WILL FIGHT IN TEXAS

Dallas Likely to Get the Corbett-Fitzsimmons Match.

A PURSE OF $41,000 OFFERED.

The Combat to Take Place in October, Within a Great Amphitheater, During the Daytime.

New York, June 3.—Dan Stewart, of Dallas, Tex., is here as a representative of a syndicate of Dallas men, and fortified with a certified check for $41,000, to make arrangements to have the proposed Corbett-Fitzsimmons fight pulled off in Dallas. He left his hotel today in search of information, and called twice at Corbett's manager's office, but did not succeed in finding Mr. Brady. Stewart returned to his hotel shortly after noon, and when seen by a reporter of the Associated Press said he had made an appointment to meet Joe Vendig, the representative of the Flordia Athletic Club, this evening. In reply to questions regarding the possibility of the event being fought successfully in the Lone Star state, Mr. Stewart said:

"There is no doubt about bringing off the fight. There is no Texas statute which will be violated by such an exhibition, and I can assure you that gentlemen are anxious to have the fight take place who would not have anything to do with it if there was anything illegal about it. The fight, if possible, will take place in the daytime. We have made provisional arrangements with the railway companies, and our friends from the North and West will have low rates."

Fitzsimmons, Joe Vendig and Dan Stewart called on Lawyer Friend at his office this afternoon and discussed the pros and cons of the big mill. They all agreed that everything looked promising for the meeting between Corbett and Fitzsimmons. Mr. Friend said he was quite satisfied with the guarantees, and that the affair would go through. The Corbett end of it, according to Manager Brady, is also satisfied with the guarantees given by the Texas man. Later the backers of the pugilists met in an uptown sporting house, and they repeated after the conference that they are confident the fight will be pulled off in the latter part of October at Dallas.

As preliminaries to the contest for the championship it is proposed to match the winners of the Maher-O'Donnell and Choynski-Hall fights, soon to be decided. Tommy Ryan, of Chicago, and Billy Smith, of Boston, and the best man at the weight against Billy Plimmer for a limited or a finish fight are also mentioned.

Dallas, Tex., June 3.—In pugilistic and sporting circles it is regarded as certain that the Corbett-Fitzsimmons fight will take place in Dallas. The following dispatch was received here today:

"New York, June 3.—Am almost certain everything will be closed our way tomorrow night. Am trying hard to make terms that will leave the Yankee money in Texas. "A. S. STUART."

The fight will take place during the state fair, which begins on the 15th of October and ends on the 31st. An immense building inclosing an amphitheater with a seating capacity of 30,000 will have to be erected for the occasion. This building will probably be erected just outside the fair grounds.

Quebec, June 3.—Attorney General Casgrain was asked if there would be any objection on his part to the Corbett-Fitzsimmons fight coming off in this province, and he replied: "It certainly will not take place in the province if I can help it. And I will take all possible means to stop it if any attempt is made to have the contest come off here."

JACK CATTANACH A HAM.

Joe Choynski Puts Him Out Easily in the Second.

Baltimore, June 3.—The long-heralded ten-round fight between **Joe Choynski**, of California, and Jack Cattanach, of Providence, R. I., proved to be the greatest pugilistic fiasco ever presented to the Baltimore public. The first round demonstrated the fact that Cattanach was simply an easy mark for Choynski. The second round was a repetition of the first, and a light tap on Cattanach's neck ended the contest.

Stanton Abbott Knocked Out.

Boston, June 3.—One thousand persons saw two excellent boxing contests at the Suffolk Athletic club tonight in which Leslie Pierce, of Philadelphia, was given a decision over Stanton Abbott, of England, at the end of a twenty-round contest, and Patsy Fenton, of Boston, was declared the superior of Jimmy Powers, of South Boston, in a ten-round go. Both contests were clean and scientific, and Referee Daly decided them upon strictly scientific points.

The Pierce-Abbott contest was hard fought throughout. Both men were in excellent condition at 135 pounds. For the first five rounds Abbott did the best work and showed his cleverness in jabbing Pierce apparently at will. From that until the seventeenth round Pierce was the aggressor and fought like a tiger, but the English lad was too clever to take all the punishment, and this alone saved him from receiving the final touch several times. Abbott was as cool as an iceberg, and fought as if the contest was not limited by rounds, and from the seventeenth to the close of the twentieth round he showed his ability by almost smothering Pierce with a shower of blows from right and left. Abbott rallied, too late, however, to recover and the decision was regarded as a fair one in Pierce's favor.

The Latonia Races.

