KICKED BY A HORSE.

Andrew J. Proudfit, the wellknown bicycle dealer, met with a painful accident yesterday afternoon by being kicked in the chest with a horse. Mr. Proudfit came out of his place of business on Twenty-fourth street and was crossing the street, he passed by a saddle horse tied to a pole in front of his store, when the animal kicked with both hind feet at Mr. Proudfit, striking the gentleman in the breast, knocking him down. Several gentlemen, who were passing by, quickly picked Mr. Proudfit up and carried him to the drug store near by. Dr. Gordon was called and examined the injured man, but found that no bones were broken. The breast was terribly bruised, and it is feared that the heavy blow may have caused some internal injury, which the physician cannot locate. Mr. Proudfit was taken to his home, and is resting as well as can be expected. The owner of the horse could not be located.

LOGAN.

PETITION FOR FOREST RESERVE

Electric Light Plant for Logan—Ordinance Taxing Telephones.

Special Correspondence.

Logan, Cache Co., Feb. 21.—The committee appointed by the recent mass convention met Thursday evening and formulated a strong petition to the interior department at Washington, urging the necessity of the water sheds of Cache county being set apart as forest reserves, that the supply and purity of the mountain streams may be maintained and preserved. The concluding paragraph follows:

Now, your petitioners respectfully request that such investigations be instituted and such steps be taken at once by the department of the interior as may be necessary to reserve from entry and establish as a forest reserve all of the lands hereinafter described, or as much thereof as may be expedient. Said lands are as follows, to wit: All vacant public lands in townships 8, 9, 10, 11, 12, 13, 14, and 15 north, ranges 2, 3 and 4 east from Salt Lake meridian.

The petition is signed by the following representative citizens of Cache county: Geo. L. Swendsen, Jos. Knowles, Lorenzo Hansen, F. K. Nebeker, Edward Hansen, Jos. Monson, L. R. Martineau.

He stated that his figures had been demonstrated by actual experience to be correct. The council voted to meet next Wednesday evening to consider Mr. Garff's proposition.

BEAVER.

BRANCH ACADEMY NOTES.

Session of District Court—Fear of Water Famine—The "Grip."

Special Correspondence.

Beaver, Beaver County, Feb. 21.—"Fund" day was appropriately celebrated on the 17th, in the Beaver branch of the B. Y. Academy. An interesting program was carried out, commencing at 10 a. m. Suitable remarks were made by Walter S. Tolton, and D. Grimshaw of Beaver and Prin. A. B. Anderson. The two selections by members of music "D" as also the anthems by the choir, formed very pleasant features of the program.

In the afternoon sports were indulged in and the Dramatic company presented "Nugget Nell," in the Beaver opera house in the evening, the proceeds of which go to the academy fund.

James Ollorton of Parowan presented the library with eight volumes on Friday last.

Washington's birthday will be celebrated by a program being given on Saturday evening. Mrs. S. C. Maeser, Alfred M. Durham and Miss Ella Batty form the committee on arrangements. The regular school party will be held tonight.

COURT IN SESSION.

The Fifth district court is now in session with Judge Thomas Marioneaux on the bench, and a number of probate matters have been disposed of.

The case of the state of Utah vs Edward Morahan, charged with selling whiskey to Indians, was taken up, and the complaint being faulty, time was granted in which to file a new complaint, this has been done, and a demurrer has been entered by the defense thereto. Arguments were made this morning as to the demurrer and the court has taken the matter under advisement.

A damage suit, William Joseph vs David Pearce, is now being heard. The plaintiff in this case seeks to recover damages in the sum of $2,500 for an assault.

Another damage suit of a similar character is to come up this term wherein James Valentine is suing Seth W. Smith for $2,500 for an assault.

The winter in this county is exceedingly dry, no snow to speak of in the mountains, and the outlook is not very propitious for success in stock or agricultural pursuits.

The "grip" seems to be much in evidence here just now; many are complaining. Smallpox, of which we have had a number of cases, has about disappeared.

MEDICINE FAKIRS.

We have been blessed (?) for two weeks with the medicine fakirs, and if the amount of medicine they disposed of is a criterion of the health of the burg, then we are fearfully, and wonderfully sick.

Elder W. S. Tolton of the B. Y. South American expedition is home again, we are glad to have him in our midst again.

KANAB.

PRICE.

