MINING, BUSINESS AND STOCKS.

CHIEF CONSOLIDATED MAKES GOOD SHOWING

Nearly All Development Work Paid For by Ore Taken Out in Proving Bodies.

President Walter Fitch of Chief Consolidated writes that he has loaded car shipment No. 102 and the returns on this will bring total net receipts well up above $100,000, says Copper, a weekly publication issued by Gay & Sturgis. The last smelter returns were on car lot No. 97, which brought total receipts up to $98,90, after paying all smelter and transportation charges. The total amount spent by Chief Consolidated up to the present time, excluding payment for the property and equipment, but including all development and operating expenses, has been about $105,000, and therefore the development and mining costs are approximately balanced by the income on the ore thus far shipped. This is regarded as exceptionally good success since all ore has been extracted in the process of exploration and development work.

Following are the returns on the last five car-load shipments, after paying smelter and transportation costs:

Lot 92, 53 tons	$ 686.55
Lot 84, 51 tons	1,012.11
Lot 95, 51 tons	1,108.37
Lot 96, 50 tons	791.39
Lot 97, 50 tons	882.18

The product has mainly come from an extension of the vein south of the 1,413 stope. The latter was the place from which the June product was mainly derived. Some tonnage is coming from the 1,428 sub-level. No product has yet come from the 1,500 sub-level, but it is looking promising for ore. The same can be said of the 1,600, which is now producing about a ton a day of good ore. Development is progressing in the company's Eureka City ground with favorable results and 300 feet north of the old "silver stope" ore is beginning to come in.

PROFITS FOR JUNE.

The net profits for June, after paying smelter and transportation charges, were $22,909.

The recent rise in the price of silver from less than 50 cents per ounce a few months ago to 53 cents on July 4, and 55⅝ July 9, meant materially increased earnings to Chief Consolidated, whose values so far are entirely in silver. Silver this week is selling at 52¾ cents per ounce. During 1909 the average price was 51.97 cents.

Chief Consolidated has completed all payments on its properties and has cash on hand with which to make the payments on its permanent hoisting engine, now promised for delivery not later than the end of September.

MARKET IS MORE LIVELY.

Trading in Mining Securities Takes on Better Tone.

Trading in mining securities on the local exchange this morning took on considerable activity and was quite lively. As a rule all stocks traded in were better. Colorado sold at 34 1-3 cents which is better than for several days. Columbus Consolidated was again the most active security on the market and there was considerable speculation in it this morning, many going into the market on a buyer. It reached a new high point of 77 cents buyer 30 days. The stock opened at 74 cents which is better than the closing prices yesterday afternoon. From that it ran up to 76 cents and then dropped to 73 cents. On the open board it reached the highest price.

Iron Blossom was unchanged around 74 cents. Sioux Consolidated was up slightly, reaching as high as 24 cents. During the open board session 1,000 shares of Emerald changed hands at 9 cents.

The total number of shares that changed hands was for the morning session 21,898, while the amount represented by the transactions was $9,172.10.

Trading on the curb was devoted to Opex, the sales being 9,800 shares at 45 cents and 3,500 at 46.

AFTER EUREKA COUNCIL.

R. G. Wilson Wants an Investigation Of Certain Charges.

R. G. Wilson spent some time in Eureka recently directing improvement on some of the real estate owned by him in that busy mining city. While there he made himself pretty well acquainted with mining conditions in the district, he being a stockholder in several producing corporations. Among the mines visited by Mr. Wilson was the Gold Chain, which he went carefully over, accompanied by Col. Ed C. Loose, general manager; Senator Reed Smoot, and others; and after a careful inspection of the entire workings Mr. Wilson expressed himself as more than satisfied, and is open in his conviction that the Gold Chain will eventually make a very rich and profuse producing mine.

"While in Eureka," said Mr. Wilson, "I heard a good deal of grumbling by tax payers on account of what they and I consider is a three-cornered deal carried out between the previous city council of Eureka and the Chief Consolidated Mining company and the Eureka City Mining company, in which last named company I am a stockholder.

