MINING, BUSINESS AND STOCKS

SURPLUS COPPER IS NOW MOVING

Activity Developed Yesterday Fairly Swamped the Metal Selling Agencies.

THIRTY MILLION POUNDS.

One-Third of This Amount Goes to China—Shortage Due Early Next Year.

(Pollock Special Wire.)

Boston, Oct. 30.—The News Bureau says: The great activity of the copper market which swamped the selling agencies with orders on Friday, continued unabated yesterday and sales in this city amounted to more than 30,000,000 pounds of copper. So great was the demand that Phelps, Dodge & Co. raised the price from 13 cents, the quotation at the opening morning hours on successive advances of ¼ of a point until at the close of the day sales were made at a fraction over 14 cents. Friday, the price was 12¾ cents. Of the 30,000,000 pounds sold yesterday, about a third consisted of a sale made by one firm to go to China. Of the rest a small part was for export to Europe and the rest for domestic use. The strength in New York is largely an outcome of the active speculation bull market in London.

Consumers here are also beginning to see that, in the early months of 1908, they will feel strongly the decrease in output that has been ordered in the copper mines. This shutting down of work will leave very little output of the metal to the credit of the month of November and by next January when the output of November would have come on the market. Consumers will probably find that the supply is considerably below the demand. Exports of copper yesterday were 3,033 tons, making the total so far this month 24,415 tons.

ON MINING EXCHANGE.

Colorado Sold Down to $2.90, But Afterwards Recovered.

Some of the Tintic stocks shrunk in value as the forenoon calls of the mining exchange progressed, while others made slight gains. But those classed among the latter were few. Colorado sold as low as $2.90 and made its way back to $3.05, at which figure the closing sale was registered. Beck Tunnel fell to 65 cents and ended with a slight recovery. Uncle Sam Con. held its own remarkably well.

Ohio Copper displayed a tendency to advance on the open board, but no sales were reported. Standard Copper sold at 27 cents. The closing quotations and sales were:

MAY CONSOLIDATE

Proposition to Merge Yankee Con. and Mountain View Mines.

It is reported that an effort will shortly be made to bring about a consolidation of the properties in the Tintic district controlled by John E. DuBois, of DuBois, Pa. This list includes the Yankee Consolidated and Mountainview mines. The Mountainview company owns the Lakeview and Contact mining claims, situated contiguous to the domains of the YankeeConsolidated. A letter will be issued to shareholders of both concerns bearing on the subject.

SKIES ARE CLEARING.

Each Day Brings Improvement in Copper Situation.

A private message received from New York today by a well known copper producer presages an early and rapid improvement in the copper market situation. The sender stated that the copper surplus is moving at a lively rate, and that the sales of last week has probably cleaned up 50 per cent of the accumulation of metal in the hands of selling agencies. It was also stated that judging from the way sales have been made during the past two days it will reach 75 per cent by the end of the present week.

BUTTE MINERS' UNION ACCEPTS REDUCTION.

Butte, Mont., Oct. 30.—By an overwhelming vote, the Butte Miners' union last night accepted the reduction of wages from $4 to $3.50 announced by the Amalgamated Copper company, in accordance with the contract entered into between the company and the union, that the scale should be $3.50 when copper is below 18 cents and $4 when it is above.

POWER AT THE LUDWIG.

Manager Orem Left for Yerington This Afternoon—Shaft to Go Deeper.

New York, Oct. 30.—Opening prices of stocks showed sharp declines throughout the list, many of the prominent active stocks falling as much as a point and Canadian Pacific 2¾ and Reading, Great Northern pfd., 1¾.

The 1 point declines included the Harriman stocks, Northern Pacific, Great Northern Ore certificates, Atchison, Pennsylvania, Toledo, St. Louis & Western preferred, American Smelting. The selling orders were not on a large scale, but the buying demand was insufficient to absorb them except at the concessions.

An interval of dullness was without sustaining effect on prices, and the declines was resumed. The general western group and the eastern trunk lines stocks were the weak features. Canadian Pacific lost 4½, Louisville & Nashville, 4, Union Bag preferred and Southern Railway preferred 3, National Biscuit 2⅝, Reading and Manhattan 2½, Northern Pacific, People's Gas and Southern Pacific 2, National Lead, Great Northern Ore certificates and International Mercantile preferred 1⅞, Baltimore & Ohio, New York Central and St. Paul, 1¾, and Atchison, American Smelting and Amalgamated Copper 1½.