VACANCY IN COUNTY BOARD.

Steamers on Grand and Green Rivers—Rush in County Offices.

Special Correspondence.

Price, Utah, Feb. 22.—When the town board meets the first Monday in March the members will be called upon to elect some one to fill the vacancy caused by the resignation from the board of L. O. Hoffman, Democrat, who filled but one month of the two years he was elected to serve on the board. There are numerous names mentioned for the place.

There is such a rush at the county clerk's office and has been for a month or so past, that the time of one deputy is almost entirely taken up with the recording of petroleum mining location notices, and now that there is to be considerable work in the way of abstracting claims, County Clerk Donaldson figures that he will soon have to have another deputy in his office. The same conditions exist with Recorder Andersen in Emery county, where the mining location fees have been running as high as $300 a month, and sometimes more, for over a year past.

W. J. Ridd, traveling passenger agent of the Rio Grande system, was in Price yesterday feeling the pulse of several persons in regard to getting up an excursion to make the trip by boat from Green River to Moab, there being now a line of boats on the Green and Grand rivers. He thinks that during the coming year large quantities of the Moab fruit will be shipped out of the country by river transportation. It can be carried from Moab by boat and then loaded on to the railroad without great expense. Now it is conveyed to Thompson's Springs by wagon and much of it will not stand shipping because of being bruised by the haul over rough roads. This would be overcome by boat.

L. M. Olson, J. B. Millburn and B. R. McDonald are very much encouraged with the showing made by their gilsonite properties in Nine Mile canyon, 35 miles east of Price, and expect the coming summer to put a considerable quantity of the product on the market. Their wagon haul is 70 miles shorter than that of the St. Louis company.

Lon Alger of the Nine Mile section lately had his leg broken in two places by a wagon running over him. He is at the home of Mrs. Branch of this place, but will soon be able to return home.

The Clarke road, the San Pedro line, is said to be figuring on a big tract of coal lands in Carbon county, but the details are not ready to be given to the public.

W. J. Tidwell, recently appointed postmaster at Wellington, vice E. E. Branch, Jr., resigned, will assume the duties of the office next week.

GUNNISON.

SUGAR FACTORY PROJECT.

Big Migration to Canada—Diphtheria Practically Over—Water in Plenty.

Special Correspondence.

Gunnison, Sanpete County, Feb. 20.—From six to twelve families leave here for Canada about March 1, to join Bishop Will Knight's ward at Raymond, to engage in beet culture or any other enterprise according to their taste and the opportunities the country afford.

WASSDEN-ERICKSON NUPTIALS.

Erick Ericksen and Miss Belle Wassden, the daughter of John B. Wassden, were married recently and a reception was held in their honor last evening. It is the purpose of the young couple to aid in the colonization of Canada, they join the party going there in March next.

Diphtheria at Gunnison is practically over. The scare was intensified by Doctor Andrews coming down with the disease. He has entirely recovered, and was out today for the first time.

Schools and meetings will be resumed the coming week. The disease has been in mild form, but Miss Laura Christensen, mine hostess of the Christensen Hotel, mourns the loss of the leaves of all her house plants, through the fumes of the strong disinfectants used for fumigating the house, after a slight attack of throat trouble which was strongly suspected to be diphtheria.

IRRIGATION INTERESTS.

The stockholders of the Gunnison Irrigation company meet on Monday evening next for the election of officers and other business. The people here are of the opinion that overstocking the mountain ranges, is to a great degree the cause of the lack of water for irrigation—the earth becoming packed under the tread of the herds and denuded of every vestige of vegetation, it cannot absorb the moisture that falls, but the rains unobstructed run over the surface into every slight channel and are conveyed at once to the creek and run off in flushes. The people are also of the opinion that some protective measure should be enacted by the Legislature. The state engineer, A. F. Doremus, Esq., recently lectured here, and held with this view.

FLATTERING WATER PROSPECTS.

The prospects are fair for a good supply of water the coming season from the reports of the depth of snow in the mountains exceeding that of last year, which is corroborated by the report of L. H. Murdoch of the weather bureau.

Mr. and Mrs. Theodore Christensen are still absent. Mr. Christensen is in Mexico attending to his extensive mining interests and Mrs. Christensen with her son, is in Santiago, California.

