MINING, BUSINESS AND STOCKS

BIG UNDERTAKING IN BOISE BASIN

The Thorne Drain Tunnel is Being Pushed to Completion.

IMMENSE ORE TONNAGE.

Bore Will Be 6,240 Feet in Length—Reduction Works to Follow.

Boise Basin, near Boise, Idaho, is soon to be the scene of a gigantic mining undertaking which, upon its consummation, promises to give to that section one of the greatest producing mines in the west. This is the driving of what is to be named the Thorne drain tunnel, a bore that is to be 6,240 feet in length, and which will give an avenue and outlet for an immense tonnage of ore from the splendid bodies of fine product which will either go direct to the market or furnish material for big reduction works. The work is being prosecuted under the direction of Vivian Thorne, and F. R. Day of Boise, who is just in from Boise Basin, has the following to say regarding the enterprise in the Boise Statesman, as follows:

"The tunnel is started on the west fork of Archie creek, one mile from the old Jordan bridge that crosses the south fork of the Payette river, eight miles above Lowman. A cabin 18x46 has been completed and preparations made for continuing work all winter.

"The main object to be attained in driving the tunnel is to tap and drain at depth the famous Banner group of mines, 14 in number, that were formerly the property of the Elmira Silver Mining company and which yielded over $3,000,000 in silver, when values were close to the dollar mark. Owing to the low price of silver and great cost of working the mines on account of water which required constant maintenance of heavy and expensive pumping machinery, especially on the Crown Point lode, the property was finally closed down.

"Previous to closing down the shaft workings, a long crosscut tunnel was drivé on the Banner side to tap the old Banner vein, that was conceded to be one of the richest silver lodes in the state. This tunnel cut the vein after being driven a distance of 5,205 feet, but it only secured a depth of 80 feet below the bottom of the shaft, which was down 500 feet. Where the tunnel intersected the vein a phenomenal ore shoot was found. It proved to be 375 feet long and 5½ feet wide, with 80 feet of backs. Although nothing could be done below the tunnel level on account of the volume of water, yet $55,000 in silver bullion was produced, with a market value of 80 cents per ounce, from this shoot. Another deterring feature was the wasteful antiquated mill through which the ore was worked at a saving of but 80 per cent of the assay values, and at a cost of reduction of about $20 per ton. As the same ore today can be mined and milled for $4 per ton and at a saving of 96 per cent of the values, it is clear more money could be made now at present prices of silver than was realized then at 80 cents per ounce."

THE STOCK EXCHANGE.

Firmer Tone in the Market Over Wednesday—Colorado Stronger.

The volume of business on the call this morning was about as usual, 49,050 shares changing hands at a selling value of $24,928. Prices in general assumed a stronger tone, and the stocks dealt in held a few points higher than Wednesday's quotations.

Colorado was apparently stronger at from 2.20 to 2.22½, and Black Jack sold a few points higher than at the last call. Crown Point, Uncle Sam, Sioux Con. and Seven Troughs received their share of attention, with slight fluctuations. The open board trading was active and contributed a large part of the day's transactions.

Among the unlisted stocks, Utah Con. sold for 19 and Bingham Standard for 16 cents. Copper Glance was bid in at 13, Ohio Kentucky at $2, East Crown point at .21, and Ohio Copper at $2.

Following are the quotations and sales at the forenoon call:

BIG MINES TO CLOSE.

Between 1,200 and 1,500 Men Will Soon be Let Out.

A temporary depression is being felt in the Coeur d'Alenes, and many large mines are being closed, says the Pocatello Mail. Adolph Spongberg, whose home is at Franklin, Oneida county, but who has been working in the Morning mine, one of the big producers in the Coeur d'Alenes, during the past year, came in on No. 10 this morning being on his way home to spend the holidays.

He says that four or five of the largest mines in the Coeur d'Alene district have closed down recently throwing between 1200 ad 1500 men out of employment.

Mr. Spongberg is inclined to the opinion that the close-down is only temporary and that operations will be resumed again after the first of the year.

The mine in which he has been working, the Morning, commenced to lay off men about the 15th and last Saturday 500 men were discharged. Mr. Spongberg will return after the first of the year, as he thinks they cannot afford to keep the big mines closed down long.

