NOW IS THE TIME TO SUBSCRIBE!

LOOK OUT FOR 1860

PROSPECTUS

OF THE

KNOXVILLE WHIG.

CLUB RATES OF THE PAPER!

Rare Inducements to Subscribers and Agents.

The undersigned is now the sole proprietor of "The Knoxville Whig," both the Weekly and Tri-weekly, as well as their only Editor. The Weekly will appear every Saturday morning in the usual form, and will be a complete newspaper, and will be found a valuable and important paper to the Democracy.

Club Rates of the Weekly.

One copy one year, (in advance)	$ 2,00
Three copies one year "	5,00
Five copies one year "	8,00
Seven copies one year "	11,00
Ten copies one year "	15,00
Twenty copies one year "	28,00

Club Rates of the Tri-Weekly.

One copy, one year—in advance	$3 00
Two copies, one year, to the same office	5 50
Three copies, one year, " "	7 50
Five copies, one year, " "	11 00

In all cases where we send to different offices, $3 00 will be required.

When Postmasters' receipts are taken, or letters registered, remittances are made at our risk to mail.

Now is the time to subscribe! Congress is in session—will sit for six months—and will be exciting session! Beside this, personal advertising now, for twelve months, will have its paper throughout the Presidential contest. You shall also have the Foreign and Domestic news, Local news, and the Markets.

Display Sputnic Sovereignty, in the future offering of Abolitionism, and thrives best in the Democratic ranks, where political depravity, lawlessness and corruption hold sway. Republicanism is heartless and Democracy is disciplined, sadly honest and well informed with hold in utter contempt. Democracy built up the Republican party, and is to blame for the riot and insurrections of the day. That party has furnished every Abolition candidate for Presidency he was to the country; and with the malice of Hell, and a system of lying that would make the Devil blush, charged Abolitionism on every candidate who run for the office by the Whigs, from Harrison down to Fremont!

This paper will constantly, perseveringly, and boldly fight both Democracy and Republicanism, and insist on the punishment of offenders in HELL, as alone adequate to the deserts of the villainous leaders of both these parties!

W. G. BROWNLOW,
Editor, Publisher, &c.

A Card.

Editor Chronicle: The Third Judicial Circuit:

Owing to the urgent and repeated requests of a great many persons throughout the Circuit, I am induced that publicly to announce myself a candidate for the office of Attorney General, which will become vacant by the expiration of the term of the present incumbent, on the 1st Thursday of May next.

For the kindness with which I have been received by my friends, the generous manner in which they have come to my support, and their assurance of my course, allow me to return my sincere thanks. Hoping that I will have the pleasure of seeing most of you before the election, I am respectfully,

Your servant,
CHARLES N. ALEXANDER.

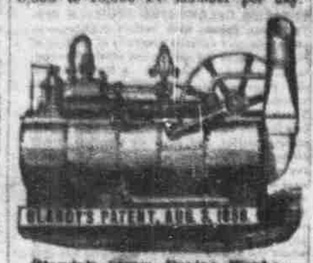
BLANDY'S PATENT

PORTABLE STEAM SAW MILLS!!

OHIO STATE FAIRS!

5,000 to 10,000 Ft. Lumber per day.



Blandy's Steam Engine Works.

THE BLANDY PORTABLE STEAM SAW MILL, one of the most improved and most powerful combined machines, is usually portable, requiring no foundation, or Machinery usually transported with the engine, and can be moved, behind or in the mill. This consists of timber per day almost incredible to those who for the first time hear of the portable mills, requires no professional superintendence, but is managed and in the great majority of cases operated by parties previously unacquainted with the details of sawing.

Everything necessary for actual operation, except water, is furnished with the timber upon which to set it are Belts, Saws, Oil, Wrench, pitch, tubes, otherwise provided for.

