CITY PLAN!

$100,000!!

PER $1.00.

Prizes payable immediately after the Drawing without reduction!

CONSOLIDATED LOTTERIES OF GEORGIA,

Authorized by a Special Act of the Legislature, for the benefit of Academies and for other purposes.

RODGERS, DAVIS & CO., MANAGERS,

MACON, GEORGIA.

BY THIS SCHEME PURCHASERS [illegible]

EXTRA CLASS!

To Remain—72 Drawn Numbers!

To be drawn in the city of Macon, every Monday, Tuesday, Wednesday, Thursday, Friday and Saturday Afternoon, at 4 o'clock, during the year 1860, 1861, 1862, and 1863.

By this Class, the holder of any One Dollar Ticket, if the numbers drawn should be drawn, will be entitled to a prize, according to the following

SCHEME:

Any $1 00 Ticket which shall have number on it,					$100,000
" " " "	"	"	"	"	50,000
" " " "	"	"	"	"	25,000
" " " "	"	"	"	"	1,000
" " " "	"	"	"	"	500
" " " "	"	"	"	"	250
" " " "	"	"	"	"	50
" " " "	"	"	"	"	5

Any $1 00 Ticket which drawn number on it, contrasted to some one of the prize numbers in any other place, such as 47 for 24, 32, or any other station in the country, 40.00

Tickets from 50 cents to any Price!

And Prizes paid at the above rates per dollar.

This is the lottery authorized in New York, Washington, Baltimore, Philadelphia, Boston, Chicago, Buffalo, and other cities, where there are 1,000 offices in which Tickets in this scheme are exclusively sold, and such is the demand that the Managers of the Consolidated Lotteries of Georgia, have been induced to issue Tickets for the benefit of our town and village friends who cannot purchase in the cities. Feeling that it will be as successful in the country as in the cities, the Managers exhibit it to their patrons.

PLAN OF THE LOTTERY.

In the above novel and lucky scheme there are 72 numbers, from 1 to 72 inclusive, printed upon a square piece of paper, and enclosed in six tubes placed in a glass wheel. Upon the day of drawing the wheel is revolved several times, and a small boy who is blindfolded then puts a number at random from the wheel. It is then submitted to the auditors, and registered, by the State Commissioner as the first Drawn Number. The wheel is revolved again several times, and then the second Number drawn is registered. The operation is repeated twelve times (omitting the first) and registered as the 1st, 2d, 3d, 4th, 5th, 6th, 7th, 8th, 9th, 10th, 11th and 12th Drawn Numbers, and any Tickets having the numbers selected with the numbers drawn, shall share the above prizes, (except the motion numbers, which must be in strict relation to which they (tough) are prizes, if not the are blanks.

The advantage this scheme has over all others is that it enables any one to purchase a Ticket with any number up to nine, and if any prize is plenty to pay, and the Prizes are paid in full immediately after the drawing.

No ticket which may have drawn a prize of a superior denomination, can be entitled to an inferior prize, or any one ticket be entitled to any prize other than that for which it was originally bought. For instance, if a person buys a $1 00 ticket with nine numbers on it, if they are all drawn he is entitled to $100,000; if the whole 9 numbers are not drawn it is a blank. So with any number bought; they must all be drawn, or the ticket will not be entitled to any prize.

Address all orders for the Extra Class, with the numbers, stating the day and date you want them for, to
