. Langley Visits the Mother Lode, California—Salt Lakers Interested—The Smokehouse Property.

The directors of the Swansea Mining company met today in regular monthly session and decided to double up on the June dividend, by declaring one of 10 cents per share or $10,000 payable June 9th. The books close on the 5th of June.

The present step has been taken after due consideration and while the directors are silent on many particulars those who are close to them claim that the treasury balance and the present outlook at the mine fully justify the move. As to whether it will be continued regularly no one would say. The surplus is said to be considerably over $100,000 and parties who have lately visited the district state that the Swansea's output is very large. Several teams are constantly employed in hauling ore from the bins, which are full all the time. It is also stated on very good authority that the ore on the lowest level is of excellent grade, while that disclosed by the winze from the 800 level is the best encountered in the mine. For all that, however, the company may only decide to come out with an occasional extra. The stockholders will rejoice in this decision and everyone else will be glad to know that another Tintic producer is making a record for itself.

THE MOTHER LODE.

J. W. Langley and Other Salt Lakers are Interesting Themselves.

Secretary J. W. Langley, of the Silver Shield, returned yesterday from a two weeks' trip to California. While away, Mr. Langley spent considerable time in looking over the Mother lode in Calaveras and Amador counties. A great deal of activity is reported in the district. A number of old properties are being reopened and profitably worked. A party of capitalists traveled with Mr. Langley who examined and closed a bargain for a gold property on the lode in one day. The price is said to have been $50,000. Mr. Langley and other Salt Lakers entered the district for the purpose of taking up a promising property, but at present the prospective deal is not in shape to talk about.

The Central Eureka is said to be developing into a big bonanza. The company is now erecting a forty stamp mill which it proposes to have running in a few weeks.

While away Mr. Langley witnessed the departure of E. W. Whitney of this city for Cape Nome. The old Zealandia whom many Salt Lakers will remember sailed last week with upwards of 900 people for Nome.

SMOKEHOUSE LODE.

Mr. Alex Tarbet Reported to be Fully Satisfied with Developments.

Alex Tarbet visited the Smokehouse yesterday with several friends and expressed complete satisfaction with the developments now in progress, says the Butte Miner. On account of the lack of facilities to handle the water, work was suspended for a time, but a steam pump was replaced by the electric pump which proved a failure. The steam pump is being operated by compressed air, furnished by a new compressor which has just recently been installed. This is operated by a fifteen horse power electric motor, but as its capacity is not large enough to work the pumps and Rand drills at the same time, the old style of hand drilling has been resorted to for the present.

Cross-cutting continues at the 240, both north and southward. In the north vein the miners are in fifteen feet on the vein, and Mr. Tarbet says he is going to remain here until they cut through the foot wall. The material found is a good quality of vein matter, showing strong copper indications and still considerable zinc, with considerable pyrites. The dip of the vein has changed its dip from 4 to 60 degrees. Mr. Tarbet will at once resume sinking of the shaft to the 600. At a depth of 375 or 400 feet he calculates that the shaft will cut the vein. The pitch of the south vein is considerably farther to the south than was expected. A large hoist and dynamo will soon be put in, also a new electric pump recently invented in California.

L'ABRA MINING CO.

State Department Considering the Amount of Award Against Mexico.

New York, May 31.—A special to the Herald from Washington says:

Consideration is being given by the state department to the extent of the liability of the United States for $240,682, the amount of the award against Mexico disbursed to L'Abra Silver Mining company.

As a result of the decision of the United States Supreme court that the award was obtained by fraud and setting it aside, Secretary Hay has returned to Mexico $402,000, which had not been disbursed. A bill has been introduced in the Senate appointing and authorizing the return of $240,683 to the Mexican government.

A case identical with that of L'Abra company now pending in the court of claims is that of Benjamin W. Weil, who received a judgment of $479,975; the Mexican government charges that this award was also obtained by fraud. The United States before holding up the disbursements, turned $171,993 over to Weil. The remainder is in the treasury pending a final decision.

Jordan Narrows Plant.

Alex Tarbet, president of the Salt Lake Water and Power company, explaining to some friends at the Butte yesterday, said the plant is now furnishing 2,000-horse power of electricity. The power station is at Jordan Narrows, 22 miles from Salt Lake. It has four penstocks, carrying 600 2d feet of water, with a fall of 75 feet. The company supplies the towns of Bingham and Mercur with light, and power pumping in mines, hoisting engines and to the four mills. Mr. Tarbet says the company will soon put in a steam auxiliary power plant, as during the irrigating season about 250 feet of water is lost. With everything favorable the company will be able to supply 4,000 horse-power of the invisible current. It is also contemplated building storage battery stations in Bingham and Mercur, thus insuring a steady current. With the improvements completed, the plant will represent an investment of $400,000.—Butte Miner.

