MINING, BUSINESS AND STOCKS

STATELINE IS FORGING AHEAD.

The Significance of Late Developments in the Hidden Treasure Property.

WORK ON THE SIDEWINDER.

Activity on Rice Mountain—At the Big Fourteen—Doings in Indian Peak District.

C. E. Peak, the well known Stateline mining operator, who is in the city on a brief business trip, stated to a "News" representative during the day that the southern camp has not looked so prosperous in a number of years as it does at the present time.

In fact, it is taking on the appearance of an active camp again, and Mr. Peak says some quiet important developments have been made there lately; that everything points towards still greater developments during the present year.

On the Hidden Treasure property, owned by J. B. Smithson and associates, a four-foot body of gold and silver ore, the gold predominating, has been opened that will average all of $12 to the ton. The vein encountered is believed to be an extension of the one in the Johnny mine from which Will J. Dooly took out a good many thousand dollars when he was in charge of the management. The significance of the Hidden Treasure strike lies in the fact it has exploded the theories maintained in the past that the gold ore bodies do not exist on the west side of the huge porphyry dyke cutting the camp. The Hidden Treasure developments have proven, in the opinion of Mr. Peak, that the mineralized area of Stateline is vastly greater than many had been led to suppose.

In the Sidewinder, which property is being operated by Mr. Peak, the developments of the past 60 days have been of a most encouraging nature. Along one of the walls, is a streak of ore that will assay all of $100 to the ton, and in the vein is 14 inches of clean ore that averages $22.

Over on Rice mountain there is a good deal of activity in evidence at the present time. A few days ago, John Erickson began development work again and is driving for the Sunflower ledge in the Leland property. The owners of the Sunflower, or Big Fourteen group, are also getting busy and will soon be making shipments to the Salt Lake smelters. The Big Fourteen is located on the west margin of Rice mountain and is owned by Cedar City people. Some ore has been taken out that carries silver values to the amount of 1,00 ounces.

In the Indian Peak district, about 30 miles north of Stateline, there is quite a little activity in evidence, and the owners of the Monte Carlo group are getting some very encouraging results. Mr. Peak saw some of the ore a few days before he came to Salt Lake and says it carries surprising values. He believes the property is going to make a good one. The Blue Jay Extension, near the Monte Carlo, has been closed for some time, but work was scheduled to be resumed there again today.

While he is in the city, Mr. Peak will arrange for the incorporation of the Free Coinage, Standard and Golden Crown claims, under the name of the Standard Mining company. An 80-foot vein has been opened, which shows average surface values of $320 per ton.

NEVADA MINE BONDED.

Clifford Properties Taken in by Pittsburg Parties for $200,000.

D. F. McCarthy, the well known mining man, returned from Clifford Thursday night, says the Goldfield Bonanza, with an option on all of the holdings of Edward Clifford and sons at Clifford, snugly tucked away in his vest pocket. The consideration was $200,000. Mr. McCarthy was acting in the interest of Pittsburg parties nad left this morning for that city. He will be gone about three weeks. The Cliffords have been indifferent about selling, but finally consented to accept the offer made by M. McCarty and associates.

UTAH CON. EARNINGS.

A Boston authoity states that Utah Consolidated earned $2,000,000 net for the year ended Dec. 31, or $6.75 per share. This is against $3.88 per share the previous year. With the present basis on mining operations, officials of the company believe that semi-annual dividends of $2.50 per share can be maintained for several years, independent of metal fluctuations.

IN HUNTINGTON CANYON.

Don C. Robbins Looking After Coal Lands in that Region.

Mr. Don C. Robbins of Salt Lake City was in Castledale yesterday on a business errand, says the Emery County Progress. Asking concerning his application for patents to coal land in Huntington canyon, through his attorney, E. W. Senior, he stated that there was no deal pending with any large syndicate for the sale of the land, but he had secured the necessary means to patent 5,000 acres now and more later, of coal land in that section.

