HEALING SPRINGS,
BATH COUNTY, VA.

THIS CELEBRATED WATERING [illegible]

Nature's Remedy for Chronic Diseases.

THE HOTEL AT THIS PLACE WILL be open for the reception of visitors on the first of June next. In the vicinity of these springs, the variety of their temperatures and their extraordinary remedial powers in many of the most obstinate and hitherto incurable cases of CHRONIC DISEASES are attracting much attention. This watering place is LOCALIZED differing from the stalactite in which THERMAL WATERS are indicated, proves to be remarkably fresh, which can be found at no other in the United States.

Number of the Baths—Diseases in which they are indicated—Effects of the Waters taken internally, or used as a General Bath.

The supply of Mineral Water is most abundant, and there are LEN BATHS conveniently supplied with fresh water from separate springs of various temperatures, from 70° to 98° Fahrenheit. In all cases of acute disease, the medical profession recommend, but in the cases of Stone of

MALIGNANTIA,	DISEASES OF THE LIVER,
GOUT,	CHRONIC DIARRHŒA,
MALARIA,	OLD INJURIES in the stomach,
PARALYSIS, free from	risk, Joints and Tendons,

inflammatory action, ENLARGEMENTS, &c.

SPINAL IRRITATION, and SOME DISEASES PECULIAR TO FEMALES,

the remedial properties of the waters of the VIRGINIA HOT SPRINGS are unrivalled. Their ALTERATIVE AND CURATIVE POWERS are now spoken of by those of any other Mineral Water in the line of the globe.

Many persons suffering with the diseases mentioned above, in forms which had resisted the most skillful treatment, and had rendered the lives of the sufferers a burden, have visited and spoken through [illegible] years of pain, have been restored to perfect health by their use, and to many of these cases numerous medical witnesses, but other Mineral Springs of the highest reputation, have found unlimited relief.

Of the vast number now suffering with such maladies, there are few, indeed, who would not be either cured or greatly relieved by these waters. When drank, they are mildly alterative, and freely diuretic and diaphoretic. Used as a general bath, they exercise an unknown stimulation; and return to the different organic organs of the system, which forced, but natural and healthy action, which they lost, when upon the first occasion functions and the beneficial action of all remedies tend to diminished or destroyed. They act powerfully upon the liver, both in most skin, relieved and [illegible] by the use of these waters, and [illegible] aversion, excite the action of the alimentary canal, [illegible] a salutary influence over the digestive system, and effect results, in a short time, [illegible] pain, [illegible] by nutrition and long standing diseases.

Diseases of the South.

In an class of tropical maladies have these waters been more conspicuously successful than in those which prevail in the SOUTHERN AND SOUTH WESTERN STATES.

The last state of the body termed CACHECTIC, the consequence of derangement of the STOMACH, LIVER and BOWELS, attending the effects of malarial miasmatic, and [illegible] a pale or yellow complexion, puffy skin, swell [illegible], &c., the habit has often set this a [illegible]

The [illegible] TONICS OF THE LIVER, and to the enlarged condition of LIVER and SPLEEN, which so frequently follows the bilious fevers of the South, their great value is unquestionable.

In many cases, where the secretion of Healthy Bile has been [illegible] for years, a course of these waters has fully restored it. And in many other cases, where the liver was not only torpid and engorged, but ENLARGED, its normal condition has been brought back, the engorgement and enlargement have disappeared, and the functions of the liver have been reduced to perfect health.

In CHRONIC DIARRHŒA, depending so that disease generally from tissue disorganized and imperfect action of the liver and kidneys, the powerful influence which these waters exert upon both these important organs, results from a remedial agent of unequalled power.

Enlargement of the Prostrate Gland.

Cases of this disease have been thoroughly cured at this Springs—the powerful excitant action of the various ingredients [illegible] the glands, as well as those of the Liver and Spleen.

Pleasure baths.

Besides the Hot Baths for invalids, there are TWO refreshing and delightful Pleasure Baths for persons in good health.

Location, Climate, &c., of the Springs.

This place is distant only twenty miles from the Milboro Depot of the Virginia Central Railroad, and except that short distance, has no stakeboats railroad connection with the principal cities of the United States.

The Springs are situated in one of the narrow valleys with which the mountains abound. The scenery around is wild, romantic and beautiful and the climate is remarkably delightful, salubrious and invigorating.

The Hotel accommodations are excellent, and fresh [illegible] will be in attendance early in the season. [illegible] Pleasure rides in the place during the summer months.

Route.

By Railroad from the principal cities in the United States to the Milboro' Depot of the Virginia Central Railroad, thence by stage coaches twenty miles over a well-graded turnpike to the Springs. Passengers leaving Baltimore, Md., or Richmond and E. Lynchburg, Va., in the morning, can arrive through to this place the same day, to supper, or pass the night at the Warm springs, and arrive here to breakfast next morning.

☞ The Hot Springs Pamphlet, containing a full account of the Springs, with the opinions of Physicians in regard to the waters, certificates of cures, &c., will be sent free of charge to any address, on application to the undersigned.

SAM'L G. RAPTOR & Co., Agents Philadelphia, Pa.
LUDLAM & HENDERSON, Agents 126 Broadway, N. Y.

Red Sulphur Springs.
MONROE COUNTY, VIRGINIA.

THE PROPRIETORS OF THIS OLD and celebrated WATERING PLACE, respectfully inform the public that, in order to afford flexible every facility to enjoy the benefits of the waters, they have determined to keep their Hotel open hereafter for six consecutive months—viz., from the first of May to the first of November. From the day first named until the 10th of June, the charges by Board will be $1 25 per day. From the 10th of June until the 10th of September the charge will be the same as heretofore, and from this last date until the close of the season $1 00 per day.

A long experience and acquaintance with the climate enable the Proprietors to point out that there is no point of the entire south so desirable for the use of this water (but this usually called Indian Summer, and generally extending to the 20th November. The first period is subject to the usual changes of boisterous weather, but it observes only ordinary precautions to guard against injury from this source, while it is important to the invalid to obtain the advantages of the water as early as possible. As regards the fare and accommodations, we promise our best efforts to make them conducive to the health and comfort of our guests. They shall be treated with uniform courtesy and kindness, and the table supplied with all the good things our country afford.

Any extended remarks on the peculiar properties of the water would be unsuited to an advertisement; we must, therefore, refer to a more comprehensive pamphlet on the diseases for the cure of which this water is celebrated, giving the results for analysis to the several Works on the Virginia Springs, and more especially to a Pamphlet just published by Dr. Dunglison, M. D., who for the last year has been extensively acquainted with this water and its application to various cases. A copy of this pamphlet will be sent free of charge by the Proprietors applying for it.

The famous for color of which this water is most remarkable, are chronic gleet, leucorrhœa, [illegible] Bilious diseases of the bowels, Dyspepsia of the stomach, Jaundice, Gravel, Diabetes, Dropsy, Rheumatism, during convalescence, [illegible] of the liquors and bad diet, liver and gland, chronic affections of the liver, nervous, [illegible] chronic affections, [illegible] of the kidneys, [illegible] of the urinary organs, [illegible] of the urinary organs, [illegible] of the urinary organs
