OGDEN, UTAH, - - OCT. 13, 1902.

FIVE POINTS POSTOFFICE.

Sub-station of the Ogden Office to be Established There.

Unfortunate Frenchman a Raving Maniac—Funeral of Mrs. Bybee—To Enlarge East Canyon Reservoir.

That a sub-postoffice is to be established at Five Points will be welcome news to the residents of the northern part of the county and city. The proposition to establish a postoffice at that point has been under consideration for some time past by the postal officials at Washington, and now the word has been received by Postmaster Thomas Davis that the proposition has been favorably decided upon, and instructions have been received by that gentleman to select a site and make the necessary preparations for the opening of the sub-office. The site will immediately be decided upon and everything prepared for the opening.

The residents of the northern part of Ogden City and the county will find the new departure in the postal service of vast advantage to them, as heretofore they have been obliged to come to Ogden a distance of several miles to send a money order or cash also to receive and forward registered mail, but in the sub-office at Five Points a money order, registry, stamp and all other departments will be established. The sub-office will be under the direction of Postmaster Davis, and mail will be received and distributed at that office the same as at the Ogden office.

The rural delivery routes for Weber county have been practically decided upon but will not be established until after the first of the year. When they are established the people in the county will be enabled to get their mail almost as soon as the people living in Ogden.

UNFORTUNATE FRENCHMAN.

Odet Ardoliam, the Frenchman who was turned over to the sheriff for safe-keeping by the Southern Pacific company on the 5th of this month, in an insane condition, has been a raving maniac for the past 36 hours. His insane condition was thought by Dr. H. R. Forbes who has been attending him very attentively, to be only of a temporary nature, and from all appearances he was recovering rapidly, and the officers expected to have been able to send him on his journey to Paris, France, in a few days, to which city he has a ticket also a draft on the Bank of France for 200 francs. Saturday night about 10 o'clock, however, he took a sudden change and commenced shouting and raging in his cell and the officers could not quiet him. He tore up his bed clothes to ribbons and threatened to kill everybody who came near. He continued his cries all night, and yesterday morning refused to eat. The doctor was called and the officers held him while a large dose of morphine was administered to him, but this did not seem to quiet him. His bed, table, chair and everything else but the iron ceiling was removed from his cell. During the afternoon he became more violent than ever and with the strength of a madman broke the marble sink and toilet, and broke off the water pipes. The water flooded his cell before it could be stopped. He also got down on his hands and knees and ran around the floor of the cell barking like a mad dog. Never before have the officers had such a violent person to deal with. He will be taken to the asylum at Provo for treatment. He has a brother, who lives at Bishop Creek, California, to whom Deputy Sheriff Cove has written.

FUNERAL OF MISS BYBEE.

The very largely attended funeral services over the remains of Miss Amy C. Bybee were held yesterday afternoon at 1 o'clock at the Riverdale meetinghouse, Bishop Bingham presiding. The ward choir furnished the music. Elders Cragun, Samuel Dye, John Child and Bishop Bingham were the speakers. They each paid a high tribute to the memory of the young lady, eulogizing her noble, pure life and her many virtues, giving much comfort to the bereaved family. Many beautiful floral offerings were laid on the bier. A funeral cortege several blocks long followed the remains to the city cemetery, where they were laid to rest, Elder George W. Larkin, Jr., dedicating the grave.

EAST CANYON RESERVOIR.

The board of directors of the Weber & Davis Counties Canal company has decided to make an important improvement to its reservoir in East canyon, one that will add 33 per cent to its present capacity. The work is to be done under the supervision of the company's manager, John C. Child, and in accordance with plans to be prepared by the company's engineer, and approved by their consulting engineer, Mr. Forsythe, who came from Washington to advise with the board of directors. The dam is now about 85 feet high. Last season a portion of the upper section was washed away and in making the repairs it was decided to construct another 15 feet, and adding one-third to the capacity of the reservoir. This would give enough water, even through the dry season, to almost fill the canal. Mr. Forsythe estimates that the work will cost about $1,100.