I am informed that the previous city council sold out the tax payers for a nominal sum, supposedly to the Chief Consolidated and the Eureka Mining companies, while in fact, as I am informed, neither company has received any of the stock, or any part of the consideration agreed to but paid at the time of the alleged contract.

"The city officials are being held responsible for this unsatisfactory state of affairs. I mean its officials in office prior to January, 1910, and it looks as though the tax payers' interests had not properly been safeguarded.

"As a tax payer, and stockholder in the Eureka Mining company, I shall insist upon a thorough investigation of the entire transaction by the present city council. No worse deal, in my opinion, has ever been pulled off in that city since the failure, some years ago, of George Arthur Rice."

CONCENTRATES.

Dave Williams, superintendent of the Beaver Carbonate, is up from Beaver county.

Gen. Manager A. N. Holdaway of the Tintic Central was in the city yesterday from Provo.

There is some talk of the Mason Valley mines prospecting to the east of its developed property by means of drills.

The clean-up for July at the Shoshone mill amounted to $24,000. During the month 5,500 tons of ore were treated.

Shipping from the Carbonate mine in Big Cottonwood will begin on Aug. 15. The tramway will be finished for operation tomorrow.

Gen. Manager E. P. Mathewson of the International Smelting & Refining plant at Pine canyon is expected in the city tomorow.

Lewis A. Jeffs and W. A. Wilson recently took a horseback trip through the Big and Little Cottonwood as well as the American Fork section.

A. C. Leutgert, contracting engineer for the "Renald" electro-gasoline traction outfits, is in the city. Mr. Leutgert's home is in San Francisco.

C. H. Blanchard expects to soon have the King William property at Tintic running. Mr. Blanchard is president and general manager of the company.

The Utah-Wyoming Consolidated Oil company has just finished casing its well to the 1,300-foot level. The ground began to cave and it was necessary to protect the well by putting in the casing.

To date, the mineral production of the province of British Columbia shows a total value of $347,820,584, as follows: Gold, $125,950,790; silver, $29,850,586; copper, $55,871,893, with coal and coke making up the balance.

At a recent meeting of the directors of the Comet Placer Mining company, which owns a large tract of placer ground in Humboldt county, Nev., it was decided to start work at once. After considerable preliminary work it will be decided whether to use sluices or a big dredging outfit will be installed.

It is understood that the Ohio Copper is now mining ore at the rate of 38 cents a ton, handling more ore at the mill than ever before and sending out concentrates of a higher grade. The earnings of the company were $25,000 for July and it is expected that August will show earnings of $35,000 for the month.

JOB PRINTING AND BOOK BINDING.

We are the pioneers in Job Printing and Book Binding in the state. Our facilities are the best for handling any class of work, no matter how large or how small.

THE DESERET NEWS JOB DEPT.

NEW MILL FOR THE DEEP CREEK DISTRICT

Woodman Property to Have Mill Running at Cane Springs Within Sixty Days.

A strike of considerable importance has just been made at the Woodman Mining company property in the Deep Creek country, and a mill will be in operation on the property within 60 days. Such was the information brought in last night from the district by George H. Kaiser, an engineer and mill man from Portland, who has been examining the property for the purpose of putting in the mill. George Woodman, president of the company, and J. H. Woodman also came in from the district.

On the Alvarado claim of the company, from which the locator, Col. J. F. Woodman took $200,000 in the early days, another strike has been made in the gold ore. A drift on the 250-foot level has opened up a vein of ore that carries high values in gold. Samples taken from this vein ran from $6.86 ounces gold and 4.8 ounces in silver, to 1.22 ounces in gold and 1.2 ounces in silver to the ton. In this ore body are many large shoots and chimneys of ore that are of an excellent milling grade. It is estimated that the Woodman company has at present between 5,000 and 6,000 tons of ore in sight in this claim alone and that there is now blocked out milling ore to the extent of 10,000 to 12,000 tons in the entire property.