There was further forced liquidation, after which prices rallied. The declines extended in Des Moines and Fort Dodge to 7¾; Mackay companies, 5¼; United States Rubber, first preferred, 4¾; Pittsburg, C. C. C. & St. Louis, 4; Northwestern, St. Paul preferred, Manhattan, American Telephone and New York Airbrake, 3 to 3¾; Canadian Pacific rallied 2½, Louisville & Nashville, 2; Union Pacific, 1½, and St. Paul, New York Central, Pennsylvania, Reading, Northern Pacific and American Smelting 1. Corn products preferred rose 4¾.

Bonds were weak.

Union Pacific and Northern Pacific recovered all their declines while Southern Pacific and Great Northern preferred sold lower than in the morning. The general undertone was firm, despite evidences of liquidation in isolated stocks. Chicago, Great Western dropped 14 points, American Telephone and Telegraph 8, and Distillers Securities, 2. American Car improved 4 and Central Leather preferred and Tennessee Copper, 1.

IS A DEAD ONE.

Greenwater, California District, Fails To Make Good.

The latest advices from Greenwater, Cal., state that the population of the town has dwindled to a few and little excitement remains. Work has not been suspended entirely, but there has been a curtailment of development and there is only a fraction of the number of men employed there was one year ago. It is said a fair grade of ore has been encountered in the Schwab properties, particularly in shaft No. 3 of the Greenwater & Death Valley. The Furnace Creek is developing, with but a few men. It is claimed that stagnation in the district is temporary.

Jerry O'Rourke, superintendent of the Schwab interests in Greenwater, has taken over the Teeopa mining property near Zabriske, on the line of the Tonopah & Tidewater railroad.

One of the first engineers to examine the Greenwater district was M. M. Johnson of the Newhouse staff, who turned it down. After this, the Schwab engineers reported favorably, and judging from late statements of the steel king, he was grossly misled by them.

GOLDFIELD CONSOLIDATED.

Directors Posted a Big Monthly Dividend Yesterday.

The directors of the Goldfield Consolidated Mining company at a meeting held yesterday declared the second monthly dividend of 10 cents a share, amounting to $350,000, payable on [illegible] to all shareholders of record on the 15th of that month.

The announcement had been made that the company would pay quarterly dividends of 25 cents, but the public did not take kindly to the change and the impression was created that the company could not meet a regular monthly distribution of so large a sum.

"We have a large surplus," said Senator Nixon, president of the company, "and will continue regular monthly distributions. We are arranging for increased mill capacity by leasing other plants, and will convert as must as possible of our product into gold bullion."

The announcement that a monthly dividend would be paid had an instantaneous effect on the market, the price advancing 45 cents.

WILL REDUCE WAGES.

Old Scale to Be Put in Force After November 1.

Butte, Oct. 30.—The Miners' union and the Smeltermen's union have received notices from the Amalgamated Copper and other mining companies that the old scale of wages, in force before the agreement on the sliding scale was made, will be restored on Nov. 1, in compliance with the contracts entered into by the companies and the labor unions of Butte and the notices have been posted in the halls of the organizations. A meeting of the Miners' union was held tonight and the matter referred to a committee. The union issued a statement some time ago to the effect that it will abide by the contract made with the mines. The reduction will be from $4 a day to $3.50 the scale before the raise. The mines might have reduced the wages to the old scale a month ago, copper then below 18 cents, but the companies preferred to leave the wages untouched until it would be evident that copper would stay below 18 cents for a while.

The reduction to the lower scale will apply to all men at the mines, except machinists, who have been on strike for months, and whose organization never signed the contract for a sliding scale. About 7,000 men are involved.

The properties of the Greene-Cananea company in Mexico have been closed. It cost this company about 14 cents a pound to produce its copper last year.

OGDEN BANKS RECONSIDER.

(Special to the "News.")

Ogden, Oct. 30.—Presidents and special representatives of the banks of Ogden held a special meeting this morning for the purpose of considering the present financial condition. Their action of last evening in deciding it was not necessary to take up the clearing certificate plan was reconsidered. They decided to pay to no person either from savings or other funds in any banks a greater amount than $50 per day, regardless of the amount of money to that person's credit. It was also decided to form a banking association at Ogden of which all of the banks will become members. Bylaws for this have been submitted and are now being considered.

HAWAII'S SUGAR CROP.

