STOCKS WERE ACTIVE TODAY.

Daly of Park City Was a Heavy Trader on the Exchange.

BEN BUTLER IS STRONGER.

Northern Light Very Active — Joe Bowers Weaker — Lower Mammoth Unchanged.

Stocks were quite active on the exchange today with prices generally well sustained. Ajax showed a great deal of life at lower figures. From 96½ at the opening the stock sold down to 95⅛ at the close. Daly was also very active at prices ranging from $1.55 to $1.53. A reaction set in before the close, however, and the stock climbed to $1.60 on the closing sale. Daly-West let go 250 shares at $30.00 flat, while Lower Mammoth opened at $4.21 and after selling up to $4.25 the stock weakened to $4.20⅝ on the closing sale. Mammoth was firm at $2.21, while May Day fluctuated between 38½ and 39⅝. Northern Light loosened up some 23,000 shares around 2¼. Silver Shield was a little weaker today when the stock changed hands at 25¼. Star Con. also fell off a little being traded in as low as 78⅞. Swansea did business around $3.82, while Tesora sold down to 49. Ben Butler was in good demand at advanced prices. After opening at 6½ the stock closed with the sale of 1,000 shares at 7.

Dalton was in evidence at 10½, while Joe Bowers was much weaker, selling from 2¾ to 2⅝.

Closing quotations were posted as follows:

	Bid.	Asked.

P. D. ARMOUR'S ESTATE.

Valued at $15,000,000 in Petition for Letters Testamentary.

Chicago, Jan.28.—The estate of the late Philip D. Armour, according to a petition for letters testamentary filed in probate court today, is valued at $15,000,000. Of this, $14,900,000 is realty. This estate is distributed among the members of the Armour family, the legatees named in the petition being Malvina G. Armour, widow; J. Ogden Armour, son; Philip D., and Lester Armour, grandson. The executors named in the will are the widow and son.

Th Armour institute is not included among the legatees, but it is said Mr. Armour made provisions for the future of the institute by transferring property before his death.

FAVORABLE AT BEN BUTLER.

Two Feet of Galena and Iron in the Main Drift.

THE MAMMOTH SHIPMENT.

Runs Much Lower Than was Expected—Conditions at Lower Mammoth—Mining Notes.

Secretary A. L. Jacobs of the Ben Butler spent the Sabbath in Bingham, examining the latest developments in the Ben Butler group. On Thursday last, when Mr. Jacobs visited the mine, there was about four inches of ore in sight in the main drift which is being run in a southerly direction. In the interval between Thursday and Sunday a marked improvement was made, however, and Mr. Jacobs was much surprised to find between 18 inches and two feet of galena in sight, in the upraise from the tunnel level. Samples of the ore brought to town are similar to ore encountered some time ago when assays running about 40 per cent, eight ounces silver and about two per cent copper were obtained. The ore carries quite a little iron in the shape of pyrites. The outlook is said to be very encouraging for a big ore body, as the ground is quite soft.

MAMMOTH SHIPMENT.

The Rich Ore Runs Much Below Expectations.

The news that the much-talked of rich ore from the Mammoth has not come up to expectations will come as a surprise to the stockholders of the company. Such, however, appears to be the case. Probably no one will feel more chagrined than the guards who lost a night's sleep in order to protect sacks of ore supposed to be worth about $50 each, but which, according to an assay received today, were only worth about $18 each. The assay referred to was secured by Thomas W. Jennings from ore that had been sampled, and it is thought to run very close to the mark. Returns from this sample show 288 ounces silver and $11.66 gold per ton, or a value of about $400. The management of the mine expected at least $1,000 per ton from the shipment.

THE DALTON MEETING.

Shareholders Listen to Reports of the Officers for Past Year.