The old Cane Springs mill is to be remodeled and re-arranged. All new machinery will be put in and the five Crawford mills will be removed. The company has not decided whether it will use stamps or Chilean grinders. Portland tables will also be installed.

The officials with Mr. Kaiser were busy today negotiating for the machinery for the mill. This will be shipped to the grounds at once and within the next 30 days it should all be there.

"The Western Utah Copper property is certainly one of the best developed properties I have ever seen," said Mr. Kaiser. "It seems like there were tunnels everywhere putting ore in sight. With a little more work this property could send out 2,000 tons of ore a day."

STRIKE AT YERINGTON.

Carson Property Has Five Foot Vein in Shaft.

In the Carson property near Mason Pass, about eight miles from Yerington, has been opened in a six-foot hole a five-foot vein with a pay streak two feet wide which is said to show average values of $40 a ton in gold. The gold in coarse, many of the colors being as large as a pinhead. The strike is expected to awaken new interest in mining in that region. The Carson property is being worked by Constantine brothers and Matt. In the property are several veins and cross-veins and considerable work was done by the original owners. One shaft, sunk to the depth of 70 feet, disclosed fair values, but it is believed now that the shaft is on a cross-vein; that the main vein in which the large pay shoot will be found is that which has just been opened by the lessees.

NEW INCORPORATIONS.

Articles of incorporation of the H. W. Chadwicck company, with headquarters at Salt Lake City, were filed with the county clerk on Monday, the capital being placed at $25,000 in shares of $100 each. The object of the company is to carry on a farming, ranching and grocery business, and to mine for minerals and oil. The officers are T. F. Golding, president and treasurer; W. W. Chadwick, vice president and secretary, and Viva Grisham, director.

An amendment to the articles of incorporation of the Colorado Park Irrigation company was filed with the secretary of state this morning increasing the capital stock from $28,780 to $57,560. The headquarters of the corporation is in Uintah county.

FRENCH CROSS COUNTRY AEROPLANE RACE

Leblanc and Aubrun Are Leading On Today's Leg of It, Which Is Approximately 102½ Miles.

Nancy, France, Aug. 9.—Leblanc and Aubrun again led the van on today's leg for the cross country aeroplane race. The second flight was from Troys to Nancy a distance of 165 kilometers or approximately 102 5-10 miles.

The race between the leaders was an exciting one. Aubrun started five minutes earlier than Leblanc and the men were within sight of each other until they landed here. Leblanc's machine proved the swifter, and he gradually overhauled the other, reaching the goal 30 seconds ahead of his rival.

Both men used Bleriot monoplanes and steered by compass, checking their positions from the flags which had been placed on the church steeples in the villages over which they passed and by the smoke of bonfires that marked the course over the country stretches.

The circuit which the contestants must cover in six stages is 448 miles, and extends from Paris to Troyes, Nancy, Bezieres, Charleville, Douai, Amiens and back to Paris. Twenty thousand dollars is offered to the aviator who makes the distance in the shortest elapsed time. Leblanc covered the first leg from the aviation field at Issy les Moulonaux to Troyes, about 84 miles, in one hour, 33 minutes and 20 seconds. Aubrun's time for the distance was one hour, 37 minutes, 25 seconds.

Both Leblanc and Aubrun traveled at an average height of about 1,600 feet. They were badly shaken in the air eddies over the forest of Toulon. Leblanc's time was 2 hours, 14 minutes and 59 seconds, and Aubrun's was 2 hours, 20 minutes and 29 seconds.

M. Legageux was the only other contestant who arrived here without having made a stop.

LEBLANC MADE DELEGATE.

Paris, Aug. 9.—Alfred Leblanc was today selected to represent France in the international balloon race in the United States in the fall.