The Democratic county committee held a meeting Saturday afternoon for the purpose of considering plans for the campaign. The following executive committee was appointed: H. W. Gwillim, Geo. B. Wardlow, Max Davidson, Joseph Moore and S. S. Smith, of Ogden; James Wangsgard, of Huntsville, and A. C. Richardson, of Plain City.

It is also understood that Judge W. L. Maginnis, Hon. T. D. Johnson, Judge Horne and other leading Democrats will take the stump throughout the county for their party. Hon. William Jennings Bryan will also come to Ogden the latter part of this month and speak on the campaign issues.

BIDDLE-WILLIAMS WEDDING.

BRIEFS AND PERSONALS.

The primary department of the Fifth ward Sunday school will give a very pleasing entertainment in the ward hall Wednesday evening, to which the public is invited.

The High school gives a dance next Saturday evening at Dignan's dancing academy.

UTAH STAKE CONFERENCE

First Presidency, Members of the Apostles' Quorum and Other Speakers.

M. I. A. Conference—Interesting Addresses from Church Leaders—4th District Court Business.

Special Correspondence.

Provo, Utah Co., Oct. 13.—The quarterly conference of Utah stake, held Saturday and yesterday, was well attended, especially were the congregations at the Saturday meetings larger than usual. The speakers were, in the order named, President David John, President L. N. Hinckley, Millard stake; Bishop Geo. R. Hill, Springville Third ward; Bishop Geo. E. Anderson, Springville Second ward; Bishop Hugh Clayton, Provo Sixth ward; Apostle George Teasdale; Bishop T. N. Taylor, Provo Third ward; Bishop L. L. Nelson, Provo Second ward; Bishop Alexander Gillespie, Pleasant View ward; Bishop O. H. Berg, Provo First ward; Apostle Reed Smoot; Bishop Moroni Snow, Provo Fifth ward; Counselor L. Holbrook; Bishop Ernest D. Partridge, Provo Fourth ward; President John R. Winder, Counselor J. B. Keeler, President A. H. Lund, Bishop John Johnson of Lake View ward, Bishop Wm. T. Tew of Mapleton ward, Elder L. E. Eggertsen, superintendent of Sunday schools; Elder E. S. Hinckley, president of religion classes; Elder J. E. Hickman, president of the Y. M. I. A.; Sister Jean Clara Holbrook, president of the Y. L. M. I. A.; Sister Eliza Taylor, counselor in the presidency of the Primary associations; Sister Mary John, president of the Relief society; Apostle John Henry Smith, and President Joseph F. Smith. The remarks of the local brethren and sisters were principally confined to reports of the organizations of which they stand at the head, and showed generally a satisfactory and encouraging condition.

Many valuable instructions were given by the visiting brethren on the various obligations devolving upon the people, who were encouraged in the performance of every duty, and many strong testimonies were borne.

M. I. A. CONFERENCE.

In the evening a M. I. A. conference was held. A very large congregation was in attendance, nearly every seat in the tabernacle being filled.

The speakers were Apostle Teasdale, Sister Jean Clara Holbrook, Elder Joseph A. Buttle, Sister Inez Knight Allen, President Joseph F. Smith and Apostle John Henry Smith. Each of the speakers bore a strong testimony to the truthfulness of the Gospel and the divinity of the mission of Joseph Smith. President Smith called a 14-year-old boy from the congregation and placed him before the people as an object lesson as to the size of the Prophet Joseph Smith when he received his first vision, and spoke at some length on the writings and sayings of the Prophet, showing the impossibility of a boy conceiving, unaided by the power of God, the principles he presented to the world.

Apostle John Henry Smith spoke interestingly of a late visit to Nauvoo and Carthage and told of the many places of interest, connected with the time the Saints inhabited that country, that he had visited. He and his party had been most courteously received by the people generally, and there was a feeling among the people now living there that a great mistake had been made in driving the Saints to the Rocky mountains.