Cincinnati, June 3.—Fully 5,000 people went to the Latonia races today. Weather very hot; track, fast. The feature of the day was R. Isom's superb riding on Fraulein. Willie Martin, the famous jockey, was indefinitely suspended for a queer ride on Rightmore in the last race. There is a good prospect for a match race between Clifford and Henry of Navarre, weights for age, at one mile and a quarter, $5,000 a side, the association to add $500. Summaries:

The second prize was won by William De Cardy in 54:09, and the third time by Bainbridge in 54:09 1-5.

The Californians will not compete with the University of Michigan athletes in a dual meet this spring. After the legislation against Leroy and Hall Saturday night, Manager North, of the Athletic Club of the Golden Gate, said that the dual meet tourney would probably be called off, the Californians refusing to compete with professionals.

At the meeting of the Seattle Athletic Club board of governors last night seventy new members were admitted. The house committee was empowered to put in a bowling alley and three new handball courts at once. Capt. Constantine and his company of mounted police, who soon leave for Alaska to patrol the boundary, were the guests of the club during the evening and watched the clever work of Prof. Van Derveer's classes and a game of basket ball with great interest.

JIM HILL EXPECTED TODAY.

President of the Great Northern to Reach the City This Afternoon.

President James J. Hill of the Great Northern railroad did not arrive in the city yesterday, as had been anticipated, but telegraphed that he would reach here on his special car at 4 o'clock this afternoon. Nothing definite has been received as to his business at Portland, where he arrived yesterday morning. It is stated positively, however, that Mr. Hill is not attempting to make any arrangement to gain control of the O. R. & N. Co., as the traffic agreement now existing between that line and the Great Northern is in all respects satisfactory. "What could Mr. Hill do with the O. R. & N.?" was asked yesterday. "He would have no use for it after acquiring it, and there is no reason in the reports that he intends to control it. He realizes that there will be two large cities in the Pacific Northwest, and that Seattle will be one of them."

Among the arrivals at the Rainier-Grand last evening were C. H. Warren and John F. Stevens, of St. Paul, respectively general manager and chief engineer of the Great Northern, who yesterday arrived from Fairhaven. They have been making a general inspection of the road, and will remain here to confer with Mr. Hill.

The first Raymond-Whitcomb excursion party will leave New York on July 1 and will come to this city over the Canadian Pacific road, visit Tacoma and Portland and go to Alaska on the steamer Queen.

Light Artillery Gaining Strength.

There was a large attendance at the meeting of the Seattle Light artillery in the Chamber of Commerce last evening, and eight more members were recruited, bringing the membership up to sixty. The limit is 106. The members are signing a petition for the appointment of officers, in conformity with the new military code, and will forward the petition after the next meeting, to be held Monday, June 10.

Business Failures.

Boston, June 3.—In the United States circuit court today Judge Colt appointed John I. Waterbury, of Morristown, N. J., and William E. Strong, of Strong & Cadwalder, receivers of the United States Corlage Company, on the petition of F. Rollins Morse, of this city, as representative of the creditors. It has been known for some time that the company was in financial difficulty. No statement of the condition of the company is obtainable.

Sante Fe, N. M., June 3.—Under the decree of the district court, a sale of property and franchises of the Texas, Santa Fe & Northern railroad from Espanola to Santa Fe, 40 miles was made today. C. W. THE NIAGARA LOSES.

Howard Gould's Yacht Beaten by Dunraven's Audrey.

THE AMERICAN IN SECOND PLACE

A Squall at the Finish Helped Her—The Britannia Defeats the Ailsa.

Harwich, England, June 3.—The jubilee regatta opened today with beautiful weather and a light wind. Howard Gould's Niagara, Lord Dudley's Inyoni, F. B. Jameson's Luna, Lord Dunraven's Audrey, Prince Batthyani Stratteman's Stephania, and the Mimosa started in the race for 20-raters at 10:30 a. m. The course covers a distance of twenty-two miles. The Niagara crossed the line thirty seconds behind her opponents, who got away in a cluster. Following were the times of the yachts at the end of the first round:

	h m s
Audrey	1:43:10
Stephania	1:43:53
Niagara	1:44:28
Inyoni	1:44:58
Luna	1:48:07

The yachts finished in a squall, amid much excitement. Time:

	h m s
Audrey	4:08:11
Niagara	4:08:15
Stephania	4:08:32

A. B. Walker's Ailsa and the Prince of Wales' Britannia, the latter with the Prince of Wales aboard, started at 10 a. m. in the race for yachts of forty tons, course thirty-seven miles. The Britannia having the windward position crossed the line forty seconds ahead of the Ailsa. The Britannia crossed the finish line the winner, two and a half minutes ahead.

The Times says of the yacht race that the Niagara has improved greatly over her Lowestoft form, but it was entirely through the state of the weather that she got a forward place at the finish. The most meritorious performances of the day, the Times says, were unquestionably made by the Stephania and Audrey. The finish was thoroughly interesting, and had not the Stephania stuck to the Niagara the latter would probably have won.