The international balloon race will start from St. Louis, Oct. 17. Leblanc represented France in the race from the same city in 1907 and finished second. He landed at Herbertsville, N. J., after covering a distance of 867.4 miles.

PREST. TAFT REVISES PLAN FOR WORK AND PLAY

Beverly, Aug. 9.—President Taft has revised his plan for dividing his work and play during the remainder of his vacation period. Heretofore he has mixed the two indiscriminately. Today it was announced that in the future he would receive visitors by appointment on Mondays, Wednesday and Fridays, reserving the other days for recreation and seclusion with his family.

The administration's economy plans are occupying a good deal of the president's time just now and he has invited a number of city fiscal experts to come to Beverly for conferences. Among these are W. H. Wilson, city controller of Chicago; Elton H. Lower of the Chicago city civil service commission, and Arthur Young, who is working as an expert in the treasury department.

The president today appointed the following delegates to the thirteenth annual mining congress to be held in Los Angeles Sept. 26 to Oct. 1: John Hays Hammond, New York; Curtis H. Lindley, San Francisco; Dr. James Douglas, New York; J. Parke Channing, New York; Dr. H. Foster Baine, San Francisco; Dr. Walter R. Ingalls, New York; E. W. Parker and E. C. Hendenhall of the geological survey, Washington; Joseph A. Holmes of the bureau of mines, Washington, and George S. Rice, bureau of mines, Pittsburg.

CATHOLIC SENATORS AND DEPUTIES PROTEST

San Sebastian, Spain, Aug. 9.—The Catholic senators and deputies today telegraphed Premier Canalejas protesting against what they described as the government's violence and abuses towards the Catholics who desired to participate in "the magnificent movement in protestation against the government's anti-Catholic policy."

The signers of the message notify the premier that they will call him to account before the cortes.

MARKET STRONG AND UPWARD

New York, Aug. 9.—Opening business in the market today was neglected in the excitement of the news of Mayor Gaynor's attempted assassination. Prices moved sluggishly and irregularly with small gains the more numerous. Canadian Pacific advanced 2½ on dividend increase. Pittsburg C. C. & St. Louis rose 1¼ and Northern Pacific ¾. Amalgamated Copper declined ¾.

The market turned upward under the leadership of the coalers after some sharp declines had been recorded. Reading jumped 2. Union Pacific and Northern Pacific 1¼. Southern Pacific, Pennsylvania, New York Central, Great Northern preferred and Chesapeake & Ohio also gained 1 to 1⅝. American Hide and Leather preferred fell 1¼ and Republic Steel preferred 1.

Reading's advance carried it to 141. Most of the dealings were in that stock, U. S. Steel and Union Pacific. Gains of a point were made in Norfolk & Western, Missouri Pacific, Atchison, Amalgamated Copper, American Smelting and some others. Westinghouse Electric gained 2½, Utah Copper 2¼, Union Pacific, Great Northern preferred and Chesapeake & Ohio 2, St. Paul 1⅞ and U. S. Steel 1⅝.

The better news of Mayor Gaynor's condition relieved the market of a depressing influence. Weather news was considered favorable for corn and cotton and the bad effect of the government crop report was not realized.

Bonds were firmer except New York city corporate stocks, which were depressed.

The advance in the market paused, but there was no reaction of consequence pending becoming dull when prices eased off a fraction. Illinois Central improved 1¾ and American Car and American 1½.

Speculation was very stupid during the latter part of the day, but the general undertone was firm and the coppers showed renewed strength. Amalgamated Copper and American Smelting rose 1¼ and New York Central and Anaconda 1 point.

The market closed strong and active.

Prices fell back temporarily but a fresh accession of orders in the final hour carried them to the highest level of the day. Sloss-Sheffield Steel rose 3, after the declaration of the regular dividend. Canadian Pacific 2½, Reading and Northwestern 2, St. Paul 1¾, Union Pacific ¾, Southern Pacific, Southern Railway preferred, Erie first preferred, Amalgamated Copper, American Smelting, North American and Railway Steel Spring 1, Missouri Pacific and Colorado and Southern 1¼ and Denver & Rio Grande, Wabash preferred and American Locomotive 1½.