"While I am not certain that such will be the case, still I am of the opinion that the Castle Valley railroad (or Salina cunt-off) will be completed this year, and as it will run within the 15 mile limit of the Huntington coal land, we will effect a saving of $10 per acre by patenting our coal land now. If the Clark or Union Pacific people are to build a coal road into Huntington canyon, the information has not reached my ears from any reliable source. I am shipping three carloads of coal to the Honorine mill at Stockton, where it will be tested for its coking and other commercial qualities. Tests of the coal have heretofore been made, which prove it to be as fine a body of coal as there is in Utah."

The coal property Mr. Robbins is interested in is being put in good shape for future development. We learn from other sources that in the past few months he has distributed about $5,000 in cash for coal land options, labor, etc. among the people of Huntington. Mr. Robbins has spent the best years of his life to the promotion of enterprises in Emery countyfi and he has hundreds of friends here and throughout Utah who earnestly hope that success wil crown his efforts.

ON MINING EXCHANGE.

Daly-Judge Continued Firm—While New York Weakened.

On the floor of the Salt Lake Stock & Mining exchange this morning, a total of 18,628 shares were transferred for which was paid the sum of $14,676.

Daly-Judge continued in stiff demand with only a few lots selling, the last one gong at $11.10. Little Bell improved some while Lower Mammoth softened, as did New York, the latter dropping to 18⅝ cents.

May Day displayed considerable activity, selling up to 15 cents.

The closing quotatons and sales were as follows:

THE HONERINE STRIKE.

Ore Body Recently Encountered Is Opening Up Big.

Secy. Charles O. Ellingwood of the Western Exploration company stated today that the recent strike made in the Honerine tunnel at Stockton is proving to be of considerable more importance than it was first supposed. The ore body is opening out bigger and better than Supt. Raddatz anticipated it would. The strike is one of the best ever made in the mine.

STRIKE IS SIGNIFICANT.

E. O. Black, secretary of the Ohio Lead Mining and Smelting company, owner of the Latham mine in the Spruce mountain, Nevada, district, is in the city on his way to the mines. He says the recent copper strike is proving to be very significant.

FRIDAY AND SATURDAY, FEB. 2 AND 3.

Curtain Prices Reduced One Fourth at Z. C. M. I. All new goods.

PARK MERGER WILL BE MADE.

Presence of Prominent Mining Men on the Coast Looks Significant.

WHAT A MINING MAN SAYS.

Consolidation Would be a Good Thing For the Summit County Camp.

The belief is gaining ground in mining circles that the chances for a consolidation of the Ontario, Daly, Daly-West and possibly some other Park City producers, is daily growing brighter.

"I do not believe," said a well known mining man today, "that President J. E. Bamberger and Director W. S. McCornick are spending so much time out on the coast for nothing. Large interests in both the Ontario and Daly are held in San Francisco. They are old corporations; and it takes a whole lot of time to work out the details for a transaction which involves so many millions of dollars as this one would. It may take several months to bring about a consummation of this deal, but I feel confident that a merger of the properties mentioned will be the ultimate result of the conferences being held between Messrs. Bamberger and McCornick and the several interests involved.

"The presence of Bamberger, McCornick and John J. Daly, the latter at the head of the Daly-Judge Mining company certainly looks ominous. Something is doing to drop undoubtedly and the consolidation would be a good thing for the camp.

WILL REBUILT PLANT.

Senator W. A. Clark stated in Washington yesterday that his loss in the Butte Reduction works fire will aggregate about $300,000. The senator also announced that the plant will be rebuilt immediately upon a much greater scale and equipped with the most modern concentrating machinery that money can buy. The new building will be constructed of steel and will be fire proof. During the progress of the building the Washoe reduction works in Anaconda will handle his ores for concentration so that the reduction of ores will not be seriously interrupted.

CONCENTRATES.

James W. Neill expects to leave tonight for Butte.

Supt. Day of the Yampa smelter at Bingham is in the city today.

Col. Treweek returned last night from a trip to the Wabash mine at Park City.

O. F. Page of the Western Mining company has gone to Nevada on mining business.

Broker J. B. Thompson has returned from a trip to San Francisco and Los Angeles.

W. B. Jeffs, one of the directors of the Columbus Consolidated Mining company, and wife, have arrived from Michigan.

Manager Tony Jacobson and Director Wm. B. Jeffs of the Columbus Consolidated mine are visitors to that Alta property today.