OVER MOUNTAINS AND PAMPAS.

Two Men Walk From South America to Chicago.

Chicago, June 3.—Anton Bem and Louis Budinich reached Chicago last evening, after making the longest tramp on record. Their last place of residence, or that of Anton Bem, was Buenos Ayres, Argentine Republic, and he has been walking away from it ever since August 1, 1892. In the two years and ten months Bem walked 11,000 miles. His partner, Louis Budinich, joined him at Lima, Peru. From the day of the start Chicago has been the objective point of these two champion walkers of the world. These travelers were met by 500 fellow countrymen living in Chicago. Headed by a band and with banners flying the pedestrians were marched to the city hall. There the tramp, with the Southern Cross ever at their backs and the polar star as their guide, was ended. Their luggage consisted of a bundle of papers and certificates, numbering 2,000, attesting to the genuineness of the tramp they claimed to have made.

August 1, 1892, Anton Bem started away from Buenos Ayres, South America, with the very laudable object of visiting Chicago, North America. Though he had money enough to get here by water, he was seized with an odd notion of going by land and trusting to his own feet for transportation. As he briefly tells his story, he left Buenos Ayres accompanied by two Germans. They abandoned the journey after walking forty long Spanish leagues over the Pampas of Argentine up the river Plata. Bem entered Ascunsion alone. Unaccompanied, he left that city, crossed the Andes and descended into Peru. At Lima he met Budinich, and so interested him in the prospect of journeying on foot to Chicago that Budinich joined him. The comrades footed it to Quito, Ecuador, scaling mountain peaks and marching through forests. From Quito, through mountain passes and over mountains, they continued their journey to Granada, United States of Colombia.

From there they walked to Panama and then began their journey through Central America. They skirted the western coast, stopping at Managua, Corinto and other recently celebrated Nicaraguan points, and finally got into Mexico. From the City of Mexico they tramped to San Luis Potosi, and entered the United States via Laredo

"We felt then, March 1, 1895," said Bem, "as if our journey was at an end, but we have since walked through Texas, Arkansas, Missouri and Illinois to Chicago."

ODD FELLOWS AT TACOMA.

First Day of Grand Lodge—Officers Elected—Much Business on Hand.

Tacoma, June 3.—Special.—Odd Fellows own the town today. By every boat and train they have been pouring into the city, until their badges are to be seen everywhere. Today the headquarters at the corner of Tenth and A streets were crowded with members of the order. The total representation in the assembly will be 353 delegates, nearly all of whom are now here.

The Grand Encampment convened this morning at Armory hall. The greater portion of the time was taken up during the day by the report of the committee on credentials. At this afternoon's session the following officers were elected: Grand patriarch, S. F. Henderson, Walla Walla; grand high priest, A. F. Mills, Fern Hill; grand senior warden, Z. M. Beebe, Colfax; grand junior warden, S. F. Hart, Snohomish; grand scribe, Harry Nash, Tacoma; grand treasurer, George W. Hall, Seattle; grand representative, H. E. Holmes, P. G. P.

The encampment is composed of visiting past chief patriarchs, and is largely attended. It will be in session during the four days of the Grand Lodge, and members will participate in all the social events, chief among which will be a ball, to be given on Thursday evening at Armory hall. Members of the Ladies' Relief Corps made themselves useful today, as is their custom, by furnishing those in attendance at the encampment with a dainty luncheon on the lower floor of the Armory.

The convention of the Grand Lodge will go into formal session tomorrow morning at 10 o'clock at Armory hall. Much important work will come up for consideration at the session, chief among which will be a proposition for the location of an Odd Fellows' home. It is understood that Sumner will offer fifty-six acres of land for this purpose on condition that the Grand Lodge will expend $1,000 the first year, $2,000 the second and $2,000 the third year on buildings and improvements, and further that the proposition be accepted before January 1, 1896. Cheney is also credited with being prepared to offer 120 acres of land, with a subscription of $1,000 added.

Another important matter which will doubtless receive much attention is that touching upon the work of the general relief committee. The Seattle committee has invited the relief committees of Spokane and Tacoma to co-operate in securing the needed legislation, and the general relief committees of San Francisco and Portland have also been called upon to agitate the question. Efforts will be made to so arrange this work that in the future provision may be made for the sick and distressed brethren wherever they may happen to be. This work has already assumed effective proportions in the larger cities, but it is hoped its efficiency may be still further increased.

A. E. Partridge, of Seattle, editor and publisher of the Washington Odd Fellow, is on hand with arrangements to publish a daily edition of his paper during the sessions of the Grand Lodge. In some of the larger jurisdictions this work is usually done at the expense of the Grand Lodge, but in this instance Mr. Partridge expects to publish the paper as a private enterprise.