MARYSVALE WILL SOON LEAD STATE

Famous Old Producer Will be in Active Operation by January 1.

LARGE MILLING VALUES.

Clyde Mine is Considered by Experts To Be a Wonderful Mine.

When the general conditions will permit of active operations, there is a strong possibility that the Marysvale district will be among the foremost of the state. A big boom was just being inaugurated and a powerful stimulus being given to active operations, when the late slump descended and the lid was tightly nailed down again. Notwithstanding this, there are great preparations under way which will have their results when the financial clouds roll away.

FAMOUS AS PRODUCER.

In the early days the Marysvale country became quite famous as a producer of high grade ores and of late years has contributed no little amount to the state's wealth. It is estimated by those conversant with the camp's past history, that the early production will exceed $250,000. This amount, of course, represents that taken out in the pioneer days of mining, before the district had the facilities of railroad transportation. Since then, there are several properties that have each produced over $1,500,000.

In the days of the camp's greatest activity, ore from $200 to $800 was a common occurrence and rock under $100 was not touched. The nearest railroad point, then, was York, a station on the old Utah Central about 12 miles north of the present town of Nephi. A wagon haul of 150 miles was then necessary to get the high grade ores to the railroad. Among the noted past producers of the Marysvale district are the Bully Boy and Webster, the Copper Belt, the Dalton, the Monte Del Rey, the Chrystal and the Deer Trail.

DEER TRAIL WILL RESUME.

The last encouraging news to come from Marysvale is to the effect that the old Deer Trail mine is again to be worked. This old property is considered to be one of the greatest low grade propositions in Utah. While productive of fabulous high grade ores, its main resources are mainly of a milling quality. It was owned by the late O. J. Silasbury, and was considered as a side issue by him.

The ore here occurs in immense blanket veins between lime and quartzite and disclose enormous tonnages of milling ore, ranging from $5 to $40 per ton. This ore is in the nature of a white, impalpable talc, which until recently could not be treated at a profit. New processes, however, have made its treatment a great success. The ore bodies range from 10 to 40 feet in thickness, and it is estimated that there is now from $1,000,000 to $2,000,000 exposed in this wonderful mine.

The Salisbury company is about to avail itself of this great showing and contracts have been let to resume operations the first of the year. A long tunnel is being considered and the property will be opened up in a thorough and systematic manner.

THE CLYDE MINE.

The Clyde mine, one of the new sensations of the camp, bids fair to surpass all others as a producer of high grade copper. A prominent mining man who has just returned from the south says that he never beheld such a magnificent showing.

OBTAIN VALUABLE LEASES.

Salt Lake Parties Will Work Valuable Ground in Famous Bingham Mines.

As stated in this paper two days since, the Crescent Mining and Leasing company will commence active work upon the completion of the incorporation, which is scheduled to take place this week. The incorporators are W. B. Putnam, William H. Tibbals, Louis A. Bailey, C. F. Bushong, E. J. Waugh and W. B. Putnam, trustee. The leases taken over are on the Harrison claim of the United States company, and the Mayflower claim of the Fortuna company.

The first named lease covers 400 feet of the Granite Chief vein, which crops almost continuously from the Granite Chief deep workings, 800 feet away. Surface values on this vein are $8 in gold and silver. Work will be done through a tunnel already in 70 feet, which will tap the vein at 400 feet deep.

From the Mayflower lease, which is on the 200 and 400 levels of the Fortuna's old workings, three carloads of good ore already have been shipped and the fourth is nearly ready to be sent out. Some of the ore runs as high as $16 a ton, and the lease is more than "breaking even."

The Harrison lease runs for one year, the other until next May. The new company is capitalized for 250,000 $1 shares, with 125,000 shares in the treasury.

CASH FROM CARSON MINT.

Nevada Mint Paying Out Coin for All Bullion Received.

When asked the question, "Are you settling on a cash basis?" superintendent Colcord of the Carson mint replied: "I am just in receipt of a letter from the southern part of the state asking that identical question. We are paying cash for bullion, and lots of it. During the past month we have sent $125,000 in coin into the southern country, together with a large amount around this vicinity. Heretofore we have been buying their bullion and paying New York and San Francisco exchange for it, but now everything is cash. Nothing but cash will do. We receive their bullion and after ascertaining the value of it we send a check to the San Francisco sub-treasury for coin to be sent to the depositors. In this way we can make a saving to the depositors in both time and money, as we aim to handle their bullion in a day or so, while in San Francisco, I am told, that it takes from 15 to 20 days to get returns on a shipment, owing to the congestion of bullion being offered there. Then there is the saving of $1.50 per thousand in the express rate as between Carson and San Francisco. On the large amount of bullion we handle this amounts to a no inconsiderable sum.