The stockholders of the Dalton Mining company met in annual session this afternoon and listened to reports from the president, managing director and treasurer. President McMillen stated in his report that a new ore house had been built during the past year. The mill has also been adapted for steam and two Wilfly tables have been added by the parties who have secured the option. The capacity of the mill has also been considerably increased, and a new wagon road has been built. Managing director, O. R. Young, stated that 615 feet of development work has been done this year by all parties. The values are well sustained in recent developments and the outlook is quite encouraging. The company has some ore on hand and nearly $400 in the bank. One assessment was levied during the year. The names of the officers elected for the ensuing year were not obtainable when the "News" went to press.

RICH SILVER ORE

Encountered in Upraise from 700 Level of Lower Mammoth.

Alex Campbell, the well known broker, was in Tintic yesterday looking over the riches of the Lower Mammoth, with which he was greatly impressed. The management is stoping in fine bodies of excellent looking ore on the 700 and 800 levels. A body of rich silver ore has just been encountered in an upraise from the 700 level where the outlook is specially encouraging. A winze is also being started from the 800 level on the ore in order to prove the dip of the vein. The management has started to ship the rich sacked ore which has been lying in the tunnel for some time. It will be on the market during the next day or two.

PARK CITY ITEMS.

The Quincy is Looking Up — Valeo Officers—Shipments.

In its weekly review of Park City the Record says another shipper has been added to the Park City list of great mines. A strike which promises to be of the utmost importance to the camp, and bids fair to cause no little stir in mining matters, has been made in the Quincy. What the character of this strike is may easily be determined by the large specimen which was brought down from the mine yesterday afternoon and placed in Mr. Rice's office. It is one of the finest specimens of mineral that has ever been seen in this camp, or any other. It is about five feet in circumference, and its weight will come close to 3,450 pounds, and a small portion of it now graces the Record cabinet. It does not require an expert to tell that it is rich. What the extent of the sirke is no one knows, but it is sufficient to warrant the statement by Manager McLaughlin that it makes "a good prospect." For eighteen months work has been going on along quietly but steadily on this property, adding each month a goodly sum to the circulating medium of the camp by its distribution of wages. So little stir, in fact, has been made by the promoters, that information concerning it has been almost impossible to obtain. But the systematic work has been going on just the same, until today regular shipments, of no mean tonnage, are being made. That it will in time add another wonder to the mines of this district, there is no doubt, and the Record voices the sentiment of the entire camp in congratulations and best wishes of success to the plucky and deserving owners of the property.

The annual meeting of the Valeo stockholders was held this afternoon. Reports were read and the following officers elected: Thomas Kearns, president; J. S. Bransford, vice president; W. G. Lamb, secretary and treasurer. The other directors are M. J. Dailey and John Paradise.

What was the Jack Kennedy interest in the Kennedy group of mining claims has been purchased by D. C. McLaughlin for the Anchor Mining company. The price paid was $20,000, and the interest thus acquired by the purchasers is two-thirds. The group consists of fourteen claims, the Anchor adjoining it on the south.

ORE SHIPMENTS.

Following are the shipments of ore from the Mackintosh sampler for the past week:

	Pounds.
Silver King	1,201,000
Daly-West	1,182,000
Anchor concentrates	725,000
Ontario	407,000
California concentrates	39,000
Total	3,554,000

Started Sinking Today.

The outlook is so good on the 525 level of the Shoebridge Bonanza that the company has decided to sink another fifty feet and the work was started today. The management recently marketed a car of ore from this level which netted $25 per ton. Another car of similar ore is at the sampler and another shipment is lying on the platform at the mine.

MINING NOTES.

The Carisa of Tintic was on the market today with 4 cars of ore.

Two cars of lead ore were on the market today from the Horn Silver of Frisco.

Another lot of ore was on the market today from Don Maguire's Eldorado on Willard Hill.

The first lot of silver ore reached the market today from Uncle Jesse Knight's Salvador property in Tintic.

The Taylor-Brunton sampler reported six cars of ore from Tintic, two from Frisco and one from Willard today.

The governing board of the mining exchange were to meet this afternoon to elect the various committees and officers of the exchange.