This evening the Rebekah assembly is in progress in Orange hall, in the Armory building. At the same time exercises are in progress in the main hall, consisting of the exemplification of the initiatory degree of the subordinate lodges. The same exercises are being conducted in German by Steuben Lodge, No. 65, in Crescent hall, Dougan block.

Many merchants have decorated their establishments in honor of the Odd Fellows, and flags and emblems of the order are very much in evidence throughout the business portion of the city.

TO INSPECT PIKE STREET.

Tacoma's Municipal Officers Coming Today to Examine the Paving.

Tacoma, June 3.—Special.—Tomorrow the mayor, board of public works, city engineer and city attorney will go on the Flyer to Seattle to inspect the paving of Pike street with a view to adopting a similar plan here on Pacific avenue. It is proposed to have district paving bonds issued for the work, instead of proceeding under the old system of collecting assessments for the work immediately.

The question of paving Pacific avenue is the chief topic before the city government at the present time. The property owners are and have been so divided on the subject of the style of pavement to be adopted and are so fearful of being heavily assessed that the street is in a disgraceful condition.

Brief Tacoma News.

Tacoma, June 3.—Special.—Nothing has yet been heard from the three men who rented a boat Wednesday morning at Alger's boat house and went for a sail. It is generally believed that the men have not been drowned, but stole the boat. Capt. Alger is still cruising about the Sound in search of the craft.

The Puyallup Indian commissioners report a great demand for five and ten acre tracts on the reserve. Many people in the city of moderate means desire tracts of this size on which to build them a home. The commissioners have appraised about 2,000 acres at a valuation to reach this class of purchasers, and are only awaiting government approval to place the same upon the market. The soil is well adapted for market garden purposes and for fruit. The next sale takes place June 10.

The precinct of Lake Park, which has figured often in the justice courts, was again in prominence today, an assault and battery case from there being on trial before Justice McMurray. It resulted in W. Hurtiene being fined $75 and costs for pulling a gun on H. W. Gottlieb, the road supervisor. The trouble was over paying Hurtiene for damages done to his barn by the supervisor in blasting out a stump. Hurtiene drew a Winchester on Gottlieb and his wife drew a revolver. The fine was suspended on Hurtiene surrendering his weapons.

The project of holding a county fair at the race track this summer is being agitated.

An inquest will be held tomorrow on the remains of Mike Metro, who died Saturday evening at St. Joseph's hospital from wounds inflicted at Wilkeson four weeks ago by John Ballock.

Pierce County Warrants.

Tacoma, June 3.—Special.—Action was brought in the superior court today by Attorney A. N. Jordon to enjoin County Treasurer Hedges from paying the warrants which have been drawn upon the special emergency funds set apart by the county commissioners out of the tax funds for 1894 until three warrants owned by him aggregating in amount the sum of $366.05 shall be first paid, claiming that his warrants precede, antedate and are entitled to priority of payment to the warrants whose payment he desires restrained. Judge Pritchard granted a temporary injunction.

The effect of the action is to prevent Pierce county from being put on a cash basis as proposed by the county commissioners.

It is said that Jordon, who is a Populist and ran on that ticket for prosecuting attorney last fall, was instigated in his action by Judge Stallcup, and that it is intended as a means to aid in defeating the proposed validation of indebtedness at the special election June 11.

None of the warrants held by Jordon were issued in his own name.

Steve O'Brien's Brother Poisoned.

Tacoma, June 3.—Special.—Pat O'Brien, youngest son of Lawrence O'Brien, deputy internal revenue collector, and brother of Stephen O'Brien, the well-known politician, swallowed a dose of poison accidentally Saturday. According to all medical precedents he should be dead by this time but instead of that he is still alive and is in a fair way to recover. Among the antidotes used have been enough nitro-glycerine to blow several men to the hereafter, and enough strychnine to kill a well man. In mistake for Oregon Kidney Tea Mr. O'Brien took two dessertspoonfuls of mirbane, a most deadly poison. Mirbane is a compound which is used by soapmakers and confectioners as a substitute for the oil of bitter almonds, for flavoring and scenting the products.

Another Assault Case Against Nonesl.

The United Press Dying.

Baltimore, June 3.—The News editorially says this: The Washington City Post has wisely withdrawn from the United Press and cast its lot with the Associated Press. The latter organization includes in its membership three-fourths of the important newspapers of the country. All the Baltimore papers which formerly received the United Press reports are now with the Associated Press, and their good judgment in making the change has already been demonstrated. The Associated Press is the greatest news-gathering organization the world has ever known, and there is good reason to believe that the few papers which have conducted the fight for the rival company will shortly make "it unanimous" by coming into the fold.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."
DR. G. C. OSGOOD, Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."
DR. J. F. KINCHELOE, Conway, Ark.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."
H. A. ARCHER, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."