R. T. White, consulting engineer of the Balaklalla Copper company, departed yesterday afternoon for Kenrett, California.

Walter G. Filer departed this afternoon for Sharon, Pa., in response to a message conveying the sad intelligence of the death of his father.

Willard F. Snyder, who was called home on account of the death of his wife, is expected to reach the city this afternoon on the Los Angeles limited.

The ore and bullion settlements reported late yesterday were as follows: Crude ore and concentrates, $37,400; base bullion, $42,600; gold bullion, $8,000.

M. M. Johnson of the Newhouse staff departed last night for Boundary, B. C., to measure up progress at the Dominion Copper company's properties since his last visit there.

Hon. William E. Beach, former state treasurer of Indiana, and one of the directors of the Black Diamond Mining company, operating at Stockton, is expected to reach the city from the east today.

Vasso Dockelstich, the well known Delamar, Nevada, mining man, is in the city on a brief business trip. He came up for the purpose of closing up a deal for the sale of the Sunbeam property in that camp to eastern parties. The consideration named in the transaction was $25,000.

The North Butte has been adding to its holdings to such an extent since its organization that it is probable not many have followed its growth. For this reason the following complete list of the claims now owned by the company is printed: Berlin, Croesus, Edith May, Emily, Eva, Ground Hog, Gustavus, Hancock, Ironback, Jessie, John Emmit, Leaf, Lynchburg, Margaretha, Miners' Union, Millview, Snowball and Speculator.

It is stated in Boston that the Coram proposition, known as the American Consolidated Copper company, will make its first official announcement about Feb. 7. It has the common stock for its first unit underwritten by American and European interests at $30 per share. Public offering will be at $100 a share. The Marcus Daly and Davis mines of Butte including the Montana Coal and Coke company, will constitute the first unit.

The General Engineering company, which was recently incorporated in this city with James M. Callow as president, James W. Neill, vice president, Frank E. Johnson, secretary and treasurer, who, with George M. Bacon and Frank P. Callow are directors, commenced breaking ground today for a new laboratory building on Pierpont street. Secy. Johnson said today that it is the intention to build one of the best equipped plants for metallurgical and testing works to be found anywhere in the west.

The Colorado Fuel & Iron company is arranging to haul out a big lot of manganese from its deposits south of the Little Grande and from statements made by the representative of the company a few days ago there will be employment for a considerable number of men and teams. There has been much activity among the manganese claim owners recently. The indications are that somebody is looking for the mineral, and the peculiar methods employed in negotiations would indicate that the C. F. & I. company, or some other corporation, is at the bottom of the agitation.—Emery County Progress.

LOCAL MARKETS.

This week's markets are being well supplied with oranges, for no less than seven cars, 445,900 oranges, are the week's receipts, four cars being consigned to one west side jobbing house alone. The latter consignment is all Newhall sweets. A car of bananas is also among the arrivals, and the demand is now being well supplied with these. A car of cabbages will be in from the coast tomorrow, and other sizeable consignments of assorted vegetables from west of the Sierras are being regularly received. A car of Utah canned goods, including pears, peaches, plums, apples, etc., was received today, and in general, the markets are so lively this week, that one large jobbing house has had to materially increase its help.

Two cars of Utah potatoes are on hand today, but poultry is scarce, so that eastern poultry is becoming quite plentiful here. But a few turkeys are left, and they are slow of sale. Eggs are getting to be plentiful, with prices tending downward, and eastern commission men are trying to run in here lots of more or less stale eggs which they can not get rid of. However, the Salt Lake dealers are aware of this, and are ordering with discrimination. Fish are not over plentiful, but there is a good supply of fine sturgeon on the market. The scarcity of hay has sent prices up, and the long drawn out winter is not helping lower them any. The prices obtaining in the local markets today, are as follows:

RETAIL.

Timothy, per cwt	.90
Alfalfa	.75
Corn, per cwt	1.35
Corn, cracked, per cwt	1.40

WESTERN MARKET LETTER.

Special Correspondence.