At the meeting of the directors of the Martha Washington on Saturday afternoon Judge Bartch was elected president, L. E. Riter, vice president, and A. E. Snow, secretary and treasurer.

N. W. Sonnedecker, who has returned from a visit to the Silver Bell in Thayne's canyon, says that the tunnel, which is now in 360 feet, has encountered some nice stringers of ore.

M. L. Effinger, L. A. Jeffs and E. W. Pingree expected to leave for the Ophir mine at Stateline this evening. Mr. Pingree is out here from Detroit, Mich., for the purpose of inspecting the promising Stateline property.

Mr. Joseph Oberndorfer says that while he believes the recent strike in the Little Chief is in the company's ground, he is not sure, as the results of the recent survey will not be known for two or three days.

It now transpires that the eastern report that the Highland Boy had declared a dividend of $1.25 per share is erroneous. The matter has not been decided and there is a probability that when a decision is reached in the matter the dividend will not be more than $1 per share quarterly.

DEALINGS WERE ANIMATED

Trading Was Confused and Stocks of Differen t and SameGroups Took Oppo siteCourses.

Heavy Transactions in St. Paul—Railroad List Generally Showed Strength.

New York, Jan. 28.—St. Paul was the most prominent stock in the opening dealings and was carried up from 155½ to 156 under a simultaneous transfer of 8,300 shares compared with 155⅝ on Saturday. The stock ran off to 155 and then vibrated feverishly above that. There were good fractional gains all through the list. Dealings were animated and widely distributed. Trading became very confused and stocks of different groups or even the same group took opposite courses. Steel and wire, Tin Plate and Federal Steel re-acted 1½ and 2 the last selling ex-dividend of five per cent, while smelting and tube sold up an extreme 2¾ points. Consolidated Gas and Brooklyn Transit fell sharply and Manhattan and Metropolitan made good gains. Among the railroads St. Paul mounted sharply nearly 3 points above Saturday to 157⅝ on very heavy transactions and pulled the preferred stock five to 159½. ansas and Texas preferred lost a point early but when a block of 10,000 shares was taken at 54¼ it rallied to 53. The grangers and Northern Pacific were strongly in sympathy with St. Paul, Burlington rising nearly 2 points and Northern Pacific 1½. The railroad list generally showed strength but met heavy profit taking and when St. Paul fell back 2 points the buying demand slackened and prices declined all round. Brooklyn Transit dropped 2⅛.

Considerable inroads were made in prices of special stocks after 11 o'clock. St. Paul dropped on light transactions, without sign of support to 154⅝, a full point under Saturday. Burlington, Rock Island, Northern Pacific, Missouri Pacific, Delaware & Hudson, and Erie first preferred lost 1@1½. A rally to 156 in St. Paul and a drop of a point in Northwestern steadied the market. Before noon Steel & Wire and Federal Steel improved sharply and there was some demand for the tractions. Business, however, was almost at a standstill.

There was great activity in the January option on the cotton exchange this morning. The opening price was 10:30 and the quotation steadily advanced until 12.75 was reached at 11 a. m., an advance of 245 points from the opening. The phenomenal advance was due to a squeeze of shorts.

CLOSING STOCKS.

New York, Jan. 28.—Closing stocks: Atchison, 46; do. preferred, 85; A. S. & W., 41; do. preferred, 45; American Tobacco, 114½; American Tin Plate, 57; do. preferred, 88; American Steel Hoop, (common) 26¼; do. preferred, 72½; American Smelting, 60⅝; B. R. T., 76⅝; B. & O., 87¾; C. B. & Q., 124; C. C. C. & St. L., 76¼; C. F. & I., 44¼; C. G. W., 17⅞; Continental Tobacco, 44¾; C. & O., 39¼; C. & A., 37⅞; do. preferred, 74; D. & H., 152½; Federal Steel, 43; do. preferred, 71; General Electric, 189½; L. & N., 87¼; Leather, 13; do. preferred, 97; M. K. & T., preferred, 54¾; Manhattan, 117⅛; Metropolitan Street Railway company, 161¾; Missouri Pacific, 85⅝; Northern Pacific, 83⅛; do. preferred, 86¾; New York Central, 141½; Pennsylvania, 145; Pacific Mail, 45¾; Pullman, 200; Peoples Gas, 99; Reading, (common), 31½; do. first preferred, 71¼; do. second preferred, 43⅝; Rubber, 20⅛; Rock Island, 121½; Southern Pacific, 45½; St. Paul, 154½; Sugar, 134⅛; T. C. & I., 57; Union Pacific, 83⅝; do. preferred, 82⅝; Western Union, 93⅛.