LIVE STOCK.

Chicago, Aug. 9.—Cattle—Receipts, estimated at 10,000; market weak, 10c lower. Beeves, 4.15@8.40; Texas steers, 4.50@6.60; western steers, 4.00@8.25; stockers and feeders, 4.00@7.85; cows and heifers, 2.70@6.60; calves, 6.50@8.50.

Hogs—Receipts, estimated at 11,000; market strong. Light, 8.40@9.00; mixed, 7.85@8.55; heavy, 7.45@8.40; rough, 7.45@7.70; good to choice heavy, 7.70@8.40; pigs, 8.40@9.00; bulk of sales, 7.85@8.25.

Sheep—Receipts, estimated at 25,000; market weak to 10c off. Native, 2.50@4.40; western, 2.60@4.40; yearlings, 4.50@5.60; lambs, native, 4.50@7.00; western, 4.50@7.00.

KANSAS CITY.

Kansas City, Aug. 9.—Cattle—Receipts, 11,000; market steady to weak. Native steers, 4.80@8.10; cows and heifers, 2.25@5.65; stockers and feeders, 3.00@6.90; bulls, 3.00@4.25; calves, 3.75@7.50; western steers, 4.25@7.20; western cows, 2.50@4.50.

Hogs—Receipts, 9,000; market strong to 5c higher. Bulk of sales, 8.25@8.50; heavy, 8.35@8.65; packers and butchers, 8.35@8.65; light, 8.35@8.60.

Sheep—Receipts, 8,000; market 10c lower. Mutions, 3.75@4.50; lambs, 6.00@6.10; fed wethers and yearlings, 3.80@6.00; fed western ewes, 3.25@4.10.

OMAHA.

Omaha, Aug. 9.—Cattle—Receipts, 6,800; market steady to strong. Native steers, 4.75@7.75; cows and heifers, 3.00@6.75; western steers, 3.50@6.25; range cows and heifers, 2.75@4.75; stockers and feeders, 3.00@6.50; calves, 3.50@6.25; bulls, stags, etc., 2.25@5.25.

Hogs—Receipts, 7,000; market steady to 10c lower. Heavy, 7.40@8.00; mixed, 7.70@8.00; light, 8.00@8.30; pigs, 7.00@8.00; bulk of sales, 7.65@8.00.

Sheep—Receipts, 16,700; market steady. Yearlings, 5.50@6.35; wethers, 3.40@4.10; ewes, 2.90@3.80; lambs, 6.10@6.85.

WOOL.

ST. LOUIS.

St. Louis, Aug. 9.—Wool, steady. Territory and western mediums, 18@23½; fine mediums, 15@17; fine, 14@17.

BOSTON.

Boston, Aug. 9.—The wool market occupied a firm position with a moderate business reported. Prices held steady but old wools are offering at lower prices than have been paid for the new clip in the west. The mills, which still have much machinery idle, are net heavy purchasers. Industrial conditions indicate a slow recovery in manufactured goods and in the raw material.

PRODUCE.

CHICAGO.

Chicago, Aug. 9.—In view of the rapidly increasing stock of wheat here the market was weak here today. Exclusive of a huge quantity awaiting unloaders the total on hand has been enlarged 3,665,000 bushels in the last two weeks. The bearish effect of the government crop report was felt, too, although discounting yesterday had been general. Commission houses and scalpers led the selling. The market opened ¼ to ¾ lower. September started at 1.01 to ¾ a loss of ¾ to ½ and fell to 1.00⅝@⅞. Because of the government figures indicating a big shortage of hay the corn market showed firmness despite the wheat weakness and the rains. September at the outset was ⅛ to ¼ off at 62⅞, but then advanced to 63¼.

