CHANCERY SALE OF

MINERAL SPRINGS AND COAL LANDS.

PURSUANT TO A DECREE OF THE Chancery Court at Clifton, pronounced at the June term, in the case of William Crane, Administrator of the Estate of John Hopkins, vs. Armstead Hopkins et al., I will sell at the Courthouse in the Town of Clifton, Tennessee, commencing on the 23d day of October next, and continuing from day to day until the sale is completed, the following valuable property, belonging to said estate, viz: The Mineral Springs and the purchase money is given on the highest bidder, a bond of approved security, payable in one, two and three years, with interest from date of sale, bearing a lien on the property sold. The Springs are known and celebrated throughout the country for their medicinal properties, and are now in good order for the reception of visitors. The Coal Bank is one of the best in Tennessee, it is therefore believed that purchasers will be found who will pay a fair price for the property. The Springs are situated in Wayne county, Tennessee, and are accessible by Railroad to Columbia, Tenn., thence by Stage 30 miles, or by Stage from Florence, Ala., 60 miles. The Coal Bank is on the Tennessee River, 3 miles from Clifton, being the place where John Hopkins formerly lived.

This valuable property consists of the Black, White and Yellow Sulphur, and Chalybeate waters in great abundance, and is supposed to contain a great variety of Mineral Springs. The buildings are in good order, and will accommodate about 50 persons. The Springs are at the point where Flat Creek cuts its way through the mountains, the scenery is grand in rural magnificence.

The Clifton and Lawrenceburg Turnpike has been opened for a good many years and quite a number of families visit the Falls as to the leading properties. It is located in the Flat Creek Mineral District.

Terms of Sale—Cash in hand.