Northern Light.

It was stated today at the office that the Northern Light mill will be started up in less than two weeks. The necessary supplies are now in place and some time has been spent in fixing the pipes and pumps. A very successful run is expected during the present season because of the quantity of ore already in sight.

MINING NOTES.

L. E. Riter expects to leave for Tintic tomorrow.

The Mammoth of Tintic had ten cars of ore on the market today.

The South Swansea of Tintic had two cars of ore on the market today.

The Silver Shield of Bingham had two cars of ore on the market today.

Eleven cars of ore were on the market today from the Centennial Eureka at Tintic.

The Conklin sampler reported fifteen cars of ore from Tintic and two from Arizona today.

Harvey J. Jones of the Conklin sampler received today a certificate authorizing him to act as a notary public.

The Chainman of Ely, Nev., reached the sampling rooms of the Consolidated Kansas City Smelter and Refinery company today with 50 pounds of gold cyanides.

About 50 pounds of gold cyanides were received today at the sampling rooms of the Consolidated Kansas City Smelter and Refinery company from the Portland Gold Extraction company at Ætna, California.

Assays returns were received today from the Dexter at Tuscarora, Nevada, which showed as high as $360 in gold. In an average of thirty-two tons taken from the shaft nearly $6 in values were shown.

The May Day of Tintic reached the market today with three cars of ore. It is not known whether any of the rich ore recently found is in one of the cars, but something sensational is looked for when the ore from the new strike is sampled and assayed.

Two cars of ore were on the market today from the Grand Gulch copper mine in Arizona. The ore contains a very high percentage of copper. It is thought to run higher than previous shipments, some of which have averaged 48 per cent in the red metal.

LIVE STOCK NOTES.

Denver Stockman: Deputy Sheriff Henry of Provo, Utah, who has just returned from a trip to the head of American Fork canyon, reports that where there were several feet of snow two years ago there is none this year.

Denver Stockman: Lowell & DeWitt sold to H. M. Porter, to go to Watrous, N. M., eight registered Hereford heifers and three registered Hereford bulls at $175 each. Also to George Hitchew, Mansville, Wyo., two yearling grade Hereford bulls at $50 each.

Denver Stockman: The Bovine Insurance company has been organized at Minneapolis, by which cows are insured for $25 each. It is to protect dairymen from loss on cows condemned to death because of tuberculosis. Losses are met by an assessment of 10 cents a head.

Denver Stockman: The Merino is the oldest race of sheep, and its home for ages past, since Abel fed his flock, has been in a climate which provides or permits of perennial pasture without intermission on account of winter and cold weather. Thus it is the sheep of all sheep suited to the Southern States.

Kansas City Telegram, 26.—Four loads of 63-lb. Colorado wooled lambs belonging to J. B. Colt & Son of the Arkansas valley were sold here yesterday at $6.75. These lambs were the tailings of 20,000 head fed by the Messrs. Colt. Yesterday's shipment was a part of 2,500 tail-end lambs fed by the Colts, the balance of which were sold earlier, when they brought $6.90.

Denver Stockman: A. J. Bothwell, the well-known cattleman, who has extensive range in Natrona county, was in the city today. Mr. Bothwell recently bought fifty head of registered Hereford heifers from Lowell & DeWitt and Tom Beau Monde, all out of the Ridgewood herd. He reports that he will have a 100 per cent calf crop out of this bunch. They are coming now and all doing finely. Tom Beau Monde weighs 2,450 pounds and is as lively a sa kitten. The only unpleasant matters Mr. Bothwell has to relate are the great losses occasioned by wolves, he having lost thirten head of yearling calves and one of the purebred Hereford calves; also that the range is in danger of drying up if there is not soon a good big rain.

Denver Stockman: J. L. Norvall, a retired stockman, but the popular merchant of Hayden, Colo., was a visitor this morning, as was also Mr. Duke of Steamboat Springs. Mr. Norvall says there will be no cattle come out of the Bear river section before July. Cattle are getting fat, have been eating grass since March. About the usual number are in the district and the number to be marketed will be the same.

Beware of a Cough.

A cough is not a disease but a symptom. Consumption and bronchitis, which are the most dangerous and fatal diseases, have for their first indication a persistent cough, and if properly treated as soon as this cough appears are easily cured. Chamberlain's Cough Remedy has proven wonderfully successful, and gained its wide reputation and extensive sale by its success in curing the diseases which cause coughing. If it is not beneficial it will not cost you a cent.