"Notwithstanding the tightening up of the output of the southern mines, owing to the refusal of the smelters to receive their ores, we are receiving an unprecedented amount of bullion. Our receipts last month were within $1,000 of as much as the receipts for the fiscal year 1904, amounted to, and this month will be several thousand dollars above October. My force is inadequate to handle the amount of bullion offered, and I have taken the matter up with Director of the Mint Leach, and am expecting his reply daily. We have been able, with my force working overtime, to keep up with our work, but with the amount coming in and that which will come in with the completion of the reduction works now under way, we cannot handle it; but all that will be carefully looked after by the proper officials."

TINTIC MINE TO RESUME.

Litigation on Valuable Property Brought to a Close.

The Big Hill Mining company of Tintic, which has been tied up in litigation for so long, is at last ready to resume operations and a big effort will be made to put it on a par with some of its famous neighbors. As a result of the compromise, John Bestelmeyer and associates have a clear title to the August group of claims adjoining.

Jesse Knight of Provo, bought a two-thirds interest in the Big Hill from Bestelmeyer for $15,000 and understood the holdings to consist of three claims. After the conclusion of the deal, Mr. Knight was informed that the company really owned additional ground in the August. Accordingly he brought suit to recover the holdings and the case has been hanging fire ever since.

It has at last been compromised and both companies are in a position to develop their territory.

The Big Hill, which is located to the northeast of the Crown Point, has considerable good ore in sight and with "Uncle Jesse's" usual good fortune, ought to develop into a second Colorado.

ONE MILLION IN GOLD.

A late dispatch from Seattle says that $1,200,000 worth of gold dust is now lying at Summit, on Thompson pass, just back of Valdez, on its way from Fairbanks, Alaska, to Seattle. Of this amount $450,000 is in dust and the rest in bricks. It is the largest shipment ever sent out over the trail from Fairbanks to Valdez.

Several armed guards are watching the gold in its cache day and night.

A. W. McCune, Jr., leaves this evening for Pioche to inspect mining property there. He goes to look over the Boston-Pioche and the Yuba East. The former has a bond on the latter. Mr. McCune expects to be away about a week.

CONCENTRATES.

The Utah mine, at Fish Springs, has a car of ore on the market today. The assay sheet shows 134 ounces in silver and 40 per cent lead. The mine is looking fine and gaining in promise daily.

Mr. Herbert Pembroke is visiting the Morgan Argentine property in Morgan county. The Argentine is in the same locality as the Carbonate Hill and Carbonate Gem mines.

Receipts returned from the last car of ore from the Ludwig mine, of the Nevada Douglas company at Yerington, show the lot to run 21 per cent iron and 18.4 per cent copper.

A carload of ore from the Dollarbide mine at Ketchum, Nev., is en route to the valley smelters.

The offices of the Nevada Utah Mines and Smelter corporation are being moved today to Pioche, Nev., where the company mines are located.

P. D. Rolphing leaves tonight for Frisco on a brief mining trip.

Fred C. Ferron, who is connected with the Raven Mining company on the Uintah reservation, is in town for a few days. Mr. Ferron states that the Raven company is working along steadily and regular shipments of gilsonite and elaberite are being sent out.

TODAY'S MONEY MARKET.

New York, Nov. 29.—Money on call higher 5½ at 16 per cent, ruling rate 5½ per cent, closing bid 6 per cent, offered at 12 per cent.

Time loans quiet, but rather easier, 60 days 12 per cent; 90 days, 10 to 12 per cent, six months 7 to 8 per cent.

Close: Prime mercantile paper, 8 per cent.

Sterling exchange easy, with actual business in bankers' bills at 486.30 at 486.35 for demand and at 479.50 at 479.75 for 60 day bills. Commercial bills, 479.25.

Bar silver, 57¾.

Mexican dollars, 45½.

Government bonds steady; railroad bonds very strong.

