MINING, BUSINESS AND STOCKS.

WEEK'S CLOSING SESSION ACTIVE

Many Stocks Participated and Outside Demand Was Big.

PRICES EASED MATERIALLY

Ben Butler a Feature Today—California and Con. Mercur Much Dealt In—May Day Moves.

Another week's business on the mining exchange was brought to a close by a stirring session this morning. Many stocks were in considerable demand and others were subjects of bearish attacks. While prices eased off in many instances from the high figures of the week, the market closed strong and in very good tone. There is much trading for outside accounts.

During the week transactions involving 381,894 shares and $284,383.90 were recorded and trading was characterized by a much improved tone consequent to favorable developments in the big coal strike situation and a somewhat easier eastern money market.

The Park City issues were, as has been the case for some weeks, the favorites and trading was active in Daly West, Daly Judge, New York, Wabash, California and some of the newer companies. Prices were generally firm, although Wabash and California were both tobogganed some. Lower Mammoth and May Day have shown much strength while Con. Mercur was badly tobogganed on heavy selling orders from the east.

Ben Butler closed the week with heavy sales at lower figures. Various unfavorable rumors were in circulation about the property this morning, but none were subtantiated.

The session closed on the following market:

LISTED STOCKS.

TINTIC'S NEWER MINES ACTIVE

Famous District is the Scene of Extensive Operations.

THIS WEEK'S SHIPMENTS.

Over 1,500 Tons of Ore Marketed—Grand Central Ships Heavily—Other Mines Forwarding.

(Special to the "News.")

Eureka, Oct. 16.—It is the intention now of the St. Louis-Eureka Mining company to develop their property through the tunnel instead of the West Cable mine as was first intended. The tunnel is now in over 100 feet, and by drifting about 150 feet more the vein will be struck and sinking will be commenced, following the vein downward. Mr. C. H. Cody, the railroad agent at Robinson, has been elected president of the company successor to the late Waller Hedrick and work on the property will be pushed until it enters the list of Tintic shippers.

Capt. Hugo Deprezue, recorder for North Tintic, is busy at present developing his water claims in that portion of the district and where this work is completed will commence active development work on his valuable holding in that section.

Development work on the Annie Laurie claims in North Tintic is going ahead rapidly under the management of Supt. R. S. Robertson. He is now sinking on the vein from the face of the tunnel and all indications point to a favorable outcome for the property, which is being closely watched by neighboring claim holders who will begin active operations on their properties, thus, bearing out the predictions of many mining men in Eureka that the north district is rich in mineral ores.

The Sweetwater Mining company in North Tintic will begin at once sinking on their claims. The shaft is at a depth of 125 feet and as soon as the timbering is completed Supt. Lelos Lombard will put a force of men to work sinking the shaft to a depth of 250 feet and then begin to drift. The company has good financial backing and have every assurance that they will develop a good shipping mine in the north end ere many moons have passed.

A steam hoist is to be erected at once on the property of the Manhattan, and development work pushed as fast as possible.

Seventy-nine cars of ore were shipped from the district this week, the Mammoth and Eagle and Blue Bell mines leading with 13 cars each; Grand Central and Dragon Iron mine, 10 cars each; Yankee Cons, 7; Gemini, 6; Bullion-Beck, Lower Mammoth and Centennial Eureka, four cars each; Ajax, three; May Day and Star Cons., two cars each, and Mordue Iron one car. One bar of bullion was shipped from the Mammoth mill.

Msesrs. W. D. Myers and Levi Schofield have had a survey made of the General Logan property, lying southwest of Eureka and adjoining the Bullion-Beck properties, and will make application for a United States patent. The General Logan is well located in the mineral zone and with the proper development work should prove to be a valuable mining proposition.

WORK BEING PUSHED.

Park City Gold and Silver Company Have Development Underway.

It was stated today by C. B. Stewart, secretary of the Park City Gold and Silver mining company, that work on that youngster's property is being pushed with energy.

A large force of men are putting up buildings and otherwise getting things in shape so that work on the mine may be driven forward with speed during the winter.

The management has secured four additional claims and the property now comprises nine, with a stretch of 7,500 feet along a well defined contact. The property is reported to be exceedingly promising.

BINGHAM CON. AFFAIRS.

Smelter is in Good Condition With Improvements Progressing.