Hair grows by using Conover's Tonic.

THE WANT COLUMNS of the Semi-Weekly News are read by from 75,000 to 100,000 people twice a week.

For This Week.

Misses' Children's Strap Sandals, Black or Russet, worth $1.25 and $1.50 for 75c only at the Bee Hive Shoe Store, 126 and 128 S. Main.

RUSH ORDERS

On job printing a specialty at the Deseret News. New and clean types throughout.

And printing specially attended to at the Deseret News Office. Estimates promptly furnished. Rush orders a specialty.

MERCHANTS' PRINTING

Turned out on short notice at the Deseret News. A big shipment of new types and supplies just in. Our facilities for letter heads, bill heads, tags, envelopes, pads, etc., etc., are unexcelled by any establishment in the West.

SUGAR JUMPING UPWARD.

Heavy Sales at High Prices, Owing to London's Buoyancy.

Then Comes a Drop—Wall Street Fairly Steady—Live Stock Lower—Produce Quiet.

New York, May 31.—The market was affected at the opening by a jump in sugar and by the bouyancy of the London market on the war news. There were 3,800 shares of sugar sold simultaneously at 118¾ to 120, compared with 117¼ at Tuesday's close. Other transactions showed particular strength in the railroad list. The realizing which met the advance was sufficient to turn prices downward, the loss reaching a point in sugar. Consolidated gas advanced 2 points on the announcement of the absorption of the Standard Gas Company but later lost half the gain. Ice rose 2 points. Business was chiefly confined to sugar and the grangers. The market was slightly firmer in the second hour but the improvements were hardly perceptible, aside from sugar, which rallied from 118¼ to 119 on a further advance in prices of refined sugar.

Bonds were firm and more active than stocks.

MONEY AND BONDS.

New York, May 31.—Money on call nominally 1¾ per cent. Prime mercantile paper 3½@4½ per cent.

Sterling exchange steady, with actual business in bankers' bills at 4.87½ for demand and 4.84⅝ for sixty days; posted rates 4.85½ and 4.88½; commercial bills 4.83¾@4.84½.

Silver certificates—60@61.

Bar silver—60.

Mexican dollars—47½.

Government bonds—Steady; Refunding 2s when issued, ex int., 103½; 2s regular 99⅞; 3s regular and coupon 109½; new 4s regular and coupon 134½; old 3s regular ex int. 114¾; old 4s coupon 115⅝; 5s regular and coupon 113¾.

SUGAR.

Sugar—Raw, steady; fair refining 4 1-16; centrifugal 96 test 4 15-16; molasses sugar 3 7-8.

Refined steady; crushed 5.80; granulated 5.40.

SUMMARY OF PRICES.

ST. LOUIS WOOL MARKET.

St. Louis, Mo., May 31.—Wool quiet, and easy; prices unchanged.

ANXIOUS TO ADJOURN SOON.

Republican Congressmen Want to Close Session.

THE NATIONAL CONVENTION

Most of the Lawmakers Are Delegates to Philadelphia—Plan for Work on War Revenue Law.

Special Correspondence.

Washington, May 26.—As the time approaches for holding the national convention of the Republican party the leaders in Congress who desire to attend, and many of whom have been elected as delegates, are making every effort to secure an adjournment so that they may be free when the time comes. Of course it makes little difference whether Congress is in session or not. These men will, with few exceptions, go over to Philadelphia, but some who want to go will feel constrained to remain in Washington to look after congressional affairs. While it has been suggested that the congressmen will have plenty of time to attend the convention if adjournment takes place as early as the 5th, yet efforts are being made to secure an adjournment at least two weeks earlier. This is for the purpose of giving the senators and representatives an opportunity to clear up much of the accumulated business before the departments and the correspondence before they go to the convention.

INTO THE CAMPAIGN.

Most of these congressmen have got to go into the campaign immediately, and for the political effect which it will have they would like to go home with their State delegations and plunge into the canvass with all the enthusiasm which the great national convention will leave with them. If Congress does not adjourn earlier, they will be compelled to come back to Washington, not only to attend to their congressional business, but also to make the arrangements necessary for the campaign literature which they want and also for all other business in Washington. There does not seem to be any objection on the part of the Democrats to an early adjournment, providing no legislation to which they are opposed is pushed forward, and there seems to be a definite understanding by the Republicans that they will not insist upon any measures to which there is particular objection. This is the usual course unless some great measure like a tariff bill is pending. The Democrats who will also attend their national convention will utilize the time after adjournment in closing up their business and in preparing for the congressional campaign. The headquarters of the congressional campaign committees are always in Washington, and generally these committees organize for business soon after adjournment.