BITS FROM EVERYWHERE.

One of the latest curiosities in labor circles is the formation of a Pallbearers' union in Alexandria, Va.

The Salvation Army is established in 52 countries and colonies and preaches the gospel in 31 languages.

The gypsies of Granada, Spain, are unique among the race as cave dwellers, living in recesses hollowed out of a hillside not far from the city.

Elm Orcs island, between Hinsdale, N. H., and Vernon, Vt., in the Connecticut river, has been washed away by a freshet. The island was several acres in extent, and was heavily wooded.

It is stated that the late Duke of Pless left personal property to the value of £4,150,000. In his will he left nothing to his servants, with the single exception of his valet, in whose arms he died.

The summit of Pike's peak is 14,127 feet above the level of the sea. For the past 12 years this summit has been reached by a cog road. It is now proposed to electrify the system at a cost of $500,000.

The United States imported from France during the year 1906 walnuts to the value of $12,884,658; from Germany, $3,101 worth; from France, in fruits and nuts, a total of $2,479,799, and from Germany, $56,691.

There is an old curiosity shop in London which makes a specialty of heathen deities. All kinds of images small and large, handsome, hideous and grotesque are on view. You can choose an antique Aztec god from Mexico, carved in heavy stone and hideous enough to scare a burglar; you can purchase a marble deity from Mandalay, a wooden atrocity from the Ju-Ju land of West Africa, or a gilt joss from a Chinese temple.

Thackeray's favorite poets were Goldsmith and the "sweet lyric singer," Prior, whom he thought the easiest, the richest, the most charmingly humorous of English lyrical poets; and Gay, the force of whose simple melody and artless ringing laughter he appreciated. He admired Pope, too; but while admitting Milton's greatness thought him "such a bore that no one could read him." It is not surprising, therefore, that Thackeray never essayed the "big bow-wow kind" of poetry.

Edinburgh has some queerly named streets, among which are Jacob's ladder, Gabriel's ladder, Coffin lane and Cuddy lane. It is, however, in the "close" that this ancient city figures best. There are, for instance, Hole in the Wall close, Little Jack close, Lady Stairs, Heaveaway and Long close. The last is one of the shortest of these, and in that resembles Crooked and Turnagain lanes in London, the former being as straight as a die and the latter so narrow that a vehicle in it cannot possibly turn again.—Cleveland Plain Dealer.

May Try Again.

Valuable photographs and thousands of dollars' worth of official data gained by the International Boundary surveyors during the summer's work delimiting the Alaska line have been lost by the upsetting of a canoe in the Bradfield river, in Canada. The work may have to be done all over again.—New York Post.

MARKET CLOSED STRONG BUOYANT

New York, Nov. 29.—First prices of stocks were moderately changed from the last quotations of Wednesday. Gains were in the majority but there was a sprinkling of small losses and the volume of transactions was meager. Southern Railway preferred rose 1⅝, Mackay company's 1⅜, Southern Pacific 1¼, Union Pacific and Canadian Pacific 1, and St. Paul, Atchison, Chesapeake & Ohio, St. Louis and San Francisco second prefered, and American Smelting large fractions.

National Railroad of Mexico preferred sold at a decline of 4¾ and Western Union 1.

Forced selling of Missouri Pacific and Western Union weakened the market and some of the principal stocks fell back a point or so from their first prices. Both Missouri Pacific and Western Union were driven to new low record figures at 44½ and 54½ respectively, which were 2½ and 4½ below Wednesday's closing. Northern Pacific, Pennsylvania and American Smelting also fell a point. Illinois Central improved 3 and Kansas City Southern 1. The market rallied and became steady at 11 o'clock.

Prices fluctuated fitfully. St. Paul declined 1⅛, New York Central ¼, Chicago Great Western prefered 2, National Lead 1.

United Railways and Investment preferred and New York Dock preferred, 3⅝. Reading's rise of 1⅛ pulled the market up afterwards. Chicago & Alton and Mackage companys preferred rose 1, New York, Chicago & St. Louis second preferred, 3; American Steel Foundry preferred, 1½, and Consolidated Gas, 4. The tone was heavy at noon. Bonds were strong.

Amalgamated copper receded a point before the market began to recover. Union Pacific was bought heavily around 112 and ultimately rose to the highest price of the day with a strengthening effect on the rest of the list.