THE BLANDY PORTABLE STEAM ENGINE is just as useful and valuable for all other purposes as sawing timber, as it is made of any required power, but all sizes, in both stationary and designs, from the smallest, to the largest, which can be used with any kind of wood, may be used for food, thresher, threshing grain, and for other farm and plantation work, and for all manufacturing, or mechanical purposes. The Blandy Portable Steam Saw Mill or Engine have obtained the First Premium at Ohio State Fairs, 1857, 1858 and 1859; the First Premium at every State and County fair at which they have been on exhibition.

The popular Barrel, which render our Steam Engine so economical and popular are patented, and are not now used by any other builders.

Circulars containing descriptions, prices, &c., illustrated by engravings, with reports of operations, forwarded to all applicants.

Our catalogue of testimonials of operators are selected from our thousands convincing orders, and are never solicited. As our engines are our offers are always given, parties of inquiry might well stand to them.

Brownsville, Dallas county, Texas, Oct. 8, 1859.

We have heard from the owners of the engine you sold to Young, of Rusk county, Texas. He called it an "Iron Donkey Boy!" We call it the "Old Blandy" for it is generally at its maker's name, and the world named it. So we are thinking a big thing was sold to Young. We think it will do the work of a dozen men and a dozen mules, and more than any other machine in Texas.

BOND & ALLISON.

Brownsville, Logan county, Ky., Nov. 14, 1859.

After over month running, my new mill has given me full satisfaction, and will enabling me they to saw the day 8 feet. It is the admiration of all who see it. I have it constantly surrounded with large piles of lumber, which cannot be hauled away as fast as I can make it. WILL. M. ALCOCK.

Owensboro, Owensboro, Ky., 25th Dec. 1859.

Our Engine works up to any speed we desire, in fact, we often have to put on pulleys, and take up belts to keep the Saw from running too fast. In sawing green poplar, we can about half the allow full revolutions than we have been running our Mill. We saw 10 hours, and 1,000 to 1,500 feet. We never put her back with a pair of Barrels 28 inch faces. You may tell the last, but it is true, and we run a flouring mill at the same time, both coupled directly to the engine. We find the Engine powerful, not only as a saw, but grist mill, and I must give the Blandy Portable Steam Engine at least half the credit, for it works as well as does Little a Thomas or Tyler.

We have had two years trial, fairly in keeping every thing together without the aid of a machinist or engineer. I have a man with me three years, who has been good in a stationary engine. Know how a boy attends to a stationary, and knows it well. As to my saw, we can and just what we please—have cut at the rate of 1,500 feet per hour. The saw never breaks in any kind of timber.

J. F. SUNDAY.

Murray, Calloway county, Ky., 1st Nov. 1859.

I have used for weeks together, seven, eight and nine thousand feet of lumber per day. In ten minutes flight, I can take 300 feet, which can be valued at $1 per day. One day, with a good hand (active man) I can in long hours. The looks as the mill will show what I state to be true.

ABEL HALL, Operator Steam Mill.

Lake Creek, Mo., 7th Oct., 1859.

Our mill is still doing fine, making very nice smooth lumber, and cutting all the logs we can get to mill from it. It has received the mill half-speed mill now the saw of anything I ever saw. They need saw how it is that it has so much power and is so little, but they know it and intelligent, as it cost no money until they every day of trial.

DR. M'LANE'S

CELEBRATED

LIVER PILLS,

FOR THE CURE OF

Hepatitis or Liver Complaint,

DYSPEPSIA AND SICK HEADACHE.

Symptoms of a Diseased Liver.

PAIN in the right side, under the edge of the ribs, increase on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for a rheumatism in the arm. The stomach is affected with loss of appetite and sickness, the bowels in general are costive, sometimes alternative with laxy, the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the LIVER to have been extensively deranged.

AGUE AND FEVER.

DR. M'LANE'S LIVER PILLS, IN CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to or after taking Quinine. We would advise all who are afflicted with this disease to give them A FAIR TRIAL.