Nervous children are almost always thin children. The "out-door-boy" is seldom nervous. WHITE'S CREAM VERMIFUGE is the best preventive of nervousness. It strengthens the system and assists to that sort of flesh, which creates strength and power of endurance. Price, 25 cents. Z. C. M. I. Drug Dept.

HYPNOTIC SCHOOL INVESTIGATED

Mysteries of Personal Magnetism Laid Bare—Does Danger Lurk In Hypnotism?—Can These Sciences Be Taught by Mail?

Opinions of 81 Prominent Business Men and Scientists Who Have Taken a Course of Instructions—Some Astonishing Revelations.

EVERYBODY MAY NOW LEARN.

Owing to the widespread interest which has lately been manifested in schools of Personal Magnetism, Hypnotism, Magnetic Healing, etc., a reporter was assigned to investigate the New York Institute of Science of Rochester, N. Y., the largest school of its kind in the world, and to ascertain what practical benefits, if any, the students receive.

This Institute made a remarkable showing. That it actually teaches Scientific Hypnotism, Personal Magnetism, Magnetic Healing, etc., there can be no doubt. In a few days' study at home any intelligent person can, through its course, acquire the secret powers of the occult sciences and use them on his friends and associates entirely without their knowledge. Its course of instruction, prepared under the supervision of the noted hypnotist X. La Motte Sage, A. M., Ph. D., LL. D., was found to be exactly as represented—easy to learn and marvelously clear and complete. Over 50,000 students were enrolled last year.

1882 South Burdie Street, Kalamazoo, Mich. In making friends, selling goods, collecting debts, or controlling men I would rather be possessed of hypnotic skill than a college education. J. Knight Perkins

312 Indiana Street, Lawrence, Kan. Hypnotism cures. The World knows no stronger force for good than Personal Magetism. I advise every woman in the land to study these grand sciences. Mrs. A. C. Young.

Marvelous hypnotic cataleptic test as performed by J. Knight Perkins, of Kalamazoo, Mich., graduate of the New York Institute of Science.

From the letter files of the Institute one hundred names were taken at random. Letters were addressed to these persons, asking them to tell freely what they thought of the Institute and the benefits they had derived from the instructions. The replies received were a revelation. All had ashieved success to a greater or less degree, and in manyinstances the results were simply astounding, almost beyond belief.

Extracts from the replies of six ofthe students are given herein without comment:

Mr. Frank Muehl, Fairwater, Wis., writes: "I have thoroughly tested the practical value of Personal Magnetism and Hypnotism as expounded by the New York Institute of Science, and I am agreeably surprised at the results. This information is invaluable. I see life anew. Wonderful possibilities have been opened up to me."

M. B. Furry, No. 417 East 2nd St., Wilmington, Del., writes: "I hypnotized a young man within three hours after receiving my first instructions. He could neither sing nor dance. I made him sing three coon songs and dance a regular buck dance—he thinking he was a stage performer."

Dr. Abbie Heath, 71 Dover St., Boston, Mass., writes: "By the information received from the New York Institute of Science I cured a Mr. Scott of the tobacco habit in two treatments. It is now six months since, and he cannot touch tobacco. I have used Hypnotism several times to control the excruciating pain of cancer and to eradicate pernicious habits in children."

Professor J. Ernest Trudel, Hedleyville, Quebec, Canada, writes: "Dr. Sage's wonderful course in Personal Magnetism and Hypnotism is the only work of its kind containing information that any person can readily learn and apply. It certainly reveals the secrets of personal influence; it develops in one a power, a force of character that I did not think it possible to acquire."

The New York Institute of Science has just issued one of the most remarkable books of the century, which treats in an intensely interesting manner of personal magnetism, hypnotism, magnetic healing, etc. During the next 30 days 10,000 copies of this book are to be given away. This great work contains the reported opinions of eighty-one persons who have tested these sciences. Among the number are fourteen College Presidents and Professors, eight Doctors, three Dentists, four Judges and Lawyers, four Society Leaders, twenty-eight Business Men, City Officials, Bank Presidents, besides twenty persons prominent in other walks of life. Altogether, we consider it to be the most valuable and wonderful work of the kind ever produced. This book has been the means of starting thousands of persons on the road to success. It may prove the turning point in your career. A copy of the book will be sent absolutely free to any one addressing the New York Institute of Science, Department, 314 M. Rochester, N. Y.