Three furnaces at the Bingham Con. smelter in this valley are in steady operation and a constant stream of bullion is being forwarded to Perth Amboy. The fourth furnace of the smelter is rapidly being got in shape for operation, while the new converter stack rising to a height of nearly 200 feet is rapidly approaching completion. The plant will be in full operation within two or three weeks and with four furnaces constantly in operation the big company will soon be making much money.

The Bingham mines owned by the Bingham Con., are in very good condition and the Dalton and Lark is reported to be looking exceptionally well.

PARK CITY SHIPMENTS.

Nearly 3,000 Tons of Ore and Concentrates Forwarded.

The week's shipments from Park City as reported by the Mackintosh sampling works today were as follows:

	Pounds.
Daly-West	3,336,280
Ontario	793,480
Anchor	206,250
Silver King (Loring)	146,100
	4,482,110
Silver King (estimated)	1,800,000
	6,282,110

ORE AND BULLION.

Settlements Amounting to $434,450 Made During the Week.

The ore and bullion settlements in this city during the week ending with yesterday amounted to $434,450, as compared with $459,900 the week previous. These totals are exclusive of the Highland Boy and Bingham Con. receipts for copper bullion forwarded to Perth Amboy, New Jersey, and valued at over $120,000 a week.

AFTER BINGHAM CONSOLIDATED

Harrison Donaldson Wants Damages in Sum of $10,000 for Damages.

Harrison Donaldson today filed suit in the district court against the Bingham Consolidated Mining and Smelting company to recover damages in the sum of $10,000 for personal injuries received by plaintiff while working in defendant's mine on Feb. 24, 1902, and July 31, 1902. In the first accident some rock caved in on him, crushing him against his pick handle and injuring his left side and his heart. In the second accident his left leg and his back were crippled permanently and he asks damages for all injuries in the sum of $10,000.

Mining Deeds Filed.

Provo, Oct. 18.—The following mining deeds, all for petroleum claims in Spanish Fork canyon, have been filed with the county recorder:

Edward F. Munn et al, to Sarah M. Driggs, all of Salt Lake, an undivided ¾ interest in the Sheep Creek Nos. 1 to 6 mining claims; consideration $200.

W. L. Richardson et al to A. E. Driggs, all of Salt Lake, an undivided 1-6 interest in the Independence Nos. 1 to 5 mining claims; consideratio n$1.

A. E. Driggs to Sarah M. Driggs, both of Salt Lake, an undivided 2-3 interest in the Independence Nos. 1 to 5, an undivided one-half in the Robinson Nos. 1 and 2, an undivided ⅙ in the C. D. and R. R. Nos. 1 to 30, the C. D. & R. R. Extension Nos. 1 to 4, and in the Fossil Nos. 1 to 18; consideration $2,500.

Another Park Company.

The Park Summit Mining company of Park City filed a copy of its articles of incorporation in the secretary of state's office today. The capital stock is $75,000, divided into 300,000 shares of the par value of 25 cents each. J. H. Rinley is president; Henry Bell, vice president, and N. A. Page, secretary and treasurer. The company owns a group of eight claims in the Uintah Mining district, and two claims in Big Cottonwood district.

MINING NOTES.

The Horn Silver has 2 cars of copper ore awaiting settlement today.

Silver was quoted in New York this morning at 50⅝ and copper at 10¾.

Transactions on the mining exchange yesterday involved 73,390 shares and $71,620.99.

Six cars of Eagle and Blue Bell and one of Mammoth ore will be forwarded to the smelters today.

President John Dern of the Con. Mercur and E. H. Airis left for Oregon last night on a business trip.

It is reported that the Victor has closed down pending the settlement of the Boss Tweed-Victor litigation.

Ore and bullion settlements in this city yesterday as reported by McCornick & Co., amounted to $51,800.

Manager C. W. Whitley of the American Smelting and Refining company, has gone to Montana on a short business trip.

The Uncle Sam mine is showing much improvement and shipments of some fine ore are in transit and under preparation.

Manager Geo. H. Dern of the Con. Mercur returned from the big gold bonanza and reports it in most excellent condition.

Work on the East Blue Ledge property near Park City is being prosecuted with energy under the direction of Manager J. H. Deming.

The Commodore and Cygnet of Stockton are each represented on today's market, the former with 1 carload of ore and the latter with two.