The choir rendered beautiful music at all the meetings, and all who had the privilege of attending were greatly edified and strengthened by the good spirit which was manifested.

BEAVER.

DISTRICT COURT BUSINESS.

Complicated Mining Suit—Dr. Lines Obtains Divorce.

Special Correspondence.

Beaver, Beaver Co., Oct. 9.—Owing to the disqualification of Judge Marioncaux to hear a number of the cases, Judge McCarty came here last Friday and has heard a number of mining and other cases.

Dr. Lines was granted a divorce from his wife on the grounds of desertion. The parties were married at Fredonia, Arizona.

There is promise of a protracted legal fight in the suit of Frank Frorer vs the Rollins Mining company, which is brought to foreclose a $50,000 mortgage. A decree of foreclosure was granted in the case, but plaintiff agreed that Mrs. Angle of Chicago a former owner of the property, be permitted to file a complaint in intervention. Mrs. Angle, it appears, purchased the Rollins mine in 1897, at sheriff's sale, and deeded it to Henry W. Wulff of Chicago, with the understanding that he should transfer it to the Rollins company when the latter complied with certain conditions. Wulff deeded the property to the company, but the deed has never been recorded. The company then mortgaged the mine to Frorer as security for a loan of $50,000, Mrs. Angle signing the mortgage as an officer of the company. Mrs. Angle now sets up that the Rollins company never complied with the conditions under which it was to secure title to the property and claims that she is still the owner of the mine. The property has been deeded back to her by Wulff and this deed was recorded last month.

The case of Edward Clark of Richfield against Morgan Stoddard and John Kirk of Milford, involving the ownership of a valuable mining claim in the Granite range, located by Clark as the Copper King, later by the defendants as the Irene, was decided in favora of the plaintiff, but the court intimated that as plaintiff had not yet performed the assessment work for last year, owing to the intimidations of defendants, the ground was now open to relocation.

HOUSE BURGLARIZED.

The home of O. H. Randall was entered on Friday night by two men, while the whole family were away at a dance in honor of their son's wedding. Two men were seen around by a young man going to the dance, but he supposed it was some of the family. About 11 o'clock Albert Randall of Centerville went to the house to go to bed, but could not obtain admittance. Some one was holding the door by which they entered. He saw a dim light in the house and returned to the hall to inform his uncle. Three or four started for the house, but the men being disturbed, decamped without obtaining any plunder so far as has been discovered.

EVOLVING A GENTLEMAN.

Prof. Karl Pearsons, F. R. S., who has taken a leading part in founding the doctrine of evolution on a statistical basis, explained to an audience at the Royal institute some of the results which have been arrived at. Two of these are of special importance. It is shown by examination of large numbers of persons that mental and moral as well as physical qualities are inherited, and to the same extent.

Taking school children and examining them minutely with respect to curliness and color of hair, length, breadth and height of the head, color of the eyes, the cephalic index, and health on the one hand; and on the other testing them for intelligence, vivacity, conscientiousness, popularity, temper, self-consciousness, shyness and handwriting, the degree of inheritance in the two categories came numerically as close at 521 to 522. Secondly, it has proved that two or three generations will suffice to create a new stock.

Statistics of large numbers show that there is more than is often supposed in the saying, "It takes three generations to make a gentleman," and in the expression, "Visiting the sins of the fathers upon the children to the third and fourth generation." Pedigree in humanity, as in the lower animals is a vital factor. Thus a family or a nation will certainly progress or degenerate as the issue of heredity. It needs but to repress the numbers of the better and higher and to multiply the number of the lower and the less fit for two or three generations to make national degeneration terribly real. Prof. Pearsons' tabular results showed the universality of the laws of inheritance, not only in animals like horses and dogs, but in lowly insects and even in plants—London Telegraph.