The stock market turned strong after 1 o'clock. There was a spirited demand for many stocks, and gains of a point or more became numerous.

The market closed active and buoyant. Consolidated Gas and Federal Mining preferred rose 7, American Smelting, 4⅜; Southern Pacific, Northern Pacific, Pennsylvania, United States Steel preferred, 2 to 2¾, and the list generally from 1 to 3 points.

LIVESTOCK.

CHICAGO.

Chicago, Nov. 29.—Cattle—Receipts 2,500; steady; beaves 3.25@6.50; cows 1.75@4.50; Texas steers 2.00@3.90; calves 5.00@7.00; western cattle 3.10@5.10; stockers and feeders 2.10@4.15.

Hogs—Estimated receipts 22,000; market strong to 10c higher. Light 4.50@4.67½; mixed 4.20@4.75; heavy 4.20@4.75; roughs 4.20@4.50; pigs 3.50@4.30; packers 4.55@4.60.

Sheep—Receipts about 15,000 steady; sheep 5.00@5.00; yearlings 4.50@5.25; lambs 3.75@5.85.

KANSAS CITY.

Kansas City, Nov. 29.—Cattle—Receipts 5,000, including 200 southerns; steady; native steers 3.80@5.60; bulls 2.25@3.80; calves 1.00@4.40; stockers and feeders 2.75@4.40; bulls 2.25@3.80; calves 3.50@7.00; western steers 3.25@4.35; western cows 2.00@3.65.

Hogs—Receipts 7,000; market strong to 5c higher. Bulk of sales 4.35@4.45; heavy 4.40@45; packers 4.20@4.45; pigs and light 4.00@4.40.

Sheep—Receipts 3,000; market steady. Muttons 4.00@5.25; lambs 5.00@6.10; range wethers 4.75@5.00; fed ewes 3.25@4.25.

OMAHA.

Omaha, Nov. 29.—Cattle—Receipts 1,800; market active, 10c higher. Native steers 3.40@5.60; cows and heifers 2.00@3.75; western steers 2.75@4.75; Texas steers 2.75@4.25; range cows and heifers 2.00@3.50; canners 1.25@2.00; stockers and feeders 2.75@4.25; calves 3.00@6.00; bulls and stags 1.50@3.50.

PRODUCE.

BUTTER AND EGGS.

Chicago, Nov. 29.—Butter steady; creameries 20½@26; dairies 19@23c.

Eggs—Steady at mark, cases included, 26@35c.

Chicago, Nov. 29.—There was only a moderate trade in wheat today and the market was weak under the influences of more than 1d decline in Liverpool and liberal receipts from the northwest. May opened ⅝@¾ to ⅞@1c lower at 1.02⅝ to 1.02⅝, sold at 10.3⅝@¾ but declined to 1.02⅛.

The corn market was weak and trading was of small volume. May opened ⅜ to ¾ lower at 55 to 55⅜ and sold at 54⅞.

Oats were weak and very quiet. May opened ½c lower at 50½, sold at 50⅛@⅜ and receded to 50⅛.

Provisions were strong and trade was fairly active. January pork was 10 to 30c higher at 12.55 to 12.75. Lard was 5 to 10c higher at 7.55@7.60; ribs were up 10c at 6.70.

Close—December 95; May 1.02¼@⅜.
Corn—December 54¼; May 50.
Oats—December 46¾; May 50⅝.
Pork—January 12.45; May 12.75.
Lard—January 7.47½; May 7.45½.
Ribs—January 6.62½; May 6.77½.
Rye—Cash 78.
Barley—Cash 84@93.
Timothy—Cash 3.60@4.20.
Clover—Cash 11.00@14.75.

Wheat—The close was weak with May 1c lower, at 1.02¼@⅜.

The corn market was weak all day. At the close May was off ⅜c@65.

SUGAR AND COFFEE.

New York, Nov. 29.—Sugar—Raw steady; fair refining 3.13; centrifugal 96 test 3.67; molasses sugar 2.85.

Refined quiet; crushed 5.50; powdered 4.90; granulated 4.80.

Coffee No. 7 Rio 5¾; No. 4 Santos 7¾.

FIRE IN HARVARD HOUSE.

One Man Killed, the Result of Jumping from Window.