WAR REVENUE BILL.

It is quite likely that during the summer members of the House committee on ways and means and perhaps members of the Senate finance committee will assemble at some convenient place and prepare a bill to amend the war revenue law. This action will be taken in order to have a measure satisfactory to both House and Senate as far as possible ready to be put through in the early days of the short session when Congress reassembles in December. This project is only in the preliminary stages at present, but the suggestion has been made that a nonpartisan bill can be prepared and that Republicans and Democrats upon both committees can take part in its preparation. The men who have the matter under consideration believe that if such a measure is prepared the bill can pass both houses before the holiday adjournment of the short session. Usually legislation of this kind requires partisan action, and it may be that the majority party will find that it must frame the legislation modifying the war revenue tax unless some basis of agreement can be reached with the minority, and the conferences will be directed to that end.

WHY THEY PREFER CONGRESS.

I overheard a member of the House telling one of his constituents why a man preferred a seat in the House of Representatives rather than a position as a judge of a court at home, although the salaries were the same, and oftentimes the judges receive more than is paid congressmen. More than that, these judges are usually elected for a long period of years—from 7 to 12 at least. They do not have to go through a biennial scramble in the political campaign for both nomination and election. Yet it is a well known fact that many men will leave the bench to come to Congress. Of course it is easy to understand how a man will leave a judgeship to come to the Senate, which is the most desirable place. And often men leave the supreme bench of a State, where they are almost sure of life positions, to take seats in the Senate. But to return to this member who was explaining the matter to his constituent. He said his political life is more pleasant than a judicial life. "We have scenes of great excitement in the House at times," he said, "especially in political debates. Then the fur flies, so to speak. But more than that, there is the national character which we assume when we become representatives. The life in Washington is fascinating, especially for those who are in official station and have to do with affairs of the government. The humdrum existence of life on the bench may be all right for some, but there are very few of us who would not quickly exchange such a career for one in Congress, even if it is but a subordinate one compared to places held by the leaders."

CHURCH NEWS.

The children of the Primary associations are cordially invited to join in the celebration of the 99th anniversary of President Brigham Young's birthday on June 1st. Bring your flowers to help decorate to the monument at 9 a. m., where there will be someone to receive them. After that services will be held in the Tabernacle, where all are invited to attend.

CAMILLA C. COBB.

The Eleventh quorum of Elders will hold its regular meeting Monday, June 4th, at 8 p. m., at the Twenty-first ward meeting house. A reorganization is expected and a full attendance is urgently requested. L. Moth Iversen, president.

The Primary officers' meeting of the Salt Lake Stake will be held Saturday, June 2, 1900, at 4 o'clock, in room 612 Templeton building. The Stake officers are especially requested to be present.

ELLA W. HYDE, Secy.

A special conference of the Primary associations of the Church of Jesus Christ of Latter-day Saints will be held in the Assembly Hall at Salt Lake City on Wednesday, June 13th, 1900, at 10 a. m. and 2 p. m. The program in the morning will be rendered by children, and all the Primary children of the Salt Lake and near by Stakes who can come, escorted by parents or officers, are invited to be present. At 2 p. m. a meeting for officers, at which questions of importance to primary work will be discussed.

The First Presidency have kindly consented to attend both these meetings.

L. B. FELT, President.
MAY ANDERSON, Secretary.

The High Council of said Stake will meet in Farmers Ward meeting house on Saturday the 2nd day of June next, at 9 o'clock a. m., and the general Priesthood at 10 a. m. of said day in the same place. It is expected that all bishops and presidents of quorums in the Stake will be in attendance at the latter meeting.

THOMAS ALSTON, Stake Clerk.

GRANITE STAKE RELIEF SOCIETY.

The officers of the Granite Stake Relief Society will meet in the Farmers ward meeting house on Saturday morning, at 10 o'clock. A full attendance is desired.

EMMA WOODRUFF, Prest.
ARMEDA YOUNG, Sec'y.

The officers' meeting of the Y. L. M. I. A. of the Granite Stake, will be held at the Farmers ward meeting house on Saturday, June 2, at 10 a. m. A full attendance is earnestly desired.

JORDAN PRIMARY MEETING.

Union, Jordan Stake, May 29.—Primary officers' meeting of the Jordan Stake will be held at the schoolhouse at South Jordan, on Saturday next, June 2nd, at 2 p.m. A full and prompt attendance is requested.

EMMA C. BURGON, President.

President Joseph F. Smith will in all probability address the Scandinavian meeting tonight, May 31, at 8 o'clock in the Fourteenth ward assembly rooms. Everybody is cordially invited.