Late in the morning the January option broke fully 125 points under realizing, but the singular absence of excitement continued a striking feature of the operations. Fluctuations at the noon hour were violent, though speculation continued very quiet with the bulk of business attributable to the talent. Wall street and foreign shorts were the chief buyers. At noon bids showed January to be net 115 points higher, February 5 points higher, March 2 points higher and the rest of the list 1 to 2 points net lower.

Bonds were active and firm.

MONEY AND BONDS.

Money on call nominally at 1.34 per cent.

Prime mercantile paper, 3½@4¼ per cent.

Sheep—Receipts, 300; market steady.

SAN FRANCISCO GRAIN.

San Francisco, Jan. 28.—Wheat—May, 1.03⅞ bid; casch, 98¾.

Barley—No sales; cash, 73¾.

PERSONAL.

C. A. Schoyer, superintendent of car construction for the Northwestern railroad, is at the Knutsford.

O. D. Randall, a traveling man for a large silk house of St. Louis, is at the Knutsford. Mr. Randall when a young man, clerked in a store in Albany, N. Y., in the rear of which was published the Evening Journal, by Thurlow Weed. All Mr. Weed's callers passed through the store and Mr. Randall recollects having seen Horace Greeley, Wm. H. Seward, Martin Fillmore and other political leaders, of that time, pass through the store to see the Journal's editor.

C. R. Kelsey, of Mountain Home, Idaho, is a guest at the Knutsford.

Wm. Carson of Fairfield, is at the Cullen.

F. G. Hagenbarth, of the Wood Live Stock company, returned yesterday from a business trip to Idaho.

Senator Willis Johnson returned from Centerville yesterday and is accompanied by his family, who will remain in the city during a portion of the legislative session.

Secretary Charles Martin of the National Live Stock association, is still very ill at the Knutsford. His condition has not improved much in the past few days.

Fremont (Ida.) Journal: L. G. Hardy of Salt Lake City is here looking up a location for the establishment of a branch office of the Idaho Colony company.

Evanston News-Register: H. A. Boyer, a Salt Lake citzen, was in Evanston on Tuesday.

Evanston News-Register: Miss Ellen Olsen, a prominent young lady of Murray, Utah, is visiting her sister, Mrs. Joseph H. Johnson, in this city.

Hon. David Keith, Mrs. M. J. Farlow, Colonel Trumbo and wife and Broker Ed Sheets, and wife all felt for San Francisco today.

Hood's Sarsaparilla

Cures those eruptions, boils and pimples which are so likely to appear in the Spring; cures scrofulous diseases in their most tenacious forms; cures salt rheum or eczema with its dreadful itching and burning; cures all stomach troubles due to generally weak condition and impure blood; cures debility, sick headache and "that tired feeling," which just as surely indicate that the blood is lacking in vitality and the elements of health. Hood's Sarsaparilla

Never Disappoints.

STRIKING MINERS ASK ARBITRATION

They Held a Meeting at Scofield Last Night.

W. G. SHARP GIVES ANSWER.

General Manager of Pleasant Valley Coal Company Also Has Some Views on Matter.

[SPECIAL TO THE "NEWS."]