Stock Yards, Kansas City, Mo., Jan. 29.—The cattle supply last week was 44,000 head, against 53,000 the previous week. Stockers and feeders advanced 15 to 25 cents Monday and Tuesday, but lost part of their gain by the end of the week, but corn fed steers lacked snap, closing 10 to 15 lower. The run today is 12,000 head, market steady to strong, with cowstuff and stockers and feeders showing most strength. Feeders particularly are in strong request, some hay fed steers from Gunnison, Colorado, 1,027 pounds, selling today at $4.30, and stockers in the same shipment at $4.35. Two trains of Oregon hay fed steers sold last Thursday to feeder buyers at $3.75to $4.40, the latter high grade Herefords, weighing 979 pounds. A few rough cattle sold to killers at $3.65 out of this shipment. Cow market has not been tested on hay fed stuff for ten days, when some sold at $3.00 to $3.55, heifers at $3.85; Meal fed steers are selling at $4.00 to $4.50, cows $3.00 to $3.60; bulls $3.00 to $3.35 and veal calves bring $6.00 to $7.00.

The mutton trade is not nearly as satisfactory as it was about two weeks ago. There was a small revival last Monday and Tuesday, but the advance was lost by the end of the week, and the situation today is again unpromising, supply liberal at all points, 12,000 here, market steady to 15 cents lower, while Chicago reports a decline today of 15 to 25 cents. Demand has fallen off in the east, while the heavy marketing was not counted on to hold on so long. Very good lambs are selling today at $6.85 to $7.10, yearlings $6.00 to $6.10, wethers $5.50 to $5.75, ewes $5.00 to $5.30. Orders are held here for partly finished ewes and lambs to go to the country, at $4.25 to $4.75 for ewes, lambs $6.25 to $6.50, and a few are being secured. A greater percentage of the stuff goes direct to packers than heretofore, however, as it is showing the result on longer feed as the season advances.

GAINS THE RULE AT THE OPENING.

There Was Also a Rather Moderate Sprinkling of Losses As Well.

TOO MUCH STOCK OFFERED.

Market Generally Fell Away in Face Of Marking up St. Paul and Reading.

New York, Feb. 1.—Gains were the rule in the opening of the exchange, but there was a moderate sprinkling of losses. Great Northern preferred made a jump of 3¾. Lead opened at an advance of 4½ and Amalgamated Copper, New York Central and National Biscuit were up large fractions. Anaconda sold at a decline of 5 and Smelting and Locomotive weer down about a point. More stock was offered than there was any demand for at the opening prices and the market gradually fell away in the face of marking up of St. Paul and Reading. The latter stock under met a series of of wide fluctuations with the extremes of 140 and 141¾. Persistent selling of Amalgamated Copper and Union Pacific contributed to a yielding elsewhere and the market fell off pretty sharply. Overnight losses reached 2½ in Colorado Fuel preferred and 1 to 1¼ in Reading, New York Central, Amalgamated Copper, Union Pacific, the Metropolitan stocks, Pacific Mail and 2 in Locomotive. Influential buying of St. Paul was resumed at 11 o'clock, advancing 1½ to 2. The general market became firmer in sympathy. Minneapolis, St. Paul and Soo Ste Marie, Chicago Terminal, Smelting preferred and International Pump improved 1 to 1¼. Feverish and irregular fuctuations in a few stocks unsettled speculative sentiment and there was less activity. Missouri Pacific broke suddenly 2¼ with a sudden recovery.

Congested buying operations in a few stocks, notably those which have been associated with combination rumors caused a rapid rise in the prices after midday. The specialties were the chief features, none of the railroads outside of Reading receiving any marked attention. Reading's extreme rise reached 3⅜. Lead got up 5½, Colorado Fuel 3⅜, Smelting 2¾, D. & H. 1½, Amalgamated Copper 1¼ and Linseed 1. New York, Chicago & St. Louis second preferred dropped 4½.

Strength continued to develop in spots from time to time, first the industrials anw then the railroads occupying the traders attention mostly. Union Pacific rose 1⅜ to 156⅞ and revived the demand for standard stocks which had been languishing. Amalgamated Copper lost a point and turned prices downward before 2 o'clock.

LIVE STOCK.