There was comparatively little trading in the oats pit. Sympathy with corn developed. The September option opened ⅛ higher at 36⅜, touched 35⅝@¾ and advanced to 36⅝@⅞.

Offerings of provisions were light and shorts were buyers. First sales were at unchanged figures to 17½ gain, with September pork at 21.20, September lard at 11.52½, and January ribs at 9.45. Further advances were scored.

Wheat—Bullish foreign news led to a reaction. Export sales were reported at Duluth and Baltimore. The close was firm. September 1.01½@⅝ to ⅝, a net gain of a shade to ⅛.

Corn—The market continued firm, closing quarter to ⅝ higher for September at 63⅝.

Cash corn: No. 2, 64½; No. 2 white, 65¼; No. 2 yellow, 64½@⅝; No. 3, 63¾; No. 3 white, 64½; No. 3 yellow, 63¾@64; No. 4, 62¾@63½; No. 4 white, 62¾@63½.

Close—Barley—Cash, 50@71.

Timothy—Sept., 6.10; Oct., 6.05; March, 6.10.

Clover—Oct., 14.00.

Rye—Cash, 77@78; Sept., 76; Dec., 76@78.

Wheat—Sept., 1.01½@⅝ to ⅝; Dec., 1.04½ to ⅝; May, 1.09.

Corn—Sept., 63⅝; Dec., 60⅝; May, 62¼ to ⅜.

Oats—Sept., 36⅝@¾; Dec., 38⅝; May, 41⅛.

Mess Pork, per bbl.—Sept., 21.15; Oct., 20.50; Jan., 18.00.

Lard, per 100 lbs.—Sept., 11.45; Oct., 11.37½; Nov., 11.10; Jan., 10.35.

Short Ribs, per 100 lbs.—Sept., 11.30@11.32½; Oct., 10.85; Jan., 9.37½.

SUGAR AND COFFEE.

New York, Aug. 9.—Sugar raw, firm; muscovado, 89 test, 3.86; centrifugal, 96 test, 4.36; molasses sugar, 89 test, 3.61. Refined, quiet; crushed, 5.85; granulated, 5.15; powdered, 5.25.

Coffee—Spot, steady; No. 7 Rio, 9; No. 4 Santos, 9¾.

BUTTER AND EGGS.

Chicago, Aug. 9.—Butter — Firm. Creameries, 25@29; dairies, 23@26.

Eggs—Steady, at mark cases included, 10@14; receipts, 12,090; firsts, 17; prime firsts, 18.

Cheese—Steady. Daisies, 15¼@½; Twins, 14½@¾; Young Americas, 15¾@16; Long Horns, 15¾@16.

FORTY VETERANS IN LAST CONGRESS

Number Has Been Reduced by Three Through Death of Notable Confederate Soldiers.

CHANGES IN COMMITTEES

One Death and Five Retirements Including Senator Aldrich Make Inroads on Finance Body.

(Special Correspondence.)

Washington, Aug. 6.—Veterans of the great war of 1861-5 who have been honored with public office are growing fewer, just as the ranks of their comrades in the private walks of life are sadly diminishing. The number of veterans of that war in Congress is less than at any time since the year following the cessation of hostilities.

At the beginning of the present Congress, serving on the Union and Confederate sides were the following: Senate: Union—Bulkeley of Connecticut, Burrows of Michigan, Du Pont of Delaware, Nelson of Minnesota, Elkins and Scott of West Virginia, Warner of Missouri, and Warren of Wyoming, a total of eight. Confederate—Bacon of Georgia, Bankhead of Alabama, Daniel of Virginia, Johnson of Alabama, McEnery of Louisiana, McLaurin of Mississippi, Martin of Virginia, Money of Mississippi, and Taliaferro of Florida, a total of 9. House of Representatives: Union—Alexander of New York, Barclay, Bingham and Graham of Pennsylvania, Bradley of New York, Calderhead of Kansas, Capron of Rhode Island, Gardner of New Jersey, Hollingsworth, Keifer and Sherwood of Ohio, Howell of New Jersey, Hull of Iowa, Morgan of Missouri, and Wiley of New Jersey, a total of 15. Confederate—Estopinal of Louisiana, Gordon of Tennessee, Jones and Lamb of Virginia, Livingston of Georgia, Richardson of Alabama, Spight of Mississippi, Talbott of Maryland, and Taylor of Alabama, a total of nine.