Scofield, Utah, Jan. 28.—At a meeting held last night at 7 o'clock, it was unanimously decided by all the employes of the Pleasant Valley Coal company at Winter Quarters to resume work if the company were willing to arbitrate. It was thought that Mr. Sharp would recommend it, but to make sure that the company would settle by arbitration after they would resume work, a committee was sent to wait upon Mr, Sharp for an answer, which was received at about 11:30 p. m., and considered as a refusal to the employes for arbitration. Clear Creek employes are also out with Winter Quarters until the company will settle by arbitration.

All is quiet at Scofield today, while over at Clear Creek the miners have laid off for the day pending a favorable answer from the coal company to their requests. From advices to hand there seems to be no probability of the Castle Gate miners coming out on a sympathetic strike. At the present the situation has come down to a waiting game on the part of the Pleasant Valley Coal company, and the disaffected miners. Both sides apparently are determined not to give in. The miners say they have a grievance and do not propose to go to work on the old schedule, while on the other hand the company is ready at all times to listen to the complaints of the men, and, if possible, to grant them. Under the present conditions, however, those at the head of the company's affairs feel that the men have no legitimate greivance and that consequently they do not propose to give in to their demands. If a waiting game of freeze-out is to be played the company is prepared to fight it to the bitter end, as while they are undoubtedly losing business on the Southern Pacific contract, at the same time the company is protected from any complications as to the delivery of the coal on account of a strike clause, which was inserted in the contract when it was signed May 1, 1900. The contract calls for the Pleasant Valley Coal company to deliver to the Southern Pacific 2,000 tons of coal per diem. Every pound of this coal has been mined from Scofield and Winter Quarters mines. The shutting down of these mines in no way affects the coal supply for domestic purposes in this city and elsewhere throughout the State.

The Clear Creek miners of the Pleasant Valley Coal company met yesterday and after prolonged argument passed a resolution to the effect that they would present their grievances to arbitration. Later the committee presented to General Superintendent Williams the proposal of the miners and at the same time stated that pending the settlement of the troubles by arbitration, if so agreed to by the company, that the men would continue to work. The company did not take long to decide upon the matter, with the result last night the following notice was posted:

"Winter Quarters, Jan. 27, 1901.—To Ed Smith and G. A. Gastri, Committee of Clear Creek Miners, Clear Creek, Utah:—Answering your verbal and written communication of this date, and referring to the resolution passed by the meeting of the Clear Creek miners today, and also referring to the demands presented January 23rd, will say:

"That under the law creating the State board of labor and arbitration, such board cannot act or take jurisdiction while employes are out on a strike or employer has made a lock-out, and in either event neither party is entitled to the benefits of the law creating that board.

"As the Winter Quarters miners are out on strike, there is nothing to arbitrate.

"We consent to meet a committee of Clear Creek miners and try to agree on a statement of Clear Creek mine grievances, as provided for in section 1328 of the law creating the State board of labor and arbitration, which section is as follows:

The application shall be signed by the employer or a majority of its employes in the department of business in which the controversy or difference exists, or by both parties, and shall contain a concise statement of the grievances complained of and a promise to continue on in the business or at work, without any lockout or strike, until the rendition of a decision by said board, if said decision shall be rendered within three weeks of the date of filing the said application.

"If we should fail to agree on a statement of facts, this does not prevent the employes from presenting their side of the controversy to the board provided they are at work.

"W. G. SHARP."

CHANGE IN BISHOPRIC.

Resignations and Appointments Transpire at Fillmore Yesterday.

[SPECIAL TO THE "NEWS."]

Fillmore, Utah, Jan. 28.—Yesterday Elder Thomas C. Callister, of this ward, resigned his position as bishop. He, with his counselors, James A. Nelville and Nelson Bishop, were honorably released. Elder Christian Anderson was chosen to succeed Bishop Callister with Alonzo Robison as first and Daniel Stevens second counselors.

AFFLICTION'S HEAVY HAND.

