BRIDGE CONTRACT LET.

The county commissioners met and discussed the proposition of awarding the contract for the new bridge to be built over the Ogden river near the mouth of the canyon. The contracts reported in Tuesday's paper were reopened and after due consideration, the contract was let to A. M. Blodgett Co., of Kansas City, Mo., their bid being $2,496 for the bridge proper and $8 per cubic foot for the abutments. There were other bids that were lower than Blodgett's, but when the quality of the bridge was taken into consideration, the Blodgett bridge was considered the cheapest and best.

## RICHMOND.

**ELDER C. W. CHRISTOFFERSON**

**Laid to Rest Amid Impressive Services—Died in Europe.**

Special Correspondence.

Richmond, Cache Co., Sept. 27.—The remains of Elder Christian W. Christofferson which arrived at this place yesterday from Europe, accompanied by Elders John Christensen, of Preston, Idaho, and Joseph E. Taylor, of Salt Lake. The party was met at the depot by several hundred Richmond citizens. The funeral cortege was formed and the remains were followed to the meeting house, where impressive services were held.

The speakers were Bishop Thomas H. Merrill, Elders John Christensen, Andreas Peterson, former president of the Scandinavian mission, where the deceased labored, August Schow and Joseph E. Taylor. Appropriate music was rendered by the Richmond choir under the direction of August Schow.

Elder Christensen, who accompanied the remains from Europe gave a detailed account of the last illness of the deceased which lasted ten days, and explained to the family and friends that everything possible was done to avert the fatal end.

## KAMAS.

**Foretaste of Winter — Chairs and Heater for Meeting House.**

Special Correspondence.

Kamas, Summit County, Utah, Sept. 25.—Kamas has experienced a foretaste of real winter this week, in the snowstorm and the very cold spell following.

The most of the threshing has been done in the valley.

Efforts are being made to raise means to pay for the seating of the ward meeting house with chairs, and to put in a heating plant, every association in the ward will raise some of the means, and the prospects are that Kamas will in the near future have as nice and comfortable a house of worship as any ward in the Stake.

A large number of the young people of Kamas went to Hoytsville last Saturday and Sunday to attend the M. I. A. convention, and arrangements have been made for the M. I. A. social to be given on Oct. 11th.

There is some talk of commencing work on the proposed canal from Weber to Provo shortly. It will make a great deal of employment for the people and furnish a market for their produce at good prices, but no doubt when the water is turned in, in the spring, a great many will be found kicking, for fear their water rights will be molested.

Th "News" is appreciated by its readers as never before, and many are the words of praise given it by subscribers.

## LODI, IDAHO.

**PECULIAR FREAK OF NATURE.**

**Contiguous Hot and Cold Springs — Deseret News Agency.**

Special Correspondence.

Lodi, Freemont Co., Idaho, Sept. 24.—The postoffice of this little hamlet is just south of the north fork of the Snake river, three and a half miles west from Marysville. Here your correspondent met one of the queer freaks of nature. On the Cunningham ranch are springs of fresh water within short distances of each other that are alternately hot and cold. The upper spring is cold, hard water; four rods below is a warm spring, the water being comfortably warm enough to bathe in and is quite soft, while farther down the same draw is another cold water spring. The hot water has no bad taste or smell. It all appears to come from a volcanic strata.

The water for irrigation has held this district back but as a rule good crops have been produced without water, but the last two years have been very dry. Good crops have been produced by cultivation and care. In the garden of J. T. Docheus was raised carrots, beets, turnips, onions, cabbage and splendid potatoes, all without water, but with the application of water the quantity could be greatly increased. It is expected that there will be water to put on the ranches next year. Then great improvement can be expected. The soil is a rich, sandy loam underlaid with lava that will readily sub-irrigate when the water is applied. In places half a mile east of here the land has begun to subirrigate and in one place the water that comes up is warm.

DESERET NEWS AGENCY.

The postoffice here is kept by J. T. Dorcheus who will act as agent for the Deseret News for this district.

# Gray Hair

Ayer's Hair Vigor doesn't suddenly restore color to your gray hair; but gradually the old color comes back—all the dark, rich color it used to have. It stops falling of the hair, too, and will often make the hair grow to be very long and heavy.

"Ayer's Hair Vigor is certainly wonderful. It has restored the natural color to my gray hair and has made a splendid new growth."—Miss Emma Calder, New York City.

## MARYSVILLE, IDAHO.

**SUB-IRRIGATION IN VOGUE.**

**Good Crops, With Good Prices Encourage the Agriculturists.**

Special Cofrespondence.

Marysville, Fremont Co., Idaho, Sept. 23.—The storm that has been threatening for some time has come with rain and sleet.

Threshing has been in progress for some time and yet there is much grain in the fields.

Good crops have been the rule here this year, the greatest complaint has been in the lateness of the water getting out into the canal, thus throwing the grain late. In many places in this district sub-irrigation is in evidence. In places where it used to be dry streams of water are running out of the ground. The next few years will produce a great change in this region as it will develop much faster in the future than in the past.