The Taylor and Brunton management reports the following shipments as having been sampled: two cars of ore from Frisco, 7 cars from Nevada and 2 from Stockton.

An expert report on the Joe Bowers property has just been submitted by F. P. Gridley, who recommends that work be continued, as the property is exceedingly promising.

The management of the Dixie mine near St. George is now hastening the erection of the new smelter and it is stated that all materials have been ordered.

The Star Mining company of Park City has changed its name to the Park City Star Mining company and the Blue Ledge Mining company of the same place has changed its name to the East Blue Ledge Mining company. The changes were made in both instances because other corporations on file in the secretary of state's office had names very similar to the above corporations.

Salt Lake Bank Clearings

Salt Lake clearings for the past week as compared with the same week a year ago have been as follows:

	1902.	1901.
Oct. 13	$ 714,488.19	$ 676,304.87
Oct. 14	623,708.32	547,292.88
Oct. 15	809,035.39	751,388.56
Oct. 16	630,526.59	785,301.56
Oct. 17	711,829.52	696,583.65
Oct. 18	605,517.29	721,386.58
Totals	$4,086,104.80	$4,178,257.50

Decrease, $92,152.70.

BUSINESS NOTES.

The local stock markets have been rather quiet during the past week, the main inquiries having been confined to Church bonds, Z. C. M. I., Consolidated Wagon, and Amalgamated common. The latter is in demand at $82.50. In view of the fact that the preferred stands at $98.00, most people take this as indicating that dividend returns on the common are not among the improbabilities. The officials of the company in Ogden, however, state that no dividend program, aside from the disbursements on the preferred, has been settled on, and that the payment of a dividend on common is altogether an indefinite matter.

Utah Sugar stands strong at $17.25, with apparently no sellers. Broker Cutler's circular states that the company will produce over 20,000,000 pounds of sugar this year and that the beets being worked from the Bear River valley show a higher percentage of sugar than those raised in either Utah or Salt Lake counties. Following are the latest quotations:

Deseret National bank	$286 00
Z. C. M. I.	162 00
Home Fire Insurance Co.	141 75
Utah Sugar Co.	17 25
State Bank of Utah	148 00
Deseret Savings bank	227 00
Commercial National bank	100 00
Zion's Savings Bank & Trust Co.	132 00
Provo Commercial & Sav. bank	130 00
Lehi Com. & Savings bank	100 00
Thatcher Bros. B'k'g Co., Logan	116 00
First National bank, Ogden	237 00
Rocky M't'n Bell Tel. Co.	100 00
Davis County bank, Farmington	100 00
Barnes Banking Co., Kaysville	210 00
Ogden Savings bank	145 00
Consolidated Wagon and Mach. Co., pfd	101 25
Common	50 00
Greely Sugar Co.	135 00
Amalgamated Sugar Co., pfd	98 00
Common	82 50
Provo Woolen Mills Co.	56 00

BONDS

Church Bonds	103¼
Consolidated Ry. & Power Co.	101¼
Sumpter Valley	103½

* * *

The sugar factory at Lehi after its spurt of turning out close to 3,000 bags of sugar in 24 hours one day last week, breaking all previous records, has now settled down to a steady production of about 2,500 bags a day, the factory running through 1,000 tons of beets regularly.

* * *

Salt Lake stands thirteenth in the list of cities of the country for the bank clearings of the week ending Oct 16, as chronicled by Bradstreet. The figures are $3,932,756, an increase of 4 per cent over the corresponding week of last year.

* * *

The Gunlock Irrigation company of Washington county has incorporated with the secretary of state, with stock at $1,050 in 105 shares. The directors are James S. P. Bowler, president; James L. Bunker, vice president; Zera P. Terry, secretary and treasurer; Josiah Leavitt and Jeremiah Leavitt.

* * *

O. K. Block & Co. sold to L. R. Rogers yesterday, part of a lot at the corner of Third East and Sixth South streets for $5,000.

* * *

S. M. Covey has sold to William H Chipman, part of a lot at Sixth East and Third South streets for $5,500.

* * *

Building permits have been issued during the week as follows:

James Bradford, 288 F street, frame alterations	100
George Channel, Fourth East between Fifth and Sixth South, frame cottage	100
W. W. Taylor, 817 East First South, brick addition	500
William Wiederhold, Iola avenue, brick cottage	500
George Butcher, Third East, between Eighth and Ninth South, frame cottage	300
Richard Lampel, 836 West Third North, brick addition	300
James Buckley, Foster avenue, brick cottage	800
F. S. Dickson, corner Seventh East and Second South, frame stable	150
	$3,350

WATER QUESTION.