Honolulu, Oct. 29.—Hawaii's sugar crop for 1907 is the largest in the history of the islands. It amounts to 420,000 tons. Net year's crop promises to reach 575,000 tons. This large increase is due to the extension of acreage and irrigation.

HARVARD SENDS BRITISHER.

New York, Oct. 30.—Special dispatches say that some comment has been raised in the American colony in Berlin by the fact that Harvard university has sent as this year's "exchange professor" a Britisher, instead of an American. The professor in question is William Henry Schofield, who was born a Canadian and is a subject of King Edward.

It is heard in American quarters, it is stated, that Harvard by its action, has mixed up the plans of the kaiser for a German-American educational experiment.

WESTERN GROUP FEATURE.

After Enforced Liquidation a Slight Rally—Number of Improvements Noted.

A net profit of $25,000 since July 1 is the record that the Nevada Douglas Copper company has made in its ore shipments. Considering that the management has not stoped a ton of ore during all this period, but has taken only that encountered during the progress of development, the showing is one which very few other copper producers can equal. From Manager Walter C. Orem it was learned today that the lowest average of any one lot was 10.75 and the highest 17.38 per cent copper.

Just before leaving for Yerington this afternoon Mr. Orem stated that plans had been outlined for a more vigorous campaign than ever in the Ludwig section of the property. The pipe line from the compressor located near the entrance to the main tunnel to the Ludwig has been finished and by the time he arrives in camp expects to see the machine drills pounding away. The water level at the Ludwig is the 650 level and heretofore all work has been done above that point. A sinking pump is to be installed right away and this shaft continued on to the 850, or 200 feet deeper than it is now. Everything is in shape, Mr. Orem says, for much more expeditious work at the Nevada Douglas and from this time on he expects to see things count much more rapidly than has been possible heretofore.

The east drift from the main tunnel continues to show up interestingly as development progresses and according to the report of Supt. Arentz which was received at the offices of the company this morning, the daily average assays for the past week were: 11.5; 5.5; 4.8; 3.8; 1.8; 5 and 9 per cent copper, respectively.

A car of ore was sold in today's market on the basis of 16.20 per cent copper; .2 of an ounce of silver and 20 per cent iron.

A. J. Orem at the head of the firm of A. J. Orem & Sons, with headquarters in Boston arrived in the city this morning aid left with Manager Orem for Yerington this afternoon.

New York Oct. 30.—Lead quiet 4.85@4.75. Lake copper firm, 14@14¼. Silver, 59⅞.

PRODUCE.

CHICAGO.

Chicago, Oct. 30.—A break of 2 pence at Liverpool caused renewed liquidation in the local wheat market today and carried prices down at the commencement of trading. The weakness of stocks was also an adverse feature. December wheat opened ⅞ to 1⅛ lower at 94⅝ to 95⅛, sold at 95@95⅝ and then declined to 94⅝.

The weakness of the stock market showed a slight demand and declined prices of corn. December opened ¼@⅜ to ⅝@1 cent lower at 56 to 56⅛ and after rallying at 56⅛ declined to 55⅛.

The oats market was extremely weak and trading was very light. December oats opened 1¼ to 2¼ cents lower at 44 @45 and sold at 45.

The provisions market was steady. January pork was unchanged at 14.05. Lard was 2½ cents lower, at 8.42½ and ribs were unchanged at 7.57½.

Cash—Wheat No. 2 red, 95@96½; No. 3 red, 92@94; No. 2 hard 96⅝@97½; No. 3 hard 95@96½; No. 2 northern 96@1.01; No. 3 spring 96@1.01; No. 1 northern no quotations.

BUTTER AND EGGS.

Chicago, Oct. 30.—Butter weak; creameries, 22@25½; dairies, 20@23½.

Eggs steady at mark, cases included, 17@20½.

NEW YORK FRUITS.

New York, Oct. 29.—The market for evaporated apples was unsettled, being affected by financial conditions, but spot prices were unchanged.

The money situation is also an influence on the market for California fruits and we hear that concessions are being offered for strictly cash transactions.

Prunes are moving out slowly, with spot quotations unchanged.

Apricots and peaches are more or less nominal at recent prices.

Raisins are sustained by disappointing arrivals, but demand is light.

SUGAR AND COFFEE.

New York, Oct. 30.—Sugar raw steady; fair refining 3.40; centrifugal 96 test 3.90; molasses sugar 3.65, refined quiet; crushed 5.70; powdered 5.10; granulated 5.00.