The farmers' canal that has been under construction for about five years is nearing completion and next year they expect to be irrigating from it. This will greatly increase the productiveness of this region and make some of the barren spots productive. Good crops were produced here this season and the farmers are hopeful at the prospect of good prices; the tide seemingly has turned in their favor.

The new tithing granary is complete and is being filled up with grain.

Work on the new meeting house is progressing nicely, the sheathing is all on the roof and the weather boarding is being put on.

DESERET NEWS AGENT.

Many physicians are now prescribing Kodol Dyspepsia Cure regularly, having found that it is the best prescription they can write because it is the one prepartion which contains the elements necessary to digest not only some kinds of food but all kind and it therefore cures indigestion and dyspepsia, no matter what its cause. F. C. Schramm, Prescription Druggist, McCornick building, corner Main and First South streets.

## MEMORIAL SERVICES.

**At Afton, Wyoming.**

Special Correspondence.

Afton, Uinta Co., Wyo., Sept. 19.—The people of Star Valley mourn the loss of their beloved President. All the business houses are closed today out of respect to our martyred President, William McKinley, and many of them, and a number of our private residences are draped in mourning, and flags are at half mast.

Memorial services in honor of President Wm. McKinley were held today in the Star Valley Stake house at Afton at 11 o'clock. The services were very impressive. The music was beautiful and the addresses eulogistic of the life and labors of our able and worthy President.

Geo. W. Lane, Pewamo, Mich., writes: "Your Kodol Dyspepsia Cure is the best remedy for indigestion and stomach trouble that I ever used. For years I suffered from dyspepsia, at times compelling me to stay in bed and causing me untold agony. I am completely cured by Kodol Dyspepsia Cure. In recommending it to friends who suffer from indigestion, I always offer to pay for it if it fails. Thus far I have never paid." F. C. Schramm, Prescription Druggist, McCornick building, corner Main and First South streets.

**Lost Money in Nome.**

Port Townsend, Wash., Sept. 26.—The steamer Senator arrived from Nome today bringing nearly 500 passengers and over half a million in treasure. The Senator experienced good weather until a point 200 miles off the Vancouver coast, when she encountered a terrific gale, which lasted several hours. A minor accident occurred to her machinery and while repairs were being made the steamer rolled dreadfully, she having no freight or ballast.

The Senator sailed from Nome Sept. 16. Out of a large number of passengers on the Senator, not one of them brought out as much money as he took in with him. All speak in high terms of the country as a mining section, but say the laws are such that it will be years before the country will open up. They say that not one new claim has been opened in the vicinity of Nome this season for the reason that when prospectors find pay diggings some one comes along and claims it by right of prior location, and it is then tied up in court.

The largest nugget ever found in the north was taken out on Anvil creek, Sept. 1. It weighs ninety-seven ounces and is valued at $1,552. A rich strike is reported on the head of Grouse gulch.

**To Relieve Distress at Nome.**

Washington, Sept. 26.—The war department is investigating stories which have reached Washington to the effect that there is danger of much suffering at Cape Nome unless steps are taken at once to relieve destitute members of the mining community. The department has issued instructions that the transport Egbert be put in readiness for immediate service but sailing orders are withheld until the officials can satisfy themselves that the government is not being imposed on in the matter.

**Mr. Bryan Favors Free Speech.**

Lincoln, Neb., Sept. 26.—W. J. Bryan is opposed to any limitations upon the freedom of speech, which, he says, has been suggested as a cure for anarchy. Mr. Bryan believes the evils of restriction are greater than the evils of freedom, and further declares that the death of President McKinley cannot be traced to anything said or written against him.

The warfare, he says, must be against anarchy, not against freedom of speech. Anarchy, he insists, is a foreign product, and thrives most where there is the less freedom of speech and the press.

Don't wait until you become chronically constipated but take DeWitt's Little Early Risers now and then. They will keep your liver and bowels in good order. Easy to take. Safe pills. F. C. Schramm, Prescription Druggist, McCornick building, corner Main and First South streets.

## LOVE AND POLITICS.

Oil and water won't mix but there are times when love and politics will. Amelia E. Barr, the noted novelist, took this theme when she wrote her eminent success, "I, Thou and the Other One," and the result was one of the most charming romances of the year. The story is of the days when the historical reform bill was agitating all England in the early part of this century. Families were divided against themselves on this all important topic, and when the children of political opponents fell in love it certainly complicated matters. The future of the hero and heroine of this particular story was for a long time in peril, but love always finds a way and you will find the reading of Amelia E. Barr's story immensely entertaining. For a limited time copies of this book in art cloth can be had by readers of this paper at the remarkably low price of 25 cents a copy. Call at CANNON'S BOOK STORE, (Deseret News, Props.), 11 and 13 Main street.