Chairman of Sub-Committees Discuss It at Commercial Club.

There was an interesting session last night at the Commercial club of the chairmen of the subcommittees of the various phases of the water question. The conference showed satisfactory progress, and the committees were given two weeks further time in which to complete their work. Colonel Holmes presented some facts and figures he had secured relative to water works while at Denver and Colorado Springs. He reported that the Denver waterworks was a private corporation with millions of capital, and $30 is the price per year for the same water privileges for which Salt Lake residents pay $7.50. The average amount furnished is greater than in this city, 300 gallons per capita, being increased 50 gallons in summer, with eight hours daily for lawn irrigation, which was cut down this season to two hours.

There is a new storage reservoir at Cheeseman lake, 36 miles from the city, with a dam 296 feet high, which holds 35,000,000,000 gallons of water, a three years' supply for the city for a population of 125,000. It is claimed the system will supply a city of 600,000 people. Last year the city consumed 12,000,000,000 gallons. The city pays $35 for each hydrant and 5 cents per pupil in the public schools. Water for the city buildings, street sprinkling and flushing the sewers is furnished free. The dam and reservoir were completed the present year at a cost of $1,000,000.

Colorado Springs, with 32,000 people, has a water system of mountain lakes and reservoirs of a capacity of 1,000,000,000 gallons. Their system has cost the city about $2,500,000, and the bonded debt for the system is $1,250,000. Their consumption per capita is about 300 gallons per day, and the rate for a five-roomed house is $15 per year. Denver is just double this amount, and Salt Lake pays half the amount. In addition to the present plant, they are contemplating bringing water from another stream on the other side of the mountain through which they will tunnel at a large cost, as they have done in connecting their other system.

MANASSA, COLORADO.

IRRIGATING PROJECTS.

Promising Canal and Reservoir Propositions — Crop Shortage.

Elder Silas S. Smith Jr., of Manassa, Conejos Co., Col., called on the "News" and reports the colonists in Colorado as in a fairly prosperous condition, considering the drouth, which reduced the crops down about one half. Steps are being taken, however, to secure reservoir sites in the mountains west of the colonies, that when secured will furnish ample water to irrigate all the colony lands and thus insure abundant crops for the future. The proposition will involve an outlay of nearly a quarter of a million dollars, involving a tax of about $5 for each acre benefited by the water it will furnish. About 50 per cent of this will be in cash, the balance of the outlay for the reservoirs and the canals leading to and from the same can be paid in work by the shareholders. Filings have already been made for both the water and sites, in the land office, and the land secured.

A company of Denver capitalists has been organized and are making preparations to bore for oil in the fields west of Manassa, where there is very promising indications of oil in paying quantities.

All the auxiliary organizations of the Church are in a live and prosperous condition.

PERSONAL

J. H. Hamilton is laid up for a few days with a back sprained by a fall. Mrs. Hamilton has been called to Plattsmouth, Neb., by serious illness of her mother.

Revenue Inspector G. H. Wheelock has gone east.

J. Tracy Smith and his mother, Mrs. H. M. Smith, have removed to Seattle, where they will make their home.

H. S. Hall, representative of the Van Dorn Iron Works of Cleveland, was called east yesterday, but will return in two or three weeks.

P. D. Vore, a mining man from Haley, Ida., came down from the north yesterday. He reports that there never was a time in the history of that camp when so much work was going on, or the amount of ore coming out.

Z. M. Gosset of Marion, Ind., is in the city from the east. Mr. Gossett is somewhat interested in Utah, being a stockholder in some of our bonanzas, to examine which is the object of the present visit.

C. L. Goff, acompanied by his wife, is in the city from Fort Logan, Colorado. They are stopping at the Kenyon, and are renewing their acquaintance with some of their old time friends in the city.

LARGE DEALINGS IN B. & O. STOCKS

Over Seven Thousand Shares Changed Hands.

MARKET WAS IRREGULAR.

Prices Dropped Until Bank Statement Appeared When Declining Tendency Was Checked, Buying Began.