J. Wash Young and His Family Down With Diphtheria.

Capt. J. Wash Young, local agent for Armour & Company, is quarantined at his residence, 61 Third street, with an attack of diphtheria. Mrs. Young and their daughter Lucille are also down with the dread disease. Enquiries today developed the fact that all three are progressing towards convalescence to the extent that they were decidedly better this afternoon. It will be recalled that the family suffered a sad bereavement a few days ago by the death of bright little Liberty, a four-year-old child. The numerous friends of the family will be gratified to learn that the physician who has the cases in hand apprehends no lasting or serious results from the malady in Mr. Young's family.

LIVE STOCK AND STATE FAIR

Two Measures Considered by House Committee.

BOTH PROPOSITIONS GO OVER

Decision That The State Fairs Must be Held in Salt Lake City — Interesting Session.

Among other matters considered by the House committee on live stock at its meeting this morning was Stevens' State Fair bill. There was considerable discussion with regard to premiums being offered for imported live stock. The bill makes it necessary for stock to be owned and kept within the State for a period of not less than six months next preceding the opening of the fair. Mr. Hatch thought it was to the advantage of the State that foreign stock should be shown at our State fairs and that separate premiums might be offered for the cattle which were not owned in the State.

It was suggested that the reading of the bill be changed to read "owned or kept" instead of "owned and kept." No action was taken upon the matter and at the suggestion of Chairman Cutler the bill was laid on the table till tomorrow morning to give the committee members further time to consider its bearings.

With regard to holding the fair elsewhere than in Salt Lake the committee decided that this would be unconstitutional and were therefore opposed to it. As far as a change from the old grounds in the Tenth ward square to the grounds of the D. A. and M. society, the committee was undecided as to whether this land was owned by the city or the State. The matter may therefore be referred to the committee on capital grounds.

AMUSEMENTS.

At the theater tonight the Boston Lyric Opera company opens an engagement of one week, "Carmen" being the bill and the noted contralto, Collomarini, singing the title role. There has been a heavy advance sale and the opening will be a brilliant one.

* * *

At the Grand, "Lord Chumley" will be rendered for the first time tonight by the Cummings Stock company.

* * *

Inquiries were received at the "News" office this morning regarding the opening of the sale for Sousa's band. All interested should consult the advertisement which states that the advance sale will open on Monday next at Daynes' Music store.

* * *

Prof. C. D. Schettler made a booking this morning which will be heard of with enthusiasm by all mandolin and guitar players. Learning that the noted mandolin soloist, Samuel Siegel, was on his way from London to fulfill a San Francisco engagement, Mr. Schettler took up a correspondence with him and by making a personal guarantee, induced him to give a concert in Salt Lake on his return from the coast. The date will be February 18th in the Congregational church. Prof. Schettler states that Siegel is the greatest living mandolinist, and his appearance here will be a decided event. A subscription list will be circulated by Prof. Schettler.

STEAMER HOLLAND WRECKED

Sixteen People on Board the Vessel Were Drowned.

Rotterdam, Jan. 28.—The steamer Holand, from London, was wrecked at the northern pier while entering Nieuwewaterweg at the entrance of the river Maas today. The captain and six men have been saved.

The Holland parted amidships and sixteen of those on board were drowned.

New York, Jan. 28.—The vessel referred to in the dispatch from Rotterdam is probably the Dutch steamer Holland of 521 tons net register, owned by the Nederlandsche Steamboat Maatschappij of Rotterdam. She was built in 1874 at Fyenoord; she was 220 feet long, had 28 feet 2 inches beam and was 14 feet 8 inches deep. The recent movements of the Holland are not given in any of the shipping books at hand.

CHICAGO DRAINAGE DECISION.

Supreme Court Upholds Case of Missouri as Against Illinois.

Washington, Jan. 28.—The United States Supreme Court today rendered an opinion in the case of the Chicago drainage canal overruling the demurrers filed in the case by the State of Illinois and the Chicago drainage sanitary district board. The proceeding was brought by the State of Missouri against the State of Illinois and the drainage board, the end sought being to prevent the use of the canal because of its supposed pollution of the drinking water of St. Louis. The effect of the decision is to sustain the contention of the State of Missouri. The opinion was handed down by Justice Shiras, the chief justice and Justices Harlan and White united in a dissenting opinion.