THREE SINCE DEAD.

This gives a total of 40 veterans of the war in the senate and house at the beginning of the present Congress. Their number has been reduced by three through the death of these notable Confederate veterans, Senators Daniel, McEnery and McLaurin. It will be seen from these figures that but 7 per cent of the membership of the Sixty-first Congress were veterans of the Civil war. Nearly half the membership of Congress 20 years ago were Union and Confederate veterans. In the Congress at that time—the Fifty-first—there were 27 Confederate veterans in the senate and nine Union veterans, while in the house there were 70 Confederate veterans and 43 Union veterans. Considerably over half the members from the southern states were Confederate veterans. Nearly half—or 44 per cent—of the membership of the Fifty-first Congress were veterans of the war. Men who entered the army in 1861-5, when in their teens, are now old men, many of them great-grandfathers. The average age of the veterans of the senate is 69 years. The average age of the veterans of the house is 67 years. Thus, the average age of these veteran statesman, when the war began in 1861, was 19 years. The oldest Union veteran is General Isaac R. Sherwood, representing the Ninth Ohio district, who is 75. The oldest Confederate veteran is Private Leonidas F. Livingston of the Fifth Georgia district—78 years. The youngest Union veteran is Representative Alexander of New York—44 years old. The youngest Confederate veteran is Representative Geo. W. Taylor of Alabama—61 years old. The highest ranking veteran of the Union army is J. Warren Keifer of Ohio, who was a major general of volunteers. Sherwood of Ohio and Bingham of Pennsylvania were brigadier-generals. The highest ranking Confederate veteran in Congress is George W. Gordon of Tennessee, who was a brigadier-general, and who is now commander-in-chief of the Confederate Veterans' association.

The next Congress will see a still further diminution of the number of war veterans in Congress. Senators Money and Taliaferro, retiring, will reduce the number of Confederate veterans, and the defeat of Representatives Hull of Iowa and Calderhead of Kansas will cut down the representation of Union veterans in Congress. The Confederate veterans will recover one in the probable election of Charles M. Stedman, the Democratic candidate for the house in the Fifth North Carolina district.

RETIREMENT OF ALDRICH.

One death and five retirements of prominent members will make a serious inroad upon the membership of the finance committee of the senate after the 4th of next March. The chairman of the committee, Senator Aldrich, and Senators Hale and Flint, Republicans, will retire at the close of their terms next March, as will Senators Money and Taliaferro. The retirement of Aldrich will leave Senator Burrows of Michigan, the senior Republican member of the committee, with Senator Penrose of Pennsylvania next. As Senator Burrows has not for some time been in robust health, there has been much talk that the honor will go to Penrose. The death of Senator Daniel, the senior Democrat on the committee, and the retirement of Senators Money and Taliaferro will leave the minority seniority to Senator Bailey. The remaining members of the committee, with the six named eliminated, are: Burrows, Penrose, Cullom, Lodge, McCumber and Smoot, Republicans, and Bailey and Simmons, the only Democrats.

The national monetary commission, created for the express purpose of attempting a remedy of the fiscal system of the United States, confessedly defective, will also be visited with notable changes on account of the retirement of some of these senators. Three of the senators who will not be members of the Sixty-second Congress are members of the monetary commission, as was Senator Daniel, deceased. It is probable that Senator Aldrich, upon his retirement from the senate, will consent to retain his membership on the commission. That body has one former senator, Mr. Teller of Colorado, one former represent