Gloucester, Mass., Nov. 29.—A fire in the Harvard house here today resulted in one death, several injured and a damage estimated at $15,000. A man believed to be George Chambrs of this city was killed by jumping from a window on the second floor of the burning apartment house which was a three and one-half story structure.

The injured persons include several firemen who, besides leg fractures, were overcome by smoke and Mrs. Johnson who was so badly affected by the smoke that at first her condition was regarded as very serious.

The Harvard house was owned by the L. E. Smith company.

Use of Sabai Grass.

Sabai grass, useful for thatching and paper making is being grown more and more in India on land too poor for rice. The grass yields $50 to $150 per acre.—New York Post.

JUVENILE COURT OWES NO MONEY

At Least Not as Back Rent for Quarters, Says Mayor.

BUT TRIBUNAL MUST VACATE.

Auditor's Department Needs More Space—Exchange of Offices is Suggested and Probable.

Mayor John S. Bransford has vetoed the resolution adopted by the city council at a recent session requiring the juvenile court commission to pay $75 per month back rent on its quarters in the joint building since the court was made a part of the judicial machinery of the Third judicial district and taken out of the hands of the city administration. He cites as his reason that the court was tendered the use of the rooms by Mayor Thompson free of charge. He includes in his veto the statement that he will approve the resolution if the council will adopt it without the payment clause, merely advising the court to vacate the rooms Jan. 1.

SOME NEEDED CHANGES.

It is said that the auditor's department will need the room when the new system of accounting is taken up and that its present quarters will be all too small for the purposes of the office. There is a move afoot to effect a change of quarters between the court and the auditor. The court will be willing to accept the present quarters of the auditor and is more than willing to give up its present quarters. There is need for the court to be situated in the joint building, however, to give an opportunity to consult with the county attorney on many matters coming before the court for settlement.

NOTICE OF SALE.

NOTICE IS HEREBY GIVEN THAT the undersigned Trustee for the mortgagor and mortgagees named in that certain Chattel Mortgage hereinafter described, and in a certain agreement between the parties supplemental thereto, dated Novmber 14, 1907, will sell for cash to the highest and best bidder the property hereinafter described for the purpose of foreclosing the said mortgage hereinafter described.

1. The Chattel Mortgage for the foreclosure of which said sale will be made bears date the 24th day of December, 1906, and was filed on January 2, 1907, in the office of the County Recorder of Uinta County, Wyoming, at Evanston in said state.

2. The name of the mortgagor in said mortgage is Hyrum Smith, of La Barge, Uinta County, Wyoming, and the mortgagees therein named are Ora Haley, of Laramie, Wyoming, and B. F. Saunders of Salt Lake City, Utah partners doing business as Haley & Saunders.

3. The amount claimed by the said mortgagees to be due on said mortgage at the date of the first publication of this notice is the sum of 12,736.56 Dollars, together with an attorney's fee upon this foreclosure of not exceeding $300.

4. A full description of the mortgaged property is as follows, to-wit: Three thousand five hundred and seven (3,507) ewes which bear the following ear marks: Some marked under slope in right and under half crop in left ear, some with upper slope in right ear, some with an under half crop in right ear, some with under half crop in left ear, some marked with downfall in right ear, some with crop and two splits in left ear, some with crop and two splits in right ear, some with under slope in right and crop and two splits in left ear; said ewes also have the following wool brands: some wine glass J in red and black paint; some with heart in red paint and some with a daub. They all have one of more of said wool brands. Olso seventy-five (75) Costwold rams, also three sheep wagons and three pair wagon horses going with said wagons, together with three sets of harness and three saddle horses and three saddles, together with the increase and the increase of the increase, and the wool now on said sheep and rams and to be grown upon them and on the increase and the increase of the increase, all of which is now in the possession of the undersigned.

5. All of the above property, or so much thereof as may be necessary to pay the amount due under said chattel mortgage will be sold by the undersigned to the highest and best bidder or bidders at public sale to be held at the Home Ranch of Hyrum Smith, at La Barge, Wyoming, on Friday, the 6th day of December 1907, at the hour of two (2) o'clock p. m. of said day, at which time and place the said mortgaged property will be present.

Dated November 26th, 1907.

JOHN EDWARDS,
Trustee under said Chattel Mortgage above described.