Chicago, Jan. 28.—President Alexander J. Jones, of the sanitary district said:

"The decision is somewhat of a surprise to us, but after all it simply means that the case must now be tried on its merits. Henceforth the inquiry of the court will be directed to the question of whether or not the opening of the channel and the moving of Chicago's sewage down the Illinois and Mississippi rivers has really resulted in the pollution of St. Louis' water supply.

"If so, equity will justify the grievances of St. Louis and the State of Missouri and the sanitary district will have to find some remedy to prevent further pollution."

MRS. NATION AND GOV. STANLEY

Asks Kansas' Executive to Join Her in a Saloon Smashing Crusade.

Wichita, Kansas, Jan. 28.—A special to the Beacon, from Topeka, states that Mrs. Carrie Nation interviewed Gov. Stanley and Att'y Gen. Goddard today. She demanded the enforcement of the prohibitory law. She will appeal to the legislature this afternoon.

The governor said her motive was good but her methods bad. She invited the governor to join her in a saloon smashing crusade.

Peruvian Pearl Fishery Monopoly.

Lima, Peru, Jan. 28.—The government has granted a monopoly of the pearl fishery on the coast of the state of Piura between Point Morro and Huacam inlet.

The government for three years is to receive a tenth of the gross output of the fisheries and afterward is to receive a fifth.

Injunction Against Goulds Continued.

New York, Jan. 28.—Justice Beach, in the supreme court today, handed down a decision continuing the temporary injunction restraining George J. Gould, Edwin Gould, Howard Gould and Helen Gould, as trustees of the estate of their father, from paying over the income of the portion of the estate belonging to their sister, Anna Gould, Countess de Castellane, pending the trial of an action brought by Asher Wertheimer, a London bric-a-brac dealer, against the Count and Countess de Castellane for $318,000 for paintings and bric-a-brac furnished them.

Judge Beach permits the payment of $200,000 a year to the countess for the support of herself and children, pending the trial of the action.

CROWN PRINCE OF GERMANY.

Invested With the Order of the Garter by King Edward.

Cowes, Isle of Wight, Jan. 28.—The crown prince of Germany, Frederick William, was invested with the Order of the Garter today by King Edward VII. The investure occurred in the council chamber of Osborne house and was a brilliant function. The high officers of the household, military and civil functionaries, and the emperor's entourage, including a party from the imperial yacht Hohenzollern, were present, all in full uniform.

While the crown prince knelt before the king to receive the insignia his majesty addressed a few cordial words to the prince and then, turning to the emperor William, in touching terms he thanked him for his visit at this time of sorrow and bereavement and dwelt on the personal and other ties uniting Germany and Great Britain.

It is said that Emperor William will bestow the Order of the Red Eagle on Prince Arthur of Connaught (the son of the Duke of Connaught.) The grand court marshal, of Prussia, Count von Eulenberg, is on his way here to join the suite of Emperor William. The latter accompanied the crown prince on a long ramble through the Osborne house grounds today. His majesty later boarded the Hohenzollern to transact urgent state business.

Still Proclaiming Edward King.

London, Jan. 28.—The ceremony of proclaiming King Edward VII, as king of the United Kingdom of Great Britain and Ireland, and emperor of India continues in all centers of the kingdom. The impressive function took place in the royal borough of Windsor at noon. Thousands witnessed the historic proceedings. The mayor read the proclamation from the base of the queen's statue on Castle Hill, and the recorder read it at Henry VII.'s gate. Fanfares of trumpets and cheers for his majesty in which the Eton boys took a prominent part closed the ceremony.

According to present arrangements the United States is the only country which will not be specially represented at the funeral of Queen Victoria. The United States embassy has received no instructions, so far, and it is supposed that only the United States ambassador, Mr. Joseph H. Choate, and his staff will be present.