New York Oct. 18.—Large dealings were resumed in B. & O. at the opening, 7,000 shares being traded in at from 110¼ to 110½, compared with 109⅞ yesterday's closing. The general market was slightly irregular. Realizing sales occurred steadily in the general list until covering and the rise in B. & O. There were a few isolated points of strength, including Colorado & Southern second preferred and Great Northern preferred. The large amount dispersed by the sub-treasury for government bonds turned in yesterday caused general satisfaction, but there was some disposition to await the publication of today's bank statement and attitude of the banks toward speculative borrowers. Prices continued to drop until the publication of the bank statement which showed a reduction in loans of over $9,000,000, and again in cash of nearly $2,000,000, whereas a slight loss had been generally expected. This showing checked the declining tendency and a heavy buying movement developed all around. In the final dealings prices again broke sharply under the lead of B. & O., which lost its entire gain. The closing was weak.

BANK STATEMENT.

New Work, Oct. 18.—The statement of the associated banks for the week ending today shows:

Loans	$865,450,800
Decrease	9,197,100
Deposits	863,125,800
Decrease	9,214,800
Circulation	37,564,100
Increase	1,735,600
Legal tenders	67,277,700
Increase	3,400
Specie	154,112,000
Increase	1,773,800
Reserve	221,389,700
Increase	1,777,200
Reserve required	215,781,450
Decrease	2,303,700
Surplus	5,608,250
Increase	4,080,900
U. S. deposits	15,632,225
Increase	3,912,550

Bank Clearings.

Bank clearings throughout the United States and Canada for the week ending Friday, Oct. 17, 1902, were:

		Inc.	Dec.
Salt Lake City	$ 3,932,756	4.0	....
Totals, U. S.	2,561,467,658	19.3	....
Outside N. Y.	859,173,321	7.5	....
Totals, Canada	49,650,662	....	28.3

MONEY AND BONDS.

Money on call steady all transactions at 6 per cent. Prime mercantile paper 6 per cent.

Sterling exchange steady with actual business in bankers' bills at 4.85.75@4.86 for demand and at 4.82.75@4.83 for 60 days. Posted rates, 4.83½@4.86½. Commercial bills, 4.82@4.82.50.

Bar silver, 50¾.

Mexican dollars, 40.

Government bonds, steady. Refunding 2s reg., 109¾; do coupon, 109¾; 3s reg., 107¾; do coupon, 108½; new 4s reg., 136¾; do coupon, 137¾; old 4s reg., 111; do coupon, 111; 5s reg., 104¼; do coupon, 105½.

GEORGE H. NAYIOR,
Sheriff of the County of Salt Lake, Utah.
By John B. Cummock, Deputy Sheriff.
Booth, Lee & Ritchie, Attorneys for Plaintiff.

THE INDUSTRIAL ROAD IS CLEAR.

Settlement of Coal Strike Removes Only Serious Handicap.

WHEELS WERE SLOWING UP

Now They Will Revolve With Accustomed Speed—Transportation The Worst Feature.

New York, Oct. 17.—R. G. Dun & Co.'s Weekly Review of Trade tomorrow will say: "The settlement of the coal strike removes the only serious handicap to industrial progress. Five months of restricted fuel production had begun to check the wheels at many manufacturing centers, where there was a perceptible diminution in consumptive demands as the purchasing power of the wage-earners steadily decreased. Savings had been exhausted, and much money has gone out of the country because of this strike, but the nation's remarkably strong position assures a speedy restoration of prosperous conditions.

"Transportation is now the worst feature, and threatens to continue disturbing. While the grain crops are being moved the supply of rolling stock and motive power will prove insufficient, although every effort is made at the shops, liberal premiums being offered for early delivery. That the railways are well occupied is evidenced by earnings for the first week of October, 3.5 per cent larger than last year and 10.9 per cent above 1900.

"Inadequate supplies of fuel caused further banking of furnaces, but the effect of a decreased output of domestic pig iron has been partially neutralized by larger arrivals from abroad.

"Footwear shops are actively engaged, many producers having added to their long list of orders, and while practically all the New England manufacturers are assured full time up to the end of the year, they are also taking orders for deliveries in March. Prices are easily maintained. Leather is slightly weaker, owing to the sharp fall in hides.

"Failures for the week numbered 206 in the United States, against 229 last year, and 24 in Canada, compared with 31 last year."