CHICAGO.

Chicago, Feb. 1.—Cattle—Receipts, 7,500; market steady. Beeves, 3.85@6.25; cows and heifers, 1.40@4.75; stockers and feeders, 2.60@4.50; Texans, 3.65@4.40.

Hogs—Receipts, 30,000; market steady; estimated tomorrow, 28,000. Mixed and butchers, 5.40@5.50; good heavy, 5.55@5.70; rough heavy, 5.40@5.50; lights, 5.40@5.60; pigs, 4.90@5.40; bulk of sales, 5.55@6.05.

Sheep—Receipts, 15,000; market steady. Sheep, 3.50@5.65; lambs, 5.40@7.50.

OMAHA.

Hogs—Receipts, 9,000; market steady to 5 cents lower. Bulk, 5.35@5.52½; heavy, 5.50@5.57½; packers, 5.45@5.52½; pigs and lights, 5.25@5.50.

WOOL.

ST. LOUIS.

St. Louis, Feb. 1.—Wool, steady. Territory and western mediums, 20@30; fine medium, 22@26; fine, 19@21.

PRODUCE.

CHICAGO.

Chicago, Feb. 1.—An official prediction of a cold wave over the wheat growing sections of the U. S. steadied the wheat market today. There was a fairly active demand by shorts and commission houses but offerings were rather light. May opened ⅛ lower to ⅛@¼ higher, at 84¼ to 84½@84⅝, sold up to 84⅝@84¾, and held steady around 84½.

Minneapolis, Duluth and Chicago reported receipts of 243 cars against 230 a year ago.

Small local receipts of corn caused considerable buying in the pit and resulted in a firm tone. Cables were easier. May opened unchanged to a shade higher at 44⅛ to 44⅛@44¼ and sold up to 43¾.

Sentiment in the oats pit was a trifle firmer. May opened a shade lower to a shade higher at 30⅜ to 30½ and during the early part of the day held within these figures.

The feature of trading in provisions was free selling of pork by brokers. The tone of the market was easier. May pork opened 5 cents lower at 14.00 and sold off to 13.90@13.92½. Lard was unchanged at 7.55, and ribs were a shade lower at 7.55.

Cash: Wheat—No. 2 red, 85¾@87¾; No. 3 red, 85@86; No. 2 hard, 81@84; No. 1 northern, 83¾@86; No. 2 northern, 83@85; No. 3 spring, 85.

Corn—No. 2, 41½; No. 3, 41¼.

Oats—No. 2, 30¼@30¼; No. 3, 30.

May touched 84¾@84⅞ and closed firm, up ¼ at 84⅝.

Corn—The close was firm with May up ¼ at ⅜.

Close: Wheat—May, 84⅝; July, 83½.

Corn—May, 44⅝; July, 44⅝@44½.

Oats—May, 30½@30⅝; July, 29⅝.

Pork—May, 14.10@14.12½; July, 14.20@14.22½.

Lard—May, 7.62½; July, 7.72½.

Ribs—May, 7.66; July, 7.75.

Rye—Cash, 67.

Flax—Cash, northwest, 1.16.

Timothy—March, 3.45.

Clover—Cash, 13.25.

Barley—Cash, 39@54.

NEW YORK.

New York, Feb. 1.—Sugar, raw, quiet. Fair refining, 3; centrifugal, .96 test, 3½; molasses sugar, 2¾.

Refined—Steady. Crushed, 5.40; powdered, 4.80; granulated, 4.70.

Coffee—Steady. No. 7 Rio, 8 7-16.

LIVERPOOL GRAIN.

Liverpool, Feb. 1.—Close: Wheat—March, 6s, 10⅝d; May, 6s, 8⅝d; July, 6s, 8½d.

Weather, cloudy and threatening.

SUGAR STOCKS AND SUGAR BROKERS.

The business of the sugar broker should be to bring the man who wishes to sell into business relations with the man who wants to buy. This is our business. If you have sugar stock to sell and ask the market price we can sell it for you. If you want to buy sugar or other commercial stocks and are willing to pay the market price, we can buy for you at the lowest price at which the stock is obtainable. Call and see us at our new office.
